"Father grows younger every day." And his new photograph hits him to a "T".

The old portrait taken twenty years ago, must have been a good one, and old-fashioned—not a bit like he really is.

We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day.

And father says that he's glad he gave in and had it made that having your picture taken is far from an unpleasant experience—a-days.

LOOK FOR THE S

Their Destination Uncertain.
She was hurriedly adjusting her veil, and had but a few moments in which to catch her ear. "Oh, dear," she murmured, "I can't find a pin anywhere. I wonder where all the pins go to, anyway?" "That's a difficult question to answer," replied her practical husband, who was standing by. "Because they are always pointed in one direction and headed in another."

L. C. S. ALLIANCE ANNUAL MEETING

Followed by Supper and Post Prandial of Exceptional Quality

REV. AND MRS. PARKER RECEIVE

The Ladies Charitable society held its 65th annual meeting in the Unitarian church yesterday afternoon and transacted routine business. The society, which for several years has been a member of the Alliance, has a membership of 150, the largest in its history.

Its officers are: Miss Grace M. Bryant president, Mrs. S. Elmira Ramsdell vice president, Mrs. Herbert B. Dow recording secretary, Mrs. Edward N. Leighton corresponding secretary, Mrs. John W. Johnson treasurer, Mrs. Marcellus Littlefield auditor.

Directors: Mrs. Sumner Gould and Mrs. Charles F. Remington for one year; Mrs. George J. Whithed and Mrs. William T. Carswell for two years; Miss Marcia Winn and Mrs. Albert F. Converse for three years.

Post office mission: Miss Mabel C. Davis, Mrs. Arthur H. Linscott, Mrs. Martha E. Sewall-Curtis. Hospitality committee: Mrs. Harry T. Davis, and Mrs. Heber B. Clewley for one year; Mrs. Joseph F. Winn and Mrs. Amanda A. Leath for two years; Mrs. Henry C. Parker and Mrs. J. Winn Brown for three years.

Program Committee: Mrs. Walter L. Dodge and Mrs. Evelyn M. Trull for one year; Miss Alice M. Grammer and Miss Marietta H. Bowers for two years; Mrs. Edwin K. Porter and William C. Stephenson for three years.

A reception was tendered at 6 p. m. to Rev. and Mrs. Henry C. Parker, who are to spend the summer in Europe, sailing from Montreal, Canada. Miss Sylvia Parker their daughter stood in the receiving line with her parents. A party of 150 guests were present, and for half an hour mingled in social enjoyment.

Shortly after 6:30 the jolly party marched to the church vestry and took places at the prettily decorated and bountifully laden tables. The invocation was by Rev. George H. Tilton of North Woburn. When the menu had received merited attention, Herbert B. Dow rapped for attention, and then the fun began. From his opening words until the last echo of the closing address the large and enthusiastic audience was kept on edge. It was one of the happiest functions ever given in Woburn. The speakers were at their best. Stories that fitted like a glove were sandwiched into well-balanced and logically delivered responses. Glowing tributes were paid to Rev. Mr. Parker and his cultured and efficient helpmate and their words of acknowledgement were spoken with a depth of appreciative feeling. Music lent its charm, both instrumental and vocal, and was of exceptional quality.

It was a glorious bon voyage from the parish to pastor and wife, and was a red letter day in local Unitarian history.

The program comprised:
Address of welcome by Herbert B. Dow.

Piano duet, Wilbur F. Burleigh and Wendell Jones.

Letters of congratulation received by Rev. Mr. Parker from Mayor William H. Henchey, Rev. James J. Keegan of St. Charles church and Rev. John W. Day of

St. Louis were read.

Response by Rev. Roy W. Magoun of Trinity Episcopal church.

Vocal solo. "Roses in June"

Miss Mabel Madsen.

Response by Hon. William F. Davis chairman of the Parish committee.

Response by Rev. Fred M. Estes of the Methodist church.

Vocal duet. "The Swallow"

Miss Madsen and Miss Genevieve Goode.

Response by Mrs. H. C. Parker.

Response by Miss Grace M. Bryant president of the Alliance branch.

Vocal solos. "Song of the Soul"

and "Tales from Hoffman" by Miss Goode.

Response by Rev. S. A. Norton

D. D. of the First Congregational church.

Response by Rev. Henry C. Parker.

TRAVELLING MINISTERS

The ministerial contingent in this and other states comprises a considerable number that may be classed as migratory, nomadic, peripatetic, and all the other synonyms descriptive of the wanderlust.

Some travel because the rules of their church limit the term of consecutive service, although this division is much smaller than formerly. Others, and by far the larger part "move on" in obedience to the unwritten law that suggests change as the best solution of parish infelicities and general incompatibility. In a majority of cases such ministers travel because they don't fit, and a shift in location is beneficial all round.

Woburn, by its said to its credit, and to the credit of its ministers as well, is not much wedded to the itinerant theory. The people of this bailiwick know a good thing when they see it, and once having gained possession keep hold of it so long as the incumbent can put up with local ways and chooses to remain.

In contradistinction to the two classes mentioned, there is a third whose mileage ticket is the result of individual desire to broaden the vision and recuperate the mind and body, or the gift of loving and warmhearted people in recognition of faithful service.

This seems to be a great year for sending ministers abroad. President Wilson, it is reported, is lying awake nights in his quest for men who measure up to the standard of mind and bank balance to represent us in a ministerial capacity at the Courts of foreign countries.

Woburn is democratic city, and is bound not to be outdone by the democratic national administration. Therefore she is sending two of her own ministers abroad—Rev. H. C. Parker and Rev. Dr. H. B. Williams. The latter being Baptist will probably face the terrors of the ocean trip with greater equanimity than his Unitarian brother.

Both will sail within a few days, but on different dates. The steamers that carry them across the big pond will be freighted with the love and respect of this community which bids them Bon Voyage. Dr. Williams goes to the Holy Land, Rev. Mr. Parker to Gay Paree, which if all reports be true is anything but the Holy Land.

But whether they are bathing in the River Jordan, or hiking over Mt. Sinai, or climbing the Eiffel tower, or studying the hobbled and slashed Paquin skirts on the Parisian boulevards, good luck go with them.

The best wishes of the people of Woburn, irrespective of sect, will attend them throughout their stay, and they are assured of a cordial welcome when they return, as we hope they will, refreshed and invigorated by the change of air and scene.

GET TOGETHER

What Woburn needs as much as anything else, is a get together movement. A fine example of that same need is the City Council. In its meeting last evening, the members were obviously pulling in different directions. They were not working for Woburn, they were working for that particular section of Woburn which they

represented. Now Woburn will never boom by sections. It must grow as a whole, and the things that will make it grow will not be provincial, self centered attempts to secure all possible appropriation for one's own ward, and do the rest, but a get together movement, for the whole city of Woburn, which is vastly more important than any one section of it. The city fathers should remember the story of the little girl who ran into the house crying, "Mama, mama, Willie's got the biggest piece of cake, and I want it!"

FAIR PLAY

There is one characteristic of all successful enterprise which Woburn would do well to cultivate. That is the fine spirit of sportsmanship which looks not at the prize but at the contest, and plays the game for the game's sake. It is a characteristic that is too often lacking in the contests seen here. Hardly a game is played on Library park but the decisions of the umpire are contested, and in all the contests held here, the competitors have been too obviously trying to see what they could get out of the contest. Such a spirit as that must inevitably spoil the fineness of the affair. Sir Thomas Lipton is known the world over, as a good sportsman, because he has shown himself to be a good loser. He has tried to lift the cup from the New York Yacht club for many years, and has failed. Yet he is going to try again, and is showing all the personal enjoyment and zest that he did the first time. And because of that attitude he is or ought to be a model, not merely for all sportsmen, but for all, everywhere, for the attitude applies to every phase of life.

WHEN IS A KNOCK?

Too much cannot be said against the knocker who, like the pessimist, of two evils, chooses them both. A knocker is a man who realizes his own littleness, and hates everybody else for being bigger than he is. But there is another side to the question. A Springfield restaurant displays the sign, "Constructive Criticism Solicited." There is a criticism which is constructive, and which is the saving breath of life to a growing organization. Martin Luther was a knocker; Socrates did nothing but walk around Athens and knock, until the Athenians got peeved and killed him; but these are accounted among the greatest of men. In the end, it comes down to a question of motive. Nothing is worse than genuine knocker; but nothing is more necessary than a constructive critic. If it has not been for some one who remarked that stone axes were a sign of the back woods, we would still be using stone weapons and wearing lion skins.

AN I. W. W. RESULT

Those who pretend to think that the I. W. W. are working for the good of humanity and that their strikes are inevitable successful, should read the account of the strike at Ipswich. 600 men went out as a result of I. W. W. activities, and stayed out six weeks.

At the end of that time the strikers gave in renounced all claim to higher wages or any of the things they had demanded, and went back to work under exactly the same conditions as before the strike. Further than that, they utterly repudiated the I. W. W. and voted to have nothing further to do with it. They came to their sense, but too late, for their repudiation of the I. W. W. will not bring back their six weeks' wages, or undo the misery and suffering which resulted from the strike. As for the I. W. W. men, they are still working, in new fields, among other groups of deluded humanity.

NOTHING COMPLIMENTARY.

When you offer a man a cigar, and he looks at it and says: "No, thank you. I had corned beef and cabbage for my dinner," what does he imply?

MASS. CITY
CLERKS OUTINGB. F. McHugh Started this
Noon on a Three Day Auto
Trip

City Clerk Bernard F. McHugh started today on three day's outing with the Massachusetts City Clerks' association. It is the annual summer outing of the organization and the entire trip will be made in automobiles.

Ten machines will be used and the party is expected to number 40. The place and time of meeting is 10 o'clock this noon at the state house and the route of the outing for the first day will be through Lowell to Nashua and Manchester, N. H. and thence to Hooksett where dinner will be served and the night spent at the Hooksett Inn.

Tomorrow the itinerary includes a trip to Lake Sunapee via Concord and Franklin with dinner at "Soo Nip" after which the party will continue to Walpole, N. H. and enjoy the hospitalities at the Walpole Inn for the night.

On Sunday the return journey to Boston is scheduled via Keene, Winchendon and Fitchberg. It is possible that the autoists may go to Lowell via Woburn today as the exact route will not be settled until the time arrives to start the trip.

O-O-O

DON'T WORRY
ABOUT ICEWoburn Prices are not Likely
to Advance

"The King is dead—long live the King". We think this quotation is timely. Cotton as king, but the stock market has let him die. Now "ice" is king, everyone is taking ice, every section is worrying about it. State investigation is coming new laws will be passed, there will be a lot of powwow's, and by the time that people will be getting out their furs for next winter, reports and suggestions for relief will be coming in. In the meantime why should we worry and get a chill? We know where we can get ice, we know the price, (no advance) what's the use. Waiter, another lemonade please, and have it chilled.

Woburn is getting its ice cheaper than any other section of the country, a fact established by the official organ of the ice business, which is good authority for the statement. Furthermore, the treasurer of the local ice company says that the price of ice to Woburn customers will not be raised unless extreme conditions make it necessary for the company to seek relief and supply the demand by purchasing ice from Maine and New Hampshire, where the wholesalers are asking exorbitant prices.

O-O-O

LEZ DOUZE GAVE
PLAY LAST NIGHTTrinity Parish House Scene of
Entertainment

Les Douze added another success to their list last evening when they presented "The Wrong Package" and "The Dumb Waiter" at Trinity Parish house, for the joint benefit of the club and the D.G.S. club of the boys of the parish. It was a completely successful performance in every way, and was warmly appreciated and applauded by as large an audience as has filled the parish house this year. The plays were preceded and followed by solos, duets and trios by various members of the club, which were all enthusiastically received.

WHY WOMEN PREDOMINATE

Weaker Sex Possess Greater Power
Than Men in Shaking Attacks
of Disease.

London.—The fact that in almost all civilized countries women outnumber men has been ascribed to the higher birth rate of girl babies; yet statistics show that 105 boys are born to every 100 girls. According to figures compiled by an European statistician, the girl has a better chance than the boy of attaining her maturity.

He finds that from the third to the fifteenth year the mortality for both sexes is the same; from the fifteenth to the nineteenth year, the critical age for girls, the girl's chances are slightly better than the boy's; from the thirtieth to the thirty-fifth year the mortality among women is smaller than among men, and it continues smaller until the seventieth year. Then for a decade and a half the sexes once more have the same chance of survival, but about eighty-five years of age woman again stands a better chance than man.

To account for this difference the statistician points out that woman has greater resilience in shaking off disease than man. It is true that the physical strength of man is greater than woman's, but a woman's power of endurance is more robust.

One reason for this is that woman possesses a finer perception of her power of endurance than a man, and when her perception warns her of fatigue she stops. A man does not stop until his power is exhausted. His nervous system is not as finely organized as a woman's, and, as Masso, the Italian physiologist, has pointed out, men and women are entirely dependent on their nerves for caution not to overexert. While it is true that women more easily contract many diseases, particularly nervous and mental diseases, than men, they overcome them more easily.

HERRING DIE IN FROZEN DAY
Over Two Trillion of Them Are Caught
By a Sudden Freeze-Up in
Alaskan Waters.

Klack Bay, Alaska.—Probably the greatest fish killing ever known took place here on Prince of Wales island a short time ago, when at one stroke it is estimated that 2,000,000,000 good sized herring lost their lives. Capt. Simon Brown and the officers of the steamer Northland had the remarkable experience of navigating their vessel through miles of the dead fish.

For three days the bay had been full of schools of herring so dense that fish were often thrown out of the water. A day before the Northland arrived a sudden freeze caught the men in the narrow necked harbor before they could escape.

The freeze came with great suddenness, and about six inches of ice formed on the harbor. Millions of the herring could be seen fighting for a last desperate chance of getting out of the inclosed water before frozen.

When Captain Brunn arrived with the Northland the tide had receded, and for 20 to 50 feet on the beach, and for several hundred feet out into the water for three miles around the harbor lay the frozen fish. Measurements were made, and it was found that the herring lay tightly packed for an average of three feet.

The greatest chance in the world for obtaining fresh fish without a bit of work was lost. The cannery people took all they could, but the Northland was not equipped to carry them. The fear now is that an epidemic of disease may break out following the decay of the dead fish.

PAYS BILL AFTER 35 YEARS

Western Man Tells Why He Sent \$4
For Board to Son of a Woman
Long Dead.

Pittsburgh, Pa.—A board bill, thirty-five years overdue, owed to a woman long dead, has been paid to her son, Edward McCutcheon, superintendent of buildings of Washington county. Mr. McCutcheon refuses to divulge the name of the former boarder, now living in a western city, who made restitution of \$4, but gave out the following letter:

"Inclosed is \$4, which I have owed your mother for board about thirty-five years, circumstances which I thought or felt I could not control prevented my paying it when it should have been paid. Then I forgot about it. Again conscience would chide. So now I have secured your address and trust it may reach you. Of course, you will not remember me, for you were only a child when I was with your mother. My name was — Kindly let me hear from you."

LOSES FOOT TO SAVE BABY

Tot Snatched From Danger by its
Mother While Would-Be Rescuer
Is Run Down.

Minneapolis.—A baby was snatched from under the wheels of a Milwaukee passenger train, and as a result of the incident W. J. Morrison, a brakeman, is in a hospital seriously injured.

Morrison's right foot was cut off

when he tried to save the life of Elsie Harvey, three-years-old daughter of Mrs. C. E. Harvey of Chicago. The baby had crept in front of the train east bound, which was leaving the station. Morrison leaped in front of the moving engine, but the mother had grasped the baby before he could reach her. He tried to stop, slipped and fell directly under the pilot.

NEW TROUSERS LEAD TO WOE

Motorman Falls Downstairs in Hallway "Dressing Room"—Gets
Damages of \$125.

Chicago.—A new suit of clothes almost led to the death of Martin F. Barry, 707 South Forty-fourth court. Limping and holding his hand to his back, he appeared before Judge Martin.

Wishing to visit his mother in Iowa in some of the glory ascribed to Solomon, he first joined a "suit club." He drew a suit and went to the tailor shop.

Later he made a second visit to the shop to try on his new suit. The coat and the vest caused no difficulty. He could see they had the correct lines without inconvenience. But he wished to try on the trousers. There was no vacant room for the accommodation of particular customers. So the tailor shoved Barry into a dark hallway to disrobe.

No sooner had Barry thrust his right foot into the right leg of his new trousers than he lost his balance. He fell down stairs leading to a cellar and lay a bruised, crumpled heap on a hard cement floor, one foot in his trousers and one in the old.

Fifty-six days passed before Barry could take up his work as a motorman, and his visit to his mother in Iowa was postponed. He nursed his back and his grievance until he appeared in court claiming \$1,000 in damages from the tailor.

The jury returned a verdict awarding Barry \$125.

LEAD DONKEY TO THE COAST.

Election Loser Is Walking From Portland, Maine, to Portland, Oregon, In
Probate Court.

Probate Court.

To the above-at-law, next of kin, creditors, and other persons interested, Charles E. O'Brien late of Burlington, in said County, deceased, intestate.

WHEREAS a petition has been presented to

Probate Court to grant a letter of administration on the estate of said deceased to Edward Johnson of Woburn, in said County, to some other suitable person.

Yours, etc., hereby cited to appear at a Probate Court to be held at Cambridge in said County of Middlesex, on the eighteenth day of June, A. D. 1913, at nine o'clock in the forenoon, to show what you have, why the should not be granted.

And the petitioner is hereby directed to give public notice thereof by publishing the citation in the WOBURN JOURNAL, a newspaper published in Woburn, the publication to be one day at least before said Court and hearing, and a copy of this citation to all the heirs, executors and next of kin of said deceased seven days at least before said Court.

Witness, Charles J. McIntire, Esquire, First

Judge of said Court, this second day of June, in

the year one thousand nine hundred and thirteen.

W. E. ROGERS, Register.

DESERT LURE FATAL

Chicago Woman Ventures Too Far Into Sahara.

Taken Far on Litter—English Missionaries Minister to Dying American can When the French Deny Her Needful Aid.

Chicago.—A dramatic account of the death of May Allport, the Chicago pianist, in a lonely sun-baked town on the edge of the Sahara desert, is told in mails received by her friends in Chicago. Brief mention was made of Miss Allport's death in the Chicago newspapers of April 29. She had expired in Sfax, Tunisia, on April 18, and had been buried the following day.

Miss Allport left Chicago some years ago to travel in Italy. She spent a large part of her time at the little town of Taormina, under the shadow of Mount Aetna and close to the exquisite classical remains which draw many strangers to Sicily. In March of the present year Miss Allport went alone across the Mediterranean from Palermo to Africa.

From Tunis she went along the coast to Susa, thence inland to Kairwan, Gafsa, and Tozeur (Tozer); thence to Sfax on the gulf of Gabes, and thence she ventured, in company with a casually met Englishwoman—too far into the desert—gabes at the lower end of the gulf, called by the ancients Syrtis Minor.

Here, among the Arabs and Italian sailors and merchants, she was taken too sick to return unaided, and here her companion left her. Fortunately

May Allport.

an English doctor—his name is Thomas G. Churcher—journeying with his wife through Gabes from Sfax to the oasis of Medenine, heard of the American woman sick at the little French Hotel des Colonies and came to her rescue.

Recognizing the serious character of her illness, he called in the post surgeon as a consultant and endeavored to secure her admission to the French army hospital. Failing in his effort, rather than desert a woman in distress, he secured a covered automobile, fitted it with a comfortable mattress, and carried her back with him to his own home in Sfax—a distance of nearly 100 miles.

On reaching the home of this Englishman—he and his wife are medical missionaries—she seemed brighter for the change and full of gratitude, but the long journey over the desert proved too much for her, and she died while her missionary friends prayed by her bedside.

She was buried in Sfax, in the French cemetery, until such a time as the French colonial department will issue a permit for the removal of her body to her own country.

Since 1875 Miss Allport's figure and influence were well known in the Chicago musical world. She was one of the founders of the Amateur Musical club, and until 1911 was one of the most popular contributors to its programs.

For many years she was also the moving spirit in the musical programs of the Fortnightly and the Little Room. Her musical education was commenced under the best European masters, and in 1871 she enjoyed the privilege of listening to Franz Liszt at his own home in Weimar.

PSYCHE KNOT IS LIFE SAVER

Woman's Hair Stops Bullet Fired by Her Husband and She Will Recover.

Boston.—William Mahoney shot his wife twice in their home at 24 Spring street, Cambridge, and then ended his own life.

Returning home at 7:00 a. m., Mahoney found the door locked, and when his spouse did not open it promptly he broke it down. Then he entered and fired at his wife.

The bullet struck Mrs. Mahoney in the back of the head, but was impeded by her hair, which had been done up in a tight knot behind. The shot penetrated her scalp, but her Psyche knot is believed to have saved her life. At the hospital it was said she would probably recover.

Child Scalds to Death in Tub. Berwick, Pa.—Falling backward into a tub of scalding water, Donald Brenner, a four-year-old boy, was frightened and died a few hours later.

WILL VISIT FIANCÉ'S GRAVE

Olga Menn to Sail for Austria on Pilgrimage to Suicide-Sweetheart's Tomb.

Chicago.—Still grieving, although three years have ensued since the suicide of her fiance, the young Baron Oskar Rothschild, Miss Olga Menn, the beautiful daughter of Dr. and Mrs. Rudolph Menn, 1832 Lincoln avenue, will leave soon for Austria on her annual visit to the baron's grave.

"We hope to sail shortly," said Mrs. Menn. "It all depends, however, on the condition of Olga's health. She is slowly recovering from the great shock and I hope this trip abroad will restore her health completely."

"We shall visit the Rothschild in Austria, in response to invitations we have received. Later we will travel

Miss Olga Menn.

on the continent. My daughter will remain abroad until late in the fall, after which she will visit in the east."

The romance of the beautiful Chicago girl and Baron Rothschild is well known. She had met the young scion of the American branch of the Rothschild family in Chicago while he was making a trip around the world. He fell in love at first sight. Miss Menn and her mother went to Vienna for the formal engagement announcement. While they were there, the late Baron Albert Rothschild, father of Baron Oskar, gave notice to his son that he would not permit the American girl to become a member of his family.

Then Baron Oskar went to his room, wrote a note of farewell to Miss Menn and killed himself.

MABEL E. ALLEN GETS \$2,600

Comfortable Share in Money Property Goes to Woman Who Is Legally Dead.

Boston.—By an agreement between the parties, Mabel E. Allen of Brooklyn, who was declared to be legally dead by the Massachusetts supreme court and the United States Supreme court, comes into possession of a fund that the Suffolk county probate court decided should go to other persons because, as was represented to Judge Grant of that tribunal, no trace of Miss Allen had been found for 14 years and she was believed to be dead. This case had its origin many years ago when the estate of Jonathan Merry, one of the old-time Boston merchants, was settled. After his death the administrators received several thousand dollars, Mr. Merry's share of the French spoliation claims.

The administrators proceeded to distribute the money among Mr. Merry's heirs and to close up the accounts. At that time an attempt was made to find Miss Allen, who was a grand daughter. This effort resulted in evidence before Judge Grant to the effect that Miss Allen had been dead for several years. Acting under the absent statute the judge decreed that Miss Allen was dead. George R. Blinn was appointed receiver to hold her share and await further developments.

It was then that a letter carrier in Brooklyn met Miss Allen and told her of the case. She later appeared in court, established her identity, and Judge Grant revoked the decree he had made. The amount that will be paid to her under the settlement is about \$2,600.

BALL FOR ELDERLY DANCERS

Paris Has Institution That Is Said to Have Led to Many Marriages.

Paris.—We have all known the "bals blancs" for young lads and lasses, the "bals roses" for young couples, "bals d'apaches," "bals par fume," and all sorts of other freak balls, but the "bal mur" is a novelty.

This has been invented by a charitable hostess for the great partners of wallflowers, for men and women who have long hovered over the "forty" line, yet still desperately claim its neighborhood, or for those who heroically have said good by to dancing before.

The name of "bal mur" is not a very flattering one and probably this category of choreographic fetes will soon come to be known by the more poetic title of "bal de St. Martin," referring to the legendary summer afterglow known as the Ete de St. Martin. The first one was a great success, and in the two months following it led to no fewer than thirty-seven marriages. In one of these the bridegroom was seventy-eight and the bride sixty-two.

CHILDREN'S SUNDAY AT M. E. CHURCH

Interesting Concert Program Arranged for the Evening Exercises

Sunday, June 8 will be observed as children's day at the Methodist church, and the following concert program, to take place at 6 o'clock p. m. has been arranged:

27. Postlude	

TRACK MEET AT WINCHESTER

Winchester High School Team Carries off the Honors

The Winchester High school track team defeated Dedham High track team yesterday afternoon on the Manchester Recreation field by the score of 50 to 13 points. Penaligan of Winchester was the individual star of the meet, making four first places and incidentally breaking the local High school record in the shot put with 36 feet 5 inches. Woods and Getty of the locals were in fine form as was Mc Donough of Dedham. The summary of the meet:

100-yard dash—Penaligan, Winchester, first; Getty, Winchester, second; McDonough, Dedham, third. Time 10 2-5ths seconds.

High jump—Penaligan, Winchester, first; Woods, Winchester, second; Sorenson, Dedham, third. Height 5 feet 1 1-2 inches.

Mile run—Case, Winchester, first; Aldous, Dedham, second; McDonough, Dedham, third. Time 5 minutes 12 seconds.

Shot put—Penaligan, Winchester, first; Flinn, Winchester, second; Skerry, Dedham, third. Distance, 36 feet 5 inches.

440-yard dash—Rohrman, Winchester, first; Getty, Winchester, second; Montgomery, Dedham, third. Time, 1 minute 2-5ths seconds.

Broad jump—McDonough, Dedham, first; Woods, Winchester, second; Hodges, Dedham, third. Distance, 19 feet 6 inches.

220-yard dash—Penaligan, Winchester, first; Rohrman, Winchester, second; Woods, Winchester, third. Time, 25 seconds.

The officials of the meet were Dwight Thompson, starter; Edward E. Thompson, clerk of the course and the judges were Edward Trott, George Adams Woods and B. Stroud. There were about 800 scholars and friends in attendance.

Permit Question. Little Arthur's mother had been telling him the story of a ferocious bear and after ruminating over it a while suddenly exclaimed, "Suppose I was walking in the woods and a big bear came along and ate me?" "What's my soul going to get out of that bear's stummock to get to heaven?"

WOBURN MAN HELD FOR LARCENY

John McCarthy and Companion Stole Horse and Buggy in Boston Yesterday

John H. McCarthy of 115 Main street this city was arrested early this morning by Patrolman Rooney charged with the larceny of a horse and Concord buggy in Boston yesterday afternoon. He was taken to Boston this morning by the Boston police.

The rig was the property of S. Slotnik a granite cutter of Chelsea and was taken from the corner of Merrimac and Causeway streets while the owner was in a nearby restaurant having lunch.

McCarthy states that he was accosted by a stranger who suggested a ride and they both jumped into the buggy and drove out through Woburn to Pinehurst park, where the horse was traded to a man unknown to McCarthy for a mustang and \$5 to boot. In Winchester at a blacksmith shop a bag of tools found by McCarthy and his companion in the buggy was sold for 25 cents and Chief McIntosh recovered the property today. At 12:30 o'clock last night Patrolmen Rooney and Shea were tipped that there was a deserted horse and buggy in a shed at the Parker leather factory on Cross street. The outfit was found as reported and taken to Holland Brothers' stables.

Slotnick the owner, whose name was found on the buggy was notified and came here identifying the buggy a large rubber-tired vehicle and the harness as his, but the mustang he denied owning.

Patrolman Rooney remembered having seen McCarthy sitting in a buggy similar to the stolen one in the early evening and going to a house on South Main street placed him under arrest. Later McCarthy admitted his connection with the larceny but would not divulge the name of his companion, claiming that he never met the man before yesterday. McCarthy will be arraigned in the Boston court tomorrow morning.

COMING EVENTS

June 9. Whist and dance by Order of Moose.

June 11. Salad supper and sale by open circle.

June 12. Lucia's Lover, in M. E. church vestry, by Alpha Delta class.

TENNIS TEAMS IN PRELIMINARY MATCHES

(By United Press)

New York, June 6—The champion Australian lawn tennis team and the United States players who will represent this country against England overseas in the July matches today opened the first preliminary matches of their series on the West side courts. The series will continue tomorrow and Monday. The results will be closely watched both in America and England as being a forecast of what can be expected from the American team in July. The American team was Maurice E. McLaughlin, N. Norris Williams, Raymond D. Little and Harold H. Hackett. It was the strongest tennis team to represent this country in many years, according to students of the game. Williams, it is thought was just the man needed to add youth and power to the team. McLaughlin, the veteran of the squad, was expected to show his best work in the preliminaries with the Australians. His reputation as one of the best men who ever wielded a racquet, is international. Little and Hackett who will play in the championship doubles, will, it was thought, prove an invincible team.

COMING EAST

FOR BOAT RACE

(By United Press)

Seattle, Wash., June 6—The University of Washington eight-oared crew, champions of the Pacific coast today are enroute for Poughkeepsie, N. Y. to participate in the intercollegiate boat race there. The Washington eight established its supremacy on the western coast by winning a three-cornered race from the University of California and the Leland Stanford crews some weeks ago, and on May 22 by defeating California by 100 yards in a three mile race here. Popular subscription is paying the crew's way east, \$3,600 having been raised in this way.

EUCARISTIC CONGRESS TO BE HELD IN 1914

(By United Press)

Rome, June 6—Practically official announcement was made today at the Vatican that the next Eucharistic congress of the Catholic church will be held in 1914 at Lourdes, France, where one of the most wonderful shrines of the Catholic church is located. The congress will be in the nature of a jubilee anniversary as it will be the twenty-fifth of the series. The 1915 congress, it was said today, probably will be held at Sydney.

YALE-HARVARD RACES JUNE 18

(By United Press)

New Haven, Conn., June 6—Today was the last day for receiving applications for tickets to the annual Yale-Harvard baseball game on June 18 and the Crimson-Blue boat race at New London on June 20. Applications mailed tonight will be taken care of.

U. S. AMBASSADOR AT PILGRIMS BANQUET

(By United Press)

London, June 6—United States Ambassador, Walter Hines Page, makes his first public appearance in London since he accepted that post, tonight at the Pilgrims banquet given in his honor. At the dinner tonight Ambassador Page will be formally invited to unveil the Pilgrim's memorial at Southampton on August 15.

WASHBURN UTILITIES BILL ENGRAVED

(By United Press)

Boston, June 6—Without debate or division the Washburn Utilities was passed to be engrossed in the senate today. The bill now goes to Governor Foss. It is believed he will veto it, and already the friends of the measure are gathering their forces to carry it over the veto.

MISS ANNIE JOHNSON TO GRADUATE

BORN DEAF DUMB AND BLIND HAS ACCOMPLISHED MANY THINGS

By United Press

Delavan, Wis.—Born deaf, blind and dumb, with the additional handicap of having but one lower limb, Miss Anna Johnson, Wisconsin's Helen Keller, today is looking forward to her graduation Tuesday, June 10, from the Wisconsin school for the deaf; waiting with eager anticipation for the class day ceremonies and wondering whether her dress will be as attractive as that of her sister students.

Crippled from babyhood and possessing only one sense, that of touch, Miss Johnson entered the school nine years ago at the age of 13. Up to that time she had received practically no education. During her stay here she has been treated until she can hear; won high honors in history and literature; become an accomplished camp fire girl and wicker basket maker, and has written several papers of great merit on historical subjects.

MILITANT SUFFRAGETTES SUMMER CARNIVAL

(By United Press)

London, June 6—Undismayed by the prosecution of their leaders, the militant suffragettes today are trying a new method of raising funds for the cause by means of a big "Summer Festival" which opened at the Empress rooms, Kensington. The fair is to run ten days and it will be of a thoroughly ingenuous character, despite the purposes to which the proceeds will be devoted. Scores of Scotland yard plain clothes men were on the scene today, however, to see that no inflammatory speeches were made. A large detail of uniformed police also were on hand, to protect the women from any possible demonstration by anti-suffragettes.

Communications from the Board of Public Works then came up for consideration. Requests for \$3,000 to complete the water mains on Lexington street, for \$240 for pipe for use by the water department, and for an appropriation for the pensioners in the Highway department, were referred to the committee on finance. The Board estimated that the cost of constructing a main sewer on Harrison avenue would be \$1,700, which estimate, with the reports of the Chief of Police and the auditor, were received and placed on file. The Board of Health reported favorably on the petition of Michael Lux for a license to slaughter swine, and the license was accordingly granted.

Considerable discussion took place over the recommendation by the finance committee that \$4500 be appropriated for summer repairs in the Woburn schools, and that none be appropriated for a kinetoscope. Alderman Blake promptly inquired why none was appropriated for the kinetoscope, and Alderman Fagan wished to know why such a huge sum was to be spent on school repairs. Alderman Marshall, speaking for the committee, described the condition of the schools and made the statement that the whole sum appropriated might be spent on the Cummings school, before it would be in proper condition. Alderman Hogan thought that a full list of the repairs necessary should have been given to each member of the council, while Alderman Rix defended the committee. The order for the repairs was finally passed, while the recommendation of the committee that no appropriation be made for a kinetoscope was not accepted. The council then adopted with little discussion, Alderman Winn only, objecting, recommendations for \$900, for the resurfacing of Waltham street, for \$200 for the completion of the sewer on Mishawum road, and for \$150 for resurfacing the easterly side of Bryant street. The recommendation for \$250 for the Mishawum road sewer was received and placed on file.

HOUSE RECONSIDERS SCHOOL TEACHERS BILL

(By United Press)

Boston, June 6—After reconsidering its action whereby it sustained the governor's veto of the school teacher's tenure bill, the House today overrode the veto by a vote of 130 to 53. The bill provides that after 5 years of consecutive service a school teacher cannot be removed except for charges proved at a hearing.

"BIG INTERESTS"

(By United Press)

Washington, June 6—Senator Thomas of Colorado today made the most positive statements that the big interests were bringing pressure to bear on senators to influence them against tariff reduction. He said that many Senators had received letters from constituents who wrote that their letters were forced from them by threats that their trade interests would be jeopardized if they refused.

CITY COUNCIL HOLDS TALK-FEST

FINANCE COMMITTEE'S REPORT WIN OUT FINALLY

PLAYGROUND TO BE PROTECTED

The City council met last evening with every member present, and held a warm session, the most important business of which was the appropriation of money. Hot debates were held on several points, which became personal at times.

A public hearing was ordered on the petition of the New England Telephone and Telegraph company to locate 2 poles on Locust street, while permission was granted them to attach wires to one pole on Arlington street, and to 13 poles on Willow street.

Mrs. Lizzie C. Chase was granted a license as a common victualler, while John Gaggs was given leave to withdraw. W. S. Lindsay was granted without reference a license to sell ice cream, etc., on the Lord's day; petitions for licenses to transport intoxicating liquors by Frank E. Connolly and Davie Weinburg were referred to the committee on police and licenses. A license was also granted to Thomas J. McColgan to run four pool tables at 431 Main street. The committee on claims and bonds received the claims of Frank E. Brennan for damages due to the bursting of the water main on Conn street, and Richard Fowles for damages due to the overflow of water.

Communications from the Board of Public Works then came up for consideration. Requests for \$3,000 to complete the water mains on Lexington street, for \$240 for pipe for use by the water department, and for an appropriation for the pensioners in the Highway department, were referred to the committee on finance. The Board estimated that the cost of constructing a main sewer on Harrison avenue would be \$1,700, which estimate, with the reports of the Chief of Police and the auditor, were received and placed on file. The Board of Health reported favorably on the petition of Michael Lux for a license to slaughter swine, and the license was accordingly granted.

Two requests were then placed on file, for appropriation for repairing Russell and Center streets, and the petition of D. H. Bourque and others for improvements on Garfield avenue.

The hottest argument of the evening came next, in regard to laying edgestones and concrete sidewalks on Main street from Cross street to Fowle street. The committee on finance recommended that no appropriation be made, and Alderman Fagan explained that there were two reasons for this action. There is already a \$1400 indebtedness in the edgestone account, and this work would necessitate a \$4200 further indebtedness; and the proposed work of putting in a new water main makes it inadvisable to do the work at present.

Alderman Winn, however, couldn't see it that way, and wanted all sorts of explanations.

A four-handed argument resulted between Alderman Blake, who objected, Rix, Jones and Winn.

Personalities were freely indulged in, even the president of the council getting his share of the confidences.

Alderman Hogan thought that a full list of the repairs necessary should have been given to each member of the council, while Alderman Rix defended the committee. The order for the repairs was finally passed, while the recommendation of the committee that no appropriation be made for a kinetoscope was not accepted.

The council then adopted with little discussion, Alderman Winn only, objecting, recommendations for \$900, for the resurfacing of Waltham street, for \$200 for the completion of the sewer on Mishawum road, and for \$150 for resurfacing the easterly side of Bryant street. The recommendation for \$250 for the Mishawum road sewer was received and placed on file.

foolishness of voting money to the Board of Public Works, which it could not spend for some time, perhaps over a year, unless it wished to do the work now and then do it over again later. Alderman Winn was still unconvinced. The vote was taken on recommendation of the finance committee that no appropriation be made, and it was accepted. The vote stood, Aldermen Naven, McLaughlin, Marshall, Fox, Ham, Poole, Rix, and Jones for, and Aldermen Blake, Devlin, Boyle, Lynch, True, and Winn against.

Under unfinished business the appropriation of \$5,000 for insurance on all public buildings, on request of Alderman Hogan, was referred to the city solicitor for advice as to the legality of the matter. The claim of Arthur V. Jones for damages as a result of water leaking into the cellar of McLaughlin & Demmison's store, was given final action and passed, Alderman Lynch alone voting against it. The order naming the streets to be watered during the year 1913 was passed, as was the petition of the Edison light company to locate 14 poles on Lexington street.

The amendment to the ordinance Section 4, Chapter 11, relating to the fire department, came up for discussion. Chief Tracy was called in and explained that the new state law requires that each permanent man be given one day off in five. As Woburn has but five men, the service is crippled as a result, unless an extra man is added to the department. Chief Tracy stated that in his opinion there was no city in the state of Woburn's size which had so few permanent men, and that serious results might occur. The amendment was finally passed, Aldermen Fox, Poole and Jones voting against it.

The communication from the Board of Public Works asking for \$350 for the salary for a supervisor for the South End playground and also for \$50 for repairs to the apparatus, was at last taken off the table, and on motion of Alderman Blake, the appropriation was passed to its second reading.

Several new orders came up and were referred to the proper committees. Alderman Hogan introduced two orders, the first calling for electric light service until 1 a. m. instead of 12:30, for the benefit of the theater goers who used the later train from Boston. Referred to the Board of Public Works. The second order was for the appropriation of \$1700 for a sewer on Harrison avenue, and was referred to the finance committee, with an order introduced by Alderman Blake for \$500 for a celebration July 4. The order of Alderman Lynch that the Board of Public Works be requested to repair the fence on Montvale avenue near the Aberjhona river, was referred to that board. Alderman Naven introduced an order calling for \$1000 for resurfacing the road on Lexington street, from the state road to Waltham street, to be paid out of the municipal loan, and for a similar sum for Russell street. Both were referred to the finance committee.

"Father grows younger every day." And his new photograph hits him to a "T".

The old portrait taken twenty years ago, made him look so serious and old-fashioned—not a bit like he really is.

We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day.

And father says that he's glad he gave in and had it made that having your picture taken is far from an unpleasant experience a-days.

JURY RETURNS
TRUE BILL IN
GALLI MURDER CASE

The grand jury of Middlesex county, returned a true bill yesterday in the case of Galli who was charged with the murder of Chas. O'Brien of Burlington on April 23. The case will come up at the next session of the criminal court.

D. A. R. VISITED
REBECCA NOURSE HOUSE

Interesting Historical Relics on
Exhibition in Danvers, Mass

Seventeen members of the Col. Loammi Baldwin chapter of the D.A.R. spent a most interesting day yesterday, in a visit to the Rebecca Nourse house at Danvers. The party left this city shortly before noon, and arrived in Danvers in time for lunch, which was held in the big living room of the house. Mrs. Hood, regent of the Israel Putnam chapter of the D.A.R. in Danvers, was the guest of the Woburn chapter, and acted as guide in the inspection of the house and its contents.

The Rebecca Nourse house is one of the oldest in the country, and the oldest in New England. It was built first in 1632, by Bishop Townsend. It was later painted, but thanks to the very fine reconstruction work which has been done on it, may be seen today as it was originally.

The story goes that Rebecca Nourse lived in this house at the time of the witchcraft scare, and was tried for witchcraft, convicted and hung. Her body was buried at the crossroads, following the gentle custom of the time, but her brother and sister later removed the body to a grave behind the house, where a monument marking the spot may be seen today. Many other interesting relics may be seen, such as a chair which was owned and used by the unfortunate victim of superstition. Altogether it is a most interesting house to visit, both for its own sake, and for the history connected with it, and fully repay the members of the D.A.R. who took the trip yesterday.

BOYS CAUGHT WITH
CART OF HALF PINTS

Pony Express Found in Full Action Yesterday and Goods Confiscated

Everybody's doing it now. Doing what? Running pony expresses without the formality of getting a license. The police yesterday came upon a bold bad attempt to inveigle spirituous liquors into our fair city, and frustrated it by confiscating the said spirituous liquors. The malefactors were two or three boys who were seen pulling an express cart along the street. On investigation, the cart was found to be full of half pints. The boys without stopping to make explanations, left the cart and fled. The half pints were confiscated.

o-o-o
Not Unreasonable.

"Boy wanted for sausages," runs an announcement in a butcher's shop at Harlesden. It sounds unappetizing—yet no doubt a boy is the proper accompaniment for the mashed.—London Opinion.

LEZ DOUZE MET
YESTERDAY AFTERNOON

Miss Doris Buel the Hostess at Regular Meeting of Club

Les Douze held a regular meeting yesterday at the home of Miss Doris Buel on Fairmount street. Whist was played, Misses Dora Gilbert and Katherine Bailey getting high scores, and Miss Dora Simonds getting the consolation. Miss Dora Gilbert substituted for Miss Gladys Richardson, and Miss Marjorie Eastman for Miss Clara Marion. The next meeting will be held June 20 at the home of Miss Mabel Buxton.

Wanted Land and Husband. She could plow and do all the farm work, and if she got land she would get a husband, was the contention of a young woman who applied recently to the land board of Heathcote, Victoria, Australia.

N. E. O. P. LODGE
HELD MEETING

Large Number of Candidates Receive First Degrees

The Perseverance lodge number 506 of the New England Order of Protection held a class initiation last evening in G.A.R. hall, at which 14 candidates were initiated by the degree staff of the Cambridge lodge, number 17. The degree staff consists of the following members: Junior past warden, Mrs. Francis Warnick; warden, Elsie H. Cotter; vice warden, Frank McMarra; chaplain, Frank Hirschberg; guide, Miss Eva Kneeland; guardian, James Ambrose; banner carriers, Mrs. J. G. Shea, Miss Elizabeth Gahn, Emma L. Cotter, and Mrs. Carrie Oliver; assistants, Miss Lillian Tanning, Miss Florence Tanning, Miss Mary Shea, Agnes O'Connell, Mary Lynch, Mary McMarra; sentinels, Edward Shelley, Frank Mozer, pianist, John Quinn; degree master Frank Mareman. The grand lodge was represented by Miss Mary M. Doyle of the committee on laws. Deputy Grand warden, Mrs. Agnes C. Porter of Lowell and Frank H. White of Roxbury were also present. Refreshments were served at the end of the ceremonies. The next meeting will be held on Monday evening June 23, in the G. A. R. hall.

NECESSARY GRAFT

It is all right for Rev. Almer Pennewell of Chicago to refuse marriage fees and to call it graft. But there is a condition back of it that is a disgrace to the religion. In altogether too many cases the ministers are trying to live on so small and insulting a salary that their one hope is in many weddings and generous fees. No one denies the respectability and position of the minister; but some churches seem to think that they can live on respectability. It is up to the church to save its self respect by paying its employees self respecting salaries.

ABOUT VIVISECTION

These people who are making so much fuss about vivisection would do better to get the bug out of their brain and put their energy onto something of benefit to mankind. Those very people are many times as safe today and immune from disease because of vivisection. Those people are usually the kind that are cordially disliked by their neighbors, and with good reason. As for the vivisection, there "is nothing in it". The animals are at all times under ether, and completely so. If they are anything like human beings, the only sensation they have while under the influence is one of complete and supreme laziness.

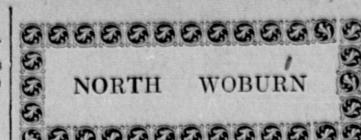

Some of the poor losers about this city have been loudly complaining since the Arlington high games, that there are post graduate players on the Arlington high school team. For their special benefit it is said that Mr. George W. Low of the local high school has communicated with the principal of the Arlington high school, and has received his solemn and unquestionable assurance that all the players on the team have a perfect right to be there. We are sorry to deprive any one of an excuse for howling, but one has to be just some of the time.

Hanford Donnelly, a truck driver of Stamford, Conn., must feel that the world is very unappreciative. He was in a railroad wreck a little while ago, and saved many lives. And now they insist on arresting him because he happened to pick up \$1000 worth of jewelry to buy himself a hat. What's the good of being a hero if you can't do as you please?

In Malden thieves robbed all the gas meters the other night. Doubtless many of the gas users secretly chuckled, and said something about a thief catching a thief. The question is, which disease does a gas meter have worse—gastritis or galloping consumption?

Wakefield a little while ago voted \$1000 out of a surplus which they thought existed, but was a minus quantity. Woburn does not even pretend to have any surpluses. We are paying for too many ten year old mistakes, some of which were unintentional.

Won't somebody please invent a chicken wire made of electrical (or thought) vibrations which will keep the noise in as well as the rooster?

NORTH WOBURN

FEWER ARE GOING ABROAD

Steamship Agents Blame Decrease of 30 Per Cent. Chiefly on the Recent Floods.

New York.—Up to May 8 the first-cabin passenger traffic between this port and Europe was 357 ahead of the same period in 1912 west-bound and 138 bookings ahead east-bound. The second-cabin passenger traffic showed an increase of 15,000 west-bound and 2,434 east-bound from Jan. 1 to May 8 over last year.

Traffic east-bound from now on will be about 30 per cent. below last year, according to the steamship agents. This, they say, is chiefly due to the number of cancellations of bookings made in January and February by persons who were sufferers by the floods in the middle west and the tornado in the Mississippi valley.

Generally the year of the presidential election is a poor one for foreign travel, but 1912 was a very good year.

Cancellations have been made in the last few days not only on the older Atlantic liners, but also on the first-cabin bookings of the Imperator, Mauretania and Olympia.

The Atlantic steamship companies look to the middle west and the west for the bulk of their summer tourist traffic, and the sudden falling off in the demand for cabin accommodation and the cancellations came as a surprise to them. A few of the more optimistic agents hope that there will be a boom in the European tourist traffic later on, but it will have to design a car with practically no climbing at all.

Once the figures are given anyone can verify this calculation for himself. In the year ended June 30, 1912, the New York Railways company and its predecessor, the Metropolitan Street Railway company, carried just under 264,000,000 passengers. The height of the step of the so-called stepless car from the street is ten inches and the height of the old-style car, which it is to replace, is about 40 inches. Consequently there is a saving of 30 inches every time a passenger gets on or off the car, and this works out at 125,000 miles a year for the entire system.

The double-decked, stepless car, which bears so strong a family resemblance to the other new style of car, will continue, however, for some time alone in its glory.

It was only after considering carefully the many different brands of street car in use in other cities that the New York Railways company evolved the side-door, stepless, prepayment car. Montreal, for example, has a side-door, prepayment car, and Philadelphia prides itself on its "near-side car." The latter was inspired by the desire to provide room for more passengers and to enable them to enter and leave at such a point that they would encounter as little as possible of the mud of the street.

While the newest thing in street cars is being installed in New York, the oldest is about to be abandoned. New York has for several years been the only one of the big cities to retain horse cars. In some instances this was necessary because of congested traffic, but new subways have relieved this to such an extent that electric power now is practical.

Governor Sulzer now has under consideration a bill requiring all street car companies of the city to cease operating horse cars after January 1 next. This measure has passed the legislature, and if accepted by the governor, will affect six lines in Manhattan, but even without this legislation it is probable that in a few months the last of the old horse cars will have been driven to the barns, never to run again.

When the public service commission took office on July 1, 1907, there were 16 horse-car lines in operation. Of these four have been abandoned and six are now wholly or partially operated by storage battery cars. The six still running are the Avenue C line, from the Desbrosses street ferry across town to East Twenty-fourth street; the Bleeker street line, from Bleeker street and Broadway to Fourteenth street and Ninth avenue; the Chambers street line, from Chambers street line to Grand street ferry; the Metropolitan cross-town line, from Desbrosses street ferry to Grand street ferry; the Seventeenth and Eighteenth streets line, from Broadway to the Twenty-third street ferry, and the Sixth avenue-Desbrosses street ferry line, from Sixth avenue and Third street to the Desbrosses street ferry.

The figures show that John D. has nine horses worth \$55 each, ten head of cattle worth \$10 each, and furniture worth \$3,300. He has no automobiles here at this time of the year the assessments are made, so none is returned for taxation.

JUDGE AND JURY IN CLASH

Jurist Orders Verdict of Acquittal, but Jurors Are Obdurate, and Refuse to Sign.

Memphis, Tenn.—Judge and jury clashed in the second division of the criminal court here, and as a result, a verdict acquitting a man of murder charge was made a part of the court's record without the signature of the jurors.

C. E. Murrell, railroad fireman, was charged with having murdered Moss Todd. Presiding Judge Palmer ruled that the evidence showed self-defense, and directed a verdict of not guilty.

After consultation with members of the jury, Foreman Cooney refused to write the verdict. Judge Palmer explained that he could permit no other verdict to stand, in view of the testimony.

"You have a right to your opinion," retorted Cooney, still obdurate, "but you are not the keeper of my conscience."

Finally, however, the verdict was written, but the jurors carried their point to the extent of not affixing their signatures.

French Discover New Fad.

Paris.—Foot-reading as an alternative to palmistry is now the fashionable fad in Paris. Among the most ardent adepts of the alleged science is the Countess Mellusine de la Roche-

foucauld, a descendant of the great writer. She declares many distinguished men of letters are adherents of the cult of the feet.

Red Hens Lay Enormous Eggs.

Indiana, Pa.—Eggs of an abnormal size are being produced by Rhode Island Red hens of this section. A hen belonging to M. K. Queen of White township laid an egg which is 8% inches in circumference from end to end and 6½ inches around the center.

Trees "Shot to Death."

For literally shooting trees to death a pistol has been invented in England that fires into their limbs steel bolts that tear out the living cores.

BOSTON THEATRES
TREMONT THEATRE

At the Tremont theatre, Boston one is able to see in the French farce, "The Gentleman from No. 19" which is now enjoying unlimited prosperity at that theatre, a farce which is perhaps the greatest of its kind that France has ever sent to this country. It is the work of Andre Keroul and Albert Barre who, in addition to the writing of this play have also been successful in the writing of the farces which made the Grand Guignol theatre in Paris, famous.

Previous to its production in America "The Gentleman from No. 19" was given in Paris and up to the present time it has also attained notable success in Vienna, Berlin, St. Petersburg and Budapest. An impending engagement to take place at the Criterion theatre, London is announced for this month. It is in every sense of the word typically French farce. All of the scenes are laid in small hotels in the South of France, and it is safe to say that no other play was ever more popular. Each character is French to the core and every line and situation is typical of the light-heartedness which so tinges the people of France. From the very start its action is swift and fulfills with complication following complication with great rapidity which develops out of the story that relates the adventures that come to "The Gentleman from No. 19" in his mad endeavor to escape the wrath of a jealous husband, after he has unintentionally entered the room of that infuriated person's young wife who is yet a bride and who has told her better half of the intrusion.

It has been the unanimous verdict of every critic in Boston that "The Gentleman from No. 19" is the best farce France ever sent to America including it as does Walter Jones, Henry Bergman, Richie Ling, Charles Brown, Robert Paton, Gibbs, Tom Graves, Florine Arnold, Nanette Comstock, Millicent Evans, Dorothea Sadlier and other well known farceurs, individually and as a whole, making it one of the best balanced organizations ever assembled for the pre-

B. F. KEITH'S THEATER

One of the strongest and most varied all-star vaudeville season is announced for B. F. Keith's Theatre next week, including a number of new and novel attractions. Sanderson Moffatt, the original "Weedum" of "Bunty Puff The Strings," will make his first vaudeville appearance on this side of the ocean in a one-act comedy of Scottish life entitled "Fifteen Minutes of Matrimony." Mr. Moffatt will be supported by a splendid company of Scottish players, and the comedy itself abounds in clever situations and sparkling dialogue. Another new feature will be the first vaudeville appearance of David Lythgoe, the Boston actor, and his players in a bit of musical comedy by John J. McNally, written especially for Mr. Lythgoe. Still another novelty will be the first appearance in the country of Mykoff and Vassili, the Russian dancers, in their cycle of unique and remarkable dances of the nations. Conroy and Lorraine, the famous blackface comedians will have a brand new talkfestfully as funny as their past efforts in this line; and other strong attractions of the week will be Ed Morton, the man who sings with a brand new program of popular songs; The Four Flourimonds, a great troupe of European novelty entertainers in an original specialty; Sam Lewis and Sam Dody, "The Two Sams," in a new act; Wentworth, Vesta and Teddy, featuring the world's most wonderful canine acrobat; Edison's Talking Motion Pictures with all new subjects; and many others yet to be announced.

BRILLIANT OPENING

Paragon Park had an opening of its ninth season at Nantasket and the attendance was commendably large. A vast improvement has been made this season in having the entire promenade around the Lagoon concrete to replace the old board walk. The attractions that one encounters in making the swing around the Park are as varied and interesting as ever, including the ball room, Green streak railway, Merry-Go-Round, Verville, Burlesque theatre, Moving pictures, Circle swing, Scenic railway, figure 8, Roller-Coaster, the Human roulette wheel, palace of illusions, games of all sorts, the Copper slide, sand bumps, etc.

But as usual the Palm garden with its Cabaret is the great centre of interest, the Cabaret which was given here last season from 9 to 11 o'clock in the evening only is now given in two sections from 6:30 to 8:30 and from 9 to 11 p. m., and all the tables at both "sessions" are well filled, not only inside the Palm garden but on the broad verandah which surrounds it and overlooks the park. Manager George A. Dodge has provided a capital list of Cabaret features, including Louise Laurie, Edna Leader, Miss Camilla, Art Spaulding, Zelma May, Frankie LeBrack, Mlle. Day, Eddie Perkins, Veta ElToro, Rommelie Trio, Anderson, Twin Sisters, the Chiaromandas, Marimba, Sashenders, the Palm garden orchestra and MacCormick's Military band. The latter, by the way, gives its concerts from the band stand which has been moved across the plaza from the Lagoon and is now a part of the Palm garden verandahs.

An extraordinary fireworks display is a special feature on Saturday night and on Sunday nights there is always a grand Italian illumination.

There are more free circus acts than ever this season. The greatest sensation of all is Nervo, the "Human Comet." From a 100 ft. tower he makes a deep head long dive into a semi-loop shute which tosses him with terrific centrifugal force high in the air again. Nervo completes his death defying slide for life with a somersault and a final dive into the Lagoon. Other free circus acts are: the LaRues, LaVasieur, and the Dailey Brothers.

SUMMER FASHIONS
FOR THE LADIES

Margaret Mason Tells of the Season's Styles and Modes

By Margaret Mason
(Written for the United Press)

Rub-a-dub-dub

Three gowns in a tub
And what do you think they be
A linen, a crepon

A nainsook with lace on
Wash 'em out, clean all three.

New York.—The best line on summer fashions is the wash line. You are quite safe in clothespinning your faith to the divers laundry loving fabrics that now reveal their unshrinkable and fadeless charms on smart shop counters.

They all rise triumphant as Venus from the sudsans defy even an amateur wash artist to rub her worst.

Time was when a cotton print, a calico or a seersucker made up the despised wash adjunct to milady's wardrobe and was donned only for morning housework wear.

Now you may find a wash counterpart for almost every fabric of the loom. Even the exquisite velvet broche of the winter is aped amazingly by the brocaded cotton sponge. The pompadour cotton voiles and French crepes are adorable and floral bordered organdies, silk mulls and batistes are sheer delights.

Charming are the embroidered cotton crepes and voiles on which tiny nosegays are scattered in bas relief. These are found only in the more expensive imported materials whose unshrinkable propensities will act inversely on your purse. Home grown printed products can be utilized with quite as stunning results, however. Only a close inspection will reveal the difference between printed domestic bouquets and the embossed imported flora.

What's the use of fast colors if they don't run? The fadeless dyes of the futurist sponge, ratine and wash silks will easily win in a walk however. It is bound to be a highly colored summer and this ought to bring cheer to the damsels whose sunburned countenance has heretofore added the only vivid color note to her warm weather attire. The erstwhile virgin whiteness of the lacy lingerie gowns are livened by bright hued silken girdles and many are embroidered a la Bulgaria.

Quite the newest and smartest effect is the combination of a very thin material and a very heavy one. For example, a voile trimmed in a contrasting tone of ratine. Some of the new fabrics come woven in such combinations, particularly the fine French crepes striped or bordered with ratine.

All shades of blue from peacock to heavenly are the favorite tones for your summer frocks. What could be cooler or more effective when the mercury begins to rise than a soft old crepon girded with a silken sash of Hunter's green, and flat collars and cuffs of blue eyeleted Maderia embroidery finishing the V shaped neck and elbow sleeves.

Linens come in perfect shades this summer but for the separate skirt (and no hot weather outfit should be shabby one) it were wiser to stick to the white or natural colored linen. Those are due to live on and last you sundry summers, but the way bright hives are being worked overtime presents a sharp drawing of the color line are another summer dawn.

L-a-c-e spells the last word for summer evening gowns. With hairy waists, the youthful, fairy-like but not for you if you have a woman's weight over two hundred pounds. If you boast svelte like proportions and one of these lace gowns too, it will be woe to the bachelor beau who finds you on a piazza and a moonlight night. His heart is sure to be snared in Chantilly mesh or pierced with a Van Dyke point.

Lace anyhow, any kind, and any where is much to be desired.

From the top of your lace parasol to the lace brim of your hat, your lace frock and lace hose even down to your shoelace all is laced except your waist. She is ultra smart indeed who even laces her finger tips.

Madame La Mode knows when her nose needs attention (sartorial attention of course). The monochromatic of the moment, or in other words the "hanky" that is right up to snuff must have its bit of color as well as the rest of the costume. Either the narrow hemstitched edge is of a pastel tint or cross bars of color brighten up the entire bit of linen. Cunning little pink rose buds and azure forget-me-nots embroider sheer little handkerchiefs, a square of posey for your nose.

The very newest handkerchief shows a monogram bold of color and design. One in lavender and green with a violet border is sure to win by a nose. Dainty ones with tiny hand rolled hem cross stitched in color with an initial to match are chic enough for the most fastidious nasal appendage and not to be sniffed at.

GREATEST USER
OF ASBESTOS

Domestic Mine Production Small as Compared with Canadian

If the United States can not boast of preeminence in asbestos production, as it can for many other minerals, it is at least a matter of some gratification to know that the bulk of the world's production comes from America and that the Canadian deposits yield by far the larger part of the total. In this too the United benefits for the nearness and reliability of the Canadian supply, largely owned in the United States afford the basis for our eventual unquestioned supremacy in the development of asbestos manufactures. Even as it is, there are, according to J. S. Diller of the United States Geological Survey, some valuable deposits and promising prospects in the United States and these would undoubtedly be much more largely developed were it not for the extent of the Canadian deposits. The domestic production in 1912, according to Mr. Diller, was 4,403 short tons, valued at \$87,959, and although this was a decline of 42 percent in tonnage compared with the output for 1911 it was only 27 percent less in value, owing to the larger quantity of higher-grade asbestos in 1912. Georgia, Vermont, and Wyoming are the three states which mine asbestos. The Canadian exports of asbestos in 1912 amounted to 88,008 tons, of which 71,426 tons, or more than 81 percent, was imported into the United States. This quantity was 67 percent of the entire Canadian production.

Asbestos is the most important fireproofing material known. Its fibrous structure adapts it to a wide range of applications—from woven fabrics, such as theater curtains and articles of clothing, to asbestos shingles, stucco, plaster, asbestos "wood", and various other forms of building material that render structures thoroughly fireproof. Its lightness, strength, durability, and insulating properties against heat and electricity give it special advantages for use in constructing cars and electric motor subways.

The most common uses of asbestos are for asbestos paper, millboard, pipe covering, and lagging to inclose heat pipes, furnaces, and locomotives in order to prevent loss of heat in transmission. As a nonconductor of heat it may be used not only in the preparation of fireproof safes and vaults but also for cold storage and cooling structures. Houses made of asbestos materials or coated with asbestos throughout are not only warmer in winter but cooler in summer.

UNDERGROUND WATER
LOCATED IN TEXAS

Report by United States Geological Survey on the Wichita Region

The United States Geological Survey has just announced the publication of a report on the underground waters of the Wichita region of north-central Texas, by C. H. Gordon. The region covered by the report includes about 11,000 square miles. Its population practically doubled in the decade between 1900 and 1910. The settlers have experienced great difficulty in obtaining satisfactory water for domestic use, and the region now depends for its water supply almost wholly on the surface waters, which are insufficient, so that the problem of finding underground sources of potable water is sufficient quantities is of great local importance. The field investigations of the Geological Survey were directed to the determination of the geographic conditions which would lead to the location of the water-bearing formation that might be available sources of water. This has been accomplished.

The report, which comprises 86 pages and includes a geologic map, describes the geologic formations underlying the region, their water-bearing capacity, and the underground water prospects.

Abundant supplies of underground water have been determined, but the water from most of the formations is stated to be heavily charged with mineral matter. From certain to the formations, however, the water is of good quality, and the area over which these formations extend is outlined in the report. Advice is also given in regard to the protection of shallow wells from the germs of typhoid fever and the purification of surface waters in the localities where no satisfactory underground water exists.

This report, which is published as Water-Supply Paper 317, can be obtained free of charge on application to the Director, United States Geological Survey, Washington, D. C.

COMING EVENTS

June 9. Whist and dance by Order of Moose.
June 11. Salad supper and sale by open circle.
June 12. Lucia's Lover, in M. E. church vestry, by Alta Delta class.
June 12. June festival in the Armory.
June 13. Salad supper and sale by W. R. C. 84.
June 14. Parish Aid Society afternoon and evening garden Party at W. W. Hill's residence.
June 14. Garden party at home of Mrs. W. W. Hill, North Woburn, under auspices of Parish Aid society.
June 17. Field day in aid of Choate Hospital.
June 17. Field day at Pinehurst park by S. of V. clubs of Massachusetts.
June 19. Field day at Pinehurst park by St. Charles Parish.
June 24. L. A. to A. O. H. entertainment and dance.

MOTOR BOATS IN
RACE TO BERMUDALeft Philadelphia Today Amid
Cheers of Enthusiasts
(By United Press)

Philadelphia, Pa., June 7—Three of the fastest sea going motor boats of New York and Philadelphia started today from Race street pier in the annual race run to Bermuda and return. There was a big crowd of motor boat race enthusiasts at the pier to see the racers off. Immediately the sputtering boats started a score or more of the spectators took the train for New York where they will sail on one of the Bermuda boats which will take a course directly behind the little boats thus affording her passengers a view of the race during the trip. The boat will steam ahead of the racers shortly before the Bermudian islands are reached in order to land its passengers there in time to witness the finish of the first leg. While in Bermuda, the racers and spectators will be guests of the yachtsmen of St. George. The same ship on which the spectators go to Bermuda will follow the little boats on their return trip. The motor boats racing are the Dream, Commodore Charles E. Lagen, Yachtmen's club, Philadelphia; Barbara II, Vice Commodore W. M. Duncan, Staten Island Yacht club, New York; Tee, W. T. Wheeler, Jamaica Bay Yacht club, New York. Dr. Eugene Swayne is chairman of the regatta committee.

PLAYING OFF TIE
MATCHES IN TENNISU. S. and Australia in Competition at New York Today
(By United Press)

New York, June 7—A great gallery was expected to pack the seats about the West side Tennis club's courts here this afternoon when the second of the tie matches of the international series between the United States and Australian teams is played. Even hotter competitions than were witnessed yesterday were expected today as it will mean the winning of the series for yesterday's victors to capture today's contests. The third day's matches will be played on the West side courts Monday.

WOMAN GOLFERS
WILL CONTEND FOR
CHAMPIONSHIPTournament at Brookline
Country club Links Opens
Monday
(By United Press)

Brookline, Mass., June 7—Women golfers from Philadelphia, Baltimore, New York, Washington gathered here today to attend the tournament on Monday which will determine the Eastern Women's championship. Matches will be played over the Brookline Country club's links on Monday, Tuesday and Wednesday to decide the title.

FARGO N. D. WILL
CELEBRATE ANNIVERSARY
(By United Press)

Fargo, N. D., June 7—Twenty years ago today the town of Fargo was all but wiped from the map by a disastrous fire. Thirty years ago today was established the Scottish Rite in Fargo. The anniversary of both events were celebrated here today and former residents of Fargo came from nearly every state in the Union to attend.

Cleaning Tiles.
Many times the tiles in a hearth will become so stained that water will not clean them. Never clean tiles with water. Use turpentine on a piece of flannel and polish with a dry cloth and the tiles will look like new.HARVARD-BROWN
GAME TODAYIntercollegiate Baseball Title
is at Stake Today
(By United Press)

Cambridge, Mass., June 7—Whatever small chance Harvard might have for the intercollegiate baseball title was at stake today when the crimson lined up against the strong Brown University team from Providence, R. I. If Brown defeats Harvard it would mean that the former would be counted ahead of the Crimson in the final figuring on the standing of the big eastern university teams.

PLAYING FOR SECONDARY
COLLEGE CHAMPIONSHIPBaseball Games Scheduled to
Be Played Today
(By United Press)

New York, June 7—Important college games which will count in the "secondary" baseball championship scheduled for today were Penn, versus Swarthmore at Philadelphia; Holy Cross versus Manhattan at Worcester; LaFayette at Lehigh at South Bethlehem, Pa.; Penn State versus Pittsburgh University at Penn State field; Bucknell versus Union street Schenectady; Trinity versus Tufts at Medford, Mass.; Franklin and Marshall at Gettysburg.

ANNIVERSARY OF
PIONEERS ASSOCIATION

(By United Press)

Weston, Ore., June 7—Stories of pioneer days and of the "blazing of the western trail" by the hardy vanguard of the present residents of the Pacific coast were recounted here today at the second day's sessions of the celebration of the twentieth anniversary of the organization of the Oregon Pioneers association.

BEARDING THE TIGER
IN HIS OWN LAIRThe Yale Ball Team Plays at
Princeton This Afternoon
(By United Press)

Princeton, N. J. June 7—The Yale baseball team, heralded as the best college baseball squad of a decade plays Princeton in the Tiger's own lair this afternoon, and a great contest was expected. The Blue with a record of seventeen straight victories this season, the record run having been broken by Williams about ten days ago, started in the game a big favorite. Despite Yale's great showing against rival teams today's game will count heavily in the Blue's claim to the intercollegiate baseball championship of the big universities.

FRANNE HAS 968
LICENSED AIR PILOTSStatistics Published Today by
the International Aero-
nautical Federation
(By United Press)

Paris, June 7—According to statistics published today by the International Aeronautical Federation, France has 968 licensed aeroplane pilots; Great Britain has 376; Germany 335; the United States 193; Italy 189; Russia 162; Austria 84; Belgium 68; Switzerland 27; Holland 26; Argentine 15; Spain 15; Sweden 10; Denmark 8; Norway 5; and Egypt 1. Germany has 909 licensed spherical balloon pilots; France has 264; Austria 64; Italy 67; Belgium 55; the United States 42; England 32. Austria has 24 dirigible pilots; France 23; Germany 22; Italy 13; England 11; the United States 3; Spain 2; Belgium 2 and Russia 1.

Cleaning Tiles.

Many times the tiles in a hearth will become so stained that water will not clean them. Never clean tiles with water. Use turpentine on a piece of flannel and polish with a dry cloth and the tiles will look like new.

WIN. BOAT CLUB
TO HOLD CONCERTMystic Valley Orchestra Will
Furnish Music Sunday
Afternoon

The Winchester Boat club is to hold the first of a series of Sunday afternoon concerts tomorrow at 3:30. The music will be furnished by the Mystic Valley orchestra of six pieces, under the direction of Frank Gerlach. It is expected that the unusual large number of canoeists who are to be seen on the lake every Sunday afternoon, will be augmented as a result of this new attraction.

GERMANS DEFEATED
THE FRENCH YESTERDAYIn Opening Battle the French
are Outclassed

The opening of the Great War between the Germans and French opened yesterday with heavy firing on both sides, and much damage. The French are completely outclassed, and are being driven back at every point. Note—on reading the rest of the clipping we discover that it was a tennis match, not a pitched battle.

WORLD'S CONGRESS OF
WOMEN CLOSES TODAYEnthusiastic Delegates Declare
World Will Benefit by
Granting Suffrage

(By United Press)

Paris, June 7—Declarations that suffrage for women throughout many of the civilized nations is in sight and that the world will greatly benefit by granting franchise rights to women were made here today at the closing sessions of the World's Congress of Women which convened here Monday, June 2. Mrs. Andrea Hofer-Proudfoot, of the league of international Amity whose home is in Chicago, delivered the feature address of the day. She declared that suffrage for women is bound to come, and that when it does, the world will look back on the times when women did not vote with much the same attitude that people look back on the days when negroes were enslaved in America. "Any change of this sort," said Mrs. Hofer-Proudfoot, "is accomplished only after great effort and with brilliant minds arrayed on both sides as was the case in our civil war. But despite the heroism and bravery and brilliancy displayed by the leaders of the 'lost cause' in our American civil war, the side of the right triumphed. And so will the side of the right in this great cause—the fight to give women what is due them—ultimately win." This evening a great many of the delegates to the Congress left to attend the coming International Suffrage Alliance convention in Budapest from June 15 to 20. The delegates will stop for a three days' visit in Vienna where they will join with 1,000 other delegates and visitors to the Budapest convention as guests of the Austrian Woman's Suffrage Committee June 10, 11 and 12.

HORSE TRADER IN
ROBBERY FOUND

Further investigation into the theft of a horse and wagon from S. Slotnik a granite cutter of Chelsea, revealed the fact that the horse trader who exchanged a worthless mustang and five dollars for the good horse stolen from Slotnik, was Frank Donnelly of Somerville. John McCarthy the companion of the man who actually did the trading was arraigned this morning in the Pemberton square court.

SUCCESSFUL RECITAL
LAST EVENINGApollo Orchestra Assisted Mrs.
Littlefield's Pupils

The pupils of Miss Maude Littlefield gave a very successful and well attended recital last evening in Music hall. A long program of music was rendered, containing many difficult selections, which the pupils delivered with remarkable skill. The Apollo orchestra, consisting of players all of whom are well known in Woburn, assisted with several numbers, and shared in the final rendition of the Pilgrim chorus from Tannhauser. The program follows:

Overture, Scarlet Crow, Orchestra; Piano Solo, La Morena, Irene I. Foster; Violin solo, Andante Religioso, Isabelle M. Burke; Piano Duet, Joyous Entry, Carl A. C. Foster, Miss Littlefield; Violin Solo, Menuett, Louise G. Roche; Violin Duet, Rondo-Final, Herman C. Roessler, Albert F. Roule; Piano Solo, Chant sans paroles, Eleanor H. Ray; Violin solo, Valse Lente from Sylvia, Albert F. Roule; Piano Solo, Veil Dance, Mary L. Reddy; Piano Violin Solo, Humoreske, Zingaresca, Emily A. Bromley; Selection, Lucia di Lammermoor, Orchestra; Piano Solo, Valse Al, Eleanor Johnson; Violin Solo, Tarentelle, Clara L. Fountain; Piano Solo, Cachouche-Caprice, Clara I. Marion; Violin Solo, Concerto A monor, Josephine F. Lynch; piano Solo, Caprice Espagnol, Alice A. Walsh; Violin Solo, La Traviata, Frederic V. O'Donnell; piano Duet, Pas des Cymbals, Alice A. Walsh, Clara I. Marion; Violin Solo, Rezinka, Miss Littlefield; Finale, Pilgrim Chorus from "Tannhauser", Orchestra and assisting violins.

GEO. W. LOW ONE OF
THE JUDGES YESTERDAYPrize Speaking Contest Held
in Highland School Yesterday

George W. Low of the local high school was one of the three judges at a prize speaking contest held yesterday in the eighth grade of the Highland school at Reading. Thirteen pupils contested for the prizes, which consisted of a five dollar gold piece, a two dollar and a half gold piece, and a dollar. The other judges were Charles H. How of the Wakefield High school, and Mr. Hamlin of the Andover high school.

IT WAS NOT
MEEHANS FAULTPortland Lost the Game but
the Woburn Boy Played
Without Error

The pupils of Mrs. Annie S. Lewis are to give a recital this evening in Winchester, at home on 1 Maxwell road. A number of pupils from Woburn will take part.

The committee in charge of ward 7 are holding an entertainment in St. Charles hall this afternoon for the children, at which Prof. Wilson, a ventriloquist, will furnish the fun.

W. R. C. 84 has been invited to have a float in the parade on June 17, and has accepted. All members of the corps who wish to ride on the truck are requested to notify Mrs. Annabelle Brown before Monday evening.

BOY SCOUT NEWS

For the past two weeks the Woburn scouts have been busy getting their uniforms. By June 17th quite a large number will have them. It looks as though the 17th would be the scouts busy day. Although the scouts as a whole will not take part in the parade there will be opportunity for some to assist in various ways. Others are going to do a good turn for the hospital by distributing programs to out-of-town people. The Tenderfoot scouts will be decorated with their badges at some time in the forenoon. During the rest of the day the Scouts will spend part of their time in their camps and part of the time assisting the Field day committee.

Oldtime Perfumes.
Perfumes were in common use in the ancient world, but views have changed as to the pleasantness of various odors. The smell of aloes is now considered disagreeable by the majority of people, but in the old days aloes, both as solid extract and as wood, formed a staple perfume or aromatic. Saffron, moreover, was a most popular perfume with the Romans, and was much in favor in England until about the sixteenth century.

"Father grows younger every day." And his new photograph hits him to a "T".

The old portrait taken twenty years ago, made him look so serious and old-fashioned—not a bit like he really is.

We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day.

A father says that he's glad he gave in and has made that having your picture taken is far from an unpleasant experience—*days*.

Miss Serena Yates will be be-
hind the counter at the Art store
on Montvale avenue during the
next two weeks. Mr. George
Tripp, formerly at the head of
the photograph department of
the store, now has complete charg-
es and is prepared to furnish all the
supplies needed by amateur pho-
tographers, as well as art supplies
and pictures.

FACTS and FOLKS

Mr. Charles W. Fitz of this
city will sail tomorrow on the
Franconia for a summer's stay in
Europe.

Mr. Parker H. Nason of West
Newberry spoke at the laymen's
service in the Congregational
church last evening.

Mr. and Mrs. Charles Dean
will move tomorrow to Worcester,
where they will make their
home at 15 Sturgis street.

The prizes which are to be
given at the whist party by the
L. O. O. Moose this evening are
on exhibition at McGrath's store.

Mr. and Mrs. Edward L. Lovering
of Manchester, N. H., who
have been visiting in town the
past week, returned to Manches-
ter Saturday.

Mrs. Edwin Haven, who has
been spending the past few days
with Mrs. William T. Carswell
has returned to her home in New
Braintree, Mass.

There is an interesting exhibit
of pictures in the window of Ken-
nedy's store, showing the five
piece auto fire department of
Springfield, Mass.

Mrs. James Given of 83 Bedford
street will be the hostess to-
morrow afternoon to the Golden
Rule circle of King's Daughters
of the Methodist church.

Captain Homer B. Grant U. S.
A. has recently been released from
the Weed hospital at Washington,
D. C., and has resumed his post
at Fort Adams, Newport.

The traffic on the Stoneham
line was tied up over an hour on
Saturday evening when one of
the cars went off the track in
Montvale, near Quinn's store.

Chief McIntosh is at Cambridge
today, prosecuting the cases of
the young men who broke into
the Gilman house on Arlington
street, Winchester, on several
occasions.

The June meeting of the Wom-
an's Foreign Missionary so-
ciety will be held Thursday June
12 with Mrs. M. A. Burnes, at
40 Mt. Pleasant street at 3 o'clock
in the afternoon.

Mr. A. W. Whitehead, although
a little weak yet from the effects
of his recent operation for ap-
pendicitis, has left the Choate
hospital, and insists that he is
well on the road to complete re-
covery.

Company G. of this city took
part Saturday in the annual par-
ade of the fifth regiment which
occurred in Boston, and excited
much favorable comment for its
excellence of discipline, and of
formation.

A special meeting of the board
of public works has been called
for 7.30 this evening. The horse
driven by Superintendent Martin
is unfit for further use and
Commissioner Kennedy of the
street department wants the
board to authorize the purchase
of a new horse and to dispose of
the present one.

CHILDREN'S DAY
IN NORTH WOBURN

The Children's Day concert
at the North Congregational church
yesterday was a very great success.
The church was very prettily dec-
orated with ferns, syringas and
buttercups which lined the banks
of a miniature Niagara Falls which
occupied the centre of the plat-
form. The decorations were under
the direction of the Christian En-
deavor society. Four infants were
baptised during the service and
three were taken into the church.

BAD THUNDER SHOWER SATURDAY AFTERNOON

Lightning Struck a Tree on
Second Street Near Mont-
vale Avenue

Considerable excitement and a
certain amount of damage was
caused Saturday by the severe
thunder shower which came at
two thirty in the afternoon. The
storm travelled around in a circle,
over Woburn, Winchester, and the
neighboring towns, while north of
Wilmington there was no rain
at all.

The greatest disappointment
caused by the rain was in the way of
baseball games, all of which had to
be called off on account of the
flooded condition of the fields.
Library park in particular was in
better condition for water polo
than for base ball when the rain
stopped. Here the All Woburn
team was planning to play the
champions of Maine, the York
Beach team, and a hard fast game
was anticipated. But the cham-
pions came no nearer to the ball-
field than the railroad station.

Many trees throughout the city
were more or less damaged, small
boughs being blown off, and the
leaves scattered over the streets.
In some cases the rain gutted out
furrows in the soft sidewalks. As
far as is known, the lightning
struck only in one place in the city
proper, on Second street, near
Montvale avenue. Here it struck
a tree, breaking off several boughs
and much of the bark, and then
ran off onto a telephone wire, put-
ting out of commission most of
the telephones in the vicinity.
Some of the residents of the neigh-
borhood were slightly affected by
the shock of the noise and danger.
Several other bolts have been re-
ported in the neighboring towns,
none of which, however, caused any
serious damage.

Woburn Veterans To
Leave for Gettysburg

Post 161 to be Represented at
Anniversary Celebration

Three veterans from Post 161
G. A. R., one of whom, Austin
A. Fish, is over eight years old,
will make the trip down to the
historic battle field of Gettysburg,
to take part in the celebra-
tion of the anniversary of that
battle which is to take place on
July 1, 2, 3, and 4. The party
consisting of Austin A. Fish, War-
ren F. Taylor, and Nathan E
Melendy, will leave this city June
30, arriving in Gettysburg late
the same night or early the next
morning. On their arrival a cot
will be assigned to them in one of
the hospital tents erected on the
battlefield, where they will live
throughout the three days of the
celebration. They will leave for
Woburn late July 4 or the next
day.

o-o-o

CITY CLERK McHUGH
ENJOYED OUTING

City Clerk Bernard F. McHugh
was at his city hall desk this morning
and reports that he had the time
of his life for the past three days
with the Massachusetts City clerks
association on their annual summer
outing.

The party left the state house,
Boston, Friday noon, spending
most of the time in New Hampshire
and they returned early
last evening. The entire trip was
made by auto.

o-o-o

PLEASANT SURPRISE PARTY SATURDAY

Miss Marjorie Leighton the
Hostess at Radcliffe Col-
lege

Miss Marjorie Leighton of this
city was very pleasantly surprised
at Radcliffe college Saturday
afternoon. Upon the summons
by telephone of a college friend,
Miss Leighton went unsuspect-
ingly from her home to the college
there to find assembled a number
of her friends. Immediately a
progressive party began. Lunch
was served after which the party
visited different parts of the col-
lege buildings, including the Whit-
man dormitory. The invited
guests were next taken to the
home of Miss Jackson, with whom
Miss Leighton lives, where an-
other luncheon was served. In
behalf of the party Miss Bertha
Walker presented the hostess with a
gold pin.

Miss Leighton has just received
a scholarship which enables her
to spend the summer in Germany.
She will sail on the S. S. George
Washington from New York next
Sunday morning.

Although taken completely by
surprise, Miss Leighton proved an
excellent hostess. Among
those present were: Mrs. Edward
Leighton, Bessie Leighton, Mar-
jorie Leighton, Alice Winn, Doris
Carswell, Marion Remington,
Celia Whithed, Anna Dearborn
of Burlington, Bertha Walker of
Stoneham, Edna Walker of Stone-
ham, Carolyn Ford of Rockland,
Mass., Rosa Seymour of Cam-
bridge.

EXHIBITION TO BE
HELD OF DRAWING

Work of Public School Pupils
to be seen in Hanson
School

A very interesting exhibition
of drawings is to be held this year
in the Hanson school, on Wednes-
day, Thursday and Friday, June
11, 12, 13. The work of pupils
from all the schools will be seen,
showing the progress made during
the year under the direction of
Miss Frances Walley, teacher
of drawing. The exhibition will
be open from 3.30 to 5.30 in the
afternoon, and from 7.30 until
9.00 in the evening. A large num-
ber attended the similar exhibition
held last year, and every
one who is interested in this work
or in the pupils will find it worth
while to see the exhibition.

EXTRA--3 O'CLOCK

HEADED NOW BY ETTOR
(By United Press)

Boston, June 9—The I. W. W.
strikers under the personal direction
of J. W. Ettor sent out flying
squadrions of strikers to each place
today to call out men and encourage
the strikers. Pickets were es-
tablished at all points to protect
strikers, and see that none changed
his mind. The police kept the
pickets moving, but there was no rioting
or violence.

ADAMS EXPRESS
COMPANY AMENABLE
(By United Press)

Washington, June 9—The legal
game of hide and seek that has been
going on for years between the
government and Adams express
company was ended today when
the supreme court decided that the
express company may be liable
for criminal prosecution for violation
of interstate law. The company
has always claimed that it was a
joint stock company and not a
corporation, and therefore
not to be meddled with.

STEAMER OLINDA ON FIRE
(By United Press)

Washington, June 9—A dis-
patch received here today states
that the Cuban steamer Olinda is
making for the nearest port with
fire in her hold. The dispatch does
not give the location of steamer.

CALL ON NATIONAL BANKS
(By United Press)

Washington, June 9—The Com-
ptroller of the Currency has asked
the National banks for a statement
of their condition to June 4.

THOUGHT TO BE SUICIDE
(By United Press)

Boston, June 9—In an attempt
to resuscitate Lillian Glass, aged
18, a victim of asphyxiation in a
West end house today a pulmoter
was employed. The police think
it a case of suicide.

FOUND DEAD IN NEWTON
(By United Press)

Newton, June 9—Because of the
unusual circumstance attending the
finding of the dead body of a man,
supposed to be Edward Farris of
Washington, in a lonely field today,
an autopsy will be held in the hos-
pital morgue. It is thought he
died from poison. There were no
marks of identification. The man's
pockets contained a single nickel.

o-o-o

BIG FIRE AT SPRINGFIELD
(By United Press)

Springfield, June 9—Fire de-
stroyed today the building occupied
by the Heer Dry Goods Co., on the
northeast corner of the square and
more than 20 other buildings. Loss
from \$700,000 to \$1,000,000. The
loss sustained by the Heer Co. will
exceed that of all others by \$200-
000. The fire was in the heart of
the business center.

o-o-o

Protection Against Moths.

Now that the hot weather is here it is important that you
take care to properly protect your heavy garments against moths
before packing away for the summer.

CAMPHORINE

is a combination of best known ingredients to keep the moths
away and still it is an agreeable substance to have in a closet.

We can positively guarantee that moths will not accumulate
where camphorine is used properly.

A little caution used now will prevent much disappoint-
ment when you want your heavy garments in the fall.

A generous package 15c.

If you prefer the old-fashioned moth balls we have them
at 5c a pound.

THE WASTE OF DISHONESTY

In these days when the "practical" dominates current thought, the inculcation of precepts becomes so quaint as to make a school master seem antique who preaches to his pupils that "Honesty is the best policy." With modern curricula of schools crowded for time so that efficiency becomes an exact, not to say gloomy, science, there is really little opportunity for the school master to take his school in hand and give them straight from the shoulder talks on morals. A great deal of that sort of thing used to be done and if done with ability, was seed sowing for the most part, on good ground. For the wilful recalcitrants there was always the rod which forced them to remember that, whether they willed or no, orders must be obeyed and discipline maintained.

It may be that effective preaching of morality is still practised in the schools but we hear now and again suggestions that the present public school system is lacking in ethical instruction. The teaching of the practical arts avails little if the man behind the set of books, or the plane, or the machine, or the man behind anything, is not honest as well as technically fit, honest in the broadest meaning, of the word, or upright, clean life, giving honest service for his compensation and with such genuine ambition to succeed that the "well done good and faithful servant" encomium will sound better in his ears than the jingling coin of increased wages.

But what enormous waste of effort and money is occasioned not alone by the dishonesty that is a disclosed or undisclosed fact but by the expensive system of defences anticipatory of dishonesty. What vast sums are spent in bonding officers of corporations, clerks in business houses, and public officials! The many successful bonding companies, with all their expensive offices and officers, organized to make profit and not to furnish insurance at the bare estimated cost of the losses occasioned by the unpredictable minority of the dishonest, attest this.

Would not the high cost of living go to smash if only all men should suddenly resolve at once to be and remain scrupulously honest, if only all men should suddenly resolve to exempt the great commandment, "Thou shalt love thy neighbor as thyself?"

But even the expensive system of safe guards and checks does not avail against possible dishonesty. The disaster to Middlesex county occasioned by the defalcation of bookkeeper Smith of the Cambridge House of Correction, by which \$35,000 has been lost, has occurred in spite of the expensive system of defence.

Auditors, accountants, controllers of county accounts, commissioners, Boards of Visitors, come and go and expert as they are, they and we must all come to the conclusion that you cannot make men honest by statute. There was no lack of law in this Middlesex county case. First, the County commissioners are charged by law to "examine all accounts of the master of the House of Correction" (in this case the Sheriff). Again, a statutory officer, the controller of accounts of County Officers, is required to visit "all county officers who receive money payable by them to the County treasurer" and "to

make an examination of their accounts and vouchers." And still further, the Prison Commissioners are required by a law more than forty years old to visit each jail and House of Correction at least once in six months for the purpose of inspecting the books and all the affairs thereof. It is not claimed that this has been done.

There is such a negligence in carrying out a trust as to amount to gross maladministration which can be visited with heavy penalties. "A public office is a public trust" and the breach of such a trust is wasteful dishonesty.

The agencies above cited could have with ordinary diligence discovered the shortages years ago. What expensive system will now be devised to supervise the county commissioners, the Controller of county accounts, and the prison commissioners? Who will "check" the "checkers?" Verify the millennium of an honest world has not come "already yet."

TEACHERS' TENURE

Governor Foss' veto of the Teachers' Tenure bill recently passed by the Legislature furnishes an instance of the sound business judgment of His Excellency which no one doubts he possesses but which he does not always display.

The bill in substance provides that after five years of consecutive employment any teacher shall be entitled to hold her position and cannot be removed therefrom except upon charges preferred and after a hearing given.

The Governor says that the bill would "accomplish a distinct demoralization of the school system in the towns and cities of the state. It will make it practically impossible for a school committee to dismiss a teacher who has completed five years of service. It is obvious that the gradual letting-down of a teachers' efficiency will not lead to dismissal because this sort of personal deterioration is insidious and cannot be expressed in technical charges supported by affidavits such as would hold in a case at law."

Any one who is at all familiar with the administration of school affairs in almost any town or city in the state knows that the efficiency of the teaching force is already more reduced by the retention of teachers who have gradually retrograded in their work, but whom it is a delicate and unpleasant and difficult matter to discharge, than through the use or abuse of the right which committees now have to drop teachers when they desire to do so.

The Governor points out that the weak point and the only weak point in the Civil service system is that it tends to keep incapacitated employees in their positions. Observers of the operation of Civil service laws have long known this and in fact there should be a pension system running along side of the civil service system to take care of all deserving employees who have become worn out in the service. Nothing but the enormous expense which ultimately would result from a general pension system prevents its adoption.

It is true that here and there a political over turn in a school committee is followed by arbitrary and extensive changes in the teaching force in a municipality and such abuses of power undoubtedly have been the cause of the proposed legislation, but these instances have been so rare that it would seem that they do not justify the bill now under consideration which would tie the hands of school committees all over the state and make it impossible to improve the standard of the teaching force or supplant superannuated teachers by new and better ones, until such time as the former should come to realize their unfitness or be driven by physical disabilities to retire.

It is inevitable that much sentiment and great consideration for the feelings of individual teachers leads committees even now to keep them in their positions longer than they ought to stay in many

cases. Leaders in educational work in the state deplore the prospect of the passage of the bill now before the legislature. The House first sustained the Governor's veto and on the following day reconsidered and passed the bill over the veto as a result of the arguments of certain promoters of the measure. The senate has yet to act. It is to be hoped that it will sustain the Governor, for we do not believe that the time has yet come when such legislation is necessary.

LHERMAN ON WAR

Apropos of something that has been said in these columns before in regard to world peace, Senator Lawrence Y. Sherman of Illinois said something the other day that deserves to be repeated everywhere. He summed up the whole situation in a paragraph, which follows:

"All human history is written in the blaze of hostile camp fires, and its quickening music made on the march and battle field. Because it has always been so, it need not continue to the end. Hope was the gift of the gods to man and so we will not cease to seek a better way. In some far-distant ages the sense of justice will be stronger than hostile squadrons. Then the voice of civilization falling from the collected lips of her mighty nations will rule. Fire and sword will not arbitrate international disputes with injustice and slaughter. To that goal the generations yet to come will, as of other years, walk in blood and tears. New graves will heave their grassy mounds above the soldier's soulless clay. Other widows, as of old, will gather their fatherless brood in their stricken homes, and with set white faces make atonement for the ambitions, brutality and crimes of men."

Martin O'Brien of Lowell thought he was dreaming the other day when he saw a five dollar bill growing on a tomato plant. However, he picked the bill, but woke up immediately after. The wind had blown the bill there, the woman who lost it, saw him pick it up, had him arrested, and the judge gave him six months. This is a hard hard world.

What these trustees of the Bromfield street church who are busy fighting in Boston fail to see is the complete unimportance of the subject of their controversy, compared to the harm they are doing the church in giving people another reason for sneering—"How these Christians love each other!"

The government's laundry is reported to be doing fine work in the washing of the soiled bills that come in. Some people would like a laundry to wash the taint of tainted money; but "there ain't no such thing."

In Brockton the other day an automobile was run down by a watering cart. That must be a fast town. But what actions for a water wagon! If it had been a pony express, it might have been understandable.

The house of James H. Flood in San Francisco is to have eaves of solid gold. What an opportunity for porch climbers! Also what a waste of good gold. Are there no poor to be fed?

QUARTERLY CONFERENCE WILL MEET

The first quarterly conference of the Methodist church will be held this evening in the church vestry, with the District Superintendent presiding. The district superintendent wishes to

meet the members of the Sunday school board at seven thirty before the opening of the conference. Following the meeting there will be a brief meeting of the official board.

COMMUNICATION

To the Editor of the JOURNAL:

Some years ago I suggested through the columns of the local press, the advisability of establishing a municipal swimming plant on Horn pond. The apparent necessity of having a guardian for the protection of the South end playground and the city's apparatus there makes the possibility of such a plant, with comparative little expense, seem nearer.

Of all forms of athletic exercise none is at once so beneficial and so useful as swimming. Writers on athletics say that it is the one exercise that brings into play all the muscular action of the body. Its utility is inestimable. We now and again hear of a sailor who cannot swim; we certainly hear occasionally of the drowning of expert swimmers, though even here the fatalities are very often the result of unnecessary hazards taken by the over-confident swimmer, but we do not hear in the press of innumerable cases where knowledge of swimming has saved the life of the swimmer himself, independent of cases where he is called upon to save others.

There ought to be a swimming plant on Horn pond adjacent to the south end playground. There is no sport to which the young of both sexes cling with more tenacity than swimming when once the art is acquired.

Bath houses could be constructed and the guardian of the playground could also be instructor for the boys. A college girl, home for the vacation, would be glad to earn something while doing a very valuable service. I am not sufficiently versed in methods to suggest the best and most inexpensive plan, but other places have such facilities at relatively low cost. I believe it is the duty of the state to require every normally healthy public school pupil to learn to swim. The art once learned is never lost.

There is a popular notion that there is a law against bathing in Horn pond. I know of no statute ordinance prohibiting it, except when the water "is used for the purpose of domestic water supply" (Revised Laws Chap. 75, Sec. 129). The local ordinance merely prohibits "swimming or bathing in a nude state so as to be visible from any dwelling house or street."

This ordinance ought to be amended so as to prohibit altogether such bathing or swimming on any waters of Woburn where there is general boating or canoeing.

Samuel W. Mendum.

ARLINGTON PAGEANT SUFFERED FROM RAIN

Considerable Damage by Heavy Shower Saturday

The pageant at Arlington was one of the heaviest sufferers from the rain Saturday afternoon. An unusually large crowd had gathered both on the grounds themselves, and on the lake in canoes, to witness the affair, when the rain descended and the floods fell. The canoes fled to the nearest club house, which happened to be the Medford Club while the crowd on shore fled to the tents. Even there, however, they were not safe, for considerable damage was done among them. The entire roof was taken off one tent, the small wooden structure used as a box office was completely destroyed, and several of the smaller tents were blown down.

Couldn't Say It.
Sandy MacPhee and wife were discussing his drinking habits, when she said to him: "Sandy, you know I never mind much when you get gentlemanly drunk, but my, when you get so beastly drunk! Sandy, when you see you have all you want why don't you ask for lemonade, or sarsaparilla?" "Well, I'll tell you, Annie," said Sandy, "when I get all I want I can't say sarsaparilla."

COMMONWEALTH OF MASSACHUSETTS LAND COURT

To the Honorable, the Judge of the Land Court:

Respectfully represents James Fraser of Woburn, in the County of Middlesex and Commonwealth of Massachusetts, that he is the owner in fee simple of a certain parcel of land situated in said town, bounded and described as follows, namely:—Easternly by Court Street; Southerly by land formerly owned by Charles M. Munro, Northwesterly by land formerly owned by James Fraser, being the same premises conveyed to your petitioner by John Howard Nason, by deed dated August 4, 1873, in the Probate Court for Middlesex County, Massachusetts, and registered in said Probate Court by Charles M. Munro, the Executor named in said instrument; that said John Howard Nason left a daughter, Ellen F. Cooper, his sole heir at law and only child, his only child, and she died in 1885, and her name was in his will; that on or about February 16, 1885, said Ellen F. Cooper, her then widow, sold the above described land to John Howard Nason, whom your petitioner claims title, what purported to be a discharge of said mortgage, which instrument is recorded with said Deed, Book 1811, Page 200, and also the same premises described in a certain mortgage given by Charles E. Carter to John Madan, dated June 15, 1885, and registered in said Probate Court, Deeds, Book 912, Page 15, to secure the payment of his debts, of which the amount due him is \$1,000.

Your petitioner represents that said John Madan died testate, February 22, 1878, leaving a will which was duly approved and allowed on March 4, 1878, by the Probate Court for Middlesex County, Massachusetts, and registered in said Probate Court by Peter L. Converse, the Executor named in said instrument; that said John Madan left a daughter, Ellen F. Cooper, his sole heir at law and only child, his only child, and she died in 1885, and her name was in his will; that on or about February 16, 1885, said Ellen F. Cooper, her then widow, sold the above described land to John Howard Nason, whom your petitioner claims title, what purported to be a discharge of said mortgage, which instrument is recorded with said Deed, Book 1811, Page 200, and also the same premises described in a certain mortgage given by Charles E. Carter to John Madan, dated June 15, 1885, and registered in said Probate Court, Deeds, Book 912, Page 15, to secure the payment of his debts, of which the amount due him is \$1,000.

Your petitioner represents that said John Madan died testate, February 22, 1878, leaving a will which was duly approved and allowed on March 4, 1878, by the Probate Court for Middlesex County, Massachusetts, and registered in said Probate Court by Peter L. Converse, the Executor named in said instrument; that said John Madan left a daughter, Ellen F. Cooper, his sole heir at law and only child, his only child, and she died in 1885, and her name was in his will; that on or about February 16, 1885, said Ellen F. Cooper, her then widow, sold the above described land to John Howard Nason, whom your petitioner claims title, what purported to be a discharge of said mortgage, which instrument is recorded with said Deed, Book 1811, Page 200, and also the same premises described in a certain mortgage given by Charles E. Carter to John Madan, dated June 15, 1885, and registered in said Probate Court, Deeds, Book 912, Page 15, to secure the payment of his debts, of which the amount due him is \$1,000.

Your petitioner represents that said John Madan died testate, February 22, 1878, leaving a will which was duly approved and allowed on March 4, 1878, by the Probate Court for Middlesex County, Massachusetts, and registered in said Probate Court by Peter L. Converse, the Executor named in said instrument; that said John Madan left a daughter, Ellen F. Cooper, his sole heir at law and only child, his only child, and she died in 1885, and her name was in his will; that on or about February 16, 1885, said Ellen F. Cooper, her then widow, sold the above described land to John Howard Nason, whom your petitioner claims title, what purported to be a discharge of said mortgage, which instrument is recorded with said Deed, Book 1811, Page 200, and also the same premises described in a certain mortgage given by Charles E. GARDEN PARTY

JUNE 14, 1913

Afternoon and Evening

At the residence of WM. W. HILL,
827 Main St., North Woburn, under
the auspices of the Parish Aid Society
of the North Congregational Church.

Fruit Punch, Home-made Candy, Ice Cream and Cake
for sale. Luncheon of Salads, Bread and Butter, Ham
Sandwiches, Tea and Coffee, served from 5 to 6.30.

In the afternoon the "Warneka Wanderers" will dance
and invite you to their tent, where they will have fancy
articles on sale, also a mystery kettle. There will be two
short farces given in the afternoon, to which an admission
of 10 cents each will be charged.

In the evening a varied and delightful entertainment
will be given on the south lawn at which talented artists
will appear.

The audience will sit at small tables, where they may
be served with ice cream, cake and fruit punch at
frequent intervals.

Orchestra afternoon and evening. No admission
charged to enter the grounds.

COME AND BRING YOUR FRIENDS

and help us to make this party a grand success, as the
proceeds go towards the building of our new Parish Hall.

The Day

Hospital Field Day Notes

There will be an important meeting
of all committees held in Con-
cert hall, Tuesday evening, June
10 at 8 o'clock. This is the last
general meeting and all should attend
if possible. Complete plans
and all details will be settled and
the rainy day program outlined.

The automobile committee W.
E. Curtis chairman, is to have a
meeting in the Savings Bank room
Monday, June 9, at 7.30 p. m.
Many automobileists have offered
the use of their machines for giving
rides to and from the park. A
ten cent ride to the Park is a
pleasure and convenience to many
and a financial help for the hospital.

In many cities and towns an
annual donation of five to ten dol-
lars in aid of the hospital is ex-
pected from every one. In Woburn
people respond so liberally for the
June 17 field day, it has not been
necessary to ask contributions. By
spending your money freely and
helping wherever you can you are
helping carry on a great charitable
organization.

Features for the free open air
Hippodrome to be furnished by J.
W. Gorman will consist of thrill-
ing and artistic features of mid-
air feats, ground and lofty tumblers
showing original, novel and sensa-
tional creations. Equilibrists in
a most artistic exhibition of equi-
pose and gymnastic surprises. Jesters
and funsters in merry antics
for the amusement of old and
young. A show of sensations and
merriment.

The fire department is in the
last division of the parade so that
in case of a fire alarm during the
parade they could respond readily
without having to dash through the
other divisions. The Hook and
Ladder truck will be the last piece
of apparatus in the parade as it
requires an open and clear space
to make a quick turn.

The advance sale of watch fobs
has been phenomenal and far greater
than was expected. The original
order for fobs has already been
duplicated and it is doubtful if
this will give enough. These fobs
are exceptionally good value and
are really worth more than the
price for which they are sold. The
school children are the salesmen
for fobs and are proving to be
good workers and salespeople.

Monday, June 16, will be a busy
day at Forest park, the tent supply
people of Boston will have a corps
of workmen assisted by local work-
ers on the ground erecting tents
and it means busy day to put up
all the required canvas.

The 1912 Hospital Field Day netted
about \$1800. A large part of this
sum was used to establish free beds
at the hospital. Only those who
came in direct touch with the work
realize and know the great amount
of good this money does. Few
people realize how many patients
the hospital cares for every year.
When the hospital was first planned
the question was asked by many, "Do we need a hospital?"
now the wonder is how did we
get along without a hospital so
long as we did. Surgeons and ex-
perts from Boston and other cities
who visit and know the Choate
hospital, pronounce it one of the
best for its size in the country.
The grounds are very attractive
and contain many expensive and
beautiful imported trees and plants.
Woburn can well be proud of such
a fine institution. Visit it if you
never have, and have your friends
do so.

Have you noticed those attractive
signs for June 17 on the Band
stand. They are receiving much
very favorable comment. Many
more are being put up in different
parts of the city.

Those who did not have an
opportunity to see the High school
boys drill June 4, will have an
opportunity on the 17th. The
military bearing and remarkable
proficiency shown by Woburn's
young soldiers sends a wave of
enthusiasm and patriotism through
all. Their prize drill after the
parade reaches the park will at-

tract a large gathering of people.
Eddie Wall as chairman of the
Country store is proving himself
to be a great merchant. In fact
he seems to be such a natural
store keeper his friends would not
be surprised to see him give up
journalism and become a merchant
prince.

In the childrens' tent Mrs.
Sylvester and Mrs. Thomas Calla-
han with a hard working committee
have planned a grab bag for the
children that will prove very at-
tractive to the youngsters.

Dan Careys committee have a
stunt to take the place of an African
dogger and something so much
better it would make the dogger
turn green with envy.

Get a reserved table for the Pop
concert early. This concert is
going to be a hummer from start
to finish. Fred Rice, Frank Mag-
uire, M. J. Meagher, Dan Norris,
Peter Caulfield, Dode Parker and
Harold Johnson are some of the
good little workers who will help
make things pop.

But say what workers women
are. The amount of supplies being
planned by the committees on
luncheons, ice cream, baked beans,
coffee, doughnuts and pies and
all kinds of eats and drinks looks
like enough to feed an army but
they know from experience the
amount of food necessary for a
hungry out door gathering.

Fred Leathe estimates that the
pop corn and peanuts to be sold
by his committee if laid in a line
would make a line extending from
Library park to Revere beach and
then have a few dozen peanuts left
over.

The ticket committee report a
large advance sale of tags. Every
one buy a tag and wear it all day.

The boy scouts in addition to
doing messenger service are to
exhibit a model camp that will be
interesting to not only boys but
every one. Mr. Hosmer and Mr.
Evans guiding this committee are
old time campers and know all the
stunts of a camp.

Boy scouts and Mianimo Indian
camp fire girls camping on the same
field sounds like the happy family.

If you want some fun get up
some funny stunt or rig and enter
the special features in the parade.
Charles T. Mahoney and Thomas
J. Cannon can give you all the
details and you might get a prize.

If you want cigars, step up to
Zepp.

A large orchestra has been en-
gaged for the dance in the Armory
in the evening.

Ed Hart is the man in charge of
the transportation and Ed knows
how to do it.

The reason the parade is to go
up Mishawum road instead of to
the park by the Main street en-
trance is because there are to be
so many large trucks with floats
in the parade it was impossible
to have them take the two very
sharp curves in the road through
the park. The parade is to be so
long and large a good straight road
is essential.

There will be more carnations
sold in Woburn June 17 than ever
before in one day in any city in
Middlesex county.

Remember band concert on the
Common at 7.45 a. m. Parade
starts at 9 a. m. sharp.

— O — O —
DOES NOT INCLUDE
STREET CAR LINES
(By United Press)

Washington, June 9—Juris-
diction by the Interstate com-
mission over interurban street car
lines, that run over state lines,
was denied today by the Supreme
court in a case involving the line
between Omaha, Nebraska, and
Council Bluffs, Ia. The com-
mission claimed jurisdiction and
reduced the fare across the Mis-
souri bridge five cents. This ac-
tion was contested, and the court
of Commerce enjoined the com-
mission. The Supreme court
supports the injunction order.

LEXINGTON IS THE MECCA

Of Thousands of People Eager to Participate in 200th Anniversary

The historic town of Lexington began a notable 3-days observance of its 200th anniversary yesterday. It was known as "Historical Day" Today is "Old Home Day," and tomorrow will be "Military Day."

Yesterday's exercises were held in the town hall under the direction of Alonzo E. Locke chairman of the general committee. A chorus of 160 school children contributed a number of appropriate and patriotic selections. James Phinney Munroe of Boston, but formerly of the old town, delivered a very interesting and exhaustive historical address. Rev. Edward Cummings, a native of Woburn, was orator of the day. His topic was "Looking Forward," and his eloquent, optimistic words carried his audience in spirit into the future, when the town should grow into a city and the little village should become a matter of history.

Today, the program comprises athletic sports in great variety. The local clubs and societies are holding open house, and hundreds of oldtime residents are thronging back to former familiar scenes and friends of their youth.

Tomorrow will be the attractive day without doubt. It will be a day of military pageantry. Gov. Foss and Lieut. Gov. Walsh will be guests of the town, and there will be a monster military parade. All known companies wearing the Continental uniform have been invited and the following organizations have signified their acceptance:

The second company, Governors Foot guard, of New Haven, Conn. Lexington Minutemen, Varnum Continentals of East Greenwich, R. I. detail of the Ancients, Amoskeag Veterans' association, National Lancers, British Naval and Military Veterans' association.

The town is draped with bunting very generally, and the gala occasion is backed by the hearty cooperation of all the citizens.

B. AND M. REFUSES TO REPLACE TRAIN

Insufficient Patronage the Reason Given for the Refusal

The Montvale Improvement association has received notice from the officials of the Boston & Maine Railroad that they are unable to replace the 9:35 train from Boston, for which the society has asked. The reason given is that the patronage is not sufficient to pay the expenses of the train. Further action will be taken in the matter at the next meeting of the society to be held next Friday evening, at which meeting the details of organization will be completed.

REPRESENTATIVE H. L. ANDREWS ENTER-TAINED COLLEAGUE

Representative Parker H. Nason of West Newbury, was the guest of Representative Henry L. Andrews yesterday. He delivered an interesting address at the First Congregational church Sunday evening taking for his subject "Finding Something New out of the Old."

Young Grammarian. A teacher gave an examination on the comparison of adjectives and adverbs following a series of lessons upon that subject. One little boy was called upon to compare the word "far." With much shuffling of embarrassed feet, he replied: "Positive, far; comparative, farther; superlative, grandfather."

CHILDREN'S DAY IN THE CHURCHES

Recitations Given at the Methodist and Baptist Churches

Large audiences were the rule yesterday at the celebration in the local churches, of Children's Day. In the morning children were baptized and received into membership, while in the afternoon, at 4 o'clock in the Baptist church and at 6 o'clock in the Methodist church, concerts were rendered consisting of music by chorus choirs, with recitations under the auspices of the Sunday schools. The First Congregational church will celebrate the day next Sunday, June 15.

Program at the Baptist church.

LOWELL VS. WOBURN AT LIBRARY PARK

Base ball teams representing the Woburn and Lowell branches of the Bay State Street railway company will clash at Library park next Friday afternoon. About a week ago the same teams met at Lowell and the Woburn boys won out in a slashing contest by a score of 4 to 2. The Lowell players were not satisfied and the return game for this week was arranged.

THOS. H. CARPENTER LAID AT REST

Father Keegan conducted a high mass of requiem this morning for Thomas H. Carpenter of Church street, who passed away Saturday morning at the Haymarket Relief station in Boston. The services was followed by interment at Calvary cemetery. The pall bearers were Fred Greenwood, Michael Connolly, Charles Rider, Warren Lewis, Joseph Meagher, and James Kennedy.

To Prevent Pounding Your Finger. When a tack has to be driven in an inconvenient corner, force the tack through the end of a strip of paper and hold the paper instead of attempting to hold the tack. This will save the finger and thumb from the hammer and the recording angel from making an entry on the wrong side of your page.

DEATH FOLLOWS GOLDEN ANNIVERSARY

Dr. William F. Gordon, whose 50th Anniversary was May 6, Died Yesterday in Stoneham

In its issue of May 7 the JOURNAL told the story of the Golden Wedding anniversary of Dr. and Mrs. William Francis Gordon of Stoneham. Last night Dr. Gordon, who was widely known as the proprietor of a drug store in Central square, Stoneham for 39 years, retiring five years ago, died at his home, 10 Hersam street, Stoneham.

Dr. Gordon was born in Boston, Dec. 3, 1838, son of Charles P. and Sarah (Searles) Gordon. His father was a silversmith in that city, for several years commanded the old time Charlestown City Guards.

The son early in life began an apprenticeship in the drug business with a prominent wholesale house in Boston which was located where the Daily Globe building now stands. Later he embarked for himself, and 44 years ago went Stoneham. In all this section the store and genial proprietor were well known. When he retired 5 years ago he was the second in continuous business service in his town.

May 6, 1863 he married Miss Mary Catherine Richardson at the Congregational church in Melrose. She survived him, as do two children, three grand children and three great grand children. He was a member of Columbian lodge and Columbian encampment I. O. O. F. and Fells Lodge A. O. U. W. Funeral services will be held Wednesday at 2:30 p. m.

S. OF V. TO HOLD LADIES' NIGHT

Auxiliary to be the Guests at Social Event Wednesday

The Sons of Veterans and the club are joining to give a royal welcome and entertainment to the auxiliary at the Ladies' Night which they are going to hold this coming Wednesday evening. The S. of V. have many times expressed their appreciation of the splendid work which the auxiliary are joining to give a royal welcome and entertainment to the auxiliary at the Ladies' Night which they are going to hold this coming Wednesday evening. The S. of V. have many times expressed their appreciation of the splendid work which the auxiliary is doing, and is planning to make this a rousing good testimonial to their appreciation of that work. A combination of amusements has been prepared to add a good time is a certainty. The committee in charge of the affair consists of E. E. Foss, chairman, Alfred Elson, William Mahan, Daniel Towse, and Marcus H. Cotton.

L. O. O. MOOSE WILL HOLD WHIST AND DANCE

One of the most popular dancing parties of the season is to be held tonight under the auspices of the loyal order of Moose. The dancing will be preceded by whist, for the best players of which suitable prizes have been offered, which may be seen on exhibition in the windows of McGrath's store. A good time is to come to all those who attend, and a big crowd will be there.

NORTH WOBURN

CITY GETS MODEL CHARTER

Cleveland, O., is to Abolish All Party Elections and Have Recall System.

Cleveland, O.—Non-partisan elections, with the absolute abolition of political parties, as far as municipal affairs are concerned, is assured to Cleveland in the terms of the new city charter, which has been completed. Experts declare the proposed charter is a model.

Louis Fereulio of Boston spent Saturday with Peter Brogna of North Main street and visited other friends in North Woburn.

Considerable excitement was caused last evening at the School street car stop when seven or eight Italians who were quite a little under the weather and wanted to get to Winchester had a squabble among themselves before deciding whether they would take the car or not.

At the Christian Endeavor meeting at the North Congregational church last evening a committee was appointed to look into the feasibility of forming a Junior Christian Endeavor society. The committee will meet at the home of Mrs. Ernest Milner on School street Tuesday evening at 7:45.

Miss Bessie Barker attended the graduation exercises of the Junior Endeavor society of the Baptist church, Malden, yesterday afternoon.

Misses Martha and Ruth O'Brien of Newton visited Miss Bessie Moore of Winter street yesterday afternoon.

The Clairmont orchestra which is composed of North Woburn people and managed by Mr. Peter Brogna is playing once a week at Pinehurst. Their next engagement is next Saturday evening.

An automobile owned by Henry A. Frost, president of the Frost Coal company of Dorchester, got into a difficulty Saturday opposite the North Congregational church when it slid into the ditch in which the new water main was laid. The ditch had all been filled in but not tamped down properly and after the heavy rain was a shaking mass of mud. The automobile which was on its way from Lowell, and was a large Winton six touring car, kept the right side of the street not knowing there was anything wrong. In consequence two wheels went down in the ditch and the machine careered over to one side. Chief of Police McDermott who had passed by and was shown the danger five minutes before the accident but had done nothing to stop it, on his way back stopped and had quite an argument with Mr. Frost who swore vengeance on the city. Mr. Frost then telephoned the Woburn authorities who sent two men up and jacked up the car until planks were put under the wheels, when it came out on its own power with only a tire damaged and the gears full of grit. The car contained Mr. Frost, Mrs. Frost, her sister and the chauffeur, and was only going about five miles an hour when it struck the hole.

o-o-o

RAIDS YESTERDAY

The raiding squad of the Woburn police department searched for liquor in two places yesterday. At the home of Mrs. John H. McCarthy in the south end, the chief aided by two patrolmen made a lengthy and thorough search, which lasted for almost an hour but nothing was found. At the home of Mrs. Mary Meehan, off Water street, a number of empty beer bottles were seized and in a house next to the Meehan home about 35 pints of whiskey were found and taken to the police station.

o-o-o

COURT NOTES

Henry J. Lyma of Winchester was fined \$5 for intoxication and \$10 for assault by Judge Johnson this morning.

The assault occurred in the railroad shanty in the center of the town and a young man named McGroarty had a few teeth knocked out by Lyma according to the story told by the police.

"Father grows younger every day." And his new photograph hits him to a "T".

The old portrait taken twenty years ago made him look so serious and old-fashioned—not a bit like he really is.

We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day.

And father says that he's glad he gave in and had it made that having your picture taken is not from an unpleasant experience a-days.

MIANIMO CAMP FIRE GIRLS

LOCAL JEWS TO CELEBRATE FEAST

It is essential that every girl who is to take part in the June 17 Hospital Field Day be present at the rehearsal at Forest Park tomorrow afternoon. Meet at Miss Richardson's on Mishawum road, at four p. m.

The Jewish Whitsontide feast will be celebrated tonight by members of the Jewish faith.

Services will be held at the home of Louis Pinney 150 Main street and the observation of the feast will continue three days.

FACTS and FOLKS

Today is military day at Lexington.

Box 26 was rung in this morning for a false alarm.

The Sunshine girls will hold a dance this evening in the St. Charles hall.

Charles Fitz sails today for Europe. What will the Towanda club do now?

Mr. Benton L. Stokes of 17 Mishawum road has moved to 6 Warren avenue.

H. M. Aldrich and family will leave this week for their cottage at Bayside, Nantasket.

C. B. Strout and family are at their cottage at Bayside, Nantasket, for the summer.

Miss Madeline Taylor arrived home last evening from Detroit Michigan, where she is a teacher in the Liggett school.

Mr. and Mrs. Edward J. A. Hearn of South Main street are the parents of a baby daughter born yesterday.

Mr. Neil Anderson and family have moved to Danversport, Mass., where Mr. Anderson is head currier in one of the tanneries in that city.

Mr. and Mrs. G. P. Lombard of Belfast, Maine who have been visiting with Mr. and Mrs. C. M. Strout for two weeks left for home this morning.

Rev. Henry B. Williams D.D. of the Baptist church left this morning at 7:14 for New York and Philadelphia. He sails from the latter city tomorrow.

The Wakefield game with the Woburn high which was scheduled for May 28, and then postponed on account of rain, will be played off next Monday.

Mr. Edwin Clarke, a member and business manager of Sousa's band, was visiting his father, Prof. William H. Clarke, over Sunday, and was in Woburn Saturday evening.

Mr. H. E. Lord wishes to announce that his telephone number has been changed to 16 Burlington, where he may be reached as effectively as before. Patrons may be sure of the same quick service that they have enjoyed in the past.—adv. *6-18

Some old wise bird has said that men decide questions by reason and women by intuition and if that's true a combination of the masculine and feminine brain ought to reach the right solution in the coming election.

In selling clothing we heartily welcome the combination.

Suits for men and boys that in cloth, workmanship and style are worth every cent of the price, all with our guarantee of your satisfaction or your money back. Suits for men \$15 to \$25. For boys \$3 to \$10.

SUCCESSFUL SHOWER LAST EVENING

Mrs. Elsie Patterson the Hostess at Her Home on Johnson Street

Miss Elsie Patterson of Johnson street was the recipient last evening of one of the most pleasant as well as successful surprises of the season. Miss Patterson had been persuaded to take an auto ride, while in the meantime ten members of the Philathea class of the Methodist church assembled across the street, at the residence of Rev. Fred M. Estes, and during Miss Patterson's absence assembled in one of the front rooms. Miss Patterson returning from the ride, was surprised completely when the guests burst upon her as she entered the room. Miss Louise Turner, in behalf of the class, then presented her with a large water color painting, the work of one of the members of the class, Mrs. Melvin Gould.

As the picture could not very well be showered, its place was taken by a number of small notes, one from each of the guests, containing small pieces of poetry, some of serious beauty, and some more hilarious than poetical. The rest of the evening was spent in general sociability, after which refreshments were served. Invitations have been issued for Miss Patterson's wedding to Mr. Winfield Reed on June 18.

Arthur J. Moore Chosen to Fill Place of George T. Davidson

The regular fortnightly meeting of Clan MacKinnon was held last evening in G.A.R. hall on Pleasant street. A large number of the members attended, and Tanist William A. MacKinnon occupied the chair. The chief business to come before the meeting was the election of a chief, as a result of the resignation of George T. Davidson, who is unable to carry out the duties of the office because of his recent election to the office of selectman of the town of Winchester. The ballots were finally cast, and Arthur J. Moore was declared elected. Following the business, a social hour was spent.

L. O. O. MOOSE WHIST AND DANCE

Successful Party Last Evening by Local Lodge

The Loyal Order of Moose entertained a large crowd last evening at a whist and dance held in Mechanics hall. Forty tables were filled with the whist players, and some very fine scores were made. The first prizes were won by Chas. H. Harrington and Mrs. James Carroll. The whist was followed by dancing to a late hour, with Stephen Shinnquin at the piano.

M. E. CHURCH HOLDS QUARTERLY CONFERENCE

There was a large attendance and much enthusiasm was displayed last evening at the first quarterly conference of the Methodist Episcopal church of this city. Dr. Arthur Page Sharpe, the district superintendent, occupied the chair, and supervised the transaction of much routine business. Plans were also made for the coming three months.

BON VOYAGE TO PASTORS

Rev. Henry B. Williams D. D. Tendered Reception at the Baptist Church Last Evening

The Baptist vestry was the scene of a pleasant social event last evening when 400 friends and parishioners gathered to wish Rev. Henry B. Williams D. D. a pleasant voyage across the Atlantic, an enjoyable sojourn in the Holy Land and on the continent of Europe and a safe return to the family and parish.

The event was engineered successfully by the Ladies' Industrial society, a loyal auxiliary of the church, and the committee in immediate charge was Mrs. William E. Blodgett, Mrs. Edward F. Johnson and Mrs. Arthur E. Gage. The platform was massed with floral decoration forming a pretty and effective bit of color behind the receiving line in which were Rev. and Mrs. Williams, Rev. and Mrs. Henry C. Parker, Rev. and Mrs. Stephen A. Noton.

Guests were presented by a corps of ushers comprising: Dr. F. O. West, M. A. Burnes, William Dexter, John Peterson, Harold P. Johnson, and Harry E. Lawson. Music was rendered by the Schubert trio, Mrs. Dora Winn Andrews, piano, Miss Maud H. Littlefield, violin, John C. Andrews, clarinet.

Following the reception Mrs. W. E. Blodgett spoke a word of greeting, and introduced in turn

Rev. Dr. Norton of the First Congregational church and Rev. Mr. Parker of the Unitarian church. Both speakers were very happy in their offerings of congratulations and created no end of merriment and good cheer by their happily told stories. To these words of loving tribute Dr. Williams made a very effective reply, in which he said the trip to the Holy Land would be the realization of a lifelong dream. He felt very grateful for the opportunity it would afford to study personally the many scenes from which a minister of the gospel drew his inspiration. His reference to his 10 years of service in this city was full of tender feeling and illustrated in a striking way the intimate relation of pastor and people.

Then followed the serving of light refreshments, and an hour of social intercourse and leave takings, rounding out an evening that was certainly a success in every detail.

TUESDAY, JUNE 10, 1913.

A THRILLING INCIDENT

Within less than a month there will take place on Pennsylvania soil an event probably unique in all history. When before, after a lapse of half a century, have the veterans of contending armies met on the battlefield to clasp hands in peace and good will. In the first three days of the coming July between forty-five and fifty thousand Union and Confederate veterans will tent on the field where fifty years ago was fought the greatest battle of a greatest war.

He would be lacking in any semblance of Americanism whose heart would not be deeply touched and stirred by this unprecedented event. Out of the tens of thousands of letters received by the Pennsylvania Commission from the veterans of both sides not a dozen from either side had anything but good to say over the reunion of the Blue and the Gray. An exceedingly interesting special article in last Saturday's Transcript by Franklin Clarkin gives valuable information and figures relating to this reunion. Many of the letters, the writer says, are "as stirring as a drum." One veteran writes: "Wounded five times at Gettysburg, serving with Company H on Sixtieth New York Infantry and am now in Alabama but I can get there with a Johnny Reb friend to look after me" and another writes: "Have put off writing because my wife is aged and ailing but now I am happy to say she is better and wants me to go and look brave men in the eyes once more."

Can strong men restrain tears when contemplating such sentiments?

GETTING ACQUAINTED

The religious societies of Woburn are getting acquainted with each other. It's a good sign, and it points the way to that broad, all-embracing brotherhood that should, and will, comprise all men and women who seek to lead clean, decent lives.

And this commendable and hopeful condition seems to have been brought about by the departure and temporary absence of two local pastors who will spend their summer abroad. The prospect of this separation for a time of pastors and people has served to awaken a spirit of neighborliness in which sectarian lines have been ignored, and all have met like members of one family and vied with one another in giving vigorous expression to their respect and esteem.

Not so very long ago, religious denominations looked askance at one another, distrusted one another, almost ostracized one another, and furnished living examples of the old expression: "My doxy is Orthodoxy; your doxy is Heterodoxy." That narrow, un-Christian way of looking at the matter is fast fading away. The sun of toleration is dispelling the clouds of misconception and distrust and warming the hearts of men with life-giving currents of brotherly love.

In the two recent gatherings in this city, when people of all sects have given expression of their regard for the two departing ministers, humanity has learned a useful lesson. The barriers that have separated these several bodies have been found to be like

the geographical definition of the equator and the parallels and meridians "imaginary lines" only.

—o—o—

In the annals of the kingdom of Mars, it is recorded that all the scientists of the kingdom set to work to explain a curious phenomenon seen annually on the planet Earth, at the time of year when the vegetation thereon is thickest. It was observed that there were great waves of vibrations which arose from the planet which were to be analysed as akin to thought waves. However they were much greater in strength and scintillated strangely. The mystery remained unsolved until the communication opened between the two planets, when it was found that every year, in the month called "joon" the various establishments called institutions of learning, discharged from their gates huge numbers of so-called "graduates," the brilliant scintillation of whose newly polished brains caused the mysterious flashing. As the graduates mixed in the world, however, this brilliancy quickly died down and gave way to a quieter but more dependable illumination called "common sense."—Extract from the Martian Chronicles.

Gentle summer is now upon us. Those who can are moving to the seashore or the mountains or somewhere else, while those who would like to but can't are wondering if it is going to be hot this summer. Soon the voice of the church picnic will be heard in the land, and the squall of the theoretically melodious horn. The groves will be crowded with earnest searchers after Nature's inspiration, which they induce with well packed lunch baskets. Then the groves of pine trees will all remind us too we may make ourselves a nuisance, and departing leave behind us lunch boxes on the fragrant slopes—for some one else to pick up.

There is a kitten down in Kent Hollow, Conn., that "just can't make his feet behave." On both fore paws, he has additional claws, which turn backward. The consequence is that whenever he tries to walk, the fore claws in the hind paws get caught in the hind claws of the fore paws, and traffic is blocked until he gets untangled. The result is a new kind of hobble walk, which the cat's owner is thinking of getting patented, as the Kent Hollow Hobble.

In She Shu Shuq-u-lack, whenever that is, a hen laid an egg the other day (go on, I know that is nothing unusual, let me finish), laid an egg (no it's the same one, it'll hatch before I get this said if you don't keep quiet) laid an egg on the shell of which was printed in perfect letters, "Watch and Pray." That is what comes of educating these hens. Pretty soon they will be laying eggs covered with the strange device, "Votes for Women."

The person, whoever it was, that shipped 25 gallons of whiskey to Maine labeled "hardware," certainly had a sense of humor. Incidentally, he may have been right. Maybe he knew what was in the aforesaid whiskey. He evidently saw the point as the packages were addressed to Pine Point.

James Bottomly of Hartford, Conn., received the other day a dime in change from a street car conductor, which he had marked with a cross and spent six years before. It must have been a bad coin.

F. Albert Carlson accidentally discharged his gun the other day and shot off a corn on one of his feet. He recommends it as a corn cure. If he will add a prescription for not missing the corn, alright.

This is the time of year when everybody is migrating some where else for the summer. Even the icebergs are drifting northward.

HIGH-SALARIED JOBS GO ABEGGING

Competent Men are Scarce and Uncle Sam is Looking for Them

(By United Press)

Washington, June 10—Civil service jobs at \$6,000 a year. It's rather an attractive bait for Uncle Sam to dangle before his citizens in these days of high living and high cost of living.

But there isn't any stampede today for these particular high-salaried jobs. In fact there are more than enough jobs for the available supply of men. Highways and byways today are being scraped by the government in a desperate effort to secure enough men to fill the positions. The biggest "man hunt" in the history of the government is in progress to find men, with the big salary as a bait, who are big enough to hold down the \$6,000 jobs and earn the fat salaries.

Making physical valuation of railroads and other common carriers is the mammoth task for which the big federal salaries are offered. The Interstate Commerce Commission is culling and sorting men in an effort to find the right ones for the right places in the biggest work undertaken by the government since the Panama canal was started. The government is handicapped by hard and fast civil service rules in its search for competent men.

The special engineering board of five men appointed by the Interstate Commerce Commission to boss the physical valuation job has charge of selection of the corps. Today the board is framing details to secure the necessary force of skilled engineers, expert draughts, men, accountants, surveyors, rodmen and other technical assistants.

President Wilson is demanding that the civil service rules be strictly observed in selecting the physical valuation employees. He let down the bars only far enough for the five engineers of the governing board. These five men will devote all of their time to the valuation work. Their salaries are secret, but are said to be \$10,000 a year each—about one-half or one-third of what they have been receiving in private practice. All are experts. They accepted the appointments from the Interstate Commerce Commission because of patriotic desire to serve the government in the big work also for the personal advertising that will accrue.

The engineers have requested the Civil Service Commission to frame a new lot of examinations for the special employees required for the valuation work. They have asked the Commission to increase the entrance salaries to \$6,000 for the higher grades of engineers demanded—men who can inspect a railroad track and tell how much per mile it cost to build—and other employees ranging from \$5,000 down to \$900 a year.

The physical valuation engineers believe they can secure the necessary men if the examinations are not made too stiff and if large enough salaries are offered. They are asking the Commission, in the civil service examinations, to allow applicants a "weight" of 50 per cent for experience, a large per cent for collegiate work and the remainder along the usual examination lines. They want a premium placed, however, upon actual engineering experience. They want tried, proven men. Applicants with all theory and little experience have small chance of being selected for the work. Those with no experience have no chance at all.

There will be no sinecures in the physical valuation service. But it offers one of the greatest, if not the greatest, opportunity in the government service in years; also it promises life employment, although Congress prescribed that the valuation work must be completed within five years. Continual re-valuations and new valuations, keeping all data right up to date, is

expected to make the physical valuation bureau a permanent fixture under the Interstate Commerce Commission.

Three separate and distinct valuations of common carriers' property must be made by the physical valuation board. One must show the original cost of construction, another the "reproduction" cost—the cost of replacing, brand new, all railroads now in existence. Another valuation must show the value of the railroads as "going concerns." Every foot of railroad track in the country must be gone over by the commission. "Streaks of rust" and up-to-date systems must be appraised alike.

In addition to the railroads, property of all other common carriers. All of the information will be the basis for rate charges by the Interstate Commerce Commission. Instead of guessing at fair rates, the commission proposes to have expert, detailed information upon which to base the revenues of railroads in calculating rates which will give fair, reasonable returns to the carriers.

DECLARE WAR ON THE MOSQUITO

Federal Scientists on the Trail of the Pestiferous Insects

(By United Press)

Washington, June 10—Officials of the Public Health and Marine Hospital service today began preliminary skirmishing for what will soon develop into open warfare on the zuming, zooning, pestiferous, sleep killing mosquito. With

the entire nation aroused against the house fly, the government health officials believe that similar activity should be directed against the malaria carrying pest. A well defined fight against the mosquito has been going on for some time, but the government officials believe the battle is not general enough. Federal scientists will study the most efficient way in which to eliminate the mosquito during the coming summer months and as soon as possible a report on their findings will be published and sent all over the country by the government.

Alta Delta Class Will Give Play

"Lucia's Lovers" to be Presented Thursday

The Alta Delta class of the Methodist church Sunday school will make its second appearance in amateur theatricals this coming Thursday when it will present "Lucia's Lovers", a short parlor play dealing with the adventures of Lucia following too great a fondness for masculine friends.

Incidentally a picture of the funny side of a boarding school will be given, and a good entertainment generally is to be expected. The play has been given successfully in Winchester, where it was very popularly received. The cast for the play will be as follows: Lucia, Ethel Tabor; Polly, (who loves cats), Evelyn Snow; Edith (who is a Southern girl), Dora Simonds; Mildred, Mildred Holdridge; Catharine, Rachael Hewlett; Maria, Emily Turner; Dorothy, Bessie Queen; Miss MacGregor, Jennie Turner; Chauncey, his majesty the kitten.

WHY WOMEN PREDOMINATE

Weaker Sex Possess Greater Power Than Men in Shaking Attacks of Disease.

London.—The fact that in almost all civilized countries women outnumber men has been ascribed to the higher birth rate of girl babies; yet statistics show that 105 boys are born to every 100 girls. According to figures compiled by an European statistician, the girl has a better chance than the boy of attaining her maturity.

He finds that from the third to the fifteenth year the mortality for both sexes is the same; from the fifteenth to the nineteenth year, the critical age for girls, the girl's chances are slightly better than the boy's; from the thirtieth to the thirty-fifth year the mortality among women is smaller than among men, and it continues smaller until the seventieth year. Then for a decade and a half the sexes once more have the same chance of survival, but about eighty-five years of age women again stand a better chance than men.

To account for this difference the statistician points out that woman has greater resilience in shaking off disease than man. It is true that the physical strength of man is greater than woman's, but a woman's power of endurance is more robust.

One reason for this is that woman possesses a finer perception of her power of endurance than a man, and when her perception warns her of fatigue she stops. A man does not stop until his power is exhausted. His nervous system is not as finely organized as a woman's, and, as Masso, the Italian physiologist, has pointed out, men and women are entirely dependent on their nerves for caution not to overexert. While it is true that women more easily contract many diseases, particularly nervous and mental diseases, than men, they overcome them more easily.

HERRING DIE IN FROZEN DAY

Over Two Trillion of Them are Caught By a Sudden Freeze-Up in Alaskan Waters.

Klack Bay, Alaska.—Probably the greatest fish killing ever known took place here on Prince of Wales Island a short time ago, when at one stroke it is estimated that 2,000,000,000,000 good sized herring lost their lives. Capt. Simon Broun and the officers of the steamship Northland had the remarkable experience of navigating their vessel through miles of the dead fish.

For three days the bay had been full of schools of herring so dense that fish were often thrown out of the water. A day before the Northland arrived a sudden freeze caught the herring in the narrow necked harbor before they could escape.

The freeze came with great suddenness and covered six inches of ice formed on the harbor. Millions of the herring could be seen fighting for a last desperate chance of getting out of the inclosed water before frozen.

When Captain Brunn arrived with the Northland the tide had receded, and for 20 to 50 feet on the beach, and for several hundred feet out into the water for three miles around the harbor lay the frozen fish. Measurements were made, and it was found that the herring lay tightly packed for an average of three feet.

The greatest chance in the world for obtaining fresh fish without a bit of work was lost. The cannery people took all they could, but the Northland was not equipped to carry them. The fear now is that an epidemic of disease may break out following the decay of the dead fish.

PAYS BILL AFTER 35 YEARS

Western Man Tells Why He Sent \$4 For Board to Son of a Woman Long Dead.

Pittsburgh, Pa.—A board bill, thirty-five years, overdue, owed to a woman long dead, has been paid to her son, Edward McCutcheon, superintendent of buildings of Washington county. Mr. McCutcheon refuses to divulge the name of the former boarder, now living in a western city, who made restitution of \$4, but gave out the following letter:

"Inclosed is \$4, which I have owed your mother for board about thirty-five years, circumstances which I thought or felt I could not control prevented my paying it when it should have been paid. Then I forgot about it. Again conscience would chide. So now I have secured your address and trust it may reach you. Of course you will not remember me, for you were only a child when I was with your mother. My name was —— Kindly let me hear from you."

LOSES FOOT TO SAVE BABY

Tot Snatched From Danger by Its Mother While Would-Be Rescuer Is Run Down.

Minneapolis.—A baby was snatched from under the wheels of a Milwaukee passenger train, and as a result of the incident W. J. Morrison, a brakeman, is in a hospital seriously injured.

Morrison's right foot was cut off when he tried to save the life of Elsie Harvey, three-years-old daughter of Mrs. C. E. Harvey of Chicago. The baby had crept in front of the train east bound, which was leaving the station. Morrison leaped in front of the moving engine, but the mother had grasped the baby before he could reach her. He tried to stop, slipped and fell directly under the pilot.

Greater Than Conquerors.
We cannot conquer fate and necessity, yet we can yield to them in such a manner as to be greater than if we could.—Landor.

MONEY AND FLEAS ARE HIS HOBBY

Baron Rothschild Has Greatest Collection of Both in the World

By Karl H. Von Wiegand
(Staff Correspondent of the United Press)

Budapest, June 10—A veritable cyclone in a coffee-pot which has received almost as much attention as the Scutari incident and the Albanian affair, has broken out between Baron Charles Rothschild of London and the Hungarian National Museum officials in Budapest. Prestige is at stake over who discovered a "suvaroviis melanaria japygia." In United States talk that means a new kind of butterfly.

Baron Rothschild is famous for two things—money and fleas. He inherited the former but acquired the latter. Collecting fleas of the rare variety is an expensive hobby. One must be unusually fond of a collection of fleas to have spent as much money on them as the Baron has.

Belonging to a family which is credited with having the greatest collection of gold in the world, the Baron evidently was anxious to have what most people have not and few want—the greatest collection of fleas in the world. So he set out and today he has in his London palace a really remarkable collection of fleas. Recently he sent an expedition into the Arctic seas to get some live fleas from Polar bears. Having nothing more to conquer in that line, the Baron tired of chasing the elusive flea, and has gone in strong for butterflies. And there began his trouble with the National Museum of Hungary.

Baron Rothschild is married to the daughter of a wealthy Austrian landowner, Alfred Von Wertheimstein. Recently the Baron and his wife came to visit his father-in-law at Grosswardein in Hungary. Always on the lookout for butterflies, the Baron made the acquaintance of several officials of the Entomological department of the National Museum. Among these new acquaintances was the famous Hungarian naturalist, Dr. Anton Schmied.

Schmied, honored by the acquaintance of a Rothschild, confided to the Baron that he had discovered an entirely new species of butterfly—the "suvaroviis melanaria japygia"—on the Austrian emperor's domains near Pessar. Rothschild was as delighted as a child to learn of the new species and very anxious to get a specimen.

of the killing humor of the picture presented of a Baron wealthy enough to buy several European kingdoms squabbling with a naturalist over the discovery of a short-lived butterfly. Finally, the ministry of Education of Hungary and the Museum brought action against the domain administrators and the too friendly domain officials were defeated. Dr. Schmied was duly accredited with having discovered the "suvaroviis melanaria japygia," and he was granted permission to hunt butterflies all over Pessar.

Baron Rothschild, it is claimed, will not admit defeat. He still insists he discovered the "suvaroviis melanaria japygia." He is quoted as saying that he would rather be the discoverer of a rare specimen that would be of benefit to any branch of science—such as a seldom found flea or a butterfly little known, than to make a million on the Paris Bourse. Maybe he feels that way, but it's very doubtful if the majority of American citizens would prefer rare butterflies to negotiable coin of the realm.

ASTOR HOUSE RELICS GO UNDER HAMMER

Belongings of Famous Old Hostelry Sought by Curio Hunters

(By United Press)

New York, June 10—Curio hunters and their representatives from all over the country gathered here today to bid for the famous old Astor House belongings. Besides the professional curio buyers and sellers there was a goodly number of private collectors on hand to bid for the effects and furnishings of what is perhaps the most famous old hostelry in the United States.

Among some of the relics placed under the hammer today were chairs which furnished the suite of rooms in which the late King Edward, then Prince of Wales, occupied. The furnishings of the suite occupied by the Grand Duke Alexis of Russia, and many articles of furniture in the suites occupied at various times by Henry Clay, Zachary Taylor, the famous Jenny Lind, Fenimore Cooper, Walt Whitman, Winfield Scott, Edgar Allan Poe, Andrew Jackson and other celebrities were placed under the hammer today. Still other curios to be auctioned today were the furnishings of the dining room in which every President of the United States since the civil war with the exception of President Taft have taken meals. It had been hoped by curio seekers that the old registers in which were written the names of the famous personages who stopped at the Astor House, would be auctioned off, but these, it was said, would be retained by the Astor estate at the request of Vincent Astor, the young head of that long line of multi-millionaires.

NAVY DEPARTMENT

BUYING SHOES

Purchase of 100,000 Pairs Authorized by Government

(By United Press)

Washington, June 10—The Navy department, after an exhaustive investigation of the best shoes for men in the service, today authorized the purchase of an extra 100,000 pairs of shoes for the men of Uncle Sam's ships. The style shoes ordered today were selected only after they had been thoroughly tried out and great satisfaction had been expressed by officers and men. The pattern has proved so popular that Navy Department officials have experienced difficulty in supplying the demand that has risen throughout the rank and file of the navy. The value of the first award, it was announced today, was approximately \$300,000 and it affords a striking example of the gigantic scale upon which the Navy Department does its shoe buying.

SUPT. MARTIN TO HAVE NEW HORSE

Commissioner Kennedy Given Full Power Last Evening—State Road Discussed

At a special meeting of the board of public works held last evening Commissioner Kennedy reported that the horse used by Superintendent Martin was incurably lame and unfit for further service. He wanted authority to dispose of the animal and to provide the superintendent with another horse. The board voted the commissioner full power.

Ex-Alderman Highley was present and the extension of the state highway in North Woburn which involves an expenditure of approximately \$16,000, the Massachusetts Highway commission and the City of Woburn dividing the expense, was informally discussed. Already Mayor Henchey and some members of the board accompanied by surveyors have gone over the proposed route, but Commissioners Kelley and Wallace were not notified of the inspection and were not present. The Mayor and commissioners Kennedy and Jones are satisfied that if the proper kind of a street is to be built that widening at some points will be necessary.

Private property must be taken and land damages will result.

Ex-Alderman Highley agreed with this view of the situation but stated he was satisfied that the owners of abutting property would be well pleased with the improvement and would not be unreasonable on the question of damages.

Action was postponed until next Monday evening, and in the meantime Commissioners Wallace and Kelley will investigate.

MEEHAN PLAYED FIRST FOR PORTLAND

Scored Two Runs, a Base Hit and Covered Bag Without An Error

Frank Meehan played first base yesterday for Hugh Duffy's New England league team and was there with the goods from start to finish.

Portland was playing at Fall River and they won 9 to 2. Meehan made two runs, a single, had six put outs and no errors and was the only player on either team credited with a stolen base.

Duffy is beginning to realize that the Woburn youngster is a valuable all round player and can be used in any position outside the pitcher's box.

Portland is third in the league race and has an excellent chance of coping first honors if they continue the first class article of base ball they are now showing.

REJECTED AND ACCEPTED (By United Press)

Boston, June 10—By a vote of 15 to 14 and 4 pairs the Senate today rejected the bill appropriating \$5,000,000 for the improvement of harbors and inland waters outside of Boston. The Senate by a voice vote passed the Panama-Pacific bill. An attempt to reduce the appropriation of \$250,000 was defeated 16 to 7.

SENATE AGAIN POSTPONES (By United Press)

Boston, June 10—For the fifth time in three weeks the Senate today again postponed action on the governor's veto of the Electric Light Company's stocks and bonds bill. Friends of postponement asked for it in order that the codification of power and light laws now being made might be studied.

Charles Trull completed his course at Mass. Institute of Technology today.

GREEN HORSE MAKES TROUBLE

Bakers Wagon Tipped Over This Morning in the South End

This morning at 9 o'clock the large two horse baker wagon belonging to the General Baking company was overturned in the south end on Main street, in front of Smith's lunch room. Luckily the driver who jumped the moment the wagon started to tip, and both horses were uninjured. One of the horses became frightened and its bridle came off. Before the driver was able to get the animal under control the wagon was upset. There was scarcely any damage except to the pies some of which were spoiled. Stable keeper M. J. Doherty furnished a pair of horses, the driver not caring to take any more chances with the one that caused the spill. It was a green animal and was being driven for the first time to the baker wagon today.

ST. CHARLES ALUMNAE OFFICERS THE HOST

Pleasant Gathering in St. Charles School Hall Last Evening

Fifty guests led by Rev. James J. Keegan the guest of honor attended a reception in St. Charles school hall last evening tendered by the officers of the association.

The program which was thoroughly enjoyed, included a farce cleverly enacted by Misses Agnes T. Carr, Agnes Doherty, Elizabeth Doherty and Sarah Quinn and was entitled "Gone Abroad," Miss Margaret McKittrick contributed readings and Miss Pauline Bonin vocal solos. The president Miss Alice O'Brien spoke for the entertaining officers and Rev. Father Keegan made an address. Refreshments were served and general dancing followed.

WOBURN HIGH VS. LA SALLE TOMORROW

Strong Waltham Aggregation to be Seen at Library Park

Woburn High will play an exhibition game of baseball tomorrow afternoon at Library park with the classy La Salle high school team of Waltham for opponents.

By losing to Arlington last week Woburn has forfeited all its pennant chances for this season, but that the boys at times played sensational ball and good enough to win championships. Captain Weaver showed better form than any twirler in either league and with proper support would undoubtedly have landed at least one of the cups for Woburn.

The team is composed mostly of youngsters who will represent the school on the diamond again next year, and the seasoning they have received in their first season of playing will certainly be of great benefit. Taken all in all the team has done well and for the remaining games to be played, they are entitled to the unstinted support of every liberal minded fan in the city. The La Salle nine comes here with the reputation of being a cracker-jack aggregation, and the game will be one well worth seeing as Woburn is going along pretty smooth just now, and is never beaten until the last man is out.

And he Sat and Thought.

Youth—"Oh, everything bodes one nowadays. Worst of it is, when I'm bored, I can't help showing it." Lady—"Oh, but you should learn to disguise it under a mask of gaiety, like me."—Punch.

Charles Trull completed his course at Mass. Institute of Technology today.

BOARD OF TRADE MEET

Definite Progress Made—Fourth of July Observance to Be Considered

The Board of Trade held a meeting last evening. The constitution and by-laws as drafted by the sub-committee were presented, discussed and adopted.

The question of the fourth of July celebration occupied a considerable portion of the evening session and called forth much discussion. It was recognized that the time is limited, and that the observance must necessarily be on a modest scale. It was finally voted to appoint a committee to confer with the committee of 4 years ago, when the anniversary was so fittingly celebrated.

The committee of the Board for this purpose was: Charles C. Clarke, James F. McGrath, Harry B. Blye, William G. Stretton, George W. Low, and James D. Haggerty.

WOBURN GIRLS TO GRADUATE AT SIMMONS

Commencement to Take Place in Boston Tomorrow

Miss Dorothy Blake, daughter of Dr. and Mrs. H. G. Blake of Main street, and Miss Edna Fowle, daughter of Mr. and Mrs. John L. Fowle of Cedar street are two of the graduates of Simmons college, whose commencement exercises come tomorrow morning in the Church of the Disciples in Boston. Miss Blake and Miss Fowle both graduate with the Bachelor of Science degree, and the former will take up work as secretary in the office of the Y.W.C.A. at Bridgeport, Conn.

WOBURN GRANGE TO VISIT BILLERICA

Local Talent to Furnish Entertainment Thursday Evening

The Woburn grangers will have a very pleasant evening this coming Thursday when they go up to Billerica to be the guest of the grange of that place. Following the usual custom the visiting grange will provide the entertainment, which in this case will be under the charge of Charles Harrington, the lecturer, and the entertainment committee which consists of Miss Mary Breslin, chairman, and Mrs. Bertha Menchin, Miss Lillian Breslin, and Messrs. Harold Johnson and Fred Richardson.

SUCCESSFUL WHIST LAST EVENING

Given in Aid of St. Mary's Parish Winchester

A very successful whist and dancing party was given last evening in the town hall, Winchester, under the auspices of the center table and in aid of the coming summer festival of St. Mary's parish. A large number filled the hall, and after the whist, danced until a late hour. The winners at the play were Misses Elizabeth Cullen, Annie Glendon, Helen Murphy, Bessie McNamara, Emily Murray, Mrs. Thomas Kelley, Mrs. Lillian Moynihan, and Messers John Blackham, Harry Dunberry, A. Laforet, Patrick Noonan, and Edward Donovan.

The regular meeting of the board of health was called off this afternoon.

TODAY ENDS 200TH ANNIVERSARY

Military Parade Feature in Lexington

Today is Lexington's third in its three day celebration of its 200th anniversary. Sunday was Historical day, yesterday was Old Home Day, while today the celebration will end up with a huge military pageant. Governor Foss and Lieutenant Governor Walsh will be the guests of the town, and the following military companies will be present and will parade:

The second company, Governors Foot guard, of New Haven, Conn., Lexington Minutemen, Varnum Continentals of East Greenwich, R. I. detail of the Ancients, Amoskeag Veterans' association, National Lancers, British Naval and Military Veterans' association.

—o—o—

LIEUT. BARTLETT TO SPEAK IN HIGH SCHOOL

Member of Governor's Staff to Talk on State Militia

As the military drill for the year is over, there is a vacant hour in the day, which is being filled in various ways. Tomorrow the cadets of the upper classes will hear an address by Lieutenant Joseph W. Bartlett of the First corps Cadets, and a member of the Governor's staff. Lieut. Bartlett will speak of the work of the state militia, and will describe the opportunities and advantages which it gives to graduates of high schools. The talk is being given in the hope of interesting the pupils in the militia with a view to their enlisting after graduation from the high school.

—o—o—

W. R. C. 84 NOTES

W. R. C. 84 is to hold a very interesting event this coming Friday in the form of a salad supper and entertainment. The supper will be served at 6:30 and will, to say as much as possible, be up to the standard of all W. R. C. 84 affairs. There will be a short entertainment following, the chief feature of which will be a short farce entitled "A Business Meeting." During the entertainment there will also be a sale of aprons, fancy articles and candy for any and all who wish to buy. Altogether a most enjoyable and successful evening is expected, and everybody is invited to come and share in it.

W. R. C. 84 has accepted the invitation of the committee in the parade, and will have a float representing the work of the organization. All the members of the corps who wish to be on the float are requested to notify Mrs. Annabelle Brown at their earliest convenience.

The Middlesex association will hold its regular meeting on Tuesday, June 24, at Lowell.

There will be no regular meeting of W. R. C. 84 on this coming Friday, in order that the salad supper and entertainment may be arranged for more successfully.

—o—o—

K. OF C. THIRD DEGREE CONFERRED

Woburn Council 77 K. of C. conferred the third degree upon a class of 35 candidates last evening. District Deputy Gately and suite of Melrose had charge. After the exemplification of the degree refreshments were served and it was midnight before the meeting adjourned.

—o—o—

The St. Charles Alumnae will hold its annual banquet in St. Charles hall June 23.

Miss Josephine Hart, who is a teacher at Pittsburg, Pa. is at home for the summer vacation.

PLANS FOR THE GARDEN PARTY

Brilliant Affair to be Held June 14 at Home of Mrs. W. W. Hill

The plans for the big Garden party which is to be held next Saturday afternoon and evening June 14, at the residence of Mrs. William W. Hill are progressing rapidly and satisfactorily. The party is under the auspices of the Parish Aid Society of North Woburn, and is in aid of the North Congregational church. The committee in charge say that the only thing needed now to assure complete success is a bright, hot day, with no thunder showers, one of those days when the only way to keep cool is to drink punch, eat ice cream, and listen to good music under a spreading chestnut tree. All these things and several other equally attractive features will be found June 14 in North Woburn, and it is prophesied that on that day everybody will make a bee line for the garden party.

The full list of committees who have the various phases of the affair under their charge are as follows: chairman of executive committee, Mrs. John B. Hoag, assistant chairman, Mrs. Samuel A. Thompson; chairman of committee on advertising, Mrs. Arlesta Leighton; committee on foods and drink: Mrs. H. G. Tair, Mrs. George Patterson, Mrs. Adam Foster, Mrs. Louis Linscott, Mrs. John Hooper, Mrs. Celia B. Hickox; committee on confectionery, Mrs. Walter Merchant, Mrs. Robert Creed, Miss Bessie Parker; committee on punch, Mrs. Alonso Yarigle, Mrs. Harry DeLoria, Mrs. Isaac Wood, Mrs. Ernest Milner; committee on ice cream, Mrs. George Barden, Mrs. F. L. Arnold, Mrs. William Blaisdell, Mrs. Samuel Hooper, Mrs. Cantwell; committee on cake, Miss A. Frye, Miss H. Frye; committee on tables, chairs, and waiters: Mrs. Thomas Shannon; reception committee, Mrs. Thos. McKenna, Mrs. D. Horace Lewis, Mrs. Ellen French, Mrs. F. Bowser, Mrs. Frank B. French, Mrs. Charles Green; committee on entertainment, Mrs. William W. Hill, Mrs. Arlesta Leighton; chairman Indian Girls' entertainment, Mrs. Hartley J. Tarr, Mrs. Thomas Shannon; committee on lawn decorations, Mr. Arthur Carroll Yarigle, Mr. Arthur J. Moore; committee on stage, Mrs. Louis R. Linscott, Miss Lena G. French, Mrs. Alexander Perry.

"Father grows younger every day." And his new photograph hits him to a "T".

The old portrait taken twenty years ago, made him look so serious and old-fashioned—not a bit like he really is.

We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day?

And father always wants to see the picture, and that makes this having your picture taken far from an unpleasant experience—*a-days*.

HOPE CIRCLE WILL MEET

Hope circle will hold its regular meeting this afternoon in Odd Fellows' hall. The meeting will be followed by a salad supper at 6:30, and the evening will be spent in whist. Tickets may be secured at the door.

FACTS and FOLKS

Over 1000 of the Hospital Field Day fobs have been sold up to date.

The Sunshine club held a successful dancing party last evening in St. Charles hall.

Miss Selina Shydeker is spending a month with relatives in New York and New Jersey.

The La Salle high school team comes from Waltham to play Woburn high this afternoon.

Mrs. John Maloney will hold a whist party this evening at her home in aid of St. Charles Field Day.

President Wilson has nominated John H. Kane as postmaster at Lexington and James H. Roach at Winchester.

Robert H. Magee was an interested spectator at the Lowell-Portland game in the Spindle city this afternoon.

Tickets for the pop concert to be held June 17th in aid of the Choate hospital will go on sale today at the store of A. W. Whittier.

Rev. and Mrs. Raymond Withey of Swampscott, Mass., were in Woburn today, visiting Mrs. Withey's parents, Mr. and Mrs. Don C. Page of Kimball road.

The Ladies' Auxiliary to the Sons of Veterans have received and have accepted an invitation to be present at the Flag Day exercises which the Elks of this city are to hold on June 16.

Mr. Homer Webber of Pleasant street has accepted a position as the manager of the Gibson department of the Cudahay Packing company of New York city. He will leave Sunday evening to take up his work.

The Woburn and Bedford grangemen will be the guests of the Billerica grange this coming Thursday. Woburn grangemen will leave on the 5:22 car from the center. Supper will be served at 6:30. All those who cannot come before are urged to come after the supper.

Lieut. Bartlett at
High School Today

Spoke on Advantages of the
State Militia

Before the cadets of the two upper classes this morning, Lieut. Joseph W. Bartlett of the first Corps Cadets, and a member of the governor's staff gave a very inspiring talk about the state militia. He spoke of the opportunity which it gave to high school graduates, the immense value of its service to the state, and the desirability of the enlistment of the high school graduates. It was a very fine talk, and was much appreciated by the upper classmen.

AUXILIARY WILL EX-
EMPLIFY RITUALISTIC
WORK

At the request of the Massachusetts division, and for the benefit of a sister organization, the local Auxiliary to the Sons of Veterans is planning to exemplify the ritualistic work of the organization, on June 26. The work will be carried out in this city in the S. of V. hall.

One Way to Publicity.
The request of a Bethlehem, Pa., woman that no mention of her death be made in the papers has thus far appeared in only 21,743 exchanges.—Washington Post.

SPECIAL FEATURES ON JUNE 17TH

Ex-Alderman Cannon to Lead Funny Section of Parade

According to the plans which have been laid, the "special features" section of the parade on the 17th of June is to be one fine section. Ex-Alderman Cannon is in charge of it, and reports that the section will be the prize fun maker of the parade, and that his own particular costume, which he will wear as marshall, will be enough in itself to start the laugh going and keep it up. He admits that it will be some scream. But as for the exhibits themselves—it would be a shame to spoil it by giving anything away, but any one who misses that parade or that section of that parade will deserve all he gets. As an incentive to all the entries to exercise their utmost ingenuity, three cash prizes, all of them substantial, have been offered for the best three floats, and everybody who wants fame and money or both is requested to step right up and put in his entry to either ex-Alderman Thomas Cannon, Charles Mahoney or E. E. Foss.

Miss Helen Cutting, daughter of Col. and Mrs. F. F. Cutting of Melrose, was maid of honor, and the best man was Fred Young Presley, a brother of the bride. The ushers were Francis E. Capper of Brookline, Bernard C. Gerwe of Boston and Fred Y. Presley of Malden.

Miss Helen Cutting, daughter of Col. and Mrs. F. F. Cutting of Melrose, was maid of honor, and the best man was Fred Young Presley, a brother of the bride. The ushers were Francis E. Capper of Brookline, Bernard C. Gerwe of Boston and Fred Y. Presley of Malden.

At the reception following the ceremony at the home of the bride's mother, a large gathering of friends were present. Mrs. Presley, Mr. and Mrs. Benjamin H. Nichols, Sr., Miss Cutting and the best man, Mr. Presley, assisted in receiving.

The bride is a graduate of Malden High and of Miss Chamberlain's school of Boston. She is a leader among the Malden younger set. Mr. Nichols is connected with the American Trust company of Boston and is a member of the Towanda and Innitoo Canoe clubs of Woburn.

After the honeymoon, which is to be spent in Bermuda, Mr. and Mrs. Nichols are to make their home in Woburn.

EXONERATED ON
BRIBERY CHARGE

(By United Press)

Boston, June 11—William M. Wood president of the American Woolen company and his co-defendants in the dynamite case were today exonerated of complicity in the charge of attempting to bribe Juror Shuman by Judge Crosby who said no evidence implicating them or their attorneys had been given to the grand jury.

DESLOVER CASE TO JURY

(By United Press)

Providence, R. I., June 11—Over a year ago Henry Deslover was arrested on a charge of slaying Angela Paramentier. The trial which has been on for some days approaches completion, the case having been sent to the jury today. His counsel J. J. Fitzgerald is confident his client will be acquitted.

MISS BERNICE FEZETTE PRESENTED WITH SUGAR AND CREAM SET

A very pleasant social affair took place last evening at the home of Mrs. D. L. Waters on Pleasant street. The feature of the evening was the presentation to Miss Bernice Fezette of a beautiful cut glass sugar and cream set, Mrs. Waters making the presentation on behalf of her many friends who were present. Refreshments were served and a pleasant evening enjoyed. Miss Fezette is to be the bride of Mr. John W. Cummings in the near future.

EXTRA--3 O'CLOCK

HURLS BAG OF FLOUR AT PREMIER

MARTIAL LAW ANTICIPATED

(By United Press)

London, June 11—Cabinet ministers were thrown into a panic today when Lawrence Mervin, a male suffragette, hurled a bag of flour at Premier Asquith from the business men's gallery in the House of Commons. The missile missed Asquith, but burst when it struck and covered the ministers sitting near on the government benches. The ease with which Mervin got into the gallery with the bag of flour suggested how easy a man carrying a bomb could attain a point of vantage. Mervin followed his act by scattering militant pamphlets, and shouting in a frenzied manner about the sacrifice of Mrs. Davison. He was arrested as an insane person.

DETERMINED TO END LIFE

(By United Press)

North Cambridge, June 11—The body of a fashionably dressed unidentified woman was found on the B. & M. tracks near Porter station. It is learned that she had eluded 30 police guards, and that this was the second time in two hours in which she had tried to kill herself. She was found first by Bernard McIntosh lying on the track. He picked her up and turned her over to the police. Whether she stepped in front of a train, or dropped off the foot bridge directly in front of it is not known. The body was terribly mangled.

NATION VERSUS STATE

The attempt to establish a southern confederacy sixty years ago found its chief argument in the doctrine of state rights. The civil war followed, and it was demonstrated vi et armis that the nation is first and the state second. Our history is filled with the clashings of these two doctrines, but most of them are bloodless contests settled by the courts.

In the Minnesota railroad rate case recently decided by the U.S. supreme court the question cropped out again. To the layman the decision is somewhat confusing as to its full purport and effect. This much at least, however, seems clear that it is not a complete victory for either side, for either the railroads, or the states, and that the states may now go ahead with the regulation of railroad traffic, but only until Congress decides to use all the power that the Constitution has conferred upon it.

On the one hand, the Court refuses to accept the contention of the railroads that the rates fixed by the Minnesota Commission were practically a regulation of interstate commerce, although in one instance it finds the rates confiscatory and hence invalid. On the other hand, it rejects the extreme state-rights contention that the rates were wholly within the province of the State and therefore not subject to any Federal regulation or review.

In a way this is maintaining the status quo but it opens a way to complete Federal regulation and control of all railroads. The states may now make their rates, but the Constitution gives Congress the power at all times to secure the freedom of interstate commercial intercourse. The commerce within one state may be internally regulated but the authority of Congress extends to every part of interstate commerce, and there is almost no railroad now that is not an interstate road.

Complete Federal control of railroads is, whether we like it or not, the end to which American transportation has been steadily moving for twenty years. This latest court ruling in the matter does not stay that movement. It may accelerate it.

AS OTHERS SEE US

President Yuan of the Chinese republic said to a Sun correspondent, "Say to the people of America that they are looked upon with great respect and kindness in China; that our old men are full of gratitude and that our young men hope to build a nation that will be to Asia what the United States is to America—a great land of freedom and prosperity, of enlightenment and toleration, of peace and of industry." How the Chinese would be surprised if they were to come over to America and see it as it is, with its strikes, riots, and interclass wars, with injustice on one hand and indifference on the other. It is hoped that China will always regard America in the light of what it ought to be but is not, rather than in the light of what it is.

THE GREAT PEACE MAKER

Europe is coming to recognize the truth about the Kaiser. Some

time ago he is said to have made the remark that posterity would remember him as the man who postponed the European war by fifty years. Yet many people, because of his constant safe guarding of the German navy, regard him as the veritable demon of war. It all comes down to the original question, of how to keep peace, by being ready to fight, or by putting yourself at the other nation's mercy.

A POESQUE INCIDENT

An incident occurred yesterday such as is read of generally in Poe's novels. On almost the exact spot where the Titanic went down a little over a year ago, with 1500 victims, a transatlantic steamship picked up an old barnacle covered lifeboat, floating keel up. From the indications the boat has been adrift a little over a year.

—o—o—

There are all sorts of fish stories. The latest is that of a man who says he caught a 4 pound trout in a soapbox near Livingston Manor, N. J. yesterday. He was fishing for trout when he saw a good sized soap box coming down the river. He made a long cast and his hook fell directly into the box. Instantly he felt a tug at the line and realized that he had hooked a fish or a cake of soap. Twenty minutes play with his catch and then he landed it. We wonder if it was washed ashore. It's a good story anyway, and saved his buying a soap box at the fish market to ship the speckled beauty home in.

The published cut of Sir Edward Corson, leader of the Irish Unionists in the Home Rule fight in the English parliament, is the likeness of a man who could easily be mistaken for ex-Mayor Arthur H. Lincol. The JOURNAL is willing to wager a Baldwin apple, however, that Sir Edward cannot begin to make so good an after dinner speech as Sir Arthur. If he could he would win in a canter.

A woman in Cambridge who was divorced from her husband in 1884 is now asking for alimony. Thirty-nine years is quite a while to wait, before preferring such a request. Isn't there any law of limitation in such cases, or is the "hold-up" perpetual?

In Lenox the other day, two counterfeit halfdollars were found in the collection basket. Such things will happen in the best regulated churches.

—o—o—
A MODERN

NOAH'S ARK

Vienna, June 11—How woman suffrage has worked for better legislation in Colorado, Oregon, Washington, California, Idaho, Utah, Wyoming and Kansas was related here today by American delegates to the great Budapest convention of the International Woman Suffrage alliance which meets June 15 to 20. The delegates are here today for a three days stop during which they are the guests of the Austrian Woman Suffrage committee. Among the visitors are Miss Jane Addams, Mrs. Oliver H. P. Belmont, and Mrs. Stanley McCormick. The visitors will leave tomorrow.

Correspondence in
the Hanson School

More Letters Written and Received by Woburn Pupils

It is with great pleasure that we publish today another instalment of letters which are being all the time sent out and received from the pupils of the Hanson school. The work has developed an un-hoped for interest in the studies, and has proved so much of a success, that there can be no doubt of its permanence and further growth. Of the letters today, two are written by local pupils, and two by those of schools in distant cities of the United States.

In reply to a letter from Trenton, N. J. asking about the Glass Flowers at Harvard Museum.

Hanson School,
Woburn, Mass.,
June 3, 1913.

Dear Laura:

As Harriet did not know anything about the glass flowers I will answer your letters.

Leopold and Rudolph Blaschka made them in Germany, but since his father's death Rudolph has worked on them alone and is the only person in the world who possesses the secret.

Rudolph in a trip to America made many sea models and for several years devoted his time in making glass animals.

In 1854 he made a collection of flowers for Prince Camille de Rohan and in 1852 they were placed in the Natural History museum. This museum in 1863 was destroyed by fire and the flowers were lost.

In 1885 money was raised to build the University museum at Cambridge. A most satisfactory structure was built, with ample space for laboratories and for exhibition rooms, in which to display illustrations of all the chief types of plants.

Professor Goodale had been considering in what material plants and their magnified parts, could be rendered permanent without being either conventionalized or exaggerated.

Prof. Goodale had never seen any of the glass flowers but in a visit to the home of the Blaschkas his attention was attracted by a large vase of orchids.

When he first looked at them he thought they were real flowers but on questioning about it he learned that they were made of glass.

These things are not glass blowing, but glass modeling. The maker has some way of melting the glass so that he can mould them into any shape desired. The colors have been subjected to many experiments, some are colored when cooling some when the glass is fused and some are colored after they are cold.

After Prof. Goodale returned to America he finally induced the Blaschkas to sign a contract by which the artists agreed to give their entire time for ten years furnishing an average of 100 models every year to the Museum of Harvard University. Since the death of the elder Blaschka this number has been greatly reduced so that less than thirty sets a year are now received.

The total number of models represented is 720, number of details presented magnified parts are 2900, each subject gives not only a life-size model of plant itself but also magnifies details; single flower stamens, anthers, pistils, seed vessels, etc. Many of our wild flowers as well as cultivated flowers, are exhibited here. If you want to know anything more about it just write and ask, and I will do my best to answer them.

Brent School,
How Washington Became the
Capital City of the United
States

During the period of the Revolution the war forced the American Congress to move from place to

place. Between the years 1776 and 1789 sessions were held at Philadelphia and New York. Naturally the question in the minds of the leading statesmen was, where the proper seat for the new Government should be. During the Constitutional Convention a provision was framed which said a tract of land ten miles square, with the acceptance of Congress, should become the seat of government of the United States. While Congress was holding its first session a member from Pennsylvania said "a permanent place ought to be fixed for the general government of the United States, as near the center of wealth and population as may be convenient for navigation on the Atlantic ocean.

Many places were suggested but later it was decided it should be located on the Potomac river. Grand and beautiful it sits by the side of the Potomac, a connecting link between the North and South. A portion east of the Potomac was ceded by Maryland and a portion west of the river by Virginia but the District of Columbia embraces the Maryland cession only.

Ellicott marking the boundary with stones, set the outlines for the Federal Territory. On the first Monday in December the government was turned over to the District of Columbia.

Few there are who are acquainted with the reason for locating the government here. Few know the terror and trouble under which that old flag was first inaugurated. If you should ever visit Washington I know you would be very glad the Capital city is located here.

Raleigh High School,
Raleigh, N. C.,
May, 1913.

My Dear Grace:

First let me tell you how much I enjoyed your letter. It almost seemed as if we had been to Woburn and we thoroughly appreciated it.

I hope you will excuse my not writing to you and telling you something of Raleigh, for instead of a letter I am sending a composition on cotton which I hope will be beneficial to you.

Trusting to hear from you again, soon, I am

Yours sincerely,

Cotton

Cotton is King of the South. There are many reasons why this is so, and I shall try to give you a few of them here.

In the early part of March farmers begin to prepare the soil for their cotton crop. You must know that we do not have to wait as long for the ground to thaw before we can plow it as you do for our winters are not so severe. When the soft, warm rains have fallen and the ground has been plowed it is time to plant the seed. Most farmers plant their seed the last of April.

The little green stalks soon push their way into the upper air and when they have reached the height of from five to seven inches, they are ready to chop. To chop it many men go into the fields with hoes. They cut down all the superfluous stalks and when they have finished the plants are a foot and a half apart, two plants in a place. After the chopping is over the cotton is plowed. This is done for the purpose of throwing the earth around the stalks to make them grow. For one and one half months the cotton is chopped every two weeks and then plowed. Thus the average crop of cotton is chopped and plowed four times.

When it is about three feet high the squares come. These squares may be compared to the buds before the blossoms of any other plant. On cotton the buds are square in shape, hence the name.

The squares open and the blooms come about the fourth of July. They have five broad petals and are creamy white at first; but in from three to five days they turn pink and fall off. A field of cotton covered with white and pink blossoms is indeed a pretty sight.

As fast as the blooms fall off

the bolls begin to take their places. These bolls are green at first tipped with brown and are about the size of an English walnut, though of course some are larger and some smaller. When the bolls come the cultivation ceases. In our section the stalks grow from four to six feet high and each stalk supports from twenty-five to one hundred twenty-five bolls.

About the last of August the bolls burst open into five parts and each part holds a lock of cotton while each lock in its turn contains five or six seeds.

At first the little locks of cotton are damp and grayish-looking but after they have been exposed to the sun for a while they become white as snow and soft and fluffy.

We begin to pick cotton about the first of September. It is usually picked by hand, men going out into the fields with large baskets and picking the bolls from the stalks. We boast a cotton picking machine but as it is not very successful it is not extensively used.

After the cotton has been picked it is hauled to the gin. Of course you know of Eli Whitney's inventing the cotton gin? But it is possible that you do not understand the great amount of labor it saves the South. When it reaches the gin it is poured into the hopper which is a deep hole in the floor.

It is then carried by a wheel to the saws which are made of steel and have fine needle-like points.

These saws separate the lint, which is the fluffy part of the cotton, from the seeds. Then the lint is put into a press and packed into bales, each bale weighing four or five hundred pounds. Each bale is next covered with coarse bagging and fastened with tin bands.

It is then hauled to a cotton market and sold (in this section) for ten or fifteen cents pound thus making a bale sell from forty to seventy-five dollars.

From the markets it is shipped to factories some of which are down south though most of them are still in your section.

The seed is taken to mills and ground up. It is then put in layers and placed in a press which presses the oil out into buckets set beneath the machinery. The oil is sent in tanks to refining company where it is made into cotton oil, a kind of lard, different cooking oils and many salad dressings.

The hulls and meal are next separated and the former are used for feed, while the latter are not only fed to cattle but are used as a fertilizer.

If a single one of the South's cotton crops should fail it would put the whole world at a stand still. And this is not so wonderful when you consider that the greater percent of the cotton used in the world is raised in the South. It is almost entirely used for clothing now, as nearly all woolen and silk stuffs have some cotton in them.

The annual product of the South is about ten and one-third million bales each containing five hundred pounds—enough to not only supply all the mills of the United States but enough to supply all the market of Europe as well. In other words the South produces four-fifths of all the cotton produced in the world.

Is there any reason, then, why cotton should not be called "King of the Southland?"

The little green stalks soon push their way into the upper air and when they have reached the height of from five to seven inches, they are ready to chop. To chop it many men go into the fields with hoes. They cut down all the superfluous stalks and when they have finished the plants are a foot and a half apart, two plants in a place. After the chopping is over the cotton is plowed. This is done for the purpose of throwing the earth around the stalks to make them grow. For one and one half months the cotton is chopped every two weeks and then plowed. Thus the average crop of cotton is chopped and plowed four times.

When it is about three feet high the squares come. These squares may be compared to the buds before the blossoms of any other plant. On cotton the buds are square in shape, hence the name.

The squares open and the blooms come about the fourth of July. They have five broad petals and are creamy white at first; but in from three to five days they turn pink and fall off. A field of cotton covered with white and pink blossoms is indeed a pretty sight.

As fast as the blooms fall off

Will call upon request
Telephone Connection

Choir Couldn't See It!
The choir of a village church had sung an anthem in fine style, with all its might and strength, till the very roof of the old church seemed to vibrate with tremendous uproar. At the close of the anthem the lesson for the day was begun. "And after the uproar was ceased," the person read out, in a clear and sonorous voice. The whole congregation immediately tittered audibly, but the choir could not understand the joke.

HIGH SCHOOL NOTES

The principal's office hours are: Mondays and Thursdays, three to four-thirty p. m. School telephone 373W.

The last session of this year will be Friday, June 20. The last regular day for Seniors is Wednesday, June 18. Those Seniors who have work to make up will be expected to attend school after June 18.

Promotion cards will be sent out by mail the last of June. This year there will be three grades of promotion: Promotion with honor or in case the general average is above 90 percent, promotion with credit in case the general average is above 80 percent, promotion in case the general average is above 70 percent.

The Battalion will attend in a body the Flag Day exercises which will be held by the Elks in Lyceum Hall Monday evening, June 16.

The Battalion will appear for the last time this year in the parade June 17. The cups which will be competed for in the drills at Forest park are now on exhibition in Smith and Varney's window.

The school has recently received as a special gift from Mrs. Harlow the set of Burrough's complete works in fifteen volumes. These books have been placed in the Harlow Library.

LARGE FIRE AT BEN'S CREEK
(By United Press)
Charlestown, Pa., June 11—The business section at Ben's Creek was destroyed by fire today. Loss \$200,000.

**TROLLEY SMASH
IN SPRINGFIELD**
(By United Press)
Springfield, June 11—One man with a broken leg, and three severely bruised, was the result of a crash of two trolley cars today. It is said that the motorman of one car was intoxicated and was running his car at a very high speed. Both cars were wrecked.

**FRIEDMAN PLANT
COMPLAINED OF**
(By United Press)
Providence, R. I., June 11—A vigorous investigation will be instituted on a complaint of citizens that the Friedman turtle serum plant on Reservoir avenue is vile and unsanitary, and praying that it may be abated. The aldermen will probe the matter.

ZACATECAS MEX. CAPTURED
(By United Press)
Mexico City, via Galveston, June 11—It is reported that the rebel forces under General Natera captured Zacatecas today. Casualties will reach into the thousands. There were two days of terrible fighting.

"Providence All Change!"

Many of you remember that call of the conductor.

Providence was only one of many "all change" points.

That was because each little railroad had run its short course.

Today the weary or book-bound traveler is carried in peace to his destination.

Unified management means convenience and comfort to the traveler.

MEEHAN AGAIN MAKES GOOD

Played with Portland Yesterday at Fall River

Portland and Fall River played a double header at Fall River yesterday with honors even. Portland won the first game and Frank Meehan was in the lineup. There was a general mixup in the sixth inning which Owner Closhey of the Fall River team and Umpire O'Brien came to blows because of a decision at the plate, the umpire calling a Portland player safe at the plate the entire Fall River team protesting. A small sized riot followed and it took a squad of officers fully a half hour to restore order.

Meehan played first base and catch putting up a good game, scoring a run and making his customary single. Today Portland is playing at Lowell and a big delegation of Woburn fans made the trip hoping to see Meehan in action. Manager Duffy is well satisfied with the manner in which the Woburn recruit is shaping up and Meehan may be played regular should any of the present players slump.

TO CRUISE IN THE MEDITERRANEAN

(By United Press)

Washington, June 11—Within a short time the United States will step in and wrest the naval supremacy of the Mediterranean Sea from European powers which have been contesting for it for years. It will be a bloodless, fightless invasion. When the eight dreadnaughts, thirteen pre-dreadnaughts and other naval craft flying the stars and stripes sail past Gibraltar for their cruise in Mediterranean waters, the fleets of France, Italy, Austria and Great Britain will be overshadowed for the nonce, and for the time being the United States will be supreme in those waters. A tentative itinerary of the fleet, announced at the navy department today, arranges for a stop at almost every Mediterranean port where formal welcome by the respective authorities awaits the Yankee officers and sailors.

Well Mated Pair.

Manager—I am looking for a man I can trust. Applicant—And I'm looking for a man who will trust me. We ought to get along fine.

MRS. LORA GIVEN THE HOSTESS YESTERDAY

Golden Rule Circle Held Regular Meeting in West Side

Mrs. Lora Given of 83 Bedford street was the hostess yesterday at a regular meeting of the Golden Rule Circle of King's Daughters of the Methodist church. There were thirteen members present, but in order to avoid the hoodoo of the unlucky number, amid much hilarity the official number present was declared to be twelve and a half. The regular business meeting followed, after which the members of the circle united in tying a quilt to be sold later for the benefit of the circle. A general social hour followed, a pleasant feature of which was the recognition of the birthday of one of the members, Mrs. Don C. Page of Kimball road. The hostess brought in a birthday cake while the members presented Mrs. Page with 24 pinks. The meeting closed with a reading of a poem by Mrs. Jennie Given, entitled "The Girls of Yesterday." The poem follows:

The girls of yesterday! Oh say, Where are the girls of yesterday? The girls who wore the gingham frocks, In gardens fringed with hollyhocks; Who baked the juicy cherry pies That wafted breaths of Paradise To mere expectant man.

Will some one tell me where, I pray, They've gone, the girls of yesterday? Are these gay matrons we behold? The modest maids of days of old? These gay old lively dames Beside their quilting frames These peeresses of man?

Alas! their golden hair is gray, The vanished girls of yesterday; And they have left us but their theme Of an old fashioned springtime dream; And still although their hair is gray They do their quilting in the old Back Bay.

These gay old girls today.

—o—o—
The Vicar (to the old lady, the last of whose family has married) —You must feel lonely, Mrs. Muggins, after having such a large family.

Mrs. Muggins—Yes, I do, sir. Sometimes I misses 'em and sometimes I wants 'em, but I misses 'em more nor I wants 'em.—Sketch.

WONDERFUL SHOWING IN DRAWING WORK

Pupils of Woburn Schools Display Great Talent and Ability

ARTS AND CRAFTS WORK UNUSUAL

The exhibition of drawings and arts and crafts work which is being held Wednesday, Thursday, and Friday of this week, in Hanson school hall, is such that it is almost impossible to describe it accurately. It is a wonderful exhibition, and shows on the part of the pupils whose work is exhibited a depth of imagination and a trueness of drawing, that is as pleasing as it is astonishing.

The exhibition covers the entire work of the schools from the first grade through the mechanical drawing and crafts work in the high school. Miss Frances Walley has entire charge of this department, and can not be too highly complimented on the genius she has displayed for the work which she is doing among the pupils.

The lessons start in the first grade with drawings of fruit, vegetables, and nature studies. A certain amount of composition is introduced, while the children are allowed to exercise their imaginations as much as they wish to. For instance at Christmas time they drew pictures of chimneys with Santa Claus coming down, and cut out Christmas trees which they colored and decorated with cut outs representing the toys which they had received.

A very unusual exhibition is given of the paper cutting work in this department, in the form of two landscapes. One represents two farms, complete to the last detail. The fences are joined together with tiny tacks, the barns and houses are of white paper, there is an apple tree in full bloom in spite of the cool weather we are having, and even the duck pond is there, aided by a piece of mirror, with ducks swimming above on its glassy surface. The other landscape is a Dutch scene and represents a Dutch farm. There is the canal, with leg o'mutton sailboats, a big dyke at one side, and boats sailing on the ocean, while Hollanders dressed in their national dress are apparently taking their ease all over the scene.

The work advances throughout the grades, becoming more and more difficult, and involving more technique, along the lines of perspective, color, and grouping. One of the most striking exhibits is that of the free hand paper cutting of the fourth and fifth grades. All sorts of ideas are worked out on paper. There is a complete circus, from the start, where there is a crayon drawing of the people entering the gate, to the eages which bring up the rear. All sorts of animals are there, even to the elephant, who insists on doing his stunt in the street and our friend the Bull Moose. Curiously enough there are many supposedly fierce animals in the parade, but they march along unguarded, and only two are savage enough to be in cages. In other ways the imagination gets free play, as for instance in the representation of fairy stories. The Pied Piper of Hamelin is seen leading way the mice and the children, as well as Mother Hubbard, Little Red Riding Hood and Jack, is seen poised directly over the flame of the candle.

For the lack of space, proper comment cannot be made on the many features that deserve praise. The high school work is specially remarkable. Here the drawings are full of the hardest and most difficult work, involving problems

LOWELL CAR MEN TO PLAY HERE

All Woburn Has Two Games Scheduled

Three good games are scheduled for the near future in Woburn, two of them by All Woburn, and one by the local Bay State employees. The All Woburn team will meet the Wakefield town team this coming Saturday on Library park, and on June 17 the Horace Partridge team will come here and play in the morning. Friday afternoon of this week the Lowell Bay State employees who received a beating from the Woburn railroad men last week will come down to Woburn in the hope of evening up the old score. The game will take place in the afternoon.

AMERICAN SUFFRA- GETTES ATTEND

London, June 11—Old Man Noah's ark full of animals, all creeping and crawling things of the earth and all birds of the air may have been a fine sight to see but the famous old tar's sea show had nothing on the show given here today at Albert hall by society to raise \$100,000 for the London Hospital. Occupying the center of the spacious auditorium was a monster model of Noah's ark, stranded on an artificial Mount Ararat. Beside every stall in the ark stood a pair of animals, birds, snakes or huge beetles or bugs of papier mache. And one thing that Old Man Noah did not have on his good ship which was a feature of the modern ark here, was a dancing pavilion and various stalls where parched throats might be alleviated.

Among the visitors today was Queen Mother Alexandra, who is one of the patrons of the hospital. The Duchess of Marlborough and Lady Violet Charteris, the principal leaders of the enterprise, were supported by eight duchesses, eight marchionesses, thirty-seven countesses, five viscountesses and twenty baronesses. Leading west end tradesmen who had goods on sale had to pay heavily for securing titled saleswomen. The fair will continue tomorrow.

—o—o—
IMPERATOR SAILS
(By United Press)
Hamburg, Ger., June 11—The Hamburg-American liner, Imperator, sailed on her maiden voyage to New York today. She is the biggest passenger steamship afloat.

SENATE INVESTIGATING LABOR TROUBLES

(By United Press)

Charlestown, W. Va., June 12—Five senators are investigating labor troubles in this state. Miners and operators are being heard today. Governor Glasscock was the star witness.

—o—o—

Prof. and Mrs. D. N. Hood who spent the winter in Florida, and who now reside in Ipswich, were visiting old time friends here today.

The Mianimo Camp Fire Girls, under the direction of Miss Charlotte Lowell of the High school, and Miss Edith L. Smith, held a rehearsal yesterday afternoon at Forest Park, of the dance which they are to give there on June 17 in aid of the hospital.

Hose 1 responded to a still alarm yesterday for a chimney fire in the house at the corner of Stoddard street and Main, occupied by Michael W. Burke. No damage.

FACTS and FOLKS

The City Council will hold a special meeting this evening to take action in regard to the celebration of July 4.

The Mianimo Camp fire girls will meet for rehearsal of the dances for June 17th, at Forest Park, Friday afternoon at 4 o'clock.

Walter E. Hooper of the Senior class of the high school, a graduate of the business course, and player on the base ball team, has accepted a permanent position in the Reading office of the Bay State Street Railway company.

Former school committeeman Edward F. Cassidy now of Dorchester, was in Woburn today on business, but incidentally found time to call at City hall to meet his old friends and to talk over the old times.

Mrs. Stephen A. Norton has invited the Ladies' Missionary society of the First church to meet at the parsonage on Friday afternoon at three o'clock instead of at the church. Mrs. E. P. Fox has charge of the musical program.

Rev. and Mrs. Ernest Legg of Danielson, Conn., and daughter Marion are spending a few days in Woburn with Mr. F. W. Legg of 12 Charles street. They will return to Connecticut Saturday, when Miss Carrie Legg will go with them to spend a few weeks at their home.

MISS CLARKE THE HOSTESS LAST NIGHT

Pleasant Social Event in Honor of Miss Jessie Keating

An unusually pleasant affair passed off last evening in the form of a party at which Miss Nellie Clarke of Mishawum road was the hostess. A number of her friends were made welcome, after which the company was entertained by solos by Miss Edna Felch, accompanied by Miss Edith Hall. Games were also played, in two of which prizes were offered, which were won by Miss Frances Parker and Miss Josephine Sweetser, the prizes consisting of small favors.

The surprise of the evening came when the guests adjourned to the dining room for refreshments. The table and the room were beautifully decorated with pinks and syringa, in the colors of pink and white, while at each plate was a pretty place card, on the backs of which were fortunes. The readings of these caused much amusement after which, in order to "let the cat out of the bag," the guests pulled a number of streamers attached to a pink and white basket of crepe paper hung from the ceiling. On the end of each streamer was an announcement of the engagement of Miss Jessie Keating, in whose honor the party was seen to have been held, to Mr. Alonzo M. Newbert, of 20 Hemenway street, Boston. The announcement was received with great surprise, followed by applause and congratulations, and after further games, the company dispersed.

Miss Keating is the daughter of Mrs. Caro E. Keating of 13 New Boston street, while Mr. Newbert is connected with the Newbert Color company of 88 Broad street, Boston. No date has been set for the wedding.

Those present were: Misses Edith Hall, Hester, Margaret and Frances Parker, Edna Felch, Edith Marion, Nellie Clarke, Jessie Keating, Adelaide Godkin, Josephine Sweetser, Bertha Emery, Gertrude Ela, Sarah Wry, Mrs. Elizabeth Phillips, Mrs. Catherine Osmond, and Mrs. Ida Stanton.

SUCCESSFUL WHIST LAST EVENING

Mrs. John Maloney the Hostess in Aid of St. Charles Field Day

A very successful whist party was given last evening at the home of Mrs. John Maloney on Montvale avenue, by the Ward 2 committee in aid of St. Charles' Field Day to be held June 17. 28 tables were filled with the players, who displayed a high degree of skill and had some interesting contests for the places of honor. The prizes, and their winners were as follows: first ladies', a 16 pound ham, Mrs. Bernard Carley; second, a salad dish, Miss Mary Hammond; third, two pounds of tea, Miss Nellie O'Brien; fourth, hand painted cracker jar, Miss Josephine Lynch; first gentleman's prize, a box of cigars, Henry Fitzgerald; second, umbrella John O'Neil; third, railroad ticket, A. M. Brown; fourth, 2 pair of silk hose, William Ball.

Brilliant Recital Given Yesterday

Mrs. Florence Close Gale the Artist at Home of Mrs. C. W. Gilbert

A really remarkable recital was given yesterday afternoon by Mrs. Florence Close Gale, at the home of Mrs. C. W. Gilbert on Montvale avenue. Mrs. Gale was assisted by Mrs. Alice Siever Pulsiver, in a series of interpretive readings, and gave an afternoon's entertainment which for high quality and brilliancy has rarely been equalled before in this city. The readings included "Riders to the Sea" by Synge, "Humoresque" by Van Dyke, and a group of English ballads. About fifty guests were present and expressed at length their appreciation of the talent which Mrs. Gale displayed.

—o—o—

HOPE CIRCLE HELD SUPPER AND WHIST

Large Assembly Last Evening in Odd Fellows' Hall

The Hope Circle of the Rebeccas held a very successful and well attended salad supper last evening in Odd Fellows' hall on Main street. Between fifty and seventy-five sat down to the supper, while enough stayed to the whist which followed, to fill eight tables. The committee in charge of the affair consisted of Mrs. Florence Davenport, Mrs. Edwin T. Bailey, Mrs. Annie Granger, Mrs. Margaret Given, Mrs. Marion Young, Mrs. Maude Flagg, Mrs. Lizzie Loveling, Mrs. Emily Frizzell, Mrs. Mary Tarr. The winners at the whist were Mrs. Hattie B. Northrup, Mrs. Austin Fish, Mrs. Clara Anderson, Messrs. Ray Shedd, Wallace Ward, and Chester Anderson.

—o—o—

GRAHAM—CASSIDY

Rev. R. Winchell Magoun officiated last evening at a very happy wedding which took place at 9 Clinton avenue of this city. The parties were Elizabeth Ann Cassidy, who has been making her home at 8 Summit avenue, Winchester, and John Graham of 22 Winn street, a successful market gardener. The ceremony took place at the new home of the couple, where they will be at home to their friends. The couple are well known to a large number of Woburn people, and are receiving the best felicitations of all on their union.

THURSDAY, JUNE 12, 1913.

BETWEEN OURSELVES

Once in a while it does every
one good to pat oneself on the
back and wonder at one's own
good qualities and general brilliancy.
Woburn needs this just
at present as much and perhaps a
little more than most communities.
At any rate everybody here has
an opportunity today and tomorrow
of viewing an exhibition of
work done by the local school
pupils that should make every
parent and citizen proud of the
pupils and of the city system of
schools. It is a fact that is
becoming more and more self evident,
that when it comes right down to
brass tacks, we have some pretty
fine schools here in Woburn. They
are using all the modern methods
of which we read. We hear of the
inter school correspondence method;
the Hanson school is working
it very successfully, and letters
sent and received have been frequently
published in the JOURNAL.
The high school has a
standing that very few high school
in the state can equal. It holds an
enviable position and reputation.
And if anybody does not believe
any of this, let him go up to the
Hanson school hall today or
tomorrow, and look at the exhibition
of work which is to be seen
there.

—o—o—

PLEASE BE REASONABLE

No one can say that the Woburn
fire department is not at all times
perfectly willing to go to the aid
of any and all neighboring towns
or cities who are unable to cope
with fires of any magnitude. Never-
et has any community asked
for help that it has not been given
freely and ungrudgingly. But there
have occurred cases where Woburn
willingness seems to have been
overworked. Such a case was this
morning. The out of town call
was rung in and three pieces of
apparatus took the long and difficult
run to Wilmington. Arrived
there, no fire was to be seen. After
wandering over most of Wilmington,
the department was finally
directed to a side street where the
fire was found—in a woodshed ad-
joining a house. About a thousand
dollars damage was done, and
insurance covered that. It was a
fire which should have and could
have been covered by the local
apparatus, incomplete as it is.
Even when the Woburn department
did arrive, there was little
that it could do. The net result
of the whole business was a needless
run on the part of the Woburn
apparatus. While we repeat that
the local department is willing to
help out whenever it is needed,
we do request that a little judg-
ment be used in asking us for the
help.

—o—o—

EXHIBITION OF DRAWINGS

For the benefit of those who
would like to attend the exhibition
of drawings which is at present
being held in the Hanson school
hall, we are glad to publish the
hours. The hall will be open to
visitors from 3.30 until 5.30 in
the afternoon, and from 7.30 to
9 in the evening, today and to-
morrow.
The JOURNAL recommends that
every parent and any one interested
in the work of the schools attend
the exhibition. It is a remarkable

display of the possibilities latent
in the Woburn pupils.

—o—o—

We note that the names of the
persons whose premises are raided
for illicit liquor by our authorities
have in most instances, a distinct
Hellenic character. "Christe" Dopoulos
or "Panakateos" or some such
titles are the designations of the
quarry our liquor sleuths seem
fond of hunting. Occasionally a
citizen born under soft Italian
skies is honored with a visit or
else some lady—unattached. It
may just happen so. Perhaps
only those who have no votes try
now a days to distribute the sur-
reptitious "booze."

But still we wonder and still more
we doubt,
If old offenders are yet down and
out.

Lexington and Arlington have
had their celebrations, both held
to mark notable events or dates
in these towns. Woburn's Day
comes next Tuesday and has this
to distinguish it from the others,
that it is celebrated for a distinct
philanthropic purpose and all the
money spent goes to maintain
that most worthy institution, the
Choate Hospital. The results of
all the effort and interest put forth
here are manifest during the month
following. This gives great zest
and purpose to the occasion.

Tomorrow is Friday, the Thir-
teenth 1913, a combination which
will not come again for a hundred
years and perhaps never. The
superstitious will tremble and even
the most stolid have a streak of
superstition. Some of the members
of the N. Y. and Boston exchanges
have indicated a desire to close
from Thursday till Monday. The
rest of us will do well to regard the
combination a lucky one. It
costs no more to do this and
saves anxiety.

SAME PENSION

OFFICE STATISTICS

More than \$200,000,000 Dis-
bursed in Pensions

Washington, June 12—Of the
great army of veterans of the
civil war, who passed in grand review
before President Grant at the
White House to the number of
nearly 2,000,000, at the close
of hostilities, less than 25 per cent
were alive to participate in the
annual thirtieth of May celebra-
tion last month. Upon request
of the United Press, officials at
the Pension office today looked
up the records of veterans of wars
of the United States. This compilation
showed that on May 30th last, there were in various
parts of the world 457,000 survivors
of the civil war. On the same day there were less than
1,000 survivors of the Mexican war.
There is not the name of a single survivor of the war of 1812
on the Pension office records, but
there are about 200 widows of
veterans of the second war with
Great Britain who are today drawing
pensions.

Seward said he was never in
such a dilemma in all his life. He
could not go back and tell that
great man whom he so much adored
that he could not get the chaise
until he paid for it. And yet he
must go back and tell him something.
But what could he tell him? Finally after much thought
and study it occurred to him that
he had a nice chaise, nearly new,
which he would offer to Webster
and tell him that the varnish on
the one he had ordered was not
yet hard and that it would be
liable to injury if taken out in the
heat and dust of that public day.
Webster met Seward at the door
when he returned, and before
Webster could ask a question,
Seward was telling him the story
he had invented on the way home.
Webster made no reply but
willingly accepted the chaise Seward
proffered and rode in it that day.

About a week later Webster
came again and said to Seward,
"I think the varnish on that chaise
must be hard now and you may
go down and get it." Seward said,
"With a heavy heart I went again
to the shop. I knew I should
not get the chaise and I was not
disappointed. I was met with
the same question in the same
manner as before. I could not
invent another story that would
be credible and was, therefore,
compelled to go back and tell him
the truth."

In the last two years it has cost
the government about \$200,000,-
000 annually to pay pensions,
and this year it costs more owing
to the new "dollar-a-day" pension
law which has become effective.
Last year the outlay was
about \$154,000,000, which in-
cluded the upkeep of the pension
office here.

The Journal prints the news.

COMMUNICATION

WEBSTER WEPT

The following incident was related to me by the late Joshua Seward. Mr. Seward came to Woburn from Boston in the early seventies and bought the farm at Central square now owned and occupied by E. C. Colman. He was a native of the "Peace city," N. H. from which place he went to Boston in his young manhood and later engaged in the livery business off School street on land now covered by the rear part of the Parker house. He was a genial, social, energetic fellow and in a short time many of the business and professional men of the city were his friends and patrons. Daniel Webster, then in the fullness and strength of his masterly manhood, was his particular friend and most highly prized patron.

One year Webster was early engaged to deliver the Fourth of July oration in Boston. A public procession was then an important feature of the celebration and the orator of the day was the chief person of distinction in the parade. In those days there were no four-wheeled vehicles for convenience or pleasure. The chaise was the proper carriage for gentlemen to use. Webster was popular and as proud as popular. He could find no chaise in the city so good as he desired to appear in no that important occasion. He therefore, ordered one to be built by the principal carriage maker of the city (Sargent, I think it was) to be ready for use on that day.

On the morning of the Fourth he appeared at Seward's stable office and requested Seward to go down to the carriage shop and get the chaise he had ordered. Seward had a horse harnessed and went to the carriage shop as directed and told the proprietor he had come for Mr. Webster's chaise. The proprietor, in firm and measured tones that could not be misunderstood, asked, "Did Mr. Webster send the money to pay for the chaise?" In relating this to me Seward said, "I was never so astounded in all my days. I should have been less surprised if he had raised his fist and knocked me down. I had no thought that there was a man living who had ever heard of the great Webster, the God-like Daniel, who would or who could have denied him any request it was possible to grant. I could only say, 'he sent no money by me,' 'Then,' said the proprietor, 'tell him he can have the chaise when he sends the money to pay for it and not till then.'"

Seward said he was never in such a dilemma in all his life. He could not go back and tell that great man whom he so much adored that he could not get the chaise until he paid for it. And yet he must go back and tell him something. But what could he tell him? Finally after much thought and study it occurred to him that he had a nice chaise, nearly new, which he would offer to Webster and tell him that the varnish on

Webster was impatiently waiting
Seward's return and when in
hailing distance he called to Seward,
"Where is the chaise? What
is the trouble?" Seward ap-
proached him more closely and
then in tones so low that no one
could hear, replied, "He told me to
tell you that you could have the
chaise when you send the money
to pay for it and not till then." Webster
stood silent an instant and then in tones tremulous with
emotion exclaimed, "My God, Joshua,
did he say that?" and sank into a near-by chair and cried as
would a deeply aggrieved child of
six summers.

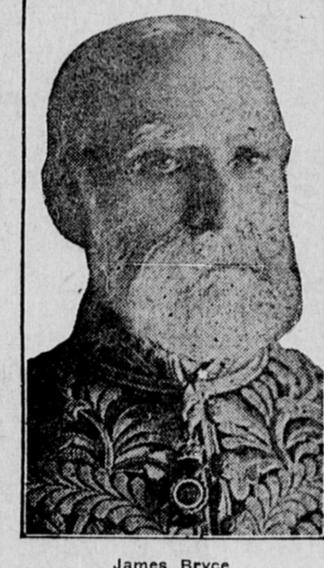

It is well known that Webster
would get into debt with, apparently,
never a thought of payment
and, as a consequence, his
creditors became so numerous and
finally so clamorous for their money
as to affect his immediate political
interests and threaten with
ruin his political future. At this
juncture his most ardent political
friends came to his relief and raised,
it is said, \$40,000 with which to
liquidate his indebtedness and thereby
relieve him from the annoyance and the pressure
of those who had accommodated
and befriended him. When we
reflect that \$40,000 was then a
larger sum to raise for any purpose
than would be \$200,000 now we
have some idea of the ardor
and the admiration of his friends.

H. C. Hall.

BRYCE IN LETTER OF REGRET

Former Ambassador Writes to Wash-
ington Friends of Love for Amer-
ican People.

Washington—James Bryce, former
ambassador from Great Britain just
before leaving American soil, sent
back from San Francisco a letter of
appreciation and affection to the
American people. The letter, made
public here, was in reply to one from
residents of Washington expressing
regret at his leaving. It referred to

James Bryce.

his well-known interest in the plans
for the beautification of the national
capital. "I am glad to think that an
Englishman who loves the United
States and its people," the former
envoy wrote, "is not debarred by an
official position from taking in all
your projects for the artistic develop-
ment of the national capital an interest as keen as any that your own
citizens could take."

WOULD SELL HER DEAD BODY

Woman Says She Is in Immediate
Need of Clothes—Fails to
Make the Sale.

Cincinnati—A woman, plainly but
rather well dressed, sat patiently for
an hour in the receiving ward of the
Cincinnati hospital and when her turn
finally came she started the receiving
clerk, Mr. Walsh, by stating that she
wished to sell her body to buy fine
clothes.

The woman said: "My name is
Eleanor Muchmore, and I've come
here to sell my body."

"You don't want us to kill you?"
said the astonished clerk.

"Oh, no," replied Miss Muchmore,
"but I want new clothes badly and I
thought I might be able to sell my
body to some doctor in this institution
to be delivered after my natural
death."

Miss Muchmore seemed greatly dis-
appointed when it was explained to
her that her proposition could not be
entertained.

Important Decision.
Wishing one day to test a little fel-
low's bravery, I said: "What would
you do, dummy, if Casey called you a
harr?" After thinking a moment or
two the little fellow replied: "Which
Casey, the big one or the little one?"

RECITAL LAST EVENING WAS WELL ATTENDED

Pupils of Miss Susie Quinn
Entertained in Music Hall

Music Hall was more than filled
last evening; it overflowed with
the many friends of Miss Susie
Quinn and of her pupils who wished
to attend the recital which they
gave with a very unusual degree of
skill. The program was long and
interesting, including solos, duets,
and trios, by the pupils, and with
the assistance of Miss Quinn. It
was a very successful evening,
and is greatly to the credit of the
teacher who produced such results
in her pupils. The program follows:

Rocking Waves, Frank Murray;

The Primrose, Blanche Fountain;

Arbutus Waltz, Frances Beard;

Dance of the Toys, (Duet), Mary

Beatty, Miss Quinn; Just in Time,

Margaret Rooney; Hunting Song,

Anna Young; Through Field and

Forest, (Duet), Lula McCaleb,

Miss Quinn; Wayside Rose, Jennie

Torr; Dollie's Dream, The Slum-
ber Song, The Dream, The Awaken-
ing, Margaret Murray; Vocal Solo,

Christina LaCasse; In Twilight,

Annie Doherty; Happiness, (Duet)

Frances McLaughlin, Miss Quinn;

Gliding Down the Stream, Elenore

Begley; Boy Scouts' March, James

Murray; Peasants' March (Duet),

Veronica Bonin, Miss Quinn; Message

of Love, Catherine Doherty;

Rustic Dance (Duet), Nora Foster,

Miss Quinn; Yellow Jonquils, (Trio),

Margaret Murray; A Dream

Mandolin, (Duet), Veronica Bonin,

Sarah Quinn; Voices of Spring,

Margaret Brady; March Des Pompiers,

Miss Quinn, Mrs. Margaret

Robinson; Chanson Stryenne, Helen

Murphy; Over Hill and Dale, (Duet),

Miss Quinn, Gertrude Conole;

Cascade, Fred Given; Polacca,

May Rooney; Valse Caprice, Ger-
trude Callahan; Concert Polonaise

(Duet), Gertrude Callahan, Mar-

garet Brady.

WOBURN HIGH 4 LA SALLE 3

Somniferous Game With Brief Periods of Excitement

Woburn High school defeated the LaSalle high school team of Waltham yesterday, 4-3. It was a typically lazy game, suitable to the somniferous afternoon. Nobody exerted themselves any more than they could help. If Woburn had taken real advantage of the inferiority of their opponents, they could have made the score 10 instead of 4; while on the other hand, if the visitors had been able to work the errors which the local players made, their score would have been different. As it was, the Woburn players undoubtedly were the superior players. The LaSalle team did nothing at all until the seventh when two hits and two errors gave them a single run. In the next inning a combination of a hit, a dropped third strike, and a long bingle to left field brought in two more, making their total of three. The local runs were secured, 2 in the first on 2 errors, a base on balls, and a hit, one in the fifth when McKinnon hit and came home on an error by Foster, and one in the seventh, on a combination of hits. Kyko was in the box, and had the visitors worrying throughout the game, fanning thirteen, passing none, and allowing six hits. The score follows:

WOBURN BASEBALL

FANS AT LOWELL

Meehan Rooters See Portland
Win Game by Score of
11 to 10

A number of Woburn base ball fans attended the game at Lowell yesterday between Lowell and Portland to see Frank Meehan play. They were not disappointed. Meehan covered first sack and put up a good game. Portland won 11 to 10. He failed to hit safely in 5 times at bat although he met the ball right on the nose each time for long drives, to the outfield. One of these hits scored a runner from third base after the catch was made. In the field Meehan played faultlessly and his Woburn friends who saw the game say that he did not appear at all worried over the fast company he is in.

MR. LOW SPOKE TO BUSINESS GRADUATES

Further Study not Necessary to Successful Careers

Head master Low of the High school spoke yesterday morning to those graduating from the business courses of the school, speaking generally of the work done, and the chances ahead of them. He emphasized that fact that it was not necessary for them to go to a business college after graduation from the local high school, if they properly carried out the work of their courses. He said that if they had the ability to succeed, and were willing to start on a small salary and work hard, that they were now as well equipped for business as if they had graduated from any of the business colleges.

He went on to speak of some of the lines of work open to them and the advantages of each, mentioning the fact that one graduate of the course, Walter E. Hooper, has already secured a permanent position.

NOT AN INTER-
NATIONAL MATTER
(By United Press)

Washington, June 12—The seizure by the Japanese government of the American yacht Columbia in the harbor of Wakayama has attracted the attention of the State department. Secretary Bryan says that Wakayama is a closed port, and the Japanese only did what the American government would do under similar circumstances. A dispatch from Tokio is to the effect that the seizure was merely a formality and not a breach of international courtesy.

Best Cellars.
An eastern author, it is said, makes a good income by raising mushrooms in the basement of his house. This shall not tempt us, however, to make any remarks concerning "best cellars."—Chicago Tribune.

HOSPITAL FIELD DAY NOTES

HOSPITAL FIELD DAY NOTES

The Band concert on the common begins at 7:30 a. m. At 8:45 a. m. a fire alarm signal means for all in the parade to be prepared and another signal at 9 a. m. will be followed by the command, Forward March.

Major Portal who was to be Chief Marshall has been ordered by the government to report for duty at Barnstable at once. Major Wade will take his place as Chief Marshal and is a most excellent officer for the position. His many years of military experience having given him a splendid training for any position in either peace or war.

Major Henchey will head the first division in the parade representing the city in his official capacity and the hospital as one of the officers. He will be accompanied by President Jones of the City Council and President Silver of the hospital. It has been decided to have the first division the officers trustees and directors of the hospital under the leadership of the Mayor as this division is an automobile division and is better leading rather than following the others.

Captain Conn who is a hard working member of the parade committee estimates that the parade will be over half a mile long and so many in the parade are anxious to see the parade they will be given an opportunity. So this can be done the parade forming on Arlington road will march up Main street to Wyman Green at Central square then turning will march back to Mishawum road and up Mishawum road to the park. This will give every one in the parade a chance to see just how the parade looks.

The parade committee have had to go to Boston to secure enough trucks to care for the floats but enough have been arranged for so that all will be provided for. Many auto trucks are owned in Woburn and the owners have very generously donated these for the parade but it wasn't enough for this parade.

Remember a red tag admits to everything during the day. Tags can be secured from the committee and at most of the drug stores. They will also be on sale by a large committee June 17. By buying a tag you help the hospital and become entitled to a big good time.

The prizes for the Prize drill of the Woburn high school battalion are now on exhibition in Smith & Varney's window. There is one cup for the best drilled company and two cups for the best drilled individuals.

Every one hopes and looks for a pleasant day June 17 but in case the weather man does get bad, arrangements have been made so there will be something doing all day and in the evening just the same.

In case of very bad weather 22, the no school signal on the fire-alarm would ring at 8 a. m. to mean the parade is postponed till ten thirty then in case of very bad day and the weather not clearing the same signal would ring at 10:30 a. m. meaning weather too bad for the parade. The rainy day program would mean a free band concert in Lyceum hall all the morning and Gorman's circus will be given in Lyceum hall in the afternoon from one to four. A prize drill would be held in the Armory in the morning and there would be dancing in the Armory all the afternoon. Ice cream, candy, peanuts, popcorn, lunches, pies, doughnuts, baked beans, tonics and all foods and supplies will be on sale all day in both the Armory and Lyceum hall. A red tag will be the only admission fee required to all these attractions in Lyceum hall and the Armory in case of bad weather.

The Pop concert in Lyceum hall and the evening dance in the Armory are held regardless of the weather. Tickets for the Pop concert are now on sale at Whitener's drug store and by the committee. Those wishing to see a first class show and have an enjoyable evening should secure seats as soon as possible. Make up a party of your friends and buy a table and have a really good time. An extra large orchestra has been engaged for the dance in the evening at the Armory so lovers of dancing can look forward to extra good music and dancing till twelve o'clock.

With Mayor Henchey working to have Mr. Bryan visit Woburn June 17 the prospect looks very bright for the Secretary of State making a trip to Woburn that day. The Mayor has written Secretary Bryan and will also meet him June 16. It would be quite an honor for the city to have so distinguished a visitor for Hospital field day and the mayor deserves great credit

EVERYONE SHOULD WEAR A

Hospital Field Day Tag
On June 17th

WHY?

It helps to support free beds at the Choate Memorial Hospital.

It makes you a personal contributor to this worthy object.

It entitles you to witness the GREATEST SHOW EVER PRODUCED AT FOREST PARK. By wearing this TAG you are entitled to witness the HIGH SCHOOL BATTALION DRILL, the CAMP FIRE GIRLS GREAT WAR DANCE, and J. W. GORMAN'S GREAT OPEN AIR HIPPODROME with all star performers. You will get a day of enjoyment in the open air.

Don't fail to secure your TAG and join the procession to Forest Park on Tuesday, June 17th.

"Father grows younger every day." And his new photograph hits him to a "t."

The old portrait taken twenty years ago; made him look so serious and old-fashioned—not a bit like he really is.

We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day.

And father says that he's glad he gave in and had it made—that having your picture taken is far from an unpleasant experience

ALFRED ELSON,

Residence Phone 53-W

for his effort to bring so distinguished a man to our city.

The Bay State Street railway has arranged to run extra cars at frequent intervals during the day to the park and return.

Remember there is to be a special telephone at the park. There will be an operator to receive and send all calls. This was found a great convenience in 1912 and this year's show being so much larger the telephone will be still more useful. The number is Woburn 2100. Make a memorandum of the number.

Something New on Hen. A young Boston college woman was following the suburbanite about his place and doing her best to show her full appreciation of the semi-rural beauty of the establishment. On visiting the hen-yard she became enraptured. One hen was unusually well marked. "Oh!" the young woman exclaimed enthusiastically, "what beautiful foliage that hen has!"

S. OF V. HELD
LADIES' NIGHT

Very Successful Social Affair
Last Evening

About thirty members of the Ladies Auxiliary, the guests last evening of the camp and club, were given a most royal entertainment. Over fifty of the S. of V. were present, bringing the total attendance up to eighty.

The evening opened with an hour of general sociability in an informal reception, after which the ladies divided into four teams and contested for the prizes in bowling. Miss Sadie Page was the most successful individual bowler of the evening, while team two won the team prize with a score of 599.

Refreshments were then served, after which the assembled company danced to the music of the piano furnished by William Mahan. All those present were unanimous in their compliments to the committee on their success, and expressed their opinion that as a Ladies' night it set a standard which would be unmoved for some time. The committee in charge consisted of E. Foss, chairman, Alfred Elson, William Mahan, Daniel Towse, and Marcus H. Cotton. The scores made in the bowling were as follows:

Team 1	
Mrs. Waters	49 56 105
Mrs. Noyes	47 40 87
Miss Ayer	54 50 104
Mrs. Patten	39 57 96
Mrs. Read	43 27 70
Mrs. Elson	48 23 71
Total	280 253 533
Team 2	
Miss Boutwell	56 66 122
Miss Fezette	58 62 120
Miss Page	68 35 103
Mrs. Webber	36 62 98
Miss Irish	48 43 91
Miss Briggs	32 33 65
Total	298 301 599
Team 3	
Mrs. Gates	54 61 115
Mrs. Towse	33 41 74
Mrs. Carswell	61 64 125
Mrs. Patterson	44 57 101
Miss Leathe	45 55 100
Mrs. Poland	41 28 69
Total	278 306 584
Team 4	
Mrs. Blye	47 50 97
Mrs. Lovering	24 48 72
Mrs. Cotton	33 34 67
Mrs. Davis	27 43 70
Total	182 220 402

High individual single—Miss Sadie Page 68.
High team prize, Team 2—599.
Low team prize, Team 4—402.
Low individual single, Miss Ordway, 21.

SMALL FIRE THIS MORNING

The fire department was called out this morning about seven thirty for a fire in the Italian colony at North Woburn. In some way the bed in one of the houses became ignited, and box 28 was pulled in. The fire was soon extinguished with little damage except in the way of water and smoke.

ENGINE WRECKED
THIS MORNING

8.22 Train into Boston Delayed
Until 9 O'clock

The 8.22 train into Boston, numbered 126, was delayed until about nine o'clock this morning, by a serious accident which occurred near the North Woburn station. As the train began to gather speed, one of the driving rods suddenly snapped, and before the train could be stopped, the whole side of the engine had been put out of commission. The train was forced to wait until another engine could be secured, which was not until about nine o'clock.

BLAZE IN
WILMINGTON

F. W. Folger residence on
Chestnut Street Sustains
Damage of \$1000

A fire, which is supposed to have been caused by hot ashes was discovered a little after 11 this morning in a woodshed adjoining the residence of F. W. Folger on Chestnut street, Wilmington. The isolated locality led the Wilmington authorities to call for outside help and word was sent to Woburn, the signal of ten strokes indicating an out of town fire. The steamer and hook and ladder responded.

The fire completely destroyed the woodshed where it started, and communicated to the dwelling house, burning a considerable part of the second story. The premises were thoroughly wet down. Loss will reach \$1000 which is fully covered by insurance.

PLEASANT SURPRISE
LAST EVENING

Mr. and Mrs. Potter, Winchester
Celebrated 15th Anniversary
of Wedding

Mr. and Mrs. George W. Potter of 7 Canal street, Winchester, were very pleasantly surprised last evening on the occasion of their 15th wedding anniversary. The Mandarin Municipal band, of which Mr. Potter is a member, came over early in the evening, serenaded the couple from the lawn in front of their house, and then, through the leader of the band, Mr. Morash, presented Mr. Potter with a very fine leather travelling bag. At the same time the many friends of Mrs. Potter assembled and showered the couple with many useful gifts and some very beautiful pieces of cut glass. One of the most acceptable was an electric reading lamp, presented by Sander son the electrician. The evening was spent in general sociability, while the Municipal band rendered selections and refreshments were served.

AUTO ACCIDENT THIS MORNING

Motorman Burke of Bay State Railway Badly Shaken up

Cars on the North Woburn division of the Bay state street railway were delayed for nearly an hour this morning as a result of a serious accident which occurred at Baldwin's crossing. The car which left North Woburn at 8:42 had just arrived at the turnout, in charge of Michael J. Foley, conductor, and Michael Burke of Lake avenue motorman. As is the usual custom, the two men telephoned to the car barns for instructions, after which the conductor returned to the car while the motorman closed the telephone box.

Just as he started to return to the car, a Packard runabout came rapidly along the track, driving in the car track, and attempted to pass on the right of the trolley car which stood on the outer track. As a result the automobile struck Burke before he could get back to the car, injuring him seriously, and throwing him about twenty feet.

Burke was immediately rushed to Choate hospital, while the owner of the car waited until Superintendent Donovan arrived on the scene. He gave his name as Leonard H. Spaulding of 27 Everett avenue, Winchester, and his chauffeur, who alone was with him in the car, as Lewis Davis. It will be remembered that Mr. Spaulding has figured rather prominently in several automobile accidents in the vicinity. About a year ago while riding through Woburn he ran over and seriously injured a child near Fowle street.

o-o-o

Court Isabella Was Well Entertained

Vaudeville Performance Followed Regular Meeting Last Night

After the regular business meeting last night Court Isabella had one of the most enjoyable social hours in their history. The entertainment was in the form of a vaudeville performance, while Miss Margarette Mulkeen, Grand Regent, as Mistress of ceremonies announced the performers, telling of their world wide fame.

The performers appeared masked, and peals of laughter greeted their appearance. Each performer was gowned to portray the character she represented and each one received an ovation for the clever way, in which she carried out her work.

The following numbers were on the program:

Piano Solo, Mary Lyons; Contest, Misses Meehan and Lyons; Imitations of Stage Favorites, Misses Katherine Corry and D. Collins; Special Number, Mrs. Nellie Crosby; Follies Dances, Mrs. K. McManus, Miss Alice McHugh; Impersonators, Miss Louise Kenney, Miss May Kenney, Mrs. K. Collins, Miss H. Hartnett; Black Faced Comedians, Misses O'Neil and Costello.

The performance closed with a grand finale.

Miss Helen McDermott presided at the piano.

Refreshments were served and dancing was enjoyed to a late hour.

The committee in charge of the affair was Misses Elizabeth Murphy, Elizabeth Lynch, Mary Costello, Anna Harkins, Louise Kenney, Mary Corry, Mary Kenney.

CITY COUNCIL

HELD MEETING

Appropriations Made for July 4th and Waltham Street

The City Council held a special meeting last evening for the purpose of acting on the matter of a July 4th celebration. Other matters, however, left over from the previous meeting came up for action and were transacted. Nine members were present and six absent.

A communication was received from the mayor, urging that something be done in the way of an appropriation for the highway work. He declared that the streets and highways were badly in need of repairs, and that the apparatus, such as the steam roller, and the horses, were idle for lack of money. He mentioned the case of Center street, which is in so bad a condition that already claims have been entered for damages, and others are to be entered as a result of damage inflicted during the recent thunder showers. He urged that an appropriation be made, not for any specific purpose but for the general work of the highway department.

The order for \$500 for a July 4 celebration then came up. The finance committee reported recommending \$750 for the purpose, the report was adopted, and the order given its first reading.

The order for \$900 for the resurfacing of Waltham street came up for final action, and was passed. The meeting then adjourned.

o-o-o

GARDEN PARTY TO BE HELD TOMORROW

Plans Laid for a Very Fine Affair at Mrs. W. W. Hill's

Tomorrow will be the big day in North Woburn. Everybody who is not crippled or dead will be at the Garden Party which is to be held in the afternoon and evening at the residence of Mrs. William W. Hill, in aid of the Congregational church. The party is being conducted under the auspices of the Parish Aid society, and a long list of committees has been working for many weeks to make it a complete success. Every indication points to the fact that that it will be one of the biggest successes of the year, and certainly those who stay away will miss a great deal that ought not to be overlooked by any one.

EXTRA--3 O'CLOCK

Rep. Parker Gets Travelling Bag

GOVERNOR FOSS SIGNS FOUR BILLS

Boston, June 13—Governor Foss today signed four bills, the bill providing for the care of widows, and women with children whose husbands have deserted them, the Everett-Malden subway bill, and the bill for the removal of the elevated tracks between the North Station and Sullivan square and the substitution of a tunnel. The bill for the relief of widows and deserted wives provides for the supervision by the State Board of Charity, and \$50,000 has been appropriated for expenses, for the first year. A fourth bill to receive executive favor was that which allows street railway companies to sell twice the amount of their stock under the approval of the R. R. Commission.

o-o-o

WASHBURN BILL

PASSES HOUSE

(By United Press) Boston, June 13—By a vote of 170 to 58 the House overrode the governor's veto of the Washburn R. R. bill today. Representative Washburn, the father of the bill said he should vote to pass the bill over the veto because he believed in getting control at any cost, although he thought Governor Foss was absolutely right. The bill now goes to the Senate. It is believed the senate will uphold the action of the House on this bill and on the Western trolley merger bill.

MORTGAGING THE FUTURE

The days of "High Finance" are often and justly severely criticised and are sometimes beyond the comprehension of ordinary people. The practices in regard to municipal finances have been in the last generation or two and are now frequently quite as marvelous.

The people in Jersey City are now considering with considerable interest a financial transaction which was negotiated in that municipality some forty years ago. The city fathers then had occasion to improve their water system and installed water mains which cost about \$500,000, this amount not only including the proper cost of the work and the water pipes, but also a pretty generous "rake-off" for those handling the proposition as was generally believed at the time. The officials did not make the foolish mistake, either of paying for the improvements when they got them or providing for their early payment in instalments. They were too sophisticated in financial matters to do that. Rather they borrowed the half million at 7 per cent and up to date the figures show that they have paid \$1,400,000 to the loaners of the money.

This might not worry the tax payers in Jersey City very much if the water system was now paid for as it might be presumed would be the case when three times as much money has been paid out as the system was supposed to cost. But Jersey City now owes \$500,000 just as she did in the first place and of course she has not quite as much to show for it because the water mains are not as good as they were when they were new.

What is so wonderful as finance when engineered by those who are not spending their own money? In what other realm would people be able to get something without paying for it and at the same time pay for it without getting it?

The truth is the average city official has a very vague and crude idea as to where the money is to come from to pay for permanent improvements or even current expenses. He thinks that somehow when the money is "appropriated" it is available to spend. For such officials there is much attractiveness in the idea of appropriating, raising and spending money and leaving the payment to future generations. Such a little thing as a heavy municipal debt does not bother them.

In Woburn we have not hitherto mortgaged the future or put burdens upon those who come after us which on the whole are excessive or which are likely to be greater than the burden we ourselves are now bearing. There have not been lacking those, however, who would have done so if they could have had their own way. A few years ago it will be remembered there was a movement which received strong official backing to secure authority to borrow \$200,000 to renew our water mains. But when it was found our water revenue showed a surplus amount of \$20,000 or \$25,000 which surplus was being used to help pay the bills of other departments, the legislature very wisely put restrictions on the right to borrow which was given so that the amount which may be borrowed in any one year is small and even that

sum cannot be borrowed except when a proper amount from the surplus of the water revenue is used to renew the water mains.

The system in vogue in Massachusetts, by which it is provided that money borrowed for improvements is to be paid in successive annual instalments, precludes such an experience as Jersey City has had, but it is necessary to be watchful at all times to prevent heavy outlays for permanent improvements and even the payment of part of current expenses with borrowed money under a comfortable system of finance which saddles the real burden upon the city and citizens of later years and does not seriously affect the current tax rate.

ALTA DELTA CLASS
ENTERTAINED

"Lucia's Lovers" Presented last
Night in M. E. Church

The vestry of the M. E. church was completely filled last evening with an audience which was well rewarded for its coming. The Alta Delta class of the M. E. Sunday school under the direction of the teacher, Mrs. Melvin Gould, gave a very fine performance of "Lucia's Lovers," a play describing the troubles of an over sentimental young lady in a boarding school. Incidentally a good deal of fun is introduced in the background and setting, of boarding school life. Much credit must be given to those who took part. Miss Dora Simonds and Miss Ethel Tabor, playing opposite each other as Edith, the Southern girl who constructs the dark deadly plot, and the poor heroine who is much deceived, Lucia. Miss Rachael Hewlett, acting as Catharine, was also very successful, and showed much naturalness. The cast of the play was as follows:

Lucia, Ethel Tabor; Polly, (who loves cats), Evelyn Show; Edith (who is a Southern girl), Dora Simonds; Mildred, Mildred Holdridge; Catharine, Rachael Hewlett; Marica, Emily Turner Dorothy, Bessie Queen; Miss MacGregor, Jennie Turner; Chauncy, his majesty the kitten.

Between the acts, a musical program was rendered, consisting of mandolin, guitar duets, by Miss Blanche Blackburn and Melvin Gould, solo by Mrs. Jessie West, accompanied by Miss Avis Sherburne, who also played solo selections. In the intervals, ice cream cones were on sale by the members of the class, and as a whole the evening was both a financial and a social success.

MISS JOSEPHINE BIGGAR
MARRIED YESTERDAY

Miss Josephine Biggar of 5 Garfield avenue this city and Laudman B. Johnson of Allston, Mass., were united in marriage yesterday at Cambridge by Rev. Walter J. Crane, of St. Bartholomew's church.

The Hospital Aid society are invited to follow the trustees in the automobile section and all members who can secure cars are requested to be in line and to see that they are filled with members of the association. It is suggested that every one wear white.

Mrs. Jores Palson, 50 Jonnen st.
Miss Katherine Pike.
Miss Bessie Powers, 127 Cross st.
Mrs. Frank Walker.
Edwin F. Wyer, Postmaster.

WOBURN GRANGERS
VISIT BILLERICAEntertainment of High Order
Feature of Evening's Pro-
gramme

Forty-two Woburn grangers visited Billerica grange last evening by special invitation. After a bountiful supper followed by a business session, members of Billerica grange presented a three act play entitled "Brass Buttons." The balance of the entertainment was given by Woburn members. Misses Mary and Lilla Breslin and Miss Alice Callahan gave a witch's dance in costume around a lighted cauldron, and uttered prophecies for Billerica, Bedford and Woburn grangers.

Amusing shadow pictures were presented showing the serious consequences of overeating. Louis Menchin portrayed the victim and his abnormal appetite necessitated a heroic surgical operation which was successfully performed by expert surgeons George J. Whithed and Charles H. Harrington.

The Woburn visitors were treated royally and got home at 12 o'clock.

REMEMBER FLAG DAY

(By United Press)

New York, June 13—Tomorrow will be Flag Day throughout the United States and those who have been in charge of a great program planned for the schools and other private and public institutions here declared today that there will be no city or hamlet, however large or small, throughout the nation, that will not in some formal manner pay tribute to the Stars and the Stripes. Officials of Flag Day ceremonies here say that they have received word from practically every American embassy and legation in foreign lands to the effect that the day will be observed in some formal way. Public school children will spend at least one half the day singing patriotic songs and listening to addresses. The local committee claimed today that a million flags would be swung from that many residences throughout Greater New York tomorrow.

FRIDAY THE THIRTEENTH

(By United Press)

New York, June 13—If you got up this morning with a peculiar foreboding that something unpleasant was going to happen; if you had the bad luck to get out of bed this morning of all mornings with your left foot first; if you intended popping the question to the lady of your dreams today—beware. This is a bum day to start anything you want to have luck with, for it's Friday the Thirteenth. That isn't such a rarity in itself, for there have been numerous other Fridays the Thirteenth in the past few years. This Friday the Thirteenth of today, however, is peculiarly potent for evil in its make-up.

Today is the only day of the present year when the thirteenth of the month will fall on a Friday. It will be at least 100 years before you will get the combination of Friday the Thirteenth in the thirteenth year of a century, so when you write June 13, '13 today, be careful to cross your fingers to keep off "de conjuns."

RELIABILITY TOUR

(By United Press)

Chicago, June 13—Some dozens of automobileists were ready today for the annual interclub reliability tour of the Chicago Automobile club and the Chicago Athletic association, which will be held tomorrow and Sunday. Fort Wayne, Ind., is the objective point. It was announced definitely today that the noon control for the first day will be Lake Geneva, Wis., and for the second day, Harvard, Ill.

ALPHA-OMEGA ON
SALE NEXT WEEKSenior Publication at High
School to be an Attractive
Magazine

The Alpha Omega, the magazine published by the Seniors of the Woburn High school will be out next week. The cover this year will be in blue and gold, the class colors, and the magazine, as a whole very attractive and interesting in every particular.

From a great competition of a short story writing, three stories have been selected—"Mamie" by Miss Deborah Curtis, "Victory King" by Edward C. Wall, and "Haskell's Rock" by Elmer E. Silver Jr. Two very interesting accounts of the trip to Washington during Inauguration have been written by Harry Lawson and Carl Everberg, and military articles by Bertine Winchester, Clifton Shinnquin, and Wilford Walker will appear.

One great feature of the magazine is the section devoted to "knocks" and "boosts" in the form of toasts to members of the class. This section has been written by Miss Mabel Hamilton, who has also written a parody on Milton's L'allegro which will surely be popular.

An unusual number of artists and illustrations belong to the class of 1913 among them being, Miss Frances Parker, Miss Bertha Emery, Miss Lillian Hubbard, and Miss Valborg Anderson.

Pictures of the baseball team, officers of the battalion, editorial staff, class officers, valedictorian, salutatorian, historian and prophetess will also appear.

There are other features in addition to those which we have mentioned, which will add to the popularity of the magazine. A wide sale is anticipated, and all the friends of the school and of the class are urged to get their copy early. It will appear the last of next week.

COMING EVENTS

June 13. Lucky whist at Mrs. Dorrington's on Poole street.

June 13. Salad supper and sale by W. R. C. 84.

June 14. Trolley ride to Revere beach Social Two.

GOURDAIN IS DEAD

Veteran Swindler and "International Lunatic" Succumbs.

Mystery of Notorious Chicago Character Who Escaped From Prison Is Solved by Death in London — Tried to Enter Joliet.

Chicago.—Louis A. Gourdain, veteran swindler, who began his career as a clerk for the Louisiana State Lottery company and organized a rival concern that yielded him \$250,000, is dead in London. He had a long criminal record, became known as the "international lunatic" and after he was convicted and released on a technicality, demanded admittance to the Joliet penitentiary.

His request being denied, he planned to build for himself a prison near the penitentiary. Finally the supreme court ordered that his wish be granted. His term had been fixed at four and one-half years. Later he was transferred to the federal prison at Atlanta.

While there he was declared insane and was taken to the Washington asylum.

Finally, he escaped, and even since then his whereabouts had been a mystery until reports from London told of his death. Because of his sensational and spectacular career, a good deal of interest had been felt regarding his fate.

After he had made a fortune with his own private lottery, the police raided Gourdain's place and put him out of business.

Soon afterward he organized the Louisiana Grand lottery, with offices in Chicago and New Orleans. His Chicago partner was John H. Dalton. It is said the combination cleaned up \$1,000,000. It had branches in numerous cities and spent money like Monte Cristo.

Gourdain's insanity was attributed to the whirl and excitement of his success. At New Orleans he started the inhabitants by driving through the streets in a fine carriage and clad only in a bathrobe.

He made speeches from the tops of the electric light towers. For this conduct he was adjudged insane and sent to an institution for one year. Following his release he organized the Louisiana Loan and Trust company.

Meanwhile the United States government barred lotteries from the use of the mails and Gourdain was sentenced to six months in prison.

After his release he went to New York, where he opened a "bank." For this he was convicted of working a lottery game and was sentenced to a year on Blackwell's Island. Then he purchased 1,280 acres of land near New Orleans and converted it into "oil lots," which he sold on a lottery.

He started the "Manhattan Exchange bank" in La Salle street, Chicago, and made this his headquarters. He had branches also in New Orleans and is said to have converted a few thousand dollars into \$1,000,000. This scheme resulted in another conviction, which, however, was reversed on a technicality.

Then followed his petition for admittance into the penitentiary and his threat to build a prison for himself. Before leaving for Joliet to build this "prison," he was living with his wife at the Congress hotel.

He started the "Manhattan Exchange bank" in La Salle street, Chicago, and made this his headquarters. ELKS TO HOLD FLAG DAY CELEBRATION

Fine Speakers to be Present June 16th

The local Elks are planning a very enjoyable celebration of Flag Day, which they are going to hold in Lyceum hall, Monday evening, at eight o'clock. All the military and patriotic organizations of the city have been invited, and a fine list of speakers has been secured among whom will be W. Scott Peters of Haverhill, formerly district attorney for Essex county. Another orator of prominence will be Daniel Gallagher of Boston. A varied musical program will be offered, including solos by Mrs. E. P. Fox, violin solos by Clarke Mendum, recitation by Miss Sturtevant of Lexington and selections by the Glee club from Post 66, G.A.R. of Medford. Among the special guests of the evening will be the committee which had charge of the Flowerland Carnival held with so much success last winter.

SALESMAN

Gavin & Lydon Install an Up-to-the-Minute Addition to Their Equipment

Gavin & Lydon the Central House grocers have added to the equipment of their attractive store by installing one of Schever's Pure Food Counters, of the "Silent salesman" variety. It is handsomely and substantially constructed of oak with plate glass front. It contains 24 trays, in which as many kinds of food articles may be displayed. Not only are these indispensables on view constantly thus suggesting possible needs to the customer, but the goods are kept absolutely free from dust. It is convenient, attractive and hygienic, and altogether up-to-the-minute. The enterprising firm has again demonstrated in a practical way its claim to leadership for progressive methods.

—o—o—

STEWARTSON-PAGE

A wedding which has come as considerable of a surprise to Woburn people is that of Miss Berenice Page, daughter of Adna A. Page superintendent of bridge construction on the Boston & Maine railroad, to Mr. Raymond Stewartson, a musician in a Boston theater. The groom has been a boarder at the Page home for some time, and has been paying attentions to Miss Berenice Page.

It is understood that on Sunday last the young man spoke to Mr. Page, asking his approval of the marriage. This was refused, and the following Tuesday, Miss Page went to Boston, and came back to her home the next day only to announce that she was married, and to collect her personal belongings. It is generally known that the couple are now living at 1 Oxford Terrace, Boston, where they have a suite of rooms.

CHIEF BUTTERS IN EXPLANATION

Exonerates Wilmington Fire Department From Blame in Emergency Call

Chief Engineer A. D. Butters of the Wilmington fire department wishes it to be understood that the emergency call, in response to which the Woburn department had a run of several miles yesterday when the blaze was only a burning woodshed, was not authorized by him as a fire chief or by any one acting for him.

According to the chief after the party giving the notice of the fire had notified the Wilmington fire department they asked the central telephone office for an emergency call to the city of Woburn, and the chief says further that the first the town authorities knew of what had been done was when the Woburn force showed up. As the fire was then out, their services were not needed.

The chief furnishes a detailed story of the facts of the fire. He says:

"An alarm was sounded from box 36 at 11:15 a. m. yesterday. A woodshed owned by Mr. Horace W. Folger on Chestnut street caught fire and burnt to the ground. The shed contained a lot of wood about 45 gallons of oil in a barrel, and a barrel of lime. When the fire was first seen the shed was about half burned. The shed stood about 15 feet from the house and the wind blew the flames upon the side of the house and a small hole was burned through over the door and a place in the wall and over the ceiling in the kitchen about two by four feet was charred, and the plastering was cut away. The kitchen and room overhead were wet with water, the other damage to the house was a broken window and a blind on one window. Value of shed and contents, \$100, value of house, \$110, damage to house \$125. Covered by insurance."

LEGALIZED BOXING IN MONTANA

(By United Press)

Butte, Mont., June 13—Montana comes back on the pugilistic map again tonight when two fights are staged here. Fighting Bob Moha and Jack Dillon meet at the Copper City club and Eddie McGaughy and Jimmy Clabby fight at the Treasure State club. Both scraps are scheduled to go twelve rounds. These are the first two matches of any importance to be staged in Montana since the passing of the law legalizing boxing by the last legislature. Today is Miner's Union day, the biggest holiday of the year in Butte and both matches are expected to draw capacity audiences.

—o—o—

ABAS! THE TIP

(By United Press)

Denver, Colo., June 13—Abolition of the tipping evil through legislation in every state in the Nation was urged here today at the opening sessions of the two days convention of the United Commercial Travelers of America. Nearly two thousand delegates with their families are in attendance. There was no doubt today that the resolution urging an anti-tipping law will pass unanimously. Other matters considered today related to better traveling accommodations and a closer affiliation between the Travelers association and the Hotel Managers and Owners association, in the interests of better accommodations at hotels throughout the country.

—o—o—

NAIL WILL STAY

When a wall is so soft that it will not hold a picture nail, mix a little plaster of paris in a teacup, enlarge the hole to a fair size and insert the plaster, and, a minute after, the nail and let it dry. The nail will be perfectly secure after it has dried.

AMERICAN FLAG

RECOGNIZED

Rome, June 13—The American flag, after today, will be one of the permanent decorations at the Roman College of Missionaries of La Salette. The flag was installed by the Rev. John P. Neale, LL. D. of the La Salette College at Westerly, Rhode Island, after it had been blessed by the Father Superior of the order of the Missionaries of La Salette. The Feast of Tongues was the day chosen for the inauguration of the flag, owing to the fact that eight languages are spoken by the missionary students of the college.

—o—o—

The Journal prints the news.

UNJUST DISCRIMINATION

(By United Press)

Rome, June 13—The National Council of Women today made formal protest to the government for the alleged discrimination against Signora Lancelot Croce in a recent government competition for artistic designs for the new mint. The work submitted by Signora Croce won for her the appointment of head engraver of the mint. Later she was notified that she could not have the place, as the position, entailing grave responsibility and discipline, was declared to be too much for a woman to fill. The National council of Women is confident that the minister of the treasury can be induced to revoke the latest order and give Signora Croce the position. If this is done Signora Croce will have one of the highest official positions under the Italian government occupied by a woman.

HI THERE

Boys and Girls

The great Pony Contest starts today at the stores of Woburn's Leading Merchants.

Get your family and friends to trade at these stores, and you win the Pony.

GET BUSY—HUSTLE

SECOND FIRE AT
MICHAEL BURKE'S HOME

\$200 Damage Inflicted Late Last Evening

Box 55 was rung in last evening at ten minutes to ten for a fire in the shed connected with the house of Michael Burke on the corner of Stoddard and Main streets. No cause is known for the blaze, which was extinguished in a little over an hour with \$200 damage. Mr. Burke is unfortunate in regard to fires, a still alarm being called in Wednesday for a chimney fire in his residence. No damage was done at the previous fire.

The shed was occupied by horses and teams belonging to Kenney and McPartlin, who are fish dealers. They were all taken out in safety, however, with no loss of stock.

LOWELL-WOBURN
GAME CALLED OFF

Bay State Employees From
Neighboring City Refuse to
Play

Well, the Lowell Bay State street railway employees got cold feet as was predicted.

They quit cold in the game they had agreed to play at Library park this afternoon with their Woburn brethren, thereby disappointing hundreds of local enthusiasts and most all of the members of the Woburn team, who were primed to duplicate their performance of a few days ago, when they handed the Lowell boys a good sound trouncing, on the Lowell baliwicks.

The manager of the local Bay state nine received word early today that for reasons unknown the game was off.

Large Crowd Visits Work of
Pupils in Hanson Hall

All those who have been interested in the exhibition of drawings which is being held in Hanson school Hall, were much delighted last evening at the large number of people who attended the exhibition and expressed their unqualified approval of the work which is being shown. The hall was well lighted, and displayed to good advantage all the drawings and exhibits.

Mrs. Kimball of Gloucester is visiting her daughter Mrs. Frank Arnold of School street for a couple of weeks.

Miss Percy Beatie is home from Northfield for her summer holidays.

Romkey and Webber of Winchester have started the frame for Charles Merchant's new house on School street.

Mr. and Mrs. D. L. Coburn, daughter Ruth and son Donald have returned home from Mount Holyoke where they have been attending the graduation exercises of their daughter Miss Dorothy Coburn.

The plans for the forming of a Junior Christian Endeavor society in connection with North Congregational society are well under way and next Sunday all who are interested in the starting of the society and all the young people between the ages of 7 and 16 who would like to join, will meet in the vestry of the church at 4 o'clock, when the pledge will be explained and membership cards given to all who wish to sign.

The stage for the two big shows to be given at the garden at W. W. Hills' Saturday afternoon was put up last evening, and the place has begun to look business like, busy corps of workers may be seen each evening getting ready for North Woburn's big annual event.

The North Champions and the North Stars are exulting over their new baseball regiments. If you are a boy and are not sporting a new baseball suit you are not "in it" in North Woburn now.

The Romeo and Juliet performance will be one of the leading features of the evening entertainment at the garden party tomorrow You don't want to miss it.

Mr. Harold Childs of Woburn was in North Woburn making calls last evening.

Those new signs are not up at Main and Elm streets yet, and the old ones are no plainer.

The public spirited automobile owners of North Woburn are giving their machines for an hour on June 17 to carry passengers from Woburn centre to the Hospital Day celebration at Forest park. Are you on? If so Everett Thompson has the matter in charge and will tell you what to do.

There was an unusually large attendance at the Wednesday evening service this week, Mr. Ernest Milner led the meeting which was a very interesting one, in the absence of the Pastor, Rev. George H. Tilton.

Good Game Expected Tomorrow Afternoon

All those who have been interested in the exhibition of drawings which is being held in Hanson school Hall, were much delighted last evening at the large number of people who attended the exhibition and expressed their unqualified approval of the work which is being shown. The hall was well lighted, and displayed to good advantage all the drawings and exhibits.

Throughout the evening music was rendered by an impromptu orchestra from the pupils of Miss Dean's room, consisting of Joseph Joyce, violin, William Rooney, cornet, and James Marrinan, piano.

The exhibition will be held today from 3:30 until 5:30 and from 7:30 until 9:00. As this is the last day of the series, everybody who has not seen the work would do well to do so. There will be music this evening, by the same artists.

FIND STOLEN AUTO IN WINCHESTER

Somerville Machine Abandoned at Corner of Main and Church Streets Returned to Owner

The Winchester police yesterday recovered a stolen automobile belonging to Thomas F. Harrington of Somerville. The machine is a Buick Roadster, brand new, 1913 model, and was found by the police shortly after a telephone from the Somerville authorities was received, asking that a watch be kept for the thieves.

When located, the auto had been abandoned and was standing in the street, at the junction of Main and Church streets with the engine going. The machine was uninjured and there was nothing found that would enable the officers to apprehend the thieves. The Somerville police are also completely in the dark and cannot find a single clue that would explain the theft or the motive.

CELEBRATES 25TH WEDDING ANNIVERSARY

Mr. and Mrs. James M. Carroll of Broad Street the Hosts

A large number of friends of Mr. and Mrs. James J. Carroll of 20 Broad street assembled at their home last evening to celebrate the anniversary of their wedding, which took place 25 years ago in June 1888. Many very beautiful gifts and messages appropriate to the occasion were received, among which was \$25 in silver, presented by a son, Thomas Carroll. A pleasant social evening was enjoyed and refreshments served word from authorities of practically every city in the United States telling of formal programs in honor of the event. The request from the Flag Association that the President of the United States, governors of all states and mayors of all cities herald the event with a public proclamation was generally heeded. On all public buildings and on millions of private office buildings and residences American flags were flung to the breeze today.

SATURDAY, JUNE 14, 1912.

HOSPITAL FIELD DAY

June 17 in Woburn has come to be recognized and accepted as the day to be devoted to a celebration for the support of the Choate Memorial hospital. This philanthropic enterprise in Woburn has been most wisely and successfully handled from its start. There were those who were skeptical when the scheme was proposed, but the promoters of it had faith in the public spirit of our citizens and sufficient confidence in their own business sagacity to believe that the hospital could be established and maintained successfully, even though at the start and not likely for some years to be substantially endowed.

The lack of such endowment and consequently of assured annual revenue has made it necessary to appeal to our people in some way for help annually. The funds for the establishment of the hospital, as well as for the purchase and equipment of the Nurses' Home, were raised by public subscription. The required revenue for the maintenance of the hospital has been from year to year provided largely by the 17th of June celebration, the May Party under the auspices of the Hospital Aid Association and some other entertainments also helping materially.

While it is most gratifying to the hospital authorities, as well as to our citizens generally, that so substantial an amount of money is raised by this celebration annually we think there is no less reason for satisfaction in the fact that all our people unite in making this fete day a success. There is no other event in our annual calendar which compares with it in bringing people of all sorts and with varied interests and affiliations together. The day is a great leveller. It finds men and women, who would frequently not know each other and in most instances would rarely meet, working side by side and hand in hand for one common cause. It makes us know and appreciate our neighbors and fellow-citizens better. It gives something for everybody to do if he will do it. It has been proved that everybody called on is willing to help. The atmosphere of the affair is contagious. Our people from oldest to youngest can all have a part. It is a thoroughly enjoyable occasion from the minute the band starts at 7.30 in the morning until the last dancer leaves the armory early the following morning.

Next Tuesday, if the weather conditions are favorable, will certainly outdo all other celebrations of this sort which we have had. The procession will be a big, varied, impressive and an amusing one with its different divisions. The equipment at Forest park for the various booths and exhibitions will be complete in every particular. In other years the problem of entertaining the people when they have reached the park has been a difficult one. Exhibitions in tents have been unsatisfactory because the expense was large and the people did not enjoy getting inside the tents with so much of color and life and interest outside. The girls' ball game has been an attractive feature for two years, but obviously could not be conducted every year. This year the committee with an enterprise and at an expense which we are sure will be justified by the

outcome have secured a genuine out-door circus, the event of which will be given at short intervals throughout the day and which everybody can be assured will be as entertaining and thrilling as the traditional circus and on as large a scale. Everybody can see the whole of it and it looks as though everybody would be there and everybody who is there will, we are sure, be found wearing a Hospital Field Day round red tag.

WHAT'S THE MATTER WITH THE BOYS?

The advent of the high school graduation season, with its concomitant assignments of honor parts, reveals the fact that the girl graduate is very much in evidence. This is very generally the case and in numerous instances the boy graduate is conspicuous by the absence of his name as a part of the graduation program.

Hence, the query at the head of this article. This is the woman's century without doubt. The sex is demonstrating its ability to compete with men in many walks of life, in the arts and sciences, and in the professional and business world. Possibly the younger representatives of the sex in the high school senior classes have caught the contagion. But are the girls smarter than the boys? Are they better scholars? Are their minds better fitted to grapple with schoolroom tasks?

Or, is it because the boys are less ambitious, and content, to get by without undue strain? We rather fancy that the answer is found right there. If that is the solution the condition is to be deplored. When one drifts into the realm of the "Don't Care" he or she is in danger. Young men, you will never win out in the battle of after life if you are content to simply "get by." These school honors are as worthy of your striving as any guerdon you will ever try for. Things are not quite right when all the honors are captured by one sex alone. A distribution of honors between the boys and girls bespeaks a healthy mental growth and general interest. Wake up, boys!

'TWEEN SCYLLA AND CHARYBDIS

We mean no insinuations as to His Honor the Mayor, when we say that the city council seems at present to be "between the devil and the deep sea." On the one hand there is the financial poverty of the city, which necessitates the most stringent economy; and His Honor does well and wisely to insist upon economy in the appropriation of the city's funds. But on the other hand there is the absolute need, amounting to a necessity, of spending considerable money along certain lines. The streets and highways are a disgrace to the city, and the apparatus which we have is lying idle for lack of funds. The one shining example, if that word may be used, is Center street, which is at present a source of continual claims for damages. Again Library Park is badly in need of repairs which cannot be made under the present insufficient appropriations. The question which the council has to face, and it is no light problem, is to steer between two evils, to keep the city respectable, and yet to spend no unnecessary money. The council has our sincere sympathy.

In Salem the other day a most remarkable thing occurred, indicative of the near proximity of the millennium. The criminal court opened in Salem—and there were no cases on file. Imagine it, no criminals brought to trial. Either the police of Salem have all yielded to the somniferous influence of the gentle month of June, or else in the witch city there is a state of blessedness unequalled anywhere else. We are much afraid that this happy condition will not last very long.

It is reported that Professor Taft has lost thirty pounds since he lost his official dignity. However, a little item like that will never be missed from the sum total, which is some total.

The Wilmington fire incident resolves itself, as most similar cases, do to one excited individual, who acted before thinking.

It was a hot dusty morning today, and the watering carts were very conspicuous by their absence.

Governor Foss declares that he wants justice. No doubt, but does he desire it?

PLANS MADE FOR JULY 4 CELEBRATION

To be Big Event in the City's History

The committee on the Celebration of July 4 met last evening with Charles C. Clarke occupying the chair, and proceeded to organize for business. L. L. Dorr was made secretary and George W. Low treasurer. After much discussion and consultation with a committee from Charles H. Maloy camp of Spanish War Veterans, it was thought best to hold the parade in the afternoon in connection with the services of the dedication of the cowl of the battleship Maine which will take place at that time.

The authorities at Washington, D. C., are to be interviewed with the idea of securing their permission to have several companies of regular U. S. troops parade, and arrangements are under way for a sham battle to be held by the M.V.M. following the parade. Altogether an unusual military display is expected, which will undoubtedly be a big event in the history of the city.

The various committees in charge of the day will be as follows: finance committee: Samuel Highley, James McGrath, Marcus Cotton, Arthur K. Smith, B. J. Golden, Thomas Shannon, Charles S. Sargent; committee on sports: James F. McGrath, Harry B. Blye, Frank H. Lovering; committee on baseball: James H. Kelley, Edward Wall, M. H. Feeney, Marcus Cotton, Frank Greydon; children's entertainment, James H. Connolly, Dr. Charles O'Brien, John Costello, Dr. Ada Tedford, Ered Lowell, C. Winfield Smith; antiques and horribles: Edward Foss, Charles Mahoney, Harry Blye, Walter Merchant; fire works, William Young, Thomas J. Feeney, W. G. Stretton, James D. Haggerty, Frank McMahon; parade, military section, Lieut. Daniel J. Carty, Capt. Fred C. Kean, Capt. W. W. Wade, C. C. Clarke, Capt. E. F. Wyer, J. E. Carr, A. B. Penney, Marcus Cotton; civic section: Arthur K. Smith, James H. Linnell, Alvah Buckman, Hadley Higgins, Philip Donerty, Edward Caldwell, John Moore, John Parker, Rep. Joseph H. Parker Jr., Rep. Henry L. Andrews, Joseph Breslin; music committee, Dr. Peter Caulfield, Dr. W. H. Kelcher, Thomas Marrian, Edward Callahan, Dr. Robert Chalmers, C. Bertrand Strout, Dr. Fred West; printing and advertising, L. L. Dorr, John Andrews, James D. Haggerty, A. B. Grimes, Walter Aylward.

Mr. Michael Burke, the motor-man who was injured Friday, is reported as resting very comfortably.

About twenty Woburn people were the guests of Miss Marjorie Leighton at the Radcliffe class day festivities last evening. Miss Leighton sails for Germany this morning to enjoy a summer's study the result of an honorary scholarship granted her for the excellence of her college work.

When Noticeable.
Village Orator (seconding a proposition for the repair of the reading-room roof)—I think you'll all agree that the roof does leak very bad. Especially is this noticeable in wet weather.—Punch.

Interesting Portfolios from Newark N. J.

Two Letters Recently Received At Hanson School

The pupils of the Hanson school who have been sending and receiving letters from other schools in this country were delighted the other day to receive a large box from Newark, N. J. which proved to be a gold mine of interest. It consisted of a number of portfolios, prepared by the children on a very elaborate scale.

One, for instance, was entitled Newark's modern schools, and consisted of several pictures of the different schools of the city, mounted on a fine quality of cardboard, and bound into one portfolio. There were others, over fifty in all, each of which had in front a different picture of Newark itself, giving views of the city, or its industries. The pictures were followed by letters written by the pupils, describing the work they are doing in manual training, mineralogy, or cooking and sewing. In some were pictures of the different classes at work.

Another section was headed,

"The Work which the Newark Library is doing for the School," and contained a number of pamphlets of various sorts which the library had issued for the benefit of those taking debates or other such work. Altogether the box of portfolios was far and away the most elaborate and interesting which the pupils have received yet from any city, and deserves an equally good response. This is difficult to arrange, however, on account of the cost.

Another interesting exhibit came from Trenton, N. J., and was descriptive of the rubber manufacturing industry. It consisted of a card, on which were tied with thread, six samples of rubber, in various stages and conditions, from the crude but valuable "up river Para" rubber, through the processes of washing, and kneading and drying, until it gradually evolved into the form in which we see it. Samples were also given of the Red Congo rubber, a cheaper variety, which is, however, more commonly in use at present.

Through the kindness of a friend of the school, Mrs. F. Leroy Pratt, a radiotropion has been loaned to Miss Dean, who has charge of the work, and has added great interest to the studies, as post cards have been enlarged and thrown on the screens, illustrating the various places under discussion, including the cards and pictures sent by the corresponding pupils.

At this time we introduce a letter which was, quite by accident, omitted in a previous article. It is written by a Woburn pupil, on the subject of tanning, and is one of the most interesting of those which we have published.

COMING EVENTS

BOY SCOUT NOTES

The monthly reports for all troops have now been sent in. These reports show that Troop No. 1 has 12 scouts, 3 tenderfoots and nine in preparation. The troop has taken one hike, 18 miles. Troop No. 2 has 24 scouts, nine tenderfoots and fifteen in preparation. The troop has made five hikes. Troop No. 3 has seventeen scouts, six tenderfoots and eleven in preparation. This troop has taken two hikes of 4 or 5 miles each.

Troop No. 4 which has not yet chosen officers, held its second regular meeting in the Trinity Parish House on Tuesday evening. Their regular meetings will be held hereafter on Thursday nights.

Too many scouts will be busy distributing programs for the Field Day exercises on Tuesday.

THE KAISER'S ANNIVERSARY

(By United Press)

New York, June 14—What is expected to be the greatest demonstration in America to honor the ruler of a foreign country will occur tomorrow when Germans throughout the United States and Canada will celebrate the twenty-fifth anniversary of the accession of His Majesty, William II, Emperor of Germany. The demonstration also will be a celebration in honor of the twenty-five years of peace Germany has endured under the rule of "Europe's War Lord." The committee in charge of the local celebration announced today that a huge fund has been subscribed throughout the United States as a memorial fund, which will, by the express request of Kaiser Wilhelm, be devoted to philanthropic purposes in the respective cities in which it has been subscribed. An engrossed address signed by every contributor to the Kaiser Memorial Fund, no matter how small the subscription, today is ready to be sent to Germany for presentation to the Emperor.

The Imperial German Ambassador, Count von Bernstorff, who has acted as honorary chairman of the American committee, is expected to come to New York tomorrow to attend the ceremonies here. Several representatives of foreign governments at Washington also have accepted invitations to attend. It was announced here today that formal programs to celebrate the event have been arranged in hundreds of municipalities throughout the country. Besides the engrossed address, several German societies have planned to send separate testimonials. San Francisco Germans today sent, by way of New York, a handsome piece of bronze and silver sculpture, emblematic of California and the opening of the Panama canal. In the center is an arch above the Golden Gate across which two Neptunes, representing the Atlantic and Pacific oceans, are clasping hands. Below the arch is the seal of California, and the figures of a miner, a cowboy and an American Indian. At the bottom are fruits and flowers of California. The piece is mounted on a massive pedestal of California redwood.

RISK LIVES TO SAVE MEN

Priests Go Into a Conduit Where Laborers Have Been Overcome by Gas.

Buffalo, N. Y.—Three priests risked their lives to rescue workmen who had been overcome by gas in a conduit on Alabama street here.

Armstrong, foreman; with two of his men, went into a manhole opposite the Church of Our Lady of Perpetual Help in search of a leak in one of the mains. The break proved to be a bad one, and all three were overcome. A passerby, hearing faint cries from the men, called for help.

The priests, who were just leaving the church, responded. Father Hunt and Father Clancy dropped into the manhole and hoisted two of the workmen, both were partly overcome by the gas fumes.

Father Lynch saw their predicament and, jumping into the manhole, succeeded in dragging all of them to comparatively fresh air. The four were lifted to the street by the crowd that quickly gathered.

UMBRELLA CAUSES SHOOTING

Constable Cunningham's Explanation of Wounding Two Miners Who Demanded Shelter.

Pittsburgh.—Because they would not desist in their requests to be allowed to walk under his umbrella during a heavy rain storm, Constable Thomas Cunningham pulled his revolver and shot Samuel Culp and James Cole, both of Scott townships.

Culp is in Mercy hospital, where it is said he can not recover, while Cole is at his own home with a bullet in the breast.

Cunningham told the police he was

walking along the Washington Pike

road when he was accosted by Culp

and Cole, both coal miners, who asked

to be allowed to walk under his umbrella.

He refused the request, but, according to Cunningham, they became so insistent he was forced to shoot them to enforce his refusal.

Cunningham was arrested.

Gets \$5 for Not Marrying.

Philadelphia.—Keeping a promise for 30 years never to wed, Nobile Robinson received a bequest of \$5 from William H. Hiller, who died recently. Hiller jokingly told Robinson he would leave him \$5 in his will if Robinson never married.

Defect Is in the Ingot.

Metalurgists, steel makers and rail users of the world are recognizing that the original seat of the defects which result in broken rails is the

ingot.

Changes Name—Inherits \$2,000,000.

Seattle, Wash.—Judge French's decision in the suit brought by Henry Wharton Shoemaker, millionaire poet, against his former wife, Mrs. Beatrice Shoemaker Perry, to annul the adoption of his five-year-old son, Henry, enables the boy to change his last name from Perry to Shoemaker and thereby inherit \$2,000,000 of the estate of his grandfather, Henry F. Shoemaker, who lived in New York.

Wanted No "Sky Pilot" at Death.

New York.—"I want no pageantry or discourse from paid 'sky pilots,'"

So reads the will of Philip S. Staats,

an actor and song writer, for probate here.

The will ended with an iteration of a curse upon anyone attempting to

break the document.

WIFE 'TOO OLD' FOR HUSBAND

Woman Expressed Hope That "Spoiled Spouse" Will Find a More Beautiful Girl.

Chicago.—Called "too old" and "not pretty enough" by her husband, Paul H. McCain, Mrs. Jessie L. McCain voiced the sentiment that he may find solace in the charms of a younger and more beautiful woman. As McCain was branded "spoiled by his mother," by Judge Petit, Mrs. McCain expressed some doubt of any woman being able to come up to the standard.

Mrs. McCain blamed Lottie James, a rescue mission worker, for her trouble.

Detectives, at the hearing of Mrs. McCain's suit for separate maintenance, testified that they had discovered Mrs. James and McCain in a secluded spot of Douglas park, late at night. The McCains were married 13 years ago, and have one daughter.

EVOLUTION OF LIFE

Artist Depicts It a Striking New Group.

Officials of American Museum of Natural History Highly Commend Roy W. Miner's Exhibition as One of the Best There.

New York.—A new group at the American Museum of Natural History recently arranged by Roy W. Miner is highly commended by the museum officials, who regard it as one of the best there. It shows animal life on the wharf piles and is intended to give a striking illustration of the process of evolution from animal to almost plant life. Mr. Miner himself thus describes the exhibit.

"The group illustrates a balanced

association in which the struggle for

existence between animals is not ap-

parent, the majority of the species

being plant-like and either incapable

of locomotion in the adult stage, or

in possession of it to a very limited

degree.

"On the broken pile in the center

of the foreground, for example, grow-

ing over the mussels which have com-

pletely covered its stump, are hun-

dreds of delicate pink hydroids clus-

tered in featherly colonies. Here and

there among them peep forth the

transparent solitary polyps of the

white armed sea anemone, while the

larger brown sea anemone extends its

fringe-crowned disks on this and the

neighboring piles, interspersed with

coral red masses of the red-beard

spike.

"Although these flower-like forms

are relatively stationary and inactive,

underneath their apparent peaceful-

ness and beauty the struggle for

existence goes on as relentlessly as

among fierce free-swimming species,

but with this difference, that their

prey is invisible to our eyes. The

waters in which they are immersed are

swarming with myriads of micro-

scopic creatures, while every polyp,

in spite of their size and wide diversity

of form, are but little above the

simplest of all animals, the one called

protozoa, and have developed as

typically digestive organisms.

"Since their good is everywhere

present, organs of locomotion are not

needed to obtain it. Special senses

and directive intelligence, or instincts,

have not been definitely evolved, since

the evolution of these powers always

goes hand in hand with that of locomotor organs.

"It is true that certain polyps pos-

sess somewhat aimless and imperfect

methods of locomotion, such as the

slow-creeping movement of the sea

anemones and the umbrella mode of

propulsion peculiar to hydromedusae

and the true jellyfishes—a beautiful

example of which is shown lazily

swimming near the broken pile in

the group. But the polyps as a whole

may be considered as mere sac-like

stomachs, this specialization in diges-

tion being their most striking ad-

vance, aside from their multicellular

structure, over their protozoan pre-

genitors. Yet there is a good reason

to believe that a polyp-like condition

such as this is ancestral to the struc-

ture of all the higher and more com-

plex groups of the animal kingdom.

"Associated with sponges and

polyps upon the wharf piles are many

other sedentary animals which, like

them, feed upon the micro-organisms

of the sea. At first glance these seem

to be of hardly higher organization

than the polyps, but an examination

of their structure at once shows them

to be members of much higher groups

in the scale of life.

"These animals are so closely adapt-

ed to an attached mode of life and

diet of micro-organisms that the aver-

age observer, unacquainted with their

affinities, would fail to recognize them

as being included in the same great

phylum.

"Finally, everything on the piles are

various species of the sea squirts or

CHILDREN'S DAY AND
95TH ANNIVERSARY

First Cong. Church will celebrate
Tomorrow Morning

DR. SLEEPES TO SPEAK

All those who attend at the First Congregational church of this city will be interested in the services which are to be held tomorrow morning and evening. It is to be children's day, in a double sense, being not merely the annual celebration of Children's Day, but also the 95th anniversary of the Sunday school. Under the circumstances both morning and evening services will be given over to programs suitable to the children.

In the morning, an elaborate program will be rendered, consisting of music, responsive readings, and will include the baptism of children, and recitations by them. The program in full will be as follows:

Organ prelude; processional. Rejoice, ye pure in heart; responsive reading, led by Superintendent Orel M. Bean; Hymn 454; scripture; prayer; quartette, Suffer little children; baptism of children; chorus, From East and West; beginners' class exercise, (a) Three Old Fashioned Songs, (b) recitations; recitation, Children's Day, Ellen Anderson, Ariel Carpenter, Priscilla Sawyer, Ralph Kenney, Lewis Chase, Donald Vaughn, Constance Smith, Ebba Nelson, Dorothy Graham; recitation, A Little Sunbeam, Margaret Clement; quartette, Praise the Lord, O my Soul, recitation, Whip-poor-will, Edgar Blake; recitation, Little Stars, Charlotte Smith, Myrtle Robertson, Helen Kittredge; recitation, Do you know? Earl Ray; chorus, The Beautiful Bright Sunshine; recitation, A Boy's Service, Edwin Grimes; quartette, In Jesus; recitation, The Pansies, Sarah McCoy, Edna Goodwin, Caroline Vaughn; chorus, When His Salvation Bring; recitation, Doing our Best, Leonard Fowle, Robert Carpenter, Wheeler Beggs, Jerome Callahan; recitation, A Common Daisy, Bertha Percy; Hymn 287; superintendent's report, George W. Smith; offertory, The Children's offering, chorus; address by the pastor; recessional, Onward, Christian Soldiers; benediction; distribution of plants; organ postlude.

In the evening a speaker already known to Woburn people, and of great popularity, will be present, Dr. William W. Sleeper of Wellesley. The subject of his talk will be appropriate to the day, being "Child Life in the Tenements." Dr. Sleeper has made an extensive study of tenement conditions in Boston, and has taken many photographs which have been made into lantern slides with which the lecture will be illustrated. The lecture will start promptly at seven o'clock.

The Sunday school of the church is one of the best organized institutions of its kind and deserves the highest praise for the work which it has done for the church. The roster of officials is as follows: Rev. Stephen A. Norton, pastor; Mr. George E. Smith, Mr. Orel M. Bean, co-superintendents; Mabel E. Patten, visitor; Miss Mildred S. Penney, secretary; Mr. Samuel J. Woods, assistant secretary; Mr. Clifford O. Soles, treasurer.

Beginners' department: Miss Mabel E. Patten, supervisor; teachers: Mrs. E. D. Hart, Miss Freda L. Walker, Miss Bertha Boutelle, Miss Helen Sylvester.

Primary department: Miss M. Emily Perkins, supervisor; teachers: Miss Mary Theobald, Miss Cora M. Boutelle, Miss Annie Murray, Mrs. Charles Cummings, Danielson, Conn.

SUNNY CORNER
MET YESTERDAY

Mrs. A. W. Cobb the Hostess at Her Home on Main street

The Sunny Corner class of the Methodist church held its last meeting before the summer yesterday afternoon at the home of Mrs. A. W. Cobb on Main street. The regular business came up, among which was discussion of a trolley trip to Gloucester during summer, the return trip to be made by boat. All the members present seemed very enthusiastic over the project, and it will probably take place. Refreshments were served and a pleasant social hour enjoyed.

—o—o—

REGATTA TUESDAY
AT BOAT CLUB

Interesting Program Arranged at the Winchester Club

June 17 will be celebrated at the Winchester Boat club by a regatta which will take place on the lake in the afternoon. At two o'clock the races will start for the Lawson trophy, in which the local high schools will be represented by crews. At three o'clock races will be run off by the club, as follows: single blade, tail end, rescue race, tip over, hurry scurry, tandem gunwale, and a tilting tournament.

The officials in charge of the events will be: starter, James Fraser; judges, Chster Baldwin, Dwight Cabot; clerk of course, Marshall Berry; announcer, Jack Sheridan; time keeper, William Randlett; score keeper, Leroy Pratt; fleet captain, Frank Gerlach; captain of crew, James Newman.

The regatta will be followed in the evening by dancing in the club house, before which the prizes will be awarded. It is expected also that the new war canoe which has been made at Boothbay harbor, Maine, will be on exhibition at this time.

ANOTHER ARREST FOR WINCHESTER BREAKS

Another young man was arraigned in court this morning for participating in the breaks in the Gilman house on Arlington street, Winchester. He is George Swanson of Arlington, aged 23 years and he pleaded guilty. When Judge Maguire sentenced him to serve a term in the Massachusetts reformatory he appealed and bail was fixed at \$1,000. Swanson makes the sixth man to be arrested for the breaks and thefts on the Gilman property, and all the defendants either pleaded guilty or were found guilty. Property valued at \$700 was stolen most of it being recovered.

—o—o—

LUNCH COMMITTEE WILL MEET MONDAY

The chairmen of the committee on Box lunches for field day wish to announce that the quality of the lunches will be fully equal to that of former years, and all the cake used will be home-made. Members of the committee and their helpers are requested to meet at the Congregational vestry Monday afternoon as soon after one o'clock as possible.

The committee is as follows: Mrs. Zepp, Mrs. Van Tassel, joint chairmen; Mrs. D. W. Bond, Mrs. D. J. Brunks, Mrs. W. T. Carswell, Mrs. J. H. Cole, Mrs. W. F. Davis, Mrs. George Drummond, Mrs. E. F. Johnson, Mrs. J. W. Johnson, Mrs. E. N. Leighton, Mrs. A. H. Linscott, Miss Grace Leslie, Mrs. W. C. Parker, Mrs. V. R. Sargent, Mrs. Alice Simonds, Mrs. W. G. Stretton, Mrs. G. E. Winn.

SUCCESSFUL WHIST
LAST EVENING

Party in Aid of St. Charles Field Day June 19th

A very successful whist party and dance was held in Vidette hall, North Woburn last evening under the direction of the Ward 6 committee of the ladies of St. Charles Parish. The proceeds were for the Ward 6 table at the St. Charles Field day to be held at Pinehurst Park July 19th. The committee in charge of the event was composed of Mrs. Andrew Dorrington, Miss McCarthy and Miss Alice McHugh. Whist was enjoyed during the first part of the evening, the first ladies' prize being won by Mrs. Edward Doherty, the second by Mrs. Charles O'Neil, third by Miss Celia Doherty. The first gentlemen's prize fell to Mr. John H. App, the second to Richard Morgan and third to John Foley.

After the whist the floor was cleared for dancing, the music being furnished by Mr. Stephen Shinkwin at the piano. Among those present were: Mr. and Mrs. Dorrington, Mr. and Mrs. John Foley, Mrs. Lord, Mr. and Mrs. Edward Doherty, Frank Macone, Earle Cail, the Misses Susan O'Neil, Catherine

O'Neil, Elizabeth O'Neil, Nellie Hartwell, Katherine Duffy, Nellie Kenny, Molly Shield, Mamie Dorrington, Florence App, Mildred Veno, Katie Hartnett, Molly Kennedy, Molly Hartnett, Mr. William Mahan, Timothy Sullivan, Henry Wise, Clifford Ryan, John Kenney, Edward Joyce, John Enright, Ted Dorrington, Rev. Father Fegan, Bernard F. McHugh, Walter Cullinan, Harold Phillips, Winnie Doherty, John H. App, Harold Cullinan, Joseph Duffy, John Phillips, Frank Farrey, Fred Farrey, William Shield, Chas. Lavachia, Walter Kennedy.

Won Papa's Dollar. Martha's school report card had very low marks. Her father promised her a dollar if she got a hundred in anything. Shortly after that she fell sick. When the doctor had taken her temperature the mother asked him what the temperature was. "A hundred and four," was the reply. "Mother," cried Martha, "I have won the dollar from papa. I've got over a hundred."

STONEHAM MISSIONS TO HOLD LAWN FETE

Pleasant Affair in Stoneham
Friday, June 20th

The Womans' Guild of All Saints Mission, Stoneham, is planning to hold a garden party on Friday, June 20, at the home of Mrs. Arthur Chamberlain on Collingcote street. Dancing will be enjoyed and refreshment of all sorts will be on sale. It is hoped that a large party will attend from Woburn and other neighboring cities.

o-o-o

AT THE CHURCHES YESTERDAY

At the Unitarian church the music was furnished by the regular quartet choir consisting of Mrs. Catharine Alger Gray, of Reading, Mrs. Merrie A. Wiley of Stoneham, Mr. Louis H. Dow of Woburn and Mr. Elbridge C. Merrill of Wakefield. F. Percivale Lewis of Winchester is the organist and director. Yesterday, the musical program was as follows: "God is Our Refuge," W. Y. Webbe; "O Thou that Hearest Prayer," A. M. Reade; duet (soprano alto), "The Lord is My Shepherd," Smart.

o-o-o

The regular choir was in attendance at the Methodist church, and rendered the following program: prelude, Andante religioso, Tours; anthem, choir, "Peace I Leave with You," Knight; soprano solo, Mrs. Keeler, "My Redeemer and My Lord," Buck; offertory, Melodie in F, Rochivell; postlude, Andante in D, Borch.

o-o-o

Next Sunday at the Unitarian church will be celebrated as Children's Sunday, after which the church will close for the summer.

Another unique feature was the dance by Miss Martha Winn as

MISS MARGARET FOLEY TO SPEAK IN WOBURN

Meetings to be Held Here
Wednesday and Friday

Citizens of Woburn whether they believe in Woman's Suffrage or not, owe it to their own sense of justice to find out something about it, and will be given an opportunity to do so this coming week, when Miss Margaret Foley, who has already gained considerable reputation as a defendant of suffrage, will deliver a series of lectures in this vicinity.

Three meetings will be held, one in Medford square, and two in this city. A meeting will be held in Medford, Wednesday evening at 7 p. m., at which Mrs. Mary O. Sullivan will preside and Miss Foley and others will speak.

Wednesday noon, a meeting will be held in Woburn, in the vicinity of the tanneries, at twelve thirty. Miss Foley is hoping to speak to at large as possible an audience of leather workers, and on Friday evening, a public meeting will be held on the Common at 7 at which several speakers will present the arguments for their opinion.

o-o-o

ELKS TO HOLD FLAG DAY CELEBRATION

Fine Speakers to Be Present
Tonight in Lyceum Hall

Much interest has been displayed in the celebration of Flag day which is to be held this evening under the auspices of the Woburn lodge of Elks. Many fine speakers and soloists have been secured for the occasion, and the military and patriotic organizations of the city have been invited.

The speaker of the evening will be the former district attorney for Essex county, W. Scott Peters of Haverhill, a man well known to all Woburn Elks. Daniel Gallagher of Boston will also be present, and a fine musical program has been prepared, which will include solos by Mrs. Everett P. Fox, violin solos by Clarke Mennum, recitations by Miss Sturtevant of Lexington, and selections by the glee club from Post 66, G.A.R. of Medford. The committee which had charge of the successful Flowerland carnival last winter will be also specially invited.

o-o-o

TROLLEY WIRE BROKE SATURDAY EVENING

Traffic on the Bay State line was delayed about an hour and a half in the busiest hours of Saturday evening, when a trolley wire broke in Winchester at the Black Horse Terrace turnout. The accident happened about 7 p. m. and tied up a large number of cars. It was all the more annoying because of the rush caused not merely by the Saturday evening shopping, but the crowds who attended the garden party in North Woburn.

o-o-o

W. R. C. 84 will be present at the Flag Day exercises which are to be held tonight under the auspices of the Woburn lodge of Elks. Members are requested to be at the hall by 7.30.

Mr. Arthur Phelps, at one time organist at Trinity church, was in the city last evening visiting friends, and had the pleasure of playing again on the organ at the evening service.

Next Sunday at the Unitarian church will be celebrated as Children's Sunday, after which the church will close for the summer.

Read THE JOURNAL

SUCCESS ATTENDS GARDEN PARTY

W. W. Hill Estate Scene of brilliant Outdoor Fete Saturday Evening

PARISH HALL FUND WILL BENEFIT

The garden party which was held Saturday evening at the residence of Mrs. W. W. Hill in North Woburn, was a complete success from every viewpoint. Conducted by the Parish Aid society in aid of the North Congregational church, it must have been more than ordinarily successful from a financial standpoint, while at the same time the beauty of the setting and the unqualified excellence of all the features, made it a distinctive social event of the summer.

Too much cannot be said of the adaptability of Mrs. Hill's home for the occasion. Unadorned, it would have been a perfect setting for the party. But the committee in charge added to its excellence with greenery placed at various points while the summer house, the punch table and the stage were all trimmed after a rustic fashion.

The stage was a particularly attractive feature. Constructed of unsmoothed timbers, with dark green wings, and set against the black greenness of a pine tree hedge it was perfectly suited to an outdoor performance. The members of Les Douze presented the two plays in which they have already distinguished themselves — "The Wrong Package" and "The Dumb Waiter," and furnished the main attraction in the afternoon, aided by the sale of ice cream and cake, and punch, and an elaborate program of Indian dances and songs, given by the Wanneka Wanderers, a tribe of Indians also known as the girls' auxiliary to the Parish Aid society.

All the afternoon affairs were well attended and a large number stayed to the informal supper which was served under the trees. The menu included sandwiches of various kinds, salads, ice cream and cake, punch, and tea or coffee.

It was in the evening however, that the crowd flocked in from Woburn and North Woburn. The grounds were ornamented with a double illumination, that of Japanese lanterns and electric lights, while the side porch of the house furnished a very usable stage on which the evening's program was carried out.

About two hundred and fifty in all sat around the small tables, ordered ice cream and cake or punch, and applauded an unusual entertainment provided by a number of local and outside artists. There were selections by Green's orchestra of South Framingham, consisting of Mr. Hoey violin, Mr. Green 'cello, Miss Groce piano. Other out of town soloists were Mr. and Miss Remelse, both of whom were much appreciated.

Of the local talent, the stars were undoubtedly Messers Harold Child and Earl Sylvester, who gave several high class vaudeville sketches, including everything from mournful songs to hitherto unpublished facts and anecdotes about some of the better known residents of North Woburn. The only difference between them and the ordinary vaudeville was that they were much better, and most of the time were genuinely funny.

Another unique feature was the dance by Miss Martha Winn as

D. A. R. CHAPTERS HOLD FLAG DAY

Bunker Hill and John Hancock Societies Meet in Historic Church

Bunker Hill Chapter, D.A.R. of which Mrs. Nena D. Gage of this city is regent, held a patriotic service in the old historic First Parish Congregational church of Charlestown yesterday afternoon in commemoration of the battle of Bunker Hill. The church in which this service was held was organized in 1628.

The old communion service of twenty pieces of solid silver, considered the most valuable collection in the country from a historic point of view, was on exhibition, as were also some valuable books containing the earliest roster of the membership of the church the first entry being in 1632.

Anticipating a British advance in April, 1775, it was thought best to remove the silver service from the church and it was carried to Reading and then to Cambridge. For safety it is said to have been buried in the sand for a part of the time it was hidden. That the committee acted wisely was proved as the church building was totally destroyed when Charlestown was burned by the British troops.

The music for yesterday's service was furnished by singers from the Apollo club of Boston and was of a high order, the rendering of the Ave Maria being especially fine. The address of the afternoon was made by Rev. Samuel McCord Crothers, D. D., of the Shepard Memorial church Cambridge on "American Ideals."

John Hancock Chapter, D.A.R. co-operated with Bunker Hill chapter and greetings were given by the two regents. The church was filled with a large and appreciative audience and Bunker Hill chapter counts this among the most successful of its anniversaries.

Mrs. Nena D. Gage and Mr. and Mrs. George H. Newcomb were present from this city.

WILL GUARD

ICE CONSUMERS

(By United Press)

Boston, June 16—Atty. Gen. Swift has sent a series of questions to every ice dealer in the state with a view of gaining data as to supply so as to prevent any undue raising of prices during the heated term. His questions are very searching, and will reflect conditions as they are.

o-o-o

Simple Lines.

What we all need is grand simple lines in our characters and our work as well as in our toilettes.

THE BETTER CITIZEN

Saturday, when the Star Spangled Banner was played at a certain affair in another city, most of those present removed their hats. One citizen, however, left his hat at its original slant, rolled his 3 for 5 cigar in his mouth, and remarked, "What's that tune, anyway?" The same day, in the Charlestown jail, there was a flag raising. The flag was a beautiful piece of work, 12 feet by 16 feet, made entirely by the prisoners. As the flag climbed the staff, amid singing by a prison choir of 40 voices, one broke into tears and said to Warden Bridges, "General, this is my happiest day here, and I thank you for giving me the chance to see Old Glory unfurled and to sing America. Father died for the flag, and Mother brought me up to love it. Do you think you could let me have a little flag for my cell?" Now we put it right up to you: which is the better citizen, and which deserves more the prison cell—the man who in actual fact was free, or the criminal? And the point of it all is that such cases are not the exception, but are common enough to cover our boasted civilization with everlasting shame.

BIRTHRIGHT

Rev. A. A. Simmons, when speaking recently in this city, spoke of the two birthrights of every child—right to all the knowledge that his parents had acquired, and to all the knowledge that he himself could acquire in his lifetime. These are the two inalienable birthrights and the latter is as important as the first. Yet how many pupils of the grammar schools are there who when asked if they are going to the high school, say that their parents will not let them.

It is hard to find any excuse for a child's not attending high school. There may be extreme cases where the mite which the child could earn, would help out the family finances; but there is not a family in Woburn which needs money as badly as that. Even that excuse will not hold water, for if it is money which is wanted, why not wait a year or two, or even four, until the child will have arrived at the point where its earning capacity will be multiplied many times?

Every one of the pupils who graduates from grammar school this June should go to high school, and if he is unwilling, his parents should be sufficiently wiser to make him go. But if they consciously shut out the child from a future by putting him, or her, to work at the close of grammar school, they are committing a crime against their children, and against the state.

BRYAN DOES THE MARKETING

Secretary of State Makes Rounds Every Morning With Basket on Arm.

Washington.—Secretary Bryan is not too busily engaged with affairs of state to do the marketing for the Bryan household. Almost any morning the secretary of state may be seen in a local market place with a large basket swinging from his left arm.

Col. Bryan seems to enjoy the marketing to the full. His elbow the crowd and apparently does not mind it any more than he did when making his political campaign tours.

Secretary Bryan's fondness for the radish of the white variety is now generally known among marketmen and they try to keep on hand the kind he

Secretary of State Bryan.

likes. The other day, however, much to Col. Bryan's disappointment, his favorite vegetable was not to be had.

"You know, I'm just crazy about white radishes," said the secretary to a woman shopping beside him. "No other kind will do."

And he continued his search among the stands.

FAIL IN BIG TREASURE HUNT

Ship That Carried Women Seeking Buried \$18,000,000 Returns Solely Disappointed.

San Francisco, Cal.—Failure of another expedition sent in quest of a legendary \$18,000,000 treasure cache on Cocos island, in the South seas, was recorded here when the British steamship Melmore put into port. These failed millions, according to dying sailor, were buried on Cocos island by officials of the Peruvian church early in the last century. Mrs. Barry Till and Miss Davis, English women, were told by the sailor on his death bed of his knowledge of the location of the cache and supplied with charts. The women succeeded in interesting British capitalists, and the Melmore was purchased for the expedition.

Mrs. Till and Miss Davis accompanied the party and directed the operations of the fortune hunters.

After many weary months of labor with pick and shovel, the searchers gave up their quest and started homeward. The Melmore put in at Panama, where the two women and others of the party left the vessel, to proceed homeward by the most direct route.

Within the last fifty years a half dozen expeditions equipped with ample funds to search for the gold believed to be buried there. In each case the incentive has been the same—the account of some sailor to whom had been bequeathed charts showing the location of the treasure.

WASP STING MAKES MAN WALK

While in Bed Feels "Hot Needle" Pierce His Ankle—Leaps to Floor and Runs.

St. Louis.—Charles Wightman, deputy county clerk at Clayton, told a Post-Dispatch reporter how he had just been able to walk without crutches for the first time in 38 of the 42 years of his life. He fell when he was four years old and injured both legs permanently.

He said that a neighbor had told him a snake story just before he went to bed. It was a tale of a blacksnake ever so many feet long and an incredible number of inches thick, which the neighbor had said he had killed.

Charles woke up in the morning with the story still in mind. He thought how comfortable it was to live in a country where one could sleep in peace instead of in one of those countries where, he had heard, snakes sometimes creep in and share one's bed.

Revealing in the thought, he thrust his right leg deeper under the covers. Then something that stung like a hot needle pierced his ankle.

"I sprang out of bed and ran and stumbled 12 feet across the room," he said. "It was the first time I had taken so many steps unassisted since I was a baby."

"And was it really a snake?" he was asked.

"No; it was a wasp." And he showed the ankle where the sting had swollen.

Doctor Makes New Chin for Girl. Baltimore, Md.—A new chin, composed of different parts of the patient's body, was grafted upon a little girl by physicians at a local hospital. The child had fallen upon a stove and the skin upon her chin was seared to the bone. When the wound healed she had no mouth.

ASSURE PURE MILK ROMANTIC LAW SUIT

United Nurseries of Philadelphia Win Purity Fight.

Women Members of Board of Managers Carry Point—Violations of Regulations for Benefit of Babies Reported.

Philadelphia.—Through the efforts of the Philadelphia Association of Day Nurseries, a reform in the handling of the milk supply of the city has been brought about and conditions which chiefly affect the babies of the poor have been greatly remedied.

The association, made up of woman representatives of the board of managers of twenty-two day nurseries, has procured the enforcement of an ordinance prohibiting the sale of "dipped milk," except in shops where eggs, butter and bread are sold.

Following the baby-saving show of last spring, and still keeping in mind lessons of the milk show of the previous year, members of the association, determined to safeguard as far as they could the lives of the babies, entrusted to the care of their nurseries and started a systematic investigation of milkshops in the neighborhood of the nurseries.

The infant mortality committee which undertook the investigation applied to leading physicians who have had the work of baby-saving under their direction and procured the services of an investigator who has had experience in public health work.

Visits were made to several hundred shops in the neighborhoods of the day nurseries. The shops were viewed from every angle that would make them places where it would be prejudicial to the child health to have its milk supply stored. The source of supply, the condition of refrigerating facilities, occupancy of the house and the methods employed in handling were gone into and a card index was made of all places visited.

The research showed many flagrant violations of the milk regulations of the department of health. All sorts of menacing conditions were discovered. One of the chief causes of complaint was found to be the cigar and candy shops in which milk was sold in bulk.

In many of these no attempt was made to keep the milk at an even temperature, or to ward off the flies which infested the places. The milk was carelessly handled and dipped out with any sort of a dipper and in any sort of a way.

Reports of these conditions were instantly made to the bureau of health, which acted upon them in two cases, revoking licenses, and in every instance prohibiting the sale of dipped or loose milk in any stores except those which handle bread, eggs or butter and which are qualified to give proper care.

The object of the association is to safeguard, by concerted effort, the children who are entrusted to various nurseries and to study their home environment and the conditions which affect their health.

JOSEPH BROIDE STIRS THINGS

Three-Year-Old Boy Wins Crowd's Plaudits as Star in 5 Acts of Near Tragedy.

Chicago.—Joseph Broide, three years old, crowded five thrilling adventures into almost as few minutes when he was snatched forth from his home, 1149 West Madison street, all alone. Here is what happened before Joseph was yanked across the parental threshold by a frightened mother:

Express wagon wrecked by driver to save Joseph from serious injury or death; driver badly bruised.

East-bound car stopped by motorman with violent shaking-up of passengers just as it was on top of Joseph, who grinded at his feet.

West-bound car, ditto, with the additional thrill of Joseph being scooped up by the fender. Great experience for Joseph.

Automobile, in front of which Joseph had dropped from car fender, swerves sharply and misses Joseph by an inch. Joseph somewhat peered at not halting the speeder.

Team of big horses knocks Joseph down as he stands in middle of street viewing the lines of stalled cars to the east and west—all due to Joseph's adventures. Joseph climbs to his feet smiling and walks out from under the horses.

Several hundred men and women cheer Joseph as his mother rushes out and takes him into the house. Joseph not pleased at finale.

WORKS FOR PURE SODA WATER

Mrs. Julian Heath Heads Delegation That Visits Shops to Stop the Sale of "Poison."

New York.—"We are going after the soda water fountains and see to it that customers are no longer sold poison to drink," declared Mrs. Julian Heath, national president of the Housewives' league.

Accompanied by a band of fellow members she entered several soda water emporiums on the upper west side and put the clerks through an inquisition. After admitting that the sirups, ingredients and sanitary arrangements were excellent, she proceeded to the lower east side.

In several places they found a drink which, Mrs. Heath declared, was artificially colored and nothing short of a mixture of alcohol and sugar.

ROMANTIC LAW SUIT

Hero of Novel Sues Ruler for a Large Sum.

A. M. Jacob, Aid to Marion Crawford, Rudyard Kipling and Madame Blavatsky, Seek \$1,250,000 From Present Nizam of Hyderabad.

London.—One of the most sensational and romantic lawsuits ever heard in India will be up for a hearing in Calcutta shortly. Action has been brought by A. M. Jacob, late of Simla, now living in Bombay, against the present Nizam of Hyderabad.

Jacob is widely known in America as the hero of Marion Crawford's novel, "Mr. Isaacs," as the original of Lurgash Sahib, maker of rich pearls in Kipling's "Kim." He also is said to have taught the late Mme. Blavatsky, one of the founders of the American Theosophical society, more about occultism than she had ever dreamed of.

The suit is a sequel to an amazing transaction, almost twenty-five years ago by the late Nizam of Hyderabad and Jacob over the imperial diamond now in possession of the new Nizam.

This diamond, one of the finest in the world and worth a fortune, was bought for the late nizam by Jacob when the latter was at his power in Simla. Only part of the money was paid, but the diamond was never given up.

Again and again Jacob has sought permission to sue the nizam for the recovery of money owing, \$1,250,000. That permission has always been refused, but at the Durbar, through the help of Maj. Gen. Stuart Beatson, aide de camp of King George, Jacob's long standing grievance was put before the king, who said he would see what could be done.

Lord Hardinge, viceroy, has now agreed to the action and when the case comes on some names that are household words, including two viceroys of India, one of them Lord Curzon, the private, as opposed to the public life of viceroys will be given. Financed by a friend and confidant of a triumphant verdict, Jacob undertakes the task with all his heart in it.

For years he has been living in Bombay with little money, due to the disastrous diamond transaction, whereas he was one of the richest men in India. Former adviser of no less than four viceroys and confidante of every fashionable and beautiful woman—in fact, uncrowned king of Simla, he taught Kipling much of what he knew of India. He made name and early fame for Marion Crawford, who sat at his feet in Delhi, Simla.

When at the height of his fame and power when all Simla was flocking to his wonderful seances and his house, stocked with precious stones and ornaments, was the most fashionable in Simla, the story of the fateful imperial diamond began.

The story is a long one and perhaps the most amazing that could be told outside of fiction. It shows intrigue at its height and the action of Lord Lansdowne, who at the time was viceroy, in the sale of the diamond was remarkable.

Put very briefly, the case which is to be recalled in a sensational fashion is this:

Jacob was approached by the late Nizam of Hyderabad to purchase for him the famous imperial diamond, then on sale in London. Jacob obtained the stone and offered it to the nizam for \$1,250,000. The nizam accepted and paid Jacob \$250,000 on account. He took the stone and never paid another rupee.

The sale had been stopped by the president of Hyderabad, who acted, it is alleged, under the influence of Lord Lansdowne, who had quarreled with Jacob. Not only did Jacob lose the money he paid out to obtain the diamond, but soon after was sued by the nizam of Calcutta on the charge of cheating. The case lasted 57 days and ate up most of Jacob's money and drove him from Simla.

He won the case, but never received the diamond back and never got a rupee of the money due him.

At last Jacob will have a chance he has long awaited to sue the present nizam. He could not sue without the permission of the government of India. CISTERNS FULL OF HARD CIDER

Cause of Neighborhood Drunkenness Discovered After a Year Had Gone By.

Bonner Springs, Kan.—The discovery of cistern filled with "hard" cider on a farm near here solved a mystery that has baffled the law enforcement officers of Wyandotte county for more than a year.

Frequent complaints have been filed with prosecuting attorney that many men and boys in this vicinity were being ruined by strong drink, but the utmost vigilance on his part failed to locate either joints or "bootleggers." The cistern was found by one of the prosecutor's assistants, who has been in the neighborhood a week disguised as a farm hand. A chemist's analysis showed that the cider was about six per cent pure alcohol.

The farmer who owned the cistern was enjoined from selling or making cider and the cistern and its contents were destroyed.

One-Legged Man Drowns. Philadelphia.—Leopold Glick of this city took off his wooden leg to go swimming. He took a cramp in his other leg and was drowned.

COFFINS USED BY SMUGGLERS

German Authorities, However, Penetrate Trapping of Woe and Find Saccharine.

Berlin.—Smugglers of saccharine, on which there is high import duty in Germany and a higher one still in Austria, are ever inventing new tricks to elude the authorities.

A short time ago the inhabitants of a Bavarian village on the Swiss frontier were amazed to see a modest funeral procession, coffin, pallbearers, mourners and undertaker, all in order, pass through the village with policemen and inspectors acting apparently as honorary escort.

A halt was made at the police station, the coffin was opened, and from it about 100 pounds of saccharine, which the smugglers had attempted to introduce in this way.

One of the railroad stations in Berlin, one of the roomy furniture vans which in Europe are filled with household goods, loaded on a flat car and shipped to any desired city, was opened accidentally. Railroad employees were surprised to find it loaded with broken furniture of no value. As the car came from Switzerland, the police were called in, and a thorough examination for illegal articles was made, but without effect. Finally a policeman noticed the unusual thickness of the walls of the van. Investigation showed a space two inches wide between the side walls and a commodious secret garret under the roof packed with saccharine.

The same van had made the trip between Schaffhausen and Berlin at least once before, according to the railroad records. Van and contents were confiscated, but the consignee disappeared.

Most of the saccharine smuggled into Germany is destined for Austria, the smugglers finding it much easier to hoodwink Austrian officials with shipments from Germany than elsewhere. Besides, the Austrian duty is higher.

A classic trick, now exposed and no longer practiced, was to send candies to be blessed to the pilgrimage monastery at Einsiedeln, in Switzerland, after which they were exported to Austria. Here they went, not to the pious, but to a refinery, to be melted up and the saccharine in them removed.

Both the monastery and the customs were for months taken in by this device.

MISS BOOTH QUELLS BURGLAR

Daughter of Salvation Army Head Finds Thief in Room and Converts Him.

London.—Captain Mary Booth, daughter of General Bramwell Booth, head of the Salvation Army, discovered a burglar in her bedroom at two o'clock in the morning. Instead of calling the police she confronted her visitor and talked seriously to him about his wickedness. Learning that he was driven to crime by hunger, she

Captain Mary Booth.

promptly took him to her kitchen and gave him a good, square meal. While he ate she continued to talk to him, and when the meal was finished she knelt down and prayed with him. She insisted on the man praying for himself. Then he promised to turn over a new leaf, and, with the counterpromise to be his friend if he would live a better life, she saw her guest off the premises.

ESQUIMAU GOES FOR BRIDE

Gets Schooling, Lack of Which Once Caused His Rejection by Girl.

Seattle, Wash.—Paul Patkotak, an eighteen-year-old Esquimau, has sailed for Point Barrow, the arctic extremity of Alaska, on the schooner Transit to claim the hand of Miss Alice Ahlook, native teacher in the Point Barrow government school, who refused to marry him three years ago because of his lack of education.

When he was rejected by Miss Ahlook the youth trapped enough arctic foxes to pay for a year's tutelage and worked his passage to Seattle. Here he was permitted to enter one of the grammar schools because of the knowledge he had gained at the Point Barrow school. His summer vacations were spent with a fishing fleet. During the last year he has learned shorthand, typewriting and bookkeeping in addition to his other studies.

Patkotak came south clad in furs. He will return dressed in American clothing.

TO HOLD PICNIC

Big Affair Planned for Saturday June 21

One of the big picnics of the year will take place on Saturday afternoon and evening, June 21, under the auspices of the Middlesex Christian Endeavor Union, which includes societies from all the churches of the neighboring cities and towns of the county. The picnic will be held at Carlisle, where the party will arrive on a special train leaving the North Station at 1.51. The afternoon will be spent in games of various sorts, and races, including potato races for ladies and gentlemen, three legged races for the boys, and sprints. Supper will be served at 6.15, and games will be enjoyed in the evening.

A pleasant feature of the return trip will be a walk which is planned, through the woods to Bedford. There will be a full moon at the time, and a most pleasant time is anticipated. There are so many societies represented in the union, and so much enthusiasm has already been displayed, that there is no doubt but that it will be one of the biggest and most successful picnics of the year. A large delegation from Woburn is planning to go.

MISS JULIA DOW
PASSED AWAY

Well-Known Resident was Veteran Teacher in Alton, Ill.

The many Woburn friends of Miss Julia Dow will be grieved to hear of her death yesterday, at the age of 75 years, 8 months, and 18 days. Miss Dow was born in Portland, Maine, September 28, 1839, and when a child of 12 moved with her parents to Alton, Ill., where she was educated and became one of the veteran teachers in the public schools, serving for over 40 years. Nine years ago, however, she retired from the service, amid the regret of her fellow workers and the authorities, and came to Woburn, where she has since lived with her sister, Miss Ellen Dow. The funeral services will be held Thursday morning June 19, at 10 o'clock a. m. Dr. Henry C. Parker will officiate.

IX. One hundred and fifty (150) feet will be maintained between divisions. Except in the Third division thirty-five feet will be maintained between organizations.

X. Box 22 sounded on the Fire Alarm at 8 a. m. denotes parade will not start until 11 a. m. If sounded again at 10.30 a. m. parade is off.

By Order of Captain Wm. W. Wade, Daniel J. Carty, Second Lieutenant Ninth Infantry M. V. M. Adjutant.

ARLINGTON PAGEANT
VERY SUCCESSFUL

Final Performance Held Saturday Afternoon

The Arlington pageant held its third and final performance Saturday afternoon under perfect weather conditions, and before an enormous audience which overflowed the grounds. The performance was even more successful than the previous ones, and was repeatedly applauded. At the close of the pageant, recognition was made of the fact that it was Flag Day, in a unique manner. Over 600 flags were distributed throughout the audience, and at the close, everybody joined in the singing of the "Star Spangled Banner," while the flags were waved in the air. A special guest of the afternoon was John Townsend Trowbridge, the celebrated poet and author.

Mr. E. W. Brown who represented the Wear Ever Aluminum cooking Utensil company in this vicinity last summer, wishes to announce that he is to continue his work here during the next six weeks. He carries the one and only absolutely satisfactory line of aluminum wear, and will be pleased to call and to show his samples. Orders or requests to call may be left or telephoned to the JOURNAL office

BASEBALL GAMES
TODAY AND TOMORROW

PLAY 14 INNINGS

TO A 1-1 TIE

Classy Game Saturday on Library Park

Woburn High Plays Wakefield High—All Woburn vs. Horace Partridge

Woburn High and Wakefield High play a Middlesex league game at Library Park this afternoon.

The Woburn team are confident they can trim Wakefield and with Captain Weaver showing the form in the box that he displayed at Peabody Saturday it looks as though the confidence of the local boys was justified.

Tomorrow morning at 10.30 sharp the All Woburns and the Horace Partridge team of Boston will be the attraction.

The Boston team comes here with a great reputation and without doubt will push All Woburn to the limit. Dr. McMahon is back in his last season form and twirled 14 innings of swell baseball last Saturday without turning a hair, his arm which has bothered him a lot this season gave him no trouble whatever.

There will be a record crowd at the park tomorrow in anticipation of a good game and there is every reason to believe that the fans will get their money's worth.

—o—o—

WAR CANOE ON EXHIBITION YESTERDAY

The regular Sunday afternoon assembly took place yesterday at the Winchester Boat club, where the center of attraction was the new war canoe, which arrived early in the morning from Boothbay harbor, Maine, where it was made by Stevens. The canoe was on exhibition all day yesterday and attracted much attention and praise for its beautiful construction.

While it is constructed of the very lightest and thinnest strips of cedar imaginable, making it a cockle shell in weight, the canoe is nevertheless a stable, strongly built sea worthy boat, capable of carrying nine men in safety, and at considerable speed.

WOBRN BOYS GRADUATE FROM TRADE SCHOOL

Wentworth Institute Held Exercises Last Thursday

Two Woburn young men, F. Edgar Erlandson, and Roy Maguire, were the graduates of the Wentworth Institute on Huntington avenue, Boston, at the exercises which took place last Thursday.

The date was also the 100th anniversary of the birth of the founder of the institution, and was consequently celebrated with unusually impressive services. Speeches were made by Paul Barron Watson, treasurer of the Board of Trustees of the institution, by Dr. Franklin B. Dyer, superintendent of Boston's schools, and by Hon. John D. Long, president of the Board of Directors. The exercises were closed with remarks by Arthur L. Williston, principal of the institute.

—o—o—

Mr. E. W. Brown who represented the Wear Ever Aluminum cooking Utensil company in this vicinity last summer, wishes to announce that he is to continue his work here during the next six weeks. He carries the one and only absolutely satisfactory line of aluminum wear, and will be pleased to call and to show his samples. NOTE—The big knobs make this tire almost puncture proof. It takes a long nail to reach the inner tube.

This Poet's Wife Was Practical.
"If I can do anything to cheer and
brighten the lives of my fellow men
I shall be perfectly satisfied," re-
marked the long-haired poet. "Then,"
replied his weary wife, "why don't you
quit writing poetry and get up a comic
series in which the humor is furnished
by some one who hits another over
the head with a club?"

Easy Winner.

A friend of my six-year-old brother told him that his mother had a new fan which was hand-painted. "Pooh," said my little brother, "our whole fence is."

HOSPITAL FIELD DAY A POPULAR FESTIVAL

Thousands pay Tribute to the Choate Memorial Hospital Fund in Observance

A TOUCH OF CARNIVAL

The city of Woburn surrendered unconditionally yesterday to King Carnival, and united to make the annual field day for the benefit of the Choate Memorial hospital an unqualified success.

The Clerk of the weather smiled upon the undertaking and vouchsafed a jewel of a day for the observance. The heat of the summer sun was tempered by drifting cloud masses and cooled by welcome breezes. Business was suspended, and public and individual interest was centered upon the celebration itself. As a result of these favoring conditions the day was a triumphal march and a constant succession of successes with a capital S.

The city was astir at an early hour, and long before the scheduled time for the start of the parade the streets along the route were lined with an expectant crowd.

Old Glory waved from public

staff and city buildings, from storefronts and private residences in honor of the event.

The white-coated publicity and soliciting department was here, there and everywhere, tagging with disks of red those not so identified. Pretty

girls in white sold carnations by the thousand, Boy scouts acting as orderlies did marathons of effective messenger work, troops

were marching to position, floats

were seeking their assignment in line, and special features were

awakening much interest by their

funny make-ups and odd conceits.

Everywhere there was work of

final preparation, while "the band

played on" from the Common

stand, and Executive Officer Ar-

thur H. Linscott, master of all

the great plan, secure in the knowl-

edge that every committee man

was on his or her job with both

pedal extremities, smiled serenely

from his auto and privately whis-

pered to the newspaper men "Boys,

everything points to a winner."

The parade which started at

9.10 a. m. comprised five divisions,

escorted by the Woburn Brass

band. Captain William W. Wade

of the 5th regiment was chief

marshal. The divisions were: first

Elmer E. Silver chief, automobiles

with officers of the hospital cor-

poration and aid association, and

the staff of nurses; second, Co.

G. 5th regiment, W. H. S. battal-

ion, Sheridan guards, Posts 33

and 161, G.A.R. third, Dr. Fred

Wyer, J. E. Carr, A. B. Penney,

Marcus Cotton; civic section: Arthur K. Smith, James H. Linnell,

Alyah Buckman, Hadley Higgins,

Philip Doherty, Edward Caldwell,

John Moore, John Parker, Rep.

Joseph H. Parker Jr., Rep. Henry

L. Andrews, Joseph Breslin; music

committee, Dr. Peter Caulfield,

Dr. W. H. Keleher, Thomas Marri-

nan, Edward Callahan, Dr. Robert

Chalmers, C. Bertrand Strout,

Dr. Fred West; printing and adver-

tising, L. L. Dorr, John Andrews,

James D. Haggerty, A. B. Grimes,

Walter Aylward.

Easy Winner.

A friend of my six-year-old brother told him that his mother had a new fan which was hand-painted. "Pooh," said my little brother, "our whole fence is."

FIRES MONDAY AND THIS MORNING

Barn on Grammer Estate on Warren Avenue Completely Destroyed, Loss Estimated at \$500

The fire department was summoned a little after nine o'clock this morning to subdue a stubborn blaze in a barn on the old Colonel Grammer property on Warren avenue. The barn was a good sized structure and was used by two families who lived in the dwelling house on the property. Twelve men that were in the barn when the fire broke out were suffocated. The barn itself and a wagon shed that was attached were completely destroyed. The fire spread to a barn on adjoining property owned by Nils Olsen, and one end of the building was badly burned. For a time it looked as though some of the nearby dwelling houses might take fire but the department checked the spread of the blaze just in time. The cause of the fire is a mystery but the firemen believe that somebody dumped hot ashes against the building. The loss is estimated as close to \$500 on the barn and contents, both families using it for storage purposes.

While this was going on, some excitement was caused at one end of the field by an ex-Montana cowboy, who did various stunts on a horse. At the same time an alarm was raised that there was a runaway with Miss Alice Collins, who was on horseback the victim. As it happened, however, there was nothing to it, Miss Collins merely having gone off for a gallop.

Lunch was on sale following the drill and the presentation of prizes, during which the Mianimo Campfire girls gave an Indian dance around a camp fire, while several members of the local troops of boy scouts received at the hand of ex-Mayor William F. Davis badges proving their membership in the tenderfoot class. The campfire girls were very picturesque in their Indian costumes, and made a bright and attractive spot in the color scheme. The camp of the Boy scouts was realistic and was a center of interest.

The outdoor circus by professional talent, which filled the afternoon hours, proved a drawing attraction, and fulfilled all the dreams of the management. All through the afternoon hours there was a steady stream of travellers.

Electrics ran at short intervals and carried crowds while a corps of volunteer autoists flew back and forth like busy shuttles weaving the fabric of success.

The various departments of the field day were generously patronized. Flower and refreshment booths did land office business, and every one seemed eager to swell the fund. At the country store Manager Wall made a fine showing. The autographed photograph of the White House contributed by Mrs. Woodrow Wilson, wife of the president, really created a furore. The interesting souvenir was sold by auction, and bidding was keen and spirited. It was finally sold to Mrs. R. G. Kneffler of Lawrence for \$17.

The parade which started at 9.10 a. m. comprised five divisions, escorted by the Woburn Brass band. Captain William W. Wade of the 5th regiment was chief marshal. The divisions were: first

Elmer E. Silver chief, automobiles with officers of the hospital corporation and aid association, and the staff of nurses; second, Co. G. 5th regiment, W. H. S. battalion, Sheridan guards, Posts 33 and 161, G.A.R. third, Dr. Fred Wyer, J. E. Carr, A. B. Penney, Marcus Cotton; civic section: Arthur K. Smith, James H. Linnell, Alyah Buckman, Hadley Higgins, Philip Doherty, Edward Caldwell, John Moore, John Parker, Rep. Joseph H. Parker Jr., Rep. Henry L. Andrews, Joseph Breslin; music committee, Dr. Peter Caulfield, Dr. W. H. Keleher, Thomas Marrianan, Edward Callahan, Dr. Robert Chalmers, C. Bertrand Strout, Dr. Fred West; printing and advertising, L. L. Dorr, John Andrews, James D. Haggerty, A. B. Grimes, Walter Aylward.

The park was a very pretty scene with its background of greenery framing the cordon of booths and the living picture of marching bodies, and hundreds of people in holiday garb.

WEDNESDAY, JUNE 18, 1912.

A GENEROUS RESPONSE

The response made by the people in yesterday's field day and festival in aid of the Choate Memorial hospital was alike creditable to them, and emphasized the worthiness of the object, and the warm place the hospital holds in popular esteem.

The response was universal, every man, woman and child vying with each other to swell the tribute to and the funds of the institution. The Seventeenth of June took on a new interest when viewed in conjunction with the hospital, and the display of the national colors in the line, and along the route proved a patriotic people devoted to country and home, and home institutions. It was a cheering sign throughout the day.

Woburnians have never shown a kindler spirit. It will prove a paying investment.

A pony and cart will be given away to the boy or girl in Woburn, under 16 years of age, who secures the most votes in the contest inaugurated by the Brockton Shoe Market, the Central Hardware Co., W. S. Lindsay candy and ice cream, and Gavin & Lydon grocers. Read the published statement. Trade with these people and get the coupons.

—o—o—

Any boy or girl in Woburn under 16 years of age who wishes to secure the pony and cart offered as a prize by Gavin & Lydon grocers, W. S. Lindsay candy, and ice cream, the Central Hardware Co. and the Brockton Shoe Market, should urge their parents to patronize this quartet of live merchants.

—o—o—

HORSE SHOW OPENED TODAY

(By United Press)

London, June 19.—Before a brilliant assemblage which included King George and Queen Mary and court and state officials the international horse show opened today at the Olympia. It was the first big public function with the King and Queen attending since court mourning for the assassinated King of Greece, ended. The King and Queen observed personal mourning only. There were more American horses in today's show than ever have been entered in a similar event before.

ELKS CONDUCT FLAG DAY SERVICES

Lyceum Hall Filled Monday Evening by a Representative Gathering

GRADUATION EXERCISES
WINCHESTER H. S.

Held in the Town Hall Last Evening and was Largely Attended

The flag day exercises in Lyceum hall Monday evening under the auspices of Woburn Lodge 908 B.P.O.E. were attended by an audience that filled the hall. The audience that comprised patriotic societies, military organizations, public school children, visiting members of the order, and citizens, was frequently aroused to a high pitch of enthusiasm by varied features of the well-balanced program which was arranged by a committee on which Dr. William H. Keleher was chairman, and was directed by Exalted ruler, John J. Costello.

A large American flag formed the back of the stage setting. In front of this was banked a large chorus of ninth grade pupils, and in front of them were the officers of the lodge in their relative positions wearing the insignia of their office. An orchestra of school children was stationed immediately in front of the stage, and back of it was massed the veterans of Posts 3 and 161 G.A.R. visiting veterans from Medford, the Spanish War Veterans, Co. G. 5th regiment, M.V.M.; the Sons of Veterans, the High School battalion and W.R.C. 84 and 161, together with members of the order from other lodges.

After an introductory selection by the orchestra, there was a choral number, "The Star Spangled Banner," the audience standing. Then followed the opening exercises by lodge officers, prayer was offered by Chaplain W. M. Duffy, The next number was a group of war and old time songs by G.A.R. Glee club of post 66, Medford, a striking feature of the evening. The gray haired veterans sang with gusto and it seemed as if the audience would never tire of listening.

With honor—Arthur Stanton Adams, Edward Langworth Burwell, Jr., Mary Chandler Coit, Oliver Francis Freeman, Sylvia Sampson Gutterson, Benjamin Redfern Hodges, Helen Chase Lewis, Isabelle Sophia Marchant, Mary Elinor Martin, Richard Atherton Noyes, Raymond Cornelius Strawbridge, Gilbert Nichol Sweet, Anna Tindall, Margaret D. Winn.

With high honor—Esther Caroline Ayer, Charles Palmer Downer, Barbara Frances French, Hope M. Greene, Elinor Laura Hodges, Hilda Elvera Johnson, Irene Elinor Murphy, James Henry Penaligan, Olive Lydia Randlett, Olive Viola Stevenson, Helen Alfreda Sweeney, Barbara Wellington.

With highest honor—Marjorie Burwell, Alice Blanche Ronkey, Helen Alma Rowe.

Canadians to Celebrate Dominion Day

An All-Day Outing and Picnic at South Sudbury, July 1

Tuesday, July 1, is to be observed as Dominion Day by the Canadian Club of Boston and invited friends, natives of Canada.

It will take the form of an old fashioned picnic and is to be held on the farm of George J. Raymond, who has given the use of the farm at South Sudbury for the occasion. Teel's band will furnish music, and the lunch is to be of the basket variety, each one bringing their own lunch. A special train has been arranged for to leave Boston at 10 a. m. arriving at South Sudbury at about 10:45.

Those going in autos are requested to meet the train at the South Sudbury station and participate in the parade to the farm. A series of field sports and other amusements have been arranged for. As there are a great many Canadian born people in Woburn who may wish to attend, arrangements have been made so that they may obtain train tickets for the special train and these tickets may be had of Mrs. W. J. Stewart, 16 Summer street, Woburn, or of Mrs. Story, president of the Woman's auxiliary, 10 Devereux street, Arlington.

MAN GORGED AND STARVED

Conscience Leads Thrifty Glutton to Repent Old Swindle in Letter to Man Swindled.

Beaver Falls, Pa.—Charles Weirling, a restaurant proprietor of this place, who has been following this line of business for years, received a most extraordinary conscience letter recently. It contained a Pittsburgh draft for \$22.08. The letter, which was unsigned, came from McKeesport and tells its own story:

Dear Mr. Weirling—I worked in one of the factories in your city several years ago and I boarded at your restaurant for over some three months. I used meat ticket I purchased from you once each week. For a ticket I paid five dollars apiece, which made it cost me twenty-four cents a meal. The tickets were good until all the meals had been pushed out, and after a few days I came to the conclusion that I could save myself money by only eating two meals a day and making these two meals carry me all day, and making my ticket last me longer, so I eat breakfast enough to keep me up to late dinner time, and this saved me one meal a day. But where I wronged you was this:

I stuffed myself full of your good grub at the two meals I did eat to keep me going over dinner time and to do that I would always call for a second order and would put a lot of your crackers in my pocket when I got off the table. At the two meals I did eat I would stuff my skin so full that it was a wonder to me I did not burst, but I saved one meal each day at your expense and was happy. I also thought I was working a great scheme and that if I could keep it up long enough I maybe some day would be a Rockefeller or a Carnegie.

I finally lost my job and I think it was because I would eat so much for breakfast I could not work all morning, being so stuffed, and in the afternoon I would be no good either, as all I would have in me by that time was a few crackers and things that left me weak. The boss said I was no good and gave me the gate.

Now, after leaving Beaver Falls I drifted around in Ohio and finally came to McKeesport, where I got a job, and have made good ever since, as I eat three square meals every day. When Billy Sunday came to this city I attended the meetings and finally hit the sawdust trail and have been living right ever since. But I never could forget how I bamboozled you out of twenty-four cents a day about three months.

Finally I have come to the conclusion that I never would be a real good citizen until I would pay back the money I had cheated you out of, so I have figured it up as year as I can what I owe you, and I inclose it to you in this letter. God bless you, and pray for me.

O. K. SHIPS 'RIGHT' AND 'LEFT'
Admiral Winslow's "Port" and "Starboard" Protest Turned Down by General Board.

Washington, D. C.—Although Rear-Admiral Cameron McR. Winslow protested against the use of "right" and "left" instead of "port" and "starboard" in giving orders to the helmsmen in the navy, Secretary Daniels

agreed he was doomed to disappointment, and again he returned to China. But there they would not let him in, for he had no pigtail. He was not the same Woo who had left China, and the Chinese would not allow Woo's contention that he was a native, and as he had no passport he was excluded. Of course, if Woo had been able to appeal to the captain with whom he had left China he might have been better treated, but the captain had been dismissed in New York.

So Woo Chow is condemned to sail the seas for the rest of his life, and when he dies he will in all probability be buried at sea.

Woo has left New York again, bound for the far east. He thinks he will be able to convince his countrymen that he is one of them, for he has been allowing his hair to grow for several years.

HE KISSES GIRL ON POSTER

California Man Makes Ardent Love to Picture of Lass on Bill Board.

Oakland.—A monomania for pretty poster girls caused the arrest of Frank Castells by Patrolman Bernard Curran at Sixteenth and Cypress streets.

Castells was observed by Curran making ardent love to a bright-eyed young woman pasted on a board. The man stooped and kissed the lithograph on the lips and as Curran approached kissed it again.

Curran grasped Castells by the shoulder. He broke away and began tearing the poster from the board.

"What are you doing?" the policeman asked. "Come along with me."

"But let me take her along," Castells pleaded. "I love her and I want her."

Castells is said to have appropriated many posters of beautiful women in the past. The billboard companies had been complaining to the police that their advertisements were being torn down and a watch was set for the vandal.

Fearing Death, Man Cuts Off Foot.

Penn Yan, N. Y.—Fearing that he would die from gangrene, which developed in his big toe, Isaac Bassett, aged seventy-five, amputated his foot with a pocket knife.

Getting no response to calls, she searched among boxes and barrels. Finally, in attempting to reach behind a barrel, she touched the body. Her screams brought aid from neighbors.

MUST SAIL THE SEA

Chinamen Condemned to Live on Board Ship.

Woo Chow Prevented From Landing Either in America or China by the Authorities of the Respective Countries.

New York.—Woo Chow sailed from this port on board the steamer Ambrilia, bound for Singapore. If Woo can convince the Singapore authorities that his eight-inch stub or braided hair is a pigtail, he may be allowed to land and see his wife in Canton. If not, he will be condemned to sail the seas some more—he has been on the water continuously for fifteen years—until he can establish his identity as Chinaman or smuggle himself into America.

Woo Chow is a man without a country. Woo is neither oriental nor occidental. He has been excluded from the United States and from China for fifteen years.

The encampment was offered for sale by auction, and has been bought by the Duchy of Cornwall at the instigation of the king. It first came into the market in July last, when it was offered by auction in Dorchester. The bidding started at \$5,000, and the property was withdrawn at \$7,125.

Maiden castle, according to Sydney Heath, the great authority on the

PRINCE GETS OLD CASTLE

As Duke of Cornwall, He Comes Into Possession of Famous Maiden Encampment.

London.—One of the most interesting relics of prehistoric times has just come into the possession of the Prince of Wales as Duke of Cornwall in the shape of Maiden castle, the famous prehistoric encampment near Dorchester.

The encampment was offered for sale by auction, and has been bought by the Duchy of Cornwall at the instigation of the king. It first came into the market in July last, when it was offered by auction in Dorchester. The bidding started at \$5,000, and the property was withdrawn at \$7,125.

Maiden castle, according to Sydney Heath, the great authority on the

Prince of Wales.

South Devon and Dorset coast, is a memorial that has remained in almost perfect condition to our own day, whereas its only rivals in interest and importance, Stonehenge and Old Sarum, have but few fragments to show for their greatness.

"All our leading authorities now agree that this stupendous stronghold, earthwork or oppidum is not only of pre-Roman date, but that it was occupied and probably strengthened by the Durotriges, the race of immigrant Belgae who wrested it from older Celts, who named it Mai Dun. It was certainly used by the Romans, who strengthened it with Purbeck stone, and for whom it provided something in the nature of a summer camp."

WOMAN IS DIVORCED AT FIFTY

Painter's Wife to Continue Earning Own Living and Supporting Her Children.

New York.—"I am simply a victim, but a loving and willing victim, of social conditions," said Mrs. Sarah McDonald Sheridan, intimate friend of President Wilson and his family, in commenting on the divorce granted her husband at Reno.

Mrs. Sheridan was found in the beautiful apartment of her daughter at Gramercy Park, where she had come after being the guest of Mrs. Wilson for two weeks in the White House.

In giving her views of the action taken by her husband, her eyes slowly filled with tears as she said:

"There is no bitterness of reproach in my heart for my husband. We have been married 33 years and have two beautiful children. My son is Mark Sheridan, twenty-eight years, and my daughter is Mrs. David Crompton. Both are in Europe at present."

"Now, that this calamity has come and I am fifty years old, I shall just go on with my life as I began it, trying to put into the world all the gifts I have; giving to the world all my sympathy and service."

"My husband is Charles Oscar Sheridan, a painter, formerly of New York. He went west four years ago because his sight was failing. He has to stay out in the sunshine all the time. I could not follow because of the necessity of earning my living, as I have always done, to help him. I could have placed obstacles in his way and prevented his securing his freedom, but that would have violated all my principles in life. If he can be happier away from me it is my duty to contribute in every way to the fullness of his life."

"We worked side by side for 23 years, he as a painter, and I as a singer, each contributing his quota to the fullness of the other's life."

"My life has been devoted to two great impulses. Through my voice I have given myself for 30 years to sociological work, retaining only enough to support life and give my two children all that they deserved with their sensitive and fine natures."

Horses Fight a Duel

Harrison, N. J.—Two horses fought a duel in a vacant lot here while several hundred persons watched the fight. One of the animals finally dropped with a broken leg. A bullet ended its suffering, and the other horse is under the care of a veterinarian.

Mrs. Marshall's Many Visits.

Washington.—Forty-five calls in 90 minutes is the visiting record established by Mrs. Marshall, wife of the vice-president.

Hits the Jersey Mosquito.

Ridley Park, N. J.—To rid this town of mosquitoes this summer the borough council has placed 200,000 pike perch in the lake here so that they may feed upon the mosquito eggs.

THRUST IN THE DARK

Servian Soldier Tells Story of Experiences in War.

Encounter Between Sentry and Albanian in Blackness of Night and Storm—Waiting in Pitchy Darkness for Unseen Enemy.

Saloniki, Macedonia.—A Servian soldier just returned from Albania related the following episode as his worst experience in the war:

"I was on night duty as a sentry on the Albanian hills, where rain and dark overtook us. All this region was unknown to us, but the tribes were Moslem, and supposed to be hostile. I knew that thousands of lives depended on me; I stood motionless, weary, stone cold, and unable to see anything, glad to rest my back sometimes behind me. I got to thinking of home in spite of myself, till I was startled by a rustle some paces off. We were warned not to make any noise, so I did not touch my gun, but got my sword ready."

"There was no other sound for a long time, except the pouring of the rain. I do not know how many hours it was till a stone from above rattled past me and fell to the precipice below. I tried to persuade myself the rain had dislodged it, but the rustle began again, and I knew something living was near. I made the sign of the cross and held my sword straight in front of me. I strained my eyes, but could not see a move or a gleam in the black night."

"The muffled sound continued, ever so slightly, but distinguishable, and I had the horrid sensation of being seen by what I could not see. I made no move, but suddenly my sword encountered something, and I pressed hard, just taking one step forward. There was a strange gurgle. I was shivering and drenched, but some hot drops now fell on my hand. I pulled back my sword, and heard some heavy object tumble down the slope, wondering whether it was a dog or a wolf or a strayed mule—or a man. I felt the blade and found it wet with something thicker than rain. I held it near my eyes, in vain. I wiped it on the damp earth at my feet, and waited for another encounter, but there was no further sound till dawn approached and the cocks began to crow in some village far away."

"I watched in agony for the coming of the round ball in the heavens that would bring relief, and I longed to lie down and sleep. With the first rays, however, our commander gave orders to march, as he had information we were surrounded by danger. We went down the same rugged path we had climbed the night before, and at the bottom of a ravine right beneath my post at the rock lay the body of an Albanian, fully armed, in a pool of blood, with a hole in his breast and a long two-edged knife in his closed fist. Four hours later we defeated his tribe and the cocks began to crow in some village far away."

—o—o—

STONEHAM HIGH DEFEATS ALUMNI

Stoneham high won from the Stoneham high alumni yesterday afternoon in a close and interesting game, the score at the finish being 7 to 6. The game was played on the Pomeworth street grounds and the high school team was saved from defeat in the seventh inning when Loughlin tied the score with a beautiful home run. It was some hit, and the young schoolboy slugger will finish the season with a splendid batting average.

—o—o—

CALUMETS WIN FROM PROGRESSIVES

The Calumets of Stoneham won from the Beverly Progressives yesterday morning, scoring 5 runs while the Progressives only got one man around the bases. The Calumets put up a hard game to beat and the result was never in doubt. "Bunk" Cheissong the promising high school player played with the Calumets, and was the hero of the game hitting the ball for a home run. He will be played permanently with the Calumets.

—o—o—

The official New England league batting averages show Frank Mephan of this city, playing with Portland hitting for 250. Not at all bad for a boy playing his first year in big league base ball, and he is coming all the time.

JOSEPH MURRAY HELD FOR THE GRAND JURY

Charged with Assault with Intent to Murder at Winchester Last Night

Charged with shooting 12 year old John Daley, a State warden who has been under his protection for the past seven years, Joseph Murray, 43 years old, was arrested last evening at the Winchester hotel by special officer Fred Stevenson. He was arraigned in the Fourth District court here this morning and waiving examination, was held in \$2,000 bonds, for the Grand jury. He refused to give any explanation for the shooting. The charge on which he was arraigned was assault with intent to kill.

About 9.15 last evening persons in the neighborhood of the Winchester hotel were startled by the report of a revolver shot. Arthur J. Mullen rushed into the hotel, and, as he entered the hall, saw the Daley boy running down stairs, clad only in his night shirt, crying out that he had been shot. Blood was streaming from both the boy's legs.

In reply to a question from Mullen as to who shot him, the lad cried, "Joe Murray did it." Mullen looked up and saw Murray running down the stairway in pursuit of the boy. Seizing the man, Mullen, after a tussle, threw him to the floor and held him until the arrival of special officer Stevenson.

The injured boy was taken to the Winchester hospital, where Dr. Arthur L. Brown found that a bullet had passed through the calf of his right leg and lodged in the left leg.

According to the boy's story, he had gone to bed in his room on the second story of the hotel, Mrs. Murray, the wife of his alleged assailant, sitting in the room with him. He had almost gone to sleep, he declares, when he heard the report of a revolver and felt a sudden spasm of pain in his legs. He ran from the room in terror, pursued by Murray, who, he declares, fired the shot.

The police found a 38-caliber revolver, with one chamber empty, between the sash and screen of the bathroom window.

Murray had returned to Winchester last night after an absence of several months.

When the officers were making the arrest of Murray, his wife, Josephine A. Murray, who runs the boarding house, known as the Winchester hotel, took a hand in the melee, striking Special officer Stevenson, and making a desperate effort to rescue her husband from the officers.

This morning, Chief McIntosh took out two warrants for Mrs. Murray, one charging her with assault on an officer, and the other, with attempt to rescue a prisoner under arrest.

The Daley boy was reported resting comfortably this morning at the Winchester hospital. The physician in charge will use the X-ray to locate the bullet in the left leg before attempting to remove it.

—o—o—

COMMITTEE WILL ARRANGE JULY 4TH SERIES

The committee on July 4th base ball will meet this evening in the Board of Public Works room to receive entries and to arrange a schedule.

There are but two more Saturday afternoons before the 4th and it looks as though two or more mid week games will have to be played. Already four teams have announced that they will compete and it is possible that others will be heard from tonight.

—o—o—

Mr. H. E. Lord wishes to announce that his telephone number has been changed to 16 Burlington, where he may be reached as effectively as before. Patrons may be sure of the same quick service that they have enjoyed in the past.—adv. *6-18

Bent on Getting Money.
"What excuse did the arrested casher give for being crooked?" "He claimed he was in straitened circumstances."

WAKEFIELD H. S. 1 WOBURN H. S. 0

It is a peculiar thing that the two best games which have been played on Library park this year have been between Woburn and Wakefield. Saturday the All Woburn and the Wakefield town team played 14 innings to a tie, and Monday the Wakefield High school team came over and defeated the Woburn team by the big league score of 1 to 0, in what was a pretty fine exhibition of base ball.

The credit must be given to Wakefield for their win, however,

for on the whole they played the better game.

Horne, the first man up, secured a clean hit, and

throughout the game Kyko was

touched for good clean swats,

amounting in all to 8. Several

times in the game, however, Kyko

robbed them of one or more runs

by snappy ball throwing with men

on bases.

The Woburn players seemed to

lack eyes for the ball. Only one

hit throughout the game, and that

one in the 8th, is a poor showing.

McKie was a crackerjack pitcher,

but Kyko was just as good; but

one was touched for 8 hits, and

the other for 1. And there the

game was lost.

One factor deserves mention—

the umpire made some decisions

that, from every point of view,

were inexcusable. Even the Wakefield rooters admitted that.

There seems to be more truth than fiction in the legend that he has a glass eye.

The one big feature of the game

was a major league catch by McKinnon in the 7th, with a man on

third and first. Fred Reade wal-

loped the ball over short, apparently

for a safety and two runs. But

pulled the ball down, for a third

out. The stands went crazy.

The score was as follows:

INJURED BY AUTOMOBILE

Mrs. William H. Curtis Sustains Fracture of Leg near Forest Park Yesterday

As Mrs. William H. Curtis stepped back after assisting an elderly woman friend into an electric near the Main street entrance to Forest park late yesterday afternoon, she was struck by an auto driven by Mr. Bell of Wilmington, knocked down, and sustained a fracture of two bones of the right leg, at a point near the ankle. Mr. Bell took the victim to her home on Lowell street where she received medical attention. She is resting comfortably.

The auto was moving slowly at the time. Mr. Bell saw the two women standing at the car side, and reasoned that both were intending to board it. When Mrs. Curtis stepped back, she stepped unknowingly directly in the pathway of the machine, and when it was impossible for Mr. Bell to stop his car before striking her.

REED-PATTERSON

Miss Elsie Mabel Patterson Becomes Bride of Winfield A. Reed

At 7:15 o'clock last evening, Miss Elsie Mabel Patterson, daughter of Mr. and Mrs. Rufus R. Patterson of 9 Johnson street, was married to Mr. Winfield Alexander Reed, son of Mr. and Mrs. Alexander Reed of West Townsend, Mass., the ceremony being performed by Rev. Fred M. Estes of the Methodist Episcopal church, at the bride's home on Johnson street. The bride was attended by Miss Bessie Egan of Malden, as bridesmaid, and the best man was Mr. James Hammond of this city.

The bride's gown was of white crepe mete over white messaline with princess lace trimmings, and the bridesmaid wore blue chiffon over blue messaline.

Following the marriage ceremony a reception was tendered the seventy-five or more guests, the bride and groom being assisted in receiving by the parents, Mr. and Mrs. Patterson and Mrs. Alex Reed. The ushers were Messrs. Hiram E. West and Charles A. Patterson.

The house was tastefully decorated, the ceremony being performed under an arch of asparagus fern and white carnations.

After the reception Mr. and Mrs. Reed left on their honeymoon which will include a European trip.

BROOKS-TUCK

Miss Frances Beatrice Tuck, daughter of Mr. and Mrs. Whitfield L. Tuck of Winchester, and Austin Whitney Brooks of Jacksonville, Fla., were married yesterday afternoon at 9 Winthrop street, Winchester, the home of the bride's parents, by Reverend Joel H. Metcalf of the Unitarian church.

The double ring service was used and there were no attendants. The bride wore a white travelling suit. The couple left for Jacksonville, Fla., where they will make their home, the groom being employed in that city as an engineer.

O'LEARY-MADDEN

Miss Katherine Elizabeth Madden of Oxford street and Daniel James O'Leary Jr., of 44 Mt. Vernon street were married at 7 o'clock last evening at the rectory of St. Mary's church by Rev. John W. H. Corbett. The best man was Timothy J. O'Leary a brother of the groom, and the maid of honor was Mary Madden a sister of the bride.

The bride wore a satin dress trimmed with duchess lace and carried bridal roses. The maid of honor wore a satin dress trimmed with Irish lace and carried red roses.

A reception was held at the home of the groom and the couple were assisted in receiving by Mr. and Mrs. O'Leary. The house was handsomely decorated with ferns, roses and cut flowers.

EVERSON-GOODACRE

Much surprise was manifested in Wakefield yesterday when it became known that Miss Doris Goodacre, the only daughter of Mr. and Mrs. Harry Goodacre of Wakefield Park, had become the wife of Lieutenant John Everson, U.S.N. of Colon, Panama. The news was received in the form of a cable to the bride's parents.

The marriage is the result of a romance which had its inception a year ago on board the White Star Liner Arabic en route for England, when the couple met for the first time. The bride is a graduate of the local High School.

LINEN SHOWER

FOR MISS BARRY

Friends Surprise Popular Young Bride to be at Her Home in Carter street

Miss Josephine Barry of 26 Carter street who was showered only a few days ago with novelties of all descriptions by her numerous friends, was again the victim of friends and neighbors last night, when she was given a linen shower. Miss Barry will become the bride of Joseph Griffin of Lowell on next Sunday night.

The popular young lady was deluged with valuable linen and her enthusiastic friends left nothing undone to make the evening one of pleasure. Dancing was enjoyed, games were played, there were several vocal solos, and readings.

Miss Gertrude Lynch presided at the piano. One of the most popular numbers on the program was readings by Miss Mary Graney who at one time was recognized as one of the best amateur actresses in the state, taking part in a number of performances in this city. Among those who took part in the shower were:—Mrs. Bernard M. Foley, Mrs. Coleman A. Foley, Dorchester, Mrs. Thomas Finnegan, Stoneham, Mrs. Francis Connolly, Mrs. Richard Dacey, Mrs. Daniel J. Harkins, Mrs. Daniel J. Nolan, Mrs. James Barry, Mrs. James A. Barry; Misses Jennie Lynch, Gertrude Lynch, Elizabeth Lynch, Annie Harkins, Mary Graney, Alice Murphy, Alice Foley, Dorchester, Gertrude Harkins, Mabel Finnegan, Stoneham, Joesphine Barry.

TOWER MAN

PREVENTS ACCIDENT

Derails Woburn Train at Winchester and Avoids Collision With Express

A collision that might have cost many lives, was avoided this morning by the thoughtfulness of the tower man of the B. and M. railroad who is stationed at Winchester.

The 8:08 train from Woburn arrived at Cross street and the semaphore was set to go ahead. It is understood that the Winchester tower man had received word that the express train on the main line coming from Lowell due in Winchester shortly after 8 was late and he thought there would be ample time for the Woburn train to go through.

He miscalculated and after the Woburn train left Cross street he discovered that the express was approaching and he set the semaphore for the Woburn train to stop before it reached the loop junction with the main line.

His signal worked all right but the train brakes did not because of the heavy down grade, and when the engineer tried to bring the train to a stop the brakes slipped. The tower man grasped the situation in a flash and without a moment's hesitation derailed the Woburn train and prevented what might have been a horrible accident.

UNION STREET

WIDENING IN COURT

Attorney for Mrs. John I. Munroe will Attend Council Meeting Tonight

H. Huestis Newton of Everett, attorney for Mrs. John I. Munroe, was at city hall last evening in conference with the committee on finance and City Solicitor Maloney in an attempt to adjust the legal

controversy over the proposed widening of Union street, the work involving Mrs. Munroe's property

benefit to the people.

THURSDAY, JUNE 19, 1913

AND NOW THE FOURTH

The popular enthusiasm that characterized the celebration of June 17 is evidence that the people of Woburn enjoy a public festival, and open air reunion, and are willing to contribute, so far as their means will allow, to the support of this class of functions. And that leads to the conviction that when the public has caught its breath and fully realizes that the next red letter day on the calendar is Independence Day, the response will be equally as hearty.

In these latter days public sentiment has demanded and secured 4th of July observances of a comparatively safe and sane order, and consequently much of the prejudice against them has been overcome. There is no reason why a celebration in Woburn need to be attended by any special danger. This being the case, the only questions remaining are the advisability of having another celebration so near that of June 17, and the raising of funds necessary.

The first objection is not a serious one. June 17 was devoted to a charity, than which there is none worthier. To contribute to its success was a duty, individual and corporate. The celebration of July 4 appeals to another sentiment. It is the one patriotic day of the year when one's heart throbs with justifiable pride. It is our day of gratulation and hurrah. Marking the birth of the nation every one is proud of it, a day when gray head and flaxen curls, and all the intermediate age gradations, join in a let-the-eagle-scream jollification.

It is the day when all our pent-up enthusiasm, "cabin'd, cribbed, confined" for 364 days by business routine and household drudgery, breaks its bonds and cuts loose. And it is eminently proper that this should be so. Do not frown upon it. Forget your selfishness for 24 hours and be an open-hearted, fun-loving, good-natured sport.

Make the welkin ring and put Woburn on the map in the van of the up-to-date wideawake column.

The municipality has donated a generous sum for the purpose, and stamped the observance with corporate approval. Business men are being appealed to for contributions, and the committee is very much encouraged. A few years ago Woburn woke from its lethargy, and a mighty interesting Fourth of July was the result. The success can be repeated, and when it is over the gratification and the memory will be an ample return for the outlay.

All up for the Fourth of July celebration of 1913. Make it a hummer.

A DOUBLE ANNIVERSARY

This bright June day is the anniversary of two events that have played an important part in the history of free government.

Seven hundred years ago today the Norman barons forced the hand of King John of England at Runnymede, and the Magna Charta, which is conceded to have been, the foundation of Constitutional liberty in England and later in America, was born. The charter jarred the Divine right of Kings not a little, and for the first time in the world's history recognized the rights of the governed people.

The basic principles of law and government in the England con-

stitution and our own Declaration of Independence draw their inspiration from the victory won at Runnymede.

Forty-nine years ago today the Kearsarge, under command of Capt. John A. Winslow met and engaged the Confederate cruiser, Alabama commanded by Capt. Raphael Semmes off the harbor of Cherbourg France, and after a decisive battle, forced the rebel privateer to raise the white flag of surrender, but before her crew could be rescued the Alabama sank beneath the waves. The battle was fought so near the shores of France that thousands watched its progress. The victory for the Kearsarge not only put a scourge of the sea out of commission forever, and demonstrated the quality of Yankee marksmanship, but gave a prestige abroad to the Union cause which at that time was sadly lacking in friends in Europe.

TO MAKE THE NAVY ATTRACTIVE

Sec. Daniels Would Have College Graduates in the Service

(By United Press)

Washington, June 18—If you are a man, and are between the ages of 17 and 35 years and are from five feet two inches to six feet one inch, and weigh in proportion, with a chest measurement of from 33 to 36 3-4 inches, dependent upon your age, height and weight, Secretary of the Navy Daniels has a job for you. Moreover he has declared that if you pass all these qualifications and want the job, he will give you as fine an opportunity to see the world as you could get anywhere, on board a floating home that was built for from \$5,000,000 to \$20,000,000.

Secretary Daniels has some advanced views regarding the way the navy of the United States ought to be run, and he is especially "strong" for reforms that will attract and hold the best class of men and boys the country can provide for the navy. He believes the navy should be made attractive to the young man, the college graduate, the school boy and to every man and boy who come up to the physical qualifications mentioned. Perhaps the most radical of the reforms Secretary Daniels would like to see effected is his pet plan to change the rules of enlistment so that it would be possible for college men to accept the hospitality of the navy and cruise as man-o'-wars-man during the vacations. He would have it so that college men who have a leaning for travel during their vacations, could take such cruises and acquaint themselves with the duties of a sailor.

Secretary Daniels, explaining his project today, declared he believes every young man should have a "working knowledge" of the navy. If this were the case, he said, the file of the navy would be raised even higher than it is now.

The secretary's plan is virtually the creation of a volunteer citizen reserve. He would have conditions such that in case of necessity there would be thousands of young men as useful as they were willing to go behind the big guns and uphold the prestige of the United States navy.

Although Secretary Daniels is an avowed "man of peace," he believes in maintaining a high degree of preparedness, and it is his aim to educate the young men so that the navy can be placed on a war footing at very short notice.

At the present time, figures at the navy department show today, the navy is approximately 4,500 men short of the authorized enlistment number. Under the Daniels regime every effort will be made to fill these vacancies with enlisted men, as well as to qualify as many more as possible who are now

in civilian life, for possible emergency work.

This is one of the reasons for the attractive cruise which has been mapped out for the Atlantic fleet this year. The coming cruise will be in the Mediterranean where every port of moment will be touched and the sailors given ample opportunity to spend many hours on shore. Similar cruises are to-day being mapped out for each succeeding year, and while Secretary Daniels is at the head of the navy department there will be no fear, he declares of Jack Tar having too much work and no play.

Following the Mediterranean cruise, it is planned for the fleet to go through the Panama canal to Asiatic ports. This trip is only in embryo at the present time. It was said at the department today that announcement of the itinerary for this trip may be made within the next few months.

SENATORIAL "WHIP" APPOINTED

Democratic Majority Applies Efficiency Method

(By Burton K. Standish
(Written for the United Press)

Washington, June 18—The Senate is getting the first taste of scientific management in politics. The Democratic majority is applying the new efficiency methods to smooth out the way for the Wilson-Underwood tariff bill.

In the first place, the Democrats now have a "whip," James Hamilton Lewis, Senator from Illinois. Nobody ever heard of a "whip" in the Senate before. It was an outgrowth of unyielding majorities in the House, where the Speaker used to appoint an "assistant floor leader" whose job was to hurry the "boys" on to the floor at times when the party needed their votes. "Jim" Watson of Indiana, when he was "whip" made the job a real one. Watson was renowned as never having lost a vote while he was in Congress. That was in the old Cannon days. Watson used to stand at the entrance to the House, and as the members trooped in would say "vote aye" or "vote no" and the statesmen would so answer to their names. A majority of 'em didn't know what they were voting on, but they were certain that Jim Watson always had the right dope and they couldn't be recorded against their party.

Lewis' appointment is a further illustration of the Democratic "scientific management" program for the Senate. In businesslike manner the new majority has already done away with the furnishing of the office of the Chairman of the Ways and Means Committee, shooing off unwelcome visitors with bland smiles, and with pig headed silence, when that smile failed.

"Harry" sits all day long outside Chairman Underwood's office.

Not even an active fly could slip by him. He never reads, or does anything, he just sits. That's his job. He says a hundred times a day, "No sah; No sah. He's not in sah. I'm sorry sah. Yes sah—Thank you, sah."

"I've got to be polite to 'um," he explained. "I've got to treat 'em good, and they feel good. If I've rough, they act troublesome," which shows that "Harry" is philosopher anyhow. "Harry" was discovered by Representative Dingley and was with him until that statesman died. Then he acted as door keeper for Serene Payne of New York, when he was Chairman of Ways and Means Committee. When Representative Oscar Underwood came on the job he "inherited" Harry. Oh yes, his last name? Why, er-let's see. Oh, no one knows him by his last name, so what's the use.

President Wilson is understood fully to approve of the plan to reduce control of the Senate floor by the Democrats to a science. While granting the minority a full exercise of its right of debate, it is said to be the administration view that henceforth the majority

MINE HORRORS TOLD

"Mother" Jones in Washington Tells Her Experiences.

West Virginia Operators' Guards Said to Tyrannize Over the Coal Region Regardless of Law—Woman Brutally Treated.

Washington.—"Mother" Jones, the aged labor leader, who from the Senate gallery has listened to the debate on Senator Kern's resolution for investigation of mine peonage in West Virginia, tells harrowing stories of brutality against strikers and their families here.

"I saw women and their babies—thirty or more of them," she said, "driven out of their miserable mine company shacks at Marcy, which go under the title of homes, forced to sleep under the sky in cold weather, until we, the miners' organization, got tents for them.

"I know of a case of a woman in the Sheltering Arms hospital at Holley Grove, beaten and bruised by guards.

"Outside the bullpen, in which I was, I have seen mothers calling pitifully for their husbands; I have seen children weeping in their mothers' arms, pleading for a chance to speak with their fathers. But the guards turned a deaf ear to all the entreaties and sent the women away.

"Children are forced to go into the coal pits as breakers. Their meager wage is needed for the home.

"Big, strong men have come to me pleading for help. They came by night, for they knew that the mine guards would blackjack them in daylight.

"I have known of cases of boys shanghaied for mine work. I have seen the asylum fill because of the terrible system that sapped soul and body.

"I know that the authorities have threatened to arrest two newspaper men if they came within the martial law zone, but I do know that this story is now going out to the civilized world, and that the press can not be blocked by such methods."

W. R. Fairley, in outlining conditions, said:

"I found only a few weeks ago in the Paint Creek district the case of a seventeen-year-old girl, named Claypool, forced by the guards to wade an ice-cold stream rather than take a road to the bridge a short distance away. Her case is the subject of an affidavit in the West Virginia state commission's investigation.

"I saw another woman, whose feet had been shot by the guards. She will be a cripple for life. She was hidden behind her own door in a back room. Her husband, a miner in the Paint Creek district, had hidden himself in the cellar. Mine guards deliberately fired on the house. The bullets ricocheted through four rooms, struck a Bible and a table and finally wounded the woman.

"I know of still another case where the guards in the Paint Creek district were beating a husband to death when the wife interfered. They turned on her. She was ill and when her child was born it was dead.

"I know that for years the mine guards have been stopping strangers as they got off the trains throughout the coal field districts. They asked the visitor's business. If he did not answer, or if the answer was unsatisfactory, he was told: 'Get back on the train,' or, if the train had moved on, he was ordered to keep going down the track and 'to be d—d sharp about it.'

FIREWORKS SCARE MOURNERS

Roman Candles Are Used by Mistake for the Wax Illuminants At Wake.

Niagara Falls, Ont.—The wake over the body of Alexander Postinka, in the mortuary chapel of Morse & Son's undertaking room in Niagara Falls south, was enlivened by an unexpected display of pyrotechnics.

One of a number of friends who had gathered to pay their last respects went to the store of George Briggs for candles to light around the corpse. Mr. Briggs, thinking the foreigners wanted to celebrate a holiday, sold the man a half dozen Roman candles. These were taken to the chapel and placed at intervals beside the body. Each man then took his place at a candle, and at a given signal they were all lit.

Immediately the mourners were in a panic.

The rockets flew blazing in all directions and the mourners made a scramble for doors and windows.

George Morse, a member of the undertaking firm, hearing the noise, rushed into the room and managed to save the place from fire, and also calmed the fears of the foreigners and the wake continued.

13,000 Miles for Rousseau.

San Francisco.—On a journey of 13,000 miles that she may purchase a wedding trousseau to her liking, Miss Margaret Restarick, daughter of Bishop H. B. Restarick, of Honolulu, arrived here en route to Boston. The wedding will occur in Honolulu.

Identify Submerged Island.
Yonkers, N. Y.—E. P. Robinson, of Newark, testified over the telephone from home and paid a fine of \$10 for automobile speeding. The fine was taken out of his bail.

WOMAN SOLON DEFENDS SEX

Senator Helen Ring Robinson Says Feminine Voters Don't Drink or Stuff Ballot Boxes.

New York.—Having vacated her seat in the Colorado legislature just long enough to make a flying trip east, Senator Helen R. Robinson of Denver made her first public appearance here when she addressed a meeting of the Equal Suffrage League, in the Astor hotel. Every woman there rose and saluted the only woman senator in the United States.

"All these stories you read in the ladies' lingerie journals are false," declared Senator Robinson. "Our women are not created in the image of man and our feminine voters and office holders do not have faces like vinegar jugs. Neither do they drink cocktails and highballs and stuff ballot boxes as the 'antis' say they do."

"If the men ever tried to take the vote away from the women in Colorado there would be things doing there that would make little old Lon-

Senator Helen Ring Robinson.

don look like Sleepy Hollow. Some persons say that voting takes such a lot of time. I vote just around the corner from home and it takes on an average of twenty minutes a year to cast my ballot. Sometimes I stay a little longer to chat about new millinery fashions with a friend."

In her soft blue silk costume and hat which matched her eyes Senator Robinson looked decidedly feminine.

MAN VICTIM OF BAD DREAM

Attends a Fire, Fights a Monkey and Dog, Breaks Three Toes and Then Wakes Up.

Kansas City.—The alarm rang sharply, the time was 4 o'clock in the morning and the signal showed the fire was in one of the packing houses. Capt. J. F. Pelletier of the insurance patrol, rolled from his bed into his clothes, slid down the pole into the apparatus room and within a few minutes was leading his squad against the flames. Finally the flames were subdued, and the captain stood watching the smoldering ruins.

He heard a growl and a whining yelp. A dog was chasing a monkey down Central avenue. The monkey saw the captain, so did the dog, and immediately they forgot their mutual disregard and attacked him. The captain's right foot shot out and the monkey went sprawling through the air. The foot kicked out again—and the captain woke up—in his room on the second floor of the patrol building on Charlotte street, near Eleventh.

His foot pained him. On examination he found it covered with blood. Three toes had been mashed and it was five minutes before he discovered he had been kicking the wall beside his bed in his dream.

TERRAPINS GREET GOVERNOR

Maryland Executive Sees 4,000 Of Them Show Their Heads When Dinner Bell Is Rung.

Baltimore, Maryland.—For the edification of Governor Goldsborough and his party four thousand terrapin showed their heads above the surface of their mud pond here. It was not to see the distinguished party that the terrapin came to view, but to respond to the dinner bell, which turned out to be a false alarm. The demonstration occurred at the terrapin farm of Tawes and Company at Crisfield.

"If my husband were here," said the absent watchman's wife, "he would feed them for you, but just to show you how they act I will ring the dinner bell."

Then she picked up several such bells on a string and shook them. Immediately above the surface of the mud there protruded some four thousand little heads, making the pond look very much like a bed of asparagus.

Twins Postpone Slander Suit.

Scranton, Pa.—Sets of twins delivered in one night to Mrs. Ellen O'Boyle, Mrs. Hannah Boyd and Mrs. Margaret Stanton of South Scranton, caused the postponement of a slander suit brought by Mrs. Joseph Savage against Mrs. Joseph Slidage. The mothers visited by the stork were important witnesses.

CATCHES A WHISTLING FISH

Angler in Cleveland Has Treasure in Aquarium—Job Whipple Tells of Concerts.

Cleveland.—A musical fish was caught the other day in one of the lakes of Shaker Park. Its captor said that it whistled when taken into the boat, and this claim was vehemently corroborated by the two young women who were with him.

The young man who caught the whistling fish said he was so surprised when the fish whistled that he nearly fell into the lake. Its whistling, he said, was all the more mystifying because its mouth was so wide it seemed nearly impossible that it could pucker enough to whistle.

He brought the whistling fish ashore alive in a bait bucket and took it home to put in an aquarium, saying that when it had regained its composure it might favor with the rest of the tune.

William Hoffner, a well-known agriculturist and engineer, who formerly lived near Shaker Lakes, said that the so-called whistling fish was doubtless of the common pout variety, which he said he often had caught in a lake near his farm in New England.

Mr. Hoffner said that the young man who took the pout home, hoping that it would favor with the rest of the tune, would almost certainly be disappointed, as pouts, he said, have but one note each.

Mr. Hoffner added, however, that he had been told by Job Whipple, an old resident of the neighborhood, that on still, moonlight summer nights the pouts sometimes gather at the far end of the lake in a school and whistle in chorus. Each pout pipes in its low, sweet, watery note to blend with the other pouts in a choral effect which is most strangely affecting, said the old resident.

TALK OF HEALTH WEDDINGS

Mrs. John A. Logan and Other Society Women Discuss Need of Doctor Before Marriage.

Washington.—Sex hygiene and the enactment of a law compelling prospective bridegrooms in the nation's capital to procure a certificate of good health before a marriage license can be obtained were subjects up for discussion at a meeting of prominent society women and welfare workers here. The meeting was held in the home of Mrs. John Hays Hammond, wife of the mining engineer.

While it was apparent the women were agreed on the compulsory production of the health certificate by the

Mrs. John A. Logan.

bridegroom, there was a difference of opinion as to the method of issuing such a certificate. One group favored the establishment of a medical board in connection with the health department, while others would leave the matter in the hands of any reputable physician.

Dr. Eleanor Folmar was one of the principal speakers, as was Mrs. John A. Logan, Mrs. Howard Bell and other prominent women who advanced their views. Further conferences will be held before recommendations as to legislation are made to congress.

JUST ESCAPES BEING EATEN

Lion Springs on Woman in Cage, but Is Killed by Owner Almost at Once.

Altoona, Pa.—With the hot breath of a lion fanning her cheek and his roar mingling with her screams for aid as he stood over her in an iron bound cage, Miss Florence, a woman animal trainer of the Ferari Carnival company, faced death by being eaten alive here.

Miss Florence had forgotten her whip in the cage. As she went to recover it the beast sprang through the air, landing with full weight on her shoulders. Realizing that his sharp fangs would sink into her flesh, Col. Francis Ferari, who chanced to be nearby, acted almost instantly.

With two jumps he was at the cage with a Colt revolver. He sent a stream of bullets into the lion's hide at such short range that a burn rounds every bullet hole. The revolver did its work and the king of the jungle fell dead with his claws entangled in the clothing of the woman. She was saved but severely scratched. The animal was worth \$5,000.

Twins Postpone Slander Suit.

Scranton, Pa.—Sets of twins delivered in one night to Mrs. Ellen O'Boyle, Mrs. Hannah Boyd and Mrs. Margaret Stanton of South Scranton, caused the postponement of a slander suit brought by Mrs. Joseph Savage against Mrs. Joseph Slidage. The mothers visited by the stork were important witnesses.

Mrs. Herman faltered often in the strenuous walking, but each time yielded to their importunities. Finally she was led to a cot, with danger of death passed. Her husband, from whom she is said to have been separated for some time, visited the young woman at the hospital, and it is believed a reconciliation was effected.

GIRLS QUIT SCHOOL

Government Looks Up Cause for Their Non-Attendance.

Investigation Shows They Do Not Abandon Opportunity for Education and Go to Work Because Parents Need the Money.

Washington.—The idea that children leave school to go to work because their parents need the money, is vigorously combated in a bulletin issued by the United States bureau of education. The authors of the bulletin have made a careful study of trade and labor conditions among girls in Worcester, Mass., preliminary to the establishment of a trade school for girls. They find that from half to three-fourths of the girls at work in the factories could have had further schooling if they had wanted to or if their parents had cared to insist upon it.

The survey showed that the number of girls between 14 and 16 years of age who leave school is constantly increasing. During the past five years many more girls between those ages left the Worcester schools than can be accounted for by increase in population. Only about 17 per cent. of them had finished the grammar schools; most of them left in the sixth and seventh grades.

Why did the girls leave school? Various reasons were assigned by the girls themselves. Some 30 girls said they "did not like school"; "could not get along with the teacher"; "were not promoted," or "wanted to go to work." Two were working to help pay for a piano. One of these was a cash girl of 14 years, who had left the ninth grade to go to work in a department store for \$2, later \$2.50 a week. Another was a girl of 15 from the eighth grade, who went to work in a corset factory for \$1 and rose to \$4.82. Still another girl was taking music lessons and contributing to the payment on the piano.

Twenty-seven girls were found at home. In some cases they had left to help in household, while a few had left at a time of temporary stress and then had returned to school. Four girls had changed places with the mother, who worked in a corset factory, laundry, or some such place, while the girl whose wage-earning power was small kept house for the mother of the children.

Curious differences as to what the parents thought they could afford were discovered: The mother of a family of eight children, living in apparently dire poverty, would have been glad to have sacrificed and pinched still further to have had her daughter stay in school longer, if she would. The mother of another family of six, living in a comfortable apartment house, with hardwood floors, piano, and other luxuries, said her daughter wished to stay in school longer, but the burden of supporting the family was too heavy for the father to bear alone; so the girl was taken out of school to go to work. A visit to a Swedish family revealed a carpenter and his wife, a washerwoman, who had just built and owned a new three-story apartment house. Yet the 15-year-old daughter with a seventh-grade education had been sent to work in a paper goods factory at \$2 a week. "The question 'Why did you leave school?' was put to some 336 more mature workers in the corset trade. Ninety-one per cent. of these women had left school between the ages of 13 and 16, and fully 50 per cent. because of their dislike of school or because they wanted to go to work. Of 74 workers in a clothing factory 85 per cent. had left school between the ages of 13 and 16, 25 per cent. of their own volition."

In the opinion of the authors of the bulletin, conditions such as were found in Worcester emphasize the imperative need for special training of a practical sort for girls between the ages of 13 and 15. In the main the children left school simply because they disliked the school work. Not getting the kind of training they might have liked and would have profited by, they blindly joined the army of shifting, inefficient, discontented girls that go from one monotonous factory job to another, and, because of their lack of training, rarely rise above the class of low-paid, unskilled workers.

BRIDE IS SAVED BY WALKING

Then She Makes Up With Husband After Her Effort to Commit Suicide.

Atlantic City.—Working desperately in relays of five hours, Dr. Sulman and nurses at the city hospital succeeded in saving the life of Mrs. Freda Herman, an 18-year-old bride, who attempted suicide by swallowing laudanum in a hotel at Pacific and Arkansas avenues.

The young woman was taken to the roof and unmindful of the low temperature and the biting blasts, the physician and nurses entered upon their arduous task of counteracting the poison.

Labors did not hear Duffy's muffled cries in time to operate the stopping lever from above and his head was crushed, instantly killing him. He had been adjusting machinery and his overalls caught on a projecting bar when he tried to squirm from beneath the gun.

JULY FOURTH SERIES ANNOUNCED

All Woburns, Marathons, North Woburns, Pirates and Innitou A. C. Entered

The committee on base ball for the July 4th series met last evening in the rooms of the board of public works. James H. Kelley called the meeting to order and on motion of Michael H. Feeney, Edward J. Wall was elected secretary and treasurer.

The representatives of the various teams that are to compete were invited into the meeting and asked to present a list of players, and to offer suggestions to the committee as to conditions to govern the series. The following managers attended the meeting: Manager John E. Fox of the Innitou A. C., Manager Joseph App, North Woburn, Manager Harold McDonald, All Woburns; Manager Carl Foster, Pirates; and Manager H. W. Peterson, Marathons. The line-up of the teams will be:

Innitou A. C.—John E. Fox, E. Doucette, J. Doherty, C. Doherty, B. J. Flaherty, T. Corbett, S. Toland, E. Walsh, F. E. Murphy, William Scalley, C. O'Doherty, F. Meagher, E. E. Place.

Pirates—Charles Welsh, George Weaver, William Weaver, Leo Walsh, Matthew Fox, Edward Fitzpatrick, Leroy Maguire, D. Mulrenan, Carl Foster, William Doherty, Charles Lyons, David Wilcox.

All Woburn—Eddie McDonald, Ernest McDonald, Edward C. Wall, Daley, McMahon, Ferdie Harkins, Finn, Jones, William Kenney, Mike Doherty, Lawson, Harold McDonald.

North Woburn—J. App, J. Enwright, Earl Sevrens, W. Dorrington, Lee, Colucci, S. Schneider, Neil Doherty, W. Barrett, Cal, Lyons, Bond.

Marathon A. C.—William Scalley, William Doherty, J. M. Peterson, Bean, Young, McEachern, H. S. Peterson, Kerrigan, Hubbard, Hamilton, Driscoll, Brown.

John Taylor was the unanimous choice of the committee for umpire during the whole series, his selection being advocated by the manager of each competing team.

William Scalley is claimed by both the Innitou A. C. and the Marathons. William Doherty is claimed by the Marathons and the Pirates. The committee voted to give the players until Friday evening at 8 o'clock to notify Secretary Wall where they intended to play and the manager losing the services of the player will be permitted to fill the vacancy. It was decided, that inasmuch as three preliminary games will be necessary, to play the first on next Saturday afternoon, the second on the following Wednesday, and the semi-final on Saturday, June 28.

In the drawing which followed, the Pirates and North Woburns were matched for the first game, and the All Woburns and Innitou A. C. for the second, the Marathon A. C. drawing a bye.

After the winners of the first two contests are known the committee will again meet to draw the teams for the semi-final match. It is possible for the Marathon A. C. who have already drawn one bye to draw another, and in this manner get into the final game on the morning of July fourth without taking part in any preliminary contests. The base ball committee can, it is believed that in the interest of fair play this team ought to play one elimination game, refuse to permit the chance of another bye, by ruling that the Marathons must play one of the winning teams in the matches already scheduled.

Before the meeting adjourned the division of the receipts at the games was talked over but no definite action was taken, the committee taking the stand that when the time came for the final game, that managers could agree

if they saw fit to have the winning team take the purse and all receipts over expenses, or they might divide the receipts upon any percentage basis that would be most satisfactory. If the managers are unable to settle this question it will be settled by vote of the committee.

The Committees on Fourth of July celebration met last evening and discussed ways and means and other matters in connection with the program for the day. Several changes were made in the personnel of the committees as previously announced, and plans outlined for doing the preliminary work. The chairmen of the several committees reported, showing good progress being made and insuring a great day for Woburn. The parade will include many features which will be of interest. An invitation is to be extended to all organizations to participate and it is hoped to have a good representation of military and other patriotic organizations as well as the civic societies. The publicity committee will be right on the job and as soon as plans are perfected will make announcements so that every one may know what is being done for the public entertainment and amusement on July 4.

45 YEARS AT SEA

German Liner Captain Retires After 326 Atlantic Trips.

Began on a Sailing Vessel—Varied Career of Hoegemann of the Celeste "Only Monotonous," According to Him.

New York.—To have crossed the North Atlantic 326 times in full command of a great liner laden with precious freight and more precious lives would appear to the landsman as a career teeming with excitement and danger. And yet, to hear that grizzled veteran of the seas, Captain Dietrich Hoegemann, about to retire from active service with the North German Lloyd, one might gather the impression that the life of the commander of a "Schnelldampfer"—as the Germans persist in calling a beautiful express steamer like the *Kronprinzessin Cecilie*—was about as thrilling as conducting a party of sight-seers through the Aquarium.

"The lives of sea captains today are monotonous," said Captain Hoegemann, "and the experiences they go through, while, perhaps, thrilling to the landsman, are a matter of almost daily routine. Fair weather or foul, fog, hurricane, ice or blue gales—they are all commonplace. We have our work to do and these obstacles merely make that work a little more difficult. That is all there is to it."

Captain Hoegemann when the *Celeste* noses into her dock at Bremen will take his papers and the precious autographed photos that adorn his cabin walls and bid good-bye to the sea. He will retire on a handsome pension, after thirty-four years' service with the North German Lloyd and forty-five years at sea.

At the age of 60 he is the same stalwart, erect, active figure that used to pace the bridge of the old steamer *Strasburg* in 1891, when the company gave him his first command.

With his retirement the German Lloyd loses the officer of whom it is most proud and the transatlantic service will miss one of the most efficient and kindly dignitaries who ever stood a thirty-six-hour storm watch on the bridge or cracked a passenger's youngster under the chin.

Hoegemann took to the sea as naturally as the proverbial duck to water. Not only was he father, Johann Hoegemann, an old sea dog and officer on the ancient tub *Union*, but for generations back on both the father's and mother's sides the present Hoegemann's ancestors had been lineal descendants of Neptune.

It was therefore to be expected that when Hoegemann's father attempted to break the chain and turn his youngster into a bank clerk the lad rebelled and skipped away to sea before the mast on a big sailing vessel plying the trades to the Orient.

It was at the end of this first voyage that young Hoegemann bumped into the Franco-Prussian war. His ship, knowing nothing of the stirring events that had taken place since she sailed from China, for Bremen, was innocent enough to hoist the German flag when a French warship hove in sight off the Bay of Biscay.

In an hour or so the French sailors were in charge of the German trader and Hoegemann and his fellows were prisoners.

In 1879 he was at the Navigation School to pass an examination and get an officer's certificate, after which he joined the North German Lloyd. As both officer and commander Hoegemann has made about 500 trips across the North Atlantic.

ALUMNI BEATEN BY WOBURN HIGH

Old Timers Unable to do anything with Weaver's Delivery and Lose 9 to 3

For six innings yesterday afternoon at Library park the Woburn high school alumni had the high school team guessing, the score standing 2 to 2, and it looked like anybody's battle. In the last half of the seventh the veterans cracked, and the boys led by Capt. Weaver proceeded to put the game on ice. This they did with a vengeance and before the side was retired five runners had crossed the home plate and the game was beyond the reach of the Alumni. The alumni scored one more run in the eighth making their total three, but the youngsters came right back with two, and the final standing was 9 to 3.

A decidedly slim crowd attended, and were much disappointed over the failure of Doctor McMahon, Freddie Roche, Bobby Beaton, Hank Jones and other graduate celebrities to show up, as advertised. Eddie Wall and Buster Sevrens were the Alumni battery and worked splendidly. Ferdie Harkins was at second base and was the same old live wire although he contributed a couple of errors, due without doubt to lack of practice. In the eighth when Eddie Wall retired from the mound because of a lame shoulder, Finn essayed to do the twirling, but two doubles and a triple in quick succession was too much for John and the hook was applied. Ferdie went into the box and to the delight of the crowd fanned two batters. He made one hit.

Jimmie Doherty at first, John Finn at short, Ed Kenney in left field, Jimmie McGovern in right, and Sammy McDonald at third all showed lack of practice but occasionally some one would come across with a play that awakened memories of older days when these same players were winning honor and glory for Woburn high.

Twelve hits were made off Wall, but ordinary support would have kept the bingles down to 7. Kiko Weaver struck out 11 of the old timers and held them to 4 safeties.

One of the pleasing features of the game was the way in which Harry Lawson and Captain Weaver swatted the ball each connecting safely 3 times. O'Doherty and Walsh banged out a couple of clean hits a piece and Walsh handled Weaver's delivery in faultless style. The score:

Woburn H. S.	bh. po. a. e.
Lawson, 1b	3 9 0 1

A NEW ROUTE TO BOSTON

Trains To Run Between New York and North Station Via New Hampden Road

A new and direct route between New York and Boston and points in New Hampshire and Maine will be opened to travellers on June 23. For the first time there will be afforded a way by which the transfer between the South and North Stations in Boston can be avoided, thus insuring greater comfort and convenience and saving valuable time in the journey to many of New England's resorts.

The new trains from New York by this new route through central Massachusetts will land their passengers at the North station, from whence trains may be taken to points in New Hampshire and Maine. Likewise, persons living north of Boston can take trains into the North Station and without leaving the station take trains to Northampton, Springfield and New York.

A decidedely slim crowd attended, and were much disappointed over the failure of Doctor McMahon, Freddie Roche, Bobby Beaton, Hank Jones and other graduate celebrities to show up, as advertised. Eddie Wall and Buster Sevrens were the Alumni battery and worked splendidly. Ferdie Harkins was at second base and was the same old live wire although he contributed a couple of errors, due without doubt to lack of practice. In the eighth when Eddie Wall retired from the mound because of a lame shoulder, Finn essayed to do the twirling, but two doubles and a triple in quick succession was too much for John and the hook was applied. Ferdie went into the box and to the delight of the crowd fanned two batters. He made one hit.

This new route has been made possible by the construction of the Hampden railroad connecting the Boston and Maine with the New York, New Haven and Hartford at Springfield. The connecting link between the two systems runs from Bondsville station on the Central Massachusetts to Springfield, a distance of sixteen miles. It has been constructed with heavy rails and favorable grades and is specially designed to handle heavy through trains and sleepers.

When the new service is inaugurated on June 23 two new through trains will commence running between the Grand Central Terminal and the North Station. The day trains will utilize what is at present the only vacant hour in the New York-Boston schedule, eleven o'clock. One train will leave Boston for New York at 11 o'clock arriving at New York at 5:03 p.m. Another train will leave New York for Boston at 10:50 a.m. arriving in Boston at 4:57 p.m. The night trains will leave New York and Boston at 11:33 and 11:35 p.m. respectively, arriving at 6:40 and 6:57 a.m.

The scheduled time over the new route is six hours, the same as over the existing routes. The distance is 234 miles as compared with 232 miles by the Shore line. These new Boston-New York trains will be equipped with pullmans, day coaches and dining service. They will make stops between Springfield and Boston at Ware, Barre, Oakdale, Hudson and Waltham. In order to afford greater facilities for travel between points north of Springfield and Boston there will also be installed at the same time three new trains between Northampton and Boston via Springfield. Most of the travel between these points has heretofore been over the Boston and Albany.

The new route to Boston will give travellers a variety of routes to select from, one by the Shore line, one via Waterbury, one by Springfield and the Boston and Albany and over the new line to the North station. It will mean four night trains instead of three. The convenience to travellers which the elimination of the transfer in Boston will mean should serve further to emphasize the value of President Mellon's policy of unification for the New Haven and Boston and Maine systems. It is expected to be a great factor in the development of the summer resorts all along the North Shore as far as Portsmouth, N. H. It will also afford people living as far north as Concord, N. H. the best means they have yet had of reaching western New England and New York. Vice President B. Campbell, in charge of traffic, said:

"The new service is calculated to develop largely the Shore north of Boston and indeed the whole territory south of Portsmouth by eliminating the transfer inconveniences. It will put the Boston and Maine in a stronger position to handle traffic between Boston and points north of Springfield. The Boston and Albany will have to yield that part of this traffic to which the Boston and Maine is fairly entitled. It will have the effect of strengthening the Boston and Maine not only by giving it a line between the North station and Springfield, but by enabling it to participate to a large degree in the through traffic between New York and Boston and Northern New England."

On the same day which this new route will open the Boston and Maine will put into use its new line on the east bank of the Connecticut river from Hinsdale, N. H. to Brattleboro, Vt., a distance of eleven miles. Heretofore it has had to use the tracks of the Central Vermont on the Vermont side of the river. With this line completed the Boston and Maine can run trains on its own rails from Springfield to Windsor, Vt., and the New York-White Mountain trains will use the Central Vermont tracks hereafter only between Windsor and White River Junction, a stretch of fourteen miles.

LADY BOXED WILHELM'S EARS

Titled British Woman Tells Story in Her "Reminiscences of Diplomatic Life."

London.—Lady MacDonnell, in her book, "Reminiscences of Diplomatic Life," tells how she once boxed the Kaiser's ears. The incident occurred when Lady MacDonnell was living in Berlin. Wilhelm was then crown prince and he was a frequent attendant

Emperor of Germany.

at her teas and usually afterwards played checkers with his hostess. She writes:

"On one occasion he accused me of cheating. He was apparently so serious that I became infuriated and, unmindful of his high estate and my duty as hostess, I impulsively leaned across the table and boxed his ears. His sense of humor and satisfaction at having so successfully worked upon my feelings, saved the situation. Ever afterwards, when he met, he used to say: 'I know a lady who cheats at checkers!'"

With his retirement the German Lloyd loses the officer of whom it is most proud and the transatlantic service will miss one of the most efficient and kindly dignitaries who ever stood a thirty-six-hour storm watch on the bridge or cracked a passenger's youngster under the chin.

At the age of 60 he is the same stalwart, erect, active figure that used to pace the bridge of the old steamer *Strasburg* in 1891, when the company gave him his first command.

Jimmie Doherty at first, John Finn at short, Ed Kenney in left field, Jimmie McGovern in right, and Sammy McDonald at third all showed lack of practice but occasionally some one would come across with a play that awakened memories of older days when these same players were winning honor and glory for Woburn high.

Twelve hits were made off Wall, but ordinary support would have kept the bingles down to 7. Kiko Weaver struck out 11 of the old timers and held them to 4 safeties.

The scheduled time over the new route is six hours, the same as over the existing routes. The distance is 234 miles as compared with 232 miles by the Shore line. These new Boston-New York trains will be equipped with pullmans, day coaches and dining service. They will make stops between Springfield and Boston at Ware, Barre, Oakdale, Hudson and Waltham. In order to afford greater facilities for travel between points north of Springfield and Boston there will also be installed at the same time three new trains between Northampton and Boston via Springfield. Most of the travel between these points has heretofore been over the Boston and Albany.

The new route to Boston will give travellers a variety of routes to select from, one by the Shore line, one via Waterbury, one by Springfield and the Boston and Albany and over the new line to the North station. It will mean four night trains instead of three. The convenience to travellers which the elimination of the transfer in Boston will mean should serve further to emphasize the value of President Mellon's policy of unification for the New Haven and Boston and Maine systems. It is expected to be a great factor in the development of the summer resorts all along the North Shore as far as Portsmouth, N. H. It will also afford people living as far north as Concord, N. H. the best means they have yet had of reaching western New England and New York. Vice President B. Campbell, in charge of traffic, said:

DR. WILEY DENIES RUMOR

MRS. COLBURN
91 TODAY

A Native of New Hampshire She has Resided in Woburn Many Years

Mrs. Charlotte A. Colburn is observing her ninety-first birthday anniversary, at the home of her daughter, Mrs. Sarah C. Felch, where she is receiving her friends and being showered with congratulations and good wishes. While there is to be no formal observance of the day, a number of friends of the family will gather at the home this evening, Mrs. Colburn being assisted in receiving and entertaining by her daughter, Mrs. Felch and her grand daughters, Mrs. George Durward and Miss Edna Felch.

Mrs. Colburn is a native of New Hampshire being born at Merrimac, June 20, 1822, her maiden name being Charlotte Ann Barnum. She has lived in Woburn nearly fifty years, her husband, the late Ephraim Colburn, passing away about three years ago.

Mrs. Colburn is an exceptionally well preserved woman, with practically all her faculties still retained, and with the exception of a slight lameness, the result of a fall two years ago, is quite active, taking an interest in the household duties and keeping well posted on the current events of the day, both locally and in general.

o-o-o
GRADUATES HAVE SECURED POSITIONS

It speaks very highly for the standard of our high school, that five members of the graduating class in the business course, have already secured good positions, even before they graduate. The five are: Florence Jewett, Katherine Dolan, Walter Hooper, Clifford Ryan, and Jennie Buck. Others of the class have positions in prospect and will undoubtedly be placed shortly.

\$35,000 FIRE IN BOSTON

(By United Press)

Boston, June 20—Firemen fought a spectacular fire today at 161 Albany street in a block occupied by the American Paper Stock Co. A loss of \$35,000 was caused. 200 residents in the vicinity fled in terror. Falling slates made the work of the firemen very hazardous. A huge printing press crashed through four stories to the basement. The firemen chopped through wood partitions and rescued 13 horses. The police had to drag many people from their homes.

CONG. MURRAY
WILL SPEAK

Dedication of Spanish War Memorial Monument on July Fourth to be Impressive Ceremony

Extensive preparations are being made by members of Charles H. Moloy Camp S. W. V. for the dedication exercises on the Common, July 4th, when the monument containing the cowl from the wrecked battleship Maine will be unveiled.

Representatives from 35 Spanish War Veteran camps are expected and it is believed that at least 250 men who served in the late war will be in line.

Frank Thompson of Malden one of the survivors of the Maine will, if present plans are carried out, unveil the monument, and he has written to the committee of the local camp stating that he will bring two other survivors of the famous disaster with him. Mr. Thompson had two ribs broken when the battleship blew up and he tells a thrilling story of the explosion and subsequent happenings. He and his two comrades with Congressman Murray of Charlestown will be the guests of honor at the unveiling and dedication exercises.

Congressman Murray is a Spanish war veteran himself and is always on hand to do his share whenever the interests of his comrades require his services. He will deliver the address at the unveiling and will speak from experience.

Hern and Roessler have already commenced work on the grass plot where the monument is to be erected, and the work will be pushed from now on, so that everything will be in readiness when the time for dedication arrives. Indications are that the dedication of this memorial will be the most impressive ceremony of its kind witnessed in Woburn for many years. Mayor Henchey is co-operating with the veterans who are arranging details, and he will represent the city at the exercises.

EXTRA--3 O'CLOCK

PUT THE LID ON
MODERN DANCES

Not to be Allowed at State Ball in Wheeling, Va.
(By United Press)

Wheeling, W. Va., June 20—They have clamped the lid down a la Mayor Gaynor in regard to the dances which will and won't be permitted here tonight at the state ball given in connection with West Virginia's semi-centennial week. At first, the committee announced that the tango, turkey-trot, hesitation waltz, bunny-hug, grizzly bear, and all similar Terpsichorean maizes would be strictly taboo. Then a great storm of protest arose and the committee decided to admit the tango and the hesitation waltz, but the others can't be lugged onto the ball room floor tonight. The committee says it will have watchers to spy out any of the dances Mayor Gaynor calls lascivious, and send the dancers home.

FRIDAY, JUNE 20, 1913

FOOD FOR THOUGHT

Recently the City council after a hearing and due deliberation ordered the laying of a water main on Lexington street from the present dead end to Cambridge street, a section that is at present dependent on wells and brooks for protection from fire and for irrigation or domestic uses. And the council appropriated \$5000 for the work of installation.

The matter then went to the Board of Public Works for execution and was referred to the Water commissioner. Commissioner Jones placed the matter before the superintendent of the water department and the city engineer, two presumably practical men. They gave it as their opinion that the work would cost \$8000, and the Board of Public Works very properly called the attention of the council to the apparent inadequateness of the appropriation, and suggested an increase of \$3000.

The city council in turn referred the matter to its finance committee, and that committee last evening reported back to the council saying in direct terms that it was, in the opinion of the committee, possible to complete the proposed work for \$5000, that a contractor could be found, or who was ready, to take the job for that amount and employ local labor. The council thereupon voted to accept the report, and ordered that its action be communicated to the Board of Public Works.

What the Board will do with it is problematic. What it ought to do with it admits of but one answer—accept it, ask for bids, and, if a reliable man is willing to assume the contract, give it to him, and save the city a lump sum of \$3000.

And the thought microbe creeps in right at this point. If this section of water main can be laid at a saving of \$3000, why not apply the contract system to the entire water main replacement work? If the superintendent of the water department and the city engineer, or whoever does the figuring, have made such an extravagant estimate on this comparatively insignificant section of the work, how about the correctness of their arithmetic on the general replacement work?

The city is now engaged in replacing the old water mains. The legislature allowed the city to borrow \$100,000 and stipulated that \$20,000 should be expended annually for five years. A further stipulation was that after the first year the income of the water department should contribute to the work. The city is now on its fourth year under this act. The first year it expended \$20,000, the second \$25,000, the third \$27,500, and this year the expenditure will reach \$30,000, and next year it may go to \$40,000 under the legislative provisions. Up to this year the total expenditure has been \$72,500, and only 19 miles out of a possible 55 miles were covered, and mostly with 6 inch pipe, the easiest and least expensive part of the work. Nearly all of the larger size and heavier work remain to be done. For example, the 16 inch main from the pumping station to the Common, about one mile, will consume all of this year's appropriation.

The engineer's estimate for the replacement work entire was \$350,

000. The men who are doing the figuring are the same men who figured the Lexington street job, and the wonder grows whether the same extravagance reigns supreme in the replacement work, as seems to exist in connection with the small bit of extension work referred to. There are officials in this city who do not hesitate to say that before all the water mains are replaced, the city will be called upon to expend nearer \$1,000,000 than \$350,000 the estimate of Engineer Barbour. A jump of \$3000 in a \$5000 job is some jump. If the same policy is in vogue elsewhere in the department the result will be startling.

BANKERS ASSOCIATION IN ANNUAL SESSION

The Currency System and Banking will be Discussed
(By United Press)

Pittsburgh, Pa., June 20—Changes that should be made in the currency and banking system of the United States was the subject discussed today by Congressman E. A. Hayes of California, at the opening session of the nineteenth annual convention of the Pennsylvania Bankers Association which will continue at the Hotel Schenley through Saturday. Colonel H. P. Bope, vice president of the Carnegie Steel company, was scheduled to deliver an address on "Banking and Business." This afternoon the convention recessed and the visiting delegates were guest of the local chapter at the New York Giant-Pirate game on Forbes field. On Saturday afternoon the financiers will forget their money and take part in a baseball game to decide the "Bankers' Championship" of Eastern and Western Pennsylvania money handlers. Joseph Chapman, Jr., vice president of the Northwestern National bank of Minneapolis, and Daniel S. Remsen, of New York City, will umpire Saturday's contest, according to plans announced today. Following the game, the delegates will tour the city in automobiles.

0-0-0
The chairmen of committees of the June 17th hospital field day, are to meet and report in the Savings Bank building, Saturday evening.

The St. Charles parochial school closes today for the summer vacation, the graduating exercises to take place Sunday morning with a solemn high mass at 10:45 a. m.

JUDGE BROWN CRITICIZES JUVENILE COURT

TURNS OUT CRIMINALS INSTEAD OF WORKING REFORMS
(By United Press)

New York, June 20.—The juvenile court, despite the great things its advocates claim it has accomplished for youth, is doomed to go, in the opinion of Judge Willis Brown, formerly of the Salt Lake City, Utah, and Gary, Ind., parental courts, and now superintendent of the Boy City in Michigan. In absolute opposition to such men as Judge Ben Lindsey of Denver, and Judge De Lacy of Washington, D. C., Judge Brown makes the rather startling declaration that the juvenile court not only has proved its unfitness, but that it is actually a factor in the increase of youthful delinquents.

"The juvenile court," said Judge Brown today in a special interview given the United Press, "with its sentimental probation system, is manufacturing more criminals than any other agency in the world. Juvenile courts are absolutely negative in having any influence in checking what is called juvenile crime. The system of placing a boy or girl on probation to attend school results in a forced social intimacy.

"The placing of a boy on probation and permitting him to attend the common school, means that that particular boy is to be cured of his evil tendencies through social contact with the son of Tom Jones and the daughter of Frank Smith. It would be silly—yes, criminal—to send the mentally weak child into the same school room with the mentally normal child, in the hope that the former could benefit by contact with the latter. The idea is preposterous, but that is exactly what is done through the probationary system followed in all juvenile courts. It means that the morally unfit child is sent into the midst of innocent girls and boys to be benefitted—at their expense. It is not right.

"I am not tearing down without believing firmly that I have the remedy—or rather the substitute for the juvenile court, but before going into that let us look at some startling statistics. Professor Hugh Beck of Christ College, Oxford, England, came over here some time ago to investigate what America is doing for its youths. He found that Denver—the home of the juvenile court, where they are supposed to have the best juvenile court system in the country—has more juvenile criminals in its jails than are found in any city he visited and he visited practically every city of size in America. In Denver, twenty-five per cent of all crimes committed, and these included such serious offenses as rape, embezzlement, forgery, seduction, etc., were committed by juveniles. In Chicago, which followed Denver in the establishment of the juvenile court, twenty per cent of the crimes committed were committed by juveniles. In St. Louis the per cent was twelve and in San Francisco it was ten per cent.

"Just a little more criticism of the juvenile court system and then we will take up the question of what should replace it. In Washington, D. C., they have what they call one of the best juvenile court systems in the country. It is presided over by Judge DeLacy, who is not only a capable interpreter of the law, but also a splendid man. Yet what do we find under this system to protect the youth of the capital of the nation? We find there that under the juvenile system, the skylarking schoolboy who plays hooky for a stolen swim in the Eastern branch or up at "Forty foot" above George town is subject to arrest on the same form of bench warrant as was served on the negro pub, Jack Johnson, now under a conviction to a term in the penitentiary for white slavery. Under the Washington juvenile court system, a juvenile offender—which means a

boy or girl of twelve or thirteen years—can be arrested on a warrant charging him with "feloniously and criminally remaining away from school." Could anything be more ridiculous? How many times have some of the best fathers of this land played hooky? And how many of them would stand for being called felons for doing so?

"Then there is one more bad thing about the juvenile court system. A boy must steal three times before he is finally made to go for offending the laws, for it is generally not until the third time that the boy is finally disciplined by the juvenile court. After the third time he is sent to a reform school, where he can graduate at the end of his term as a first class, two handed, deft-fingered crook through associations with the boys he meets there.

"Now the answer is the parental court and the morals school. Under the parental court system, the recalcitrant boy or girl is given a schooling from his first serious dropping from the straight path. He is never arrested. He need never appear in court and suffer the resulting shame and embarrassment. Unless the case is particularly deserving of extreme leniency, the child is ordered to pick up his school books and attend, not the public school where he has fullest liberty, but a special school, called the morals school, where he is given, besides his regular course of study, a course that tends to make him realize that he must obey the laws of a community. He is not first arrested, and held perhaps for several days or maybe weeks under detention by some impersonal society, like the hierarchy known as the Children's Aid Society of New York, but his case is disposed of and he is sent to the morals school. If he shows he has learned his lesson he is sent back to the regular school. Under the parental court system, a boy must earn his way into a reform school by continual and persistent tendencies to offend against the law. Under the juvenile court system, a boy whose tendencies lie that way says to himself, "Oh shucks; I've only been probated once. The judge'll stand for another time, so why worry." Under the parental court system, some punishment is meted out for every offense, only the punishment is served out to the recalcitrant child without that court procedure which brands him once and for all as a criminal. His name is never on the police dockets. And after all, if the civil law does not take cognizance of a minor, why should the criminal law? Why shouldn't a child be a child criminally as well as civilly?"

MIDDLESEX C. E. U.

TO HOLD PICNIC

One of the big picnics of the year will take place tomorrow afternoon and evening, June 21, under the auspices of the Middlesex Christian Endeavor Union, which includes societies from all the churches of the neighboring cities and towns of the country. The picnic will be held at Carlisle, where the party will arrive on a special train leaving the North Station at 1:51. The afternoon will be spent in games of various sorts, and races, including potato races for ladies and gentlemen, three legged races for the boys, and sprints. Supper will be served at 6:15, and games will be enjoyed in the evening.

A pleasant feature of the return trip will be a walk which is planned, through the woods to Bedford. There will be a full moon at the time, and a most pleasant time is anticipated. There are so many societies represented in the union, and so much enthusiasm has already been displayed, that there is no doubt but that it will be one of the biggest and most successful picnics of the year.

0-0-0
A large delegation from Woburn is planning to go.

Those going direct from Woburn take the 1:22 electric to Billerica and change there for Carlisle.

GIRL KILLS DOCTOR

SHOTS FROM REVOLVER HIDDEN IN HANDBAG REACH HEART OF SAVANNAH PHYSICIAN.

SHE HAD BEEN HIS PATIENT

MISS KITTLES USES LAST BULLET ON SELF AND FALLS ON BODY OF VICTIM—WOMAN WHO ACCOMPANIED HER TO OFFICE SOUGHT BY POLICE.

Savannah, Ga., June 20.—Dr. Guy O. Brinkley, a practising physician, was shot and killed by Miss Katie Kittles, who then turned the revolver on herself and sent a bullet through her temple, falling dead across the form of her victim.

The woman concealed the revolver in a small handbag which she carried to the physician's office with her. Miss Kittles and an unidentified woman companion went to the office of Dr. Brinkley, who was her physician. The unidentified woman remained in the outer office, Miss Kittles going into the private office where the doctor was.

In a few moments there was a commotion in the inner office and Dr. Brinkley ran out, followed by Miss Kittles, who was firing at him with a .32 calibre automatic revolver. The chase led from the inner office into the outer office and then into a passageway leading into the kitchen.

As soon as the firing began Miss Kittles' companion, a woman about 40 years old, left the office by the front door and disappeared.

Dr. Brinkley came to Savannah from Suffolk, Va., several years ago. He was unmarried.

Seven bullets were fired by the woman. Three went wild, three struck the physician and one ended the young woman's life.

Miss Kittles had been under treatment with Dr. Brinkley for several weeks, but during that time no card of identification had been made out for her. The girl was a daughter of Mrs. Evelyn Kittles, who keeps a rooming house at 223 Buell street. She had lived in Savannah nearly all of life. She is said to have been erratic at time, but had never given evidences of insanity. She was about twenty-three years old, slim, with dark hair and eyes and very pretty.

The police began a search for the mysterious young woman who aided in the sensational killing of Dr. Brinkley.

What passed between Miss Kittles and Brinkley will probably never be known. The woman who accompanied her and who is probably the only person who heard what passed between the couple, has not been found. It is presumed that she was there to keep guard while Miss Kittles accomplished her purpose.

The committee, it is believed, acted with the approval of President Wilson.

SIX ARE LOST ON SCHOONER

CAPTAIN AND FIVE MEN WAITING TURN TO LEAVE VESSEL WHEN SHE WENT DOWN.

Boston, June 19.—Captain John Andrew Doggett, of Portland, Me., and five members of the crew of the Gloucester fishing schooner Olympia, went down with their craft, while waiting to be rescued, when she was rammed off Sable Island in a dense fog by the Warren line steamer Sagamore. The Sagamore arrived at Quarantine from Liverpool with eight survivors of the schooner.

"Rings" From Smoking Volcanoes. A smoking volcano very often blows rings just like a man who is meditatively puffing a cigar. Sometimes these rings are five or six hundred feet across. In both cases the "smoke" consist of a cloud of fine particles which show the existence of a vortex ring, the ring itself being a rotating mass of gas or air.

SHERIFF'S SALE

Woburn, May 5, 1913. Taken on execution, and will be sold by public auction Saturday, May 12, at 10:30 a. m. in my dwelling, 59 Montvale avenue, in Woburn, in said County of Middlesex, all the personal property of the City Workhouse and Mary Woodman, both of said Woburn had (not exempt by law from attachment or levy on execution) of George R. Baldwin five hundred eighty-one (581) feet; these turning and running North and one hundred fifty feet on a line parallel to Main street; these turning and running Westerly five hundred and eighty-one (581) feet on a line parallel to the line first named to a point where the same meets the line last named and running South and one hundred and fifty (150) feet to the point of beginning. Containing two acres more or less.

JOSEPH H. BUCK, Deputy Sheriff.

R. R. RATES UPHELD

SUPREME COURT DISPOSES OF "MISSOURI CASES" IN ACCORD WITH MINNESOTA FINDING.

"JIM CROW" LAW IS VALID

Low Rates Confiscatory as to Some at Present—Light Shed on Physical Valuation of Railroad Property—Supreme Tribunal Adjourns.

Washington, June 17.—Following the principle laid down by Justice Hughes in the Minnesota rate cases, the Supreme Court disposed of 14 others separate rate cases nearly all of them in favor of the states.

The cases decided involved the actions of the state authorities in Missouri, Arkansas, Oregon and West Virginia in fixing 2-cent passenger or other rates. In only three of the 14 separate cases disposed of were the state made rates condemned as confiscatory. Counting the Minnesota cases decided last Monday, the rates fixed by the state commissioners or State Legislatures in only four cases out of 17 have been overruled on the ground of being confiscatory.

The decisions laid down no new principles except in the additional light thrown on what the Supreme Court regards as the proper way of making physical valuations of railroad property.

The court held that it was perfectly legitimate and proper for a State Legislature to classify any or all railroads for the purpose of valuation and assessment. There was no limitation to a State's right in that respect. The only handicap imposed was that the rates fixed must not be confiscatory.

Extends "Jim Crow" Rule.

Washington, June 17.—The civil rights law which was passed by Congress in 1875 and which provides penalties for discriminating against persons of color was held to be unconstitutional by the Supreme Court. This means that street railway lines in the District of Columbia, steamship companies and other corporations operating exclusively in Federal territory or in states where there are no laws to the contrary will be able to adopt Jim Crow regulations.

Mary F. Butts, colored, purchased a round trip ticket which entitled her to a first class passage over the Merchants' Miners' Transportation Line between Boston and Norfolk. After the trip she sued for damages under the Federal civil rights law alleging a dozen specific acts of discrimination.

The Supreme Court decided that the Federal Government was not financially responsible for the flooding of plantations on the Mississippi as the result of levee construction. Efforts were made to hold the Government responsible for the value of the lands flooded, in all about \$7,000,000, involving more than 100 plantations.

In an opinion by Justice Van Devanter the court held that a statute passed by the State of Kansas fixing a maximum freight rate for the transportation of crude petroleum and oil products was unconstitutional on the ground that it is oppressive and arbitrary.

The Court adjourned until October without announcing a decision in the inter-mountain case or passing on application for the review of the Comptroller-Mitchell contempt of court case.

THE NEW CURRENCY BILL

The Main Features of the Administration Currency Bill Are as Follows:

1. Twelve regional Federal Reserve banks.
 2. Central control through a Federal board of seven members, including the Secretary of the Treasury, the Secretary of Agriculture and the Comptroller of the Currency, who shall be members ex-officio, and four members chosen by the President and confirmed by the Senate.
 3. Proposed new Federal Reserve notes limited to \$50,000,000.
 4. Security for these notes may be government or State bonds, or approved commercial paper.
 5. National bank depositaries to be superceded by the Federal Reserve banks.
 6. Board of Control given authority to fix rates of interest.
 7. Headquarters of the Federal Reserve Board to be situated in Washington.

8. Authority given to country banks to lend money on farming lands.
 9. Provision for banks of \$1,000,000 or more of capital to establish branch banks in foreign countries.

CURES STOMACH CANCER

Dr. Mayo Says Disease Yields to the Knife—Favorable Diagnosis Can Be Established by Simple Methods.

Minneapolis, June 19.—"Cancer of the stomach is a curable disease," said Dr. William J. Mayo, of Rochester, Minn., speaking before the American Medical Association at the University of Minnesota.

"A favorable diagnosis can be established by simple methods," he asserted. "A history of gastric disturbance precedes cancer in a large number, if not the majority of cases. Operations for cancer of the stomach should begin as an exploration."

SPARKS FROM THE WIRES

WASHINGTON.—As a result of an investigation the head officials of the Department of Agriculture have been making recently, Victor H. Olmsted, Statistician of the Department, has been suspended pending a complete inquiry into the conduct of his office.

WASHINGTON.—President Wilson sent to the Senate the nomination of Meredith Nicholson, of Indiana, as Minister to Portugal.

WASHINGTON.—All products made in factories where children under 14 years are employed, or taken from mines where children under 16 years are employed, will be barred from interstate commerce if a bill, introduced by Representative Copley, of Illinois, is passed.

WASHINGTON.—The inner workings of the beet sugar lobby were laid before the Senate investigators through the seizure by a deputy sergeant-at-arms of the Senate of many letters addressed to C. C. Hamlin, until recently chairman of the executive committee of the United States beet sugar industry.

CHARDON, Ohio.—In a lightning and thunderstorm here, Glenn Lampman, fourteen, and Lawrence Hunt, seven, were simultaneously killed by a bolt of lightning. They were running to a refuge when the bolt over took them.

SAN FRANCISCO, Cal.—Of the 700 members of the San Francisco Dishwashers' Union, 100 are college graduates. This is a greater proportion of college men than can be found in any other labor organization in the country.

URGES DIX FOR PHILIPPINES

Senator O'Gorman, of New York, Recommends Him to President for Governor General.

Washington, June 19.—Senator O'Gorman called at the White House to recommend to President Wilson the appointment of former Governor John A. Dix, of New York, to be Governor General of the Philippines for the time which will intervene before the enactment of a Philippine independence law. Afterward he expressed the hope that the President would see fit to make the appointment.

REHEARSE WRECK

ENGINE 1338, DUPLICATING STAMFORD COLLISION, PASSES SAFETY MARK, THEN COLLAPSES

SENT BACK TO ROUNDHOUSE

Worked Well on Early Test in Hands of Veteran Engineer, But Not at End—Doherty Too Young to Drive Passenger Engine, Says Expert.

Stamford, Conn., June 18.—The New Haven railroad's extraordinary test of its brakes by repeating again and again the run of the Boston Express which crushed the last car of its sister train and killed six persons near the Stamford station last Thursday, came to an astonishing climax.

Guided and braked by a strong and time-tried engineer as the road thinks young Charles Doherty should have guided and braked it on that disastrous day, this phantom train was so responsive that it stopped hundreds of feet from the place of the wreck. But when the brakes were applied exactly as Doherty swears he applied them the train not only dashed to the spot where the parlor car Skylark was mashed on Thursday but went 225 feet beyond it. Had a train been standing there then five cars instead of one would have been wrecked.

Moreover, in the last run, the airbrake system of No. 1338, the battered locomotive which rammed the "Skylark" and which was wheeled out of the repair shops to pull the same cars that were behind it on Thursday, broke its air brake machinery in the last test and hobbled off to the roundhouse for sharp examination. It was of these brakes that Doherty wrote "No good," in the roundhouse book several days before the collision.

In advance of the reports of the coroner the airbrake experts from other railroads and the inspectors and engineers of the Interstate Commerce Commission and the Public Utilities Commission of Connecticut who rode the train and watched every symptom, there can be no conclusive official comment on the tests. But it can be said that the New Haven Railroad believes it has proved two things: First, that the brakes worked properly when properly handled; second, that Doherty did not use them in the manner that he should have done.

An airbrake expert from another road who sat beside the engineer on every trip says this: "No engineer who used his brakes as Doherty did; who failed to apply them until he had reached the distance signal and then exhausted his air supply a little at a time until he had none left for 'emergency' could have averted the wreck. Any engineer who handled himself as McConville did would have got through safely. That was proved today, in my opinion. It was also proved that the air brakes worked stiffly, and on the last run something went wrong with them. But it seems to me that the most important point is this: No man should be permitted to run a passenger engine without, from three to five years' service as a freight engineer. Doherty ran freight trains one year and three months."

AUTO CRASH KILLS BANKER

His Wife, Mrs. Junius S. Norton, Fatally Injured Dying on Way to Hospital.

Meriden, Conn., June 18.—Junius P. Norton, president of the Home National Bank, and his wife were killed when a runaway brewery truck, zigzagging down a hill, crashed into their motor car in Southington road, Hubbard Park. The banker's head was crushed. Death was instantaneous. His wife suffered a fractured skull and died while being taken to the Meriden Hospital.

W. S. Dudley, a friend of the Norton family was driving the car at the time of the accident, and his wife was with him. They were not badly injured.

MEAT ON PURE FOOD LIST

Exemption Clause Revoked by Wilson Cabinet Order and Department of Agriculture Can Prosecute.

Washington, June 18.—A long step was taken toward insuring to Americans pure and wholesome meat and meat food products in the extension, by executive order, of the pure food and drug act so as to include meat and its products.

Hereafter the Department of Agriculture will have full jurisdiction over meat and meat products, with the right to seize and destroy.

Heretofore, after meat has passed out of the packing house, the government has lost all jurisdiction over it.

FARMERS' LOANS CLOSE BANK

Illinois Cashier Says He Can't Get Interest in Many Cases Because of Agricultural Depression.

Bunker Hill, Ill., June 17.—Depositors of Bilt Brothers and Company's bank, which closed, held a meeting. J. H. Bilt, cashier of the bank, which was established in 1884 said:—

"The condition of the farmers in this community is such that I cannot realize on loans, and in many cases cannot get the interest that is due."

YALE-HARVARD

BOAT RACE TODAY

Annual Event Calls Immense Crowd to New London (By United Press)

New London, Conn., June 20—Today is the day. At least that's the way it looks to the several thousand Yale and Harvard graduates and undergraduates who are here today with their sweethearts, wives and banners to see Eli and John Harvard in the annual varsity eight oared race on the Thames. While the Crimson team from Cambridge still ruled a slight favorite today, there wasn't the same confidence of victory evident today, and it was generally admitted by the scores of rowing experts who are here to see the great race, that the Blue has a chance, and a good chance at that to return a winner. For this reason—based on the Yale showing at practice in the past few days—little money was bet at odds today.

—O—O—

CLEVELAND MERCHANTS ON AN OUTING

New Steamer Seeandbee Chartered for the Purpose (By United Press)

Buffalo, N. Y., June 20—Members of the Cleveland manufacturers and Wholesale Merchants Bd. and their families arrived here today on board the new steamer Seeandbee which left Cleveland on its maiden voyage last night. The manufacturers and merchants had chartered the boat for themselves and families and for Western New York and Pennsylvania customers who came here as their guests.

BERLIN.—Emperor William's Silver Jubilee, which has filled the Berlin streets with the greatest, gayest crowds ever seen in the capital, reached its climax with visits from the allied sovereigns, and closed with a gala dinner, followed by a torchlight procession of students.

PORT AU PRINCE, Hayti.—An epidemic of bubonic plague has broken out at the seaport of Jacmel, thirty miles from here. Numerous cases have been reported of which many have resulted fatally.

TELE

Buenos Ayres.—The Anglo-Argentine meat companies which do not belong to the alleged trust have determined to cut the price of export meat from 25 to 50 per cent. This action was taken because of the refusal of the Minister of Agriculture to take any action to prevent the American companies from securing a monopoly of the meat trade.

VIENNA.—Austria appears to be nettled over Russia's initiative in the matter of arbitration between Bulgaria and Servia and has refused to take any further share with other Powers in pressing the Balkan States to demobilize.

At last we are to have a "new circus" with 20th Century ideas. Ballard's Greatest 10 and 20 cent show claims to have reached the climax in circus paraphernalia. It is a brand new show, run in a business way, and

PRESIDENT JONES SOUNDS WARNING

Borrowing Capacity is low—Aldermen Advise Board of Public Works to lay Water Mains by Contract

MAYOR NAMES COMMITTEES

President Jones of the city council at a meeting of that body last evening submitted the following financial statement and urged because of the limited amount of money that can be used for the balance of the year that all appropriations now under consideration, and all expenditures to be considered in the future be passed upon with due regard for the borrowing capacity.

According to the figures prepared by President Jones the money that could be borrowed during the year within the debt limit after the annual budget had been made up was \$50,000. Of this amount up to May 15, 1913, \$23,945 has been appropriated, and other loans have been authorized since that time which swell the outlay to \$30,695. The president of the council contends that if all the loan orders now before the council, and in the hands of the finance committee were approved, that the borrowing capacity would be completely wiped out and that even then the city could not meet its liabilities.

Under the circumstances he thought that extreme care should be exercised and only loans that are imperative should be passed. The council took no action on the statement, as President Jones explained that it was only introduced to show the aldermen just where the city was at financially, and to be used as a guide in future deliberations. The appropriations authorized since May 15 are: Repairs on Waltham street \$900; Sewer extension in Mishawum road \$200; July fourth celebration \$750; Summer repairs on schools \$4500; Supervisor at playground \$350; repairs at playground \$50.

Mayor Henchey made the following aldermanic appointments to work in conjunction with the board of trade committees for the July fourth celebration.

Finance—Boyle, Naven, Ham Sports—Poole, Rix, McLaughlin. Baseball—Devlin, Ham Rix.

Childrens entertainment—Hogan, Lynch, Jones.

Antiques and horribles—Lynch, Marshall, True

Parade (military section)—Blake, Hogan, Jones

Parade, (civic section)—Winn, Fox, Boyle.

Music—McLaughlin, Naven, Poole

Printing and advertising—Devlin, Fox, Marshall

The committee on finance made one of the most unusual reports ever presented to a city council in Woburn, and of the recommendations contained in the report are accepted by the board of public works, the much voted question as to whether the public works officials are spending the city's finances to the best possible advantage or not should be at least partially settled.

The city council has already appropriated \$5,000 for laying a water main on Lexington street, but the board of public works have returned the loan order with the information that it would cost \$8,000 and a \$3,000 additional appropriation was requested. The finance committee report signed by Alderman Lynch reads:

"That the board of public works be advised to advertise for bids for doing the work as in the opinion of the finance committee the work can be done for the amount appropriated."

Alderman Lynch offered a motion that the minimum wage for city laborers be fixed at \$2 per day. Referred to the board of public works.

An order requesting the Bay State Street railway company to raise the tracks on Montvale avenue between Martin's turnout and Carter street was referred to the committees on railroads and street railways and highways, with the understanding that if the work is necessary that the railway company must bear the entire expense. The Edison Electric Illuminating company was requested to remove a pole on Main street, North Woburn in front of the residence of Adam Foster.

Under the head of committee reports an order for \$1,000 to resurface Russell street was passed; \$240 for the purchase of sewer pipe \$189.53, to pay pensions to retired street department employees \$1,000 to resurface Lexington street \$750 for July fourth celebration; \$4500 for summer repairs on schools; \$400 for salary of supervisor at south end playground and repairing equipment.

**NORTH WOBURNS VS
PIRATES TOMORROW**

Opening Game in July Fourth Series to be Played at Library Park

Tomorrow afternoon if the weather is favorable the North Woburns and Pirates will open the local base ball series for a purse of \$50 offered in connection with the fourth of July celebration. Duck Taylor will handle the indicator, a sufficient guarantee that the game will be played on its merits and that the best team should win.

The game will be unusually interesting to the fans as many new faces will be seen for the first time in a July fourth series. The Pirates are a hustling crowd of young players with Kiko Weaver for pitcher and are bound to make things interesting. The North Woburns will be radically different team from that which for many years has so well represented ward six, and if the reports that reach the JOURNAL office about the team that will be seen at the park tomorrow are true there ought to be some swell base ball in store for the fans. Neil Doherty will be in the lineup, and may pitch, but Manager App intimated at the meeting the other night that he would in all probability start Enwright as he is in good form, holding Neil in reserve for any emergency that may arise.

— o — o —

BASE BALL BUNTS

Tomorrow afternoon, weather permitting, the Mystic and Middlesex leagues will close with the contest between Woburn H. S. and Stoneham H. S. The game will be played at Stoneman.

In the Middlesex league the contest is between the Peabody and Wakefield school teams, with the probabilities in favor of the latter, judging by their all round play during the season.

The prize in the Mystic league goes to the Arlington H. S. that team having had a triumphal march to victory.

Now that the school leagues are drawing to a close, local interest centers around the fight for the 4th of July purse offered by the city. The first game in the preliminaries will be pulled off tomorrow, on Library field between the North Woburn and Pirates. If the former team shows any of its old time form there can be little doubt of the result. But considerable new material enters into the North Woburn make-up, and nothing is so uncertain as baseball.

— o — o —

Harold G. Marion of this city and Miss Grenidine McBride of Dorchester, were married at Dorchester, yesterday.

MET AT STONEHAM LAST EVENING

Woburn District Sunday School Association Had Interesting Meeting

There was a meeting of the Association of Sunday schools of the Woburn district at the First Congregational church of Stoneham last evening. District President Hibbs of Stoneham presided. The meeting was held primarily to decide whether the association would send delegates to the summer training school of Sunday school method at Northfield. Mr. Hibbs, who was at Northfield last year and is very enthusiastic about it, gave a very interesting talk about the academy, which was followed by stereoptican views of the buildings and interesting happenings about the school. Rev. Beals pastor of the Congregational church at Stoneham, also gave a very interesting talk on "Teaching, What it means." At the close of the meeting the Executive committee of the association held a meeting and elected two delegates to go to the Northfield school this summer. They were Miss Agnes Crawford of the Baptist church, Winchester, and Miss Maud E. West of the Methodist church, Woburn. The delegates to the meeting from this city were, from the Methodist church, Charles H. Kimball; First Congregational church, Clarence Richardson; No. Congregational, Miss Lena French, Mr. Frank Kimball, Miss Nellie Foster, Miss Hazel Benson, Miss Mildred Ford and Arthur J. Moore.

**CITIZENS OF WOBURNIA
HELD MEETING**

Good Speaking and Great Enthusiasm Manifested

The last mass meeting for the season of the citizens of Woburnia, was held in the high school assembly hall at 10:45 a. m. Wednesday morning with acting Mayor Henry L. McGowan presiding. The program included five minute speeches by Mayor McGowan, who spoke for the city of Woburnia; Alderman Clifford E. Ryan, who spoke for the city council; Commissioner Joseph R. Schiavino, who spoke for the Board of public works; chairman of the school committee Anna Coughran, for the school board; Chairman of the board of Assessors, Gertrude Cotton, for the assessors; Florence Elson, warden of Ward A, for the election officers; Doris Carswell, Chief of Police, for the police; Judge Frank Preston, for the court; Lillian Dunnigan for the Women of Woburnia; Martha H. Foley for the plain citizen; and Miss Hammond for Greater Woburnia.

It was an interesting and instructive meeting, and the speakers all had something to say worth listening to.

The speeches were interspersed with musical selections by citizens.

This was the last meeting of the citizens of Woburnia until next fall.

— o — o —

**MISS JENNIE CONNORS
DIED LAST NIGHT**

Miss Jennie Connors aged 52 years died last evening at the home of her brother in law, Michael Maloney, 105 Montvale avenue. Miss Connors has been an invalid for some time and last January underwent a severe operation from which she never rallied. She was born in Woburn and is survived by two sisters, one living in Worcester, and Mrs. John McDonald of Stoddard street, and two brothers, James of Woburn and Peter of Boston.

Funeral services will be held on Monday morning. A high mass of requiem will be sung at St. Charles church and burial will be in Calvary cemetery, Montvale.

SCHEDULE OF SPORTS

FOR JULY FOURTH

Sports Committee Made List at Meeting Last Evening

The Committee on Sports for the 4th of July, J. F. McGrath, H. B. Blye, J. A. McLaughlin, and M. J. Meagher, met last evening and arranged a schedule of sports to be run off on that day as follows:

5-mile marathon race for men.
2-mile marathon race for boys.
5-mile bicycle race for boys.
5-mile bicycle race for men.
100-yard dash for boys up to 18 years of age.
100-yard dash for men.
100-yard dash for girls up to 18 years of age.
Throwing base ball, for ladies.
1-mile relay race for high school scholars.
1-mile relay race for pupils of the Grammar schools.
3-legged race.
Shot-put for men 18 years of age and over.
High and broad jumps.

There is to be an important meeting of the committee in the room over McGrath's store this evening, and it is requested that all members of the committee including the committee from the city council be present.

NORTH WOBURN

Although the Christian Endeavorers of North Woburn celebrated their twenty-fifth anniversary some time ago. Yet yesterday was really the anniversary day. Twenty-five years ago yesterday evening June 19th, the committee met and formed the society which has done so much good for the young people of that church since.

If all those who left dishes and vases at the Parish Garden party will go to Miss Lena French, 5 School street, they will probably find the missing article.

Quite a little excitement was caused last evening at the North Woburn depot when a horse and wagon owned and driven by Joseph Brogna got mixed up with the gates at the crossing. The team which was coming up Merrimac street had just got across on to the track when the gates were let down behind it. Mr. Brogna then started to up School street when the gate at the end of that street came down between the horse and the wagon. The horse started to run and the hind bolt of the wagon broke. The horse ran up School street, leaving the wagon behind, but was caught before it got very far. Mr. Brogna and his son, a boy about twelve years old, were in the team at the time and were pretty well shaken up, the boy having several ribs broken. He was carried to his home. This morning it is said he was resting comfortably. The gates were also put out of commission and flags have to be used at the crossing.

CONFIRMATION EXERCISES AT ST. JOSEPH'S CHURCH

Tomorrow afternoon at three o'clock confirmation exercises will be held at St. Joseph's church, Montvale. Bishop Joseph G. Anderson of Boston will be the officiating clergyman assisted by Rev. Father Higgins, pastor of the church, and Very Rev. John T. Creagh, dean of the Catholic University of Washington D. C. who is visiting with Father Higgins for a few days.

Bishop Anderson will deliver the sermon and a large number of children together with some adults will be confirmed. The confirmation ceremonies take place once in four years at St. Joseph's parish and are always of a very impressive nature.

CLASS OF 1913

Containing stories by pupils of the class, accounts of the Washington trip, pictures of the class president, vice-president, officers of the battalion, baseball team, historian, prophetess, valedictorian, salutatorian, etc., toasts to members of the class, humorous incidents from the class-room, and numerous other things.

To be on sale Saturday at Moore & Parker's, or at the Woburn JOURNAL Office. 25 Cents.

NOTICE

To Local Baseball Teams

July 4th Series

Purse \$50

Entries must be filed Wednesday evening at a meeting to be held in the rooms of the Board of Public Works, Municipal building, at 7:30 o'clock.

Conditions governing the filing of entries subject to change by vote of the baseball committee.

Managers must present team name and the name of each player.

All players must be residents of Woburn and the number of men on each team will be limited to 12.

The committee reserve the right to amend or alter these rules in any way deemed advisable.

"Father grows younger every day." And his new photograph hits him to a "T".
The old portrait taken twenty years ago, made him look so serious and old-fashioned—not a bit like he really is.
We wouldn't part with it of course. But isn't it splendid to have a picture of him as we know him—just as he looks to-day.
And father says that he's glad he gave in and had it made, that having your picture taken is far from an unpleasant experience in days.

ALPHA-OMEGA

High School Paper a Splendid Number

Alpha Omega, the high school publication, issued by the graduating class, has made its appearance and is a splendid number, with well written editorials, stories, sketches, humorous paragraphs, and with full page half tone cuts of the editorial and managerial staff, the Battalion officers, and the baseball team; also photos of the class officers, editor and business manager, and pen and ink sketches by members of the class.

The cover is embellished in gilt, the class colors being blue and gold, and the book being printed on a high grade enameled paper. Altogether it is one fine issue, and a credit to the class and the staff of editors and business managers.

The books can be had at the JOURNAL office or at Moore & Parker's.

WOBURN MEN ON THE PROGRAM

At the second annual dinner of the Telephone and Telegraph society of New England, composed of employees of the New England Telephone & Telegraph company, held in Boston Thursday night, two local men figured prominently on the program of the evening. Michael J. Meagher of the Commercial chapter contributed vocal solos. In a talk entitled, "Flash-light Pictures of Famous Men" given by Joe Mitchell Chapple, editor of the National Magazine, he included Thomas J. Feeney, a Woburn man, who is publicity manager of the New England Telephone and Telegraph Company.

TO BE A GREAT DAY AT FIRST CHURCH

Sunday is to be a great day at the Woburn First church. The morning service at half past ten o'clock will be a renovation service. Possibly it will be one of the last occasions on which the auditorium may be seen in its present condition as plans are under way for a complete renovation of floors, pews, walls ceiling, lighting and organ.

The plan will be fully presented and an opportunity given for all to have part in it Sunday morning.

The old church, so long a center of service for old and young, for homes and community, looks toward new service in new equipment.

—o—o—

WHIST AND DANCING PARTY

The entertainment committee of Woburn Lodge Loyal Order of Moose, has arranged for a grand whist and dancing party in Mechanics hall next Monday evening. A large number of tickets have already been sold. These parties have proven very popular with the members of the order and their friends, and special efforts have been made to have the party Monday night the most successful and enjoyable yet held.

SPORTS COMMITTEE ARRANGE CONTESTS

Fifteen Events Scheduled for Big Celebration on July 4th

The committee on sports for the July 4th celebration met last evening, James F. McGrath, Harrie B. Blye, James A. McLaughlin, Michael J. Meagher and Alderman Benjamin C. Rix, attending. A program comprising 17 different events was agreed upon, and with the consent of the finance committee prizes totalling \$100 will be awarded. All entries must be in the hands of the committee not later than Wednesday of next week. If the present plans of the committee are carried out the bicycle races will start at 8:30 sharp and the route will be from the Common up Main street turning and coming down Elm street back to the center, the course to be covered as many times as is required to complete the distance.

The long distance foot races will follow the bicycle contests and the course will be from the Common to Wyman Green and return, and like the bicycle races the course will be covered until the number of miles for each race is finished.

The other events including the short distance foot races will then be run off at Library Park before the base ball game. The prizes for the different contests will not be made known until the finance committee announces the amount of money allotted for sports, and the sports committee expect that at least \$100 will be allowed.

Following is the program:

Five mile race, two mile race, ten mile bicycle race for men, five mile bicycle race for boys, 100 yard dash for boys, 100 yard dash open, 50 yard dash for girls, baseball throwing contest for girls, relay race for Grammar schools, climbing greased pole, sack race, three legged race, potato race, egg and spoon race for women, shoe race for boys, quarter mile and half mile open.

INJURED IN ACCIDENT AT WILMINGTON

William Ralph Had Leg Broken
Yesterday Afternoon

William Ralph, a driver in the employ of the Barker Lumber company of Woburn while driving with a load of lumber near Oakland park, Wilmington, met with a painful and serious accident yesterday. He encountered a rough place in the road, in which the wheels of his wagon fell into a deep rut. The shock threw him from his seat to the road, where the wheels passed over his right leg, breaking the bone between the knee and the ankle. Dr. Dodge attended him and had the injured man removed to his home where he is resting as comfortably as possible.

HAVE THE JOURNAL LEFT
AT YOUR DOOR EVERY DAY

A QUARTER CENTURY OF HAPPY LIFE

Rev. and Mrs. Fred M. Estes of the
M. E. Church Warmly Congratulated by Hundreds of Friends
Last Evening

A WORTHY TRIBUTE

Yesterday afternoon and evening the Methodist Episcopal parsonage 4 Plympton street was the scene of one of the prettiest social functions of the year when the pastor and his wife, Rev. and Mrs. Fred Mahlon Estes, celebrated with the help of their daughter and a large number of their friends, the twenty-fifth anniversary of their marriage. Fully 300 guests were present during the afternoon and evening, who extended their heartiest congratulations to the worthy couple and wished them a full measure of happiness for many years to come. Many expressions of love and congratulations were sent to Mr. and Mrs. Estes in the form of letters from those who remembered the day and its significance, but who were unable to attend in person. These tokens were no less dear to the pastor and his wife because of the absence of the senders.

The house was decorated with delicate ferns, variegated roses and cut wild flowers, the gift of loving hearts. The grounds about the house took on an appearance of fairyland with decorations of colored lanterns.

Rev. and Mrs. Estes were assisted in receiving by their only daughter Miss Lillian C. Estes, a graduate of Boston university class of 1913. The ushers were: Walter West, Hiram West, Wilbur True, Earl True, Irving Butler, Everett Dickinson, Mr. and Mrs. Nathan W. Frye and Mrs. Hubbard Copeland were in charge of details, and Masters Ralph Knowlton and Donald Page were at the outer door as pages.

The gifts were of exceptional beauty and appropriateness, the collection comprising silver and cut glass in delicate pattern. There were cash contributions from several friends, and chief among these was a purse containing \$158 the gift of the church society. Refreshments were served by members of the S. S. classes which are conducted by Rev. and Mrs. Estes respectively. The occasion was characterized by sociability and friendship. On the face of Mr. and Mrs. Estes was reflected the glow of good cheer that was the keynote of the occasion.

Among the guests, not members of the church of which Mr. Estes is the pastor, were Rev. and Mrs. Henry C. Parker of the Unitarian church, Mrs. Henry B. Williams wife of Rev. Dr. Williams of the Baptist church, Rev. Arthur P. Sharp D. D. of Melrose District Superintendent, Mrs. Sharp, Rev. Dr. and Mrs. Charles L. Brackett of the Stanton avenue M. E. church Dorchester, Rev. and Mrs. W. E. Vandermark of the Harvard street M. E. church Cambridge, Mr. and Mrs. Horace Edgar Cummings of Winchester, Mr. and Mrs. Herbert Roberts of Reading, Mr. and Mrs. Stephen A. Bartlett of Boston, Mrs. Jessie Thaxter and family of Reading, Mr. and Mrs. George Chapman, Miss Addie Chapman, Roy Chapman, Mrs. Archibald Cox and Mrs. Gertrude Welch all of Glendale M. E. church, Everett.

LONGEST DAY OF THE YEAR

(By United Press)

Washington, June 21—When the United States Weather Bureau jotted down the minute the sun appeared over the horizon today, it recorded the initial note on the longest day of the year. Between sun-up and sun-down it will be fully fifteen hours. When the sun dips below the horizon tonight, it marks its highest notch, so far as late hours are concerned, and from this time until December it will make its daily farewell on a graduated schedule, clipping off a few minutes each day.

—o—o—

(By United Press)

Cleveland, Ohio, June 21—Thousands of Germans of Cleveland tomorrow will participate in one of the greatest celebrations the German-American alliance has ever held in this city. The occasion will be the one hundredth anniversary of the war of liberation of 1813 against Napoleon the Great as well as the one hundredth anniversary of the great musician and composer, Richard Wagner. One of the features of the celebration will be the great chorus program. One vase chorus of all the German societies in Cleveland will sing German and American national songs on a platform at the base of the Goethe-Schiller monument in Wade park. Many prominent Germans from surrounding cities are expected to attend.

—o—o—

WOBURN HIGH PLAYS AT STONEHAM

Woburn High goes to Stoneham this afternoon to play the final game of its schedule and wind up the Mystic and Middlesex leagues.

The local school team will be more or less of a rough aggregation owing to being picked up at the last minute from eligible schoolboys, several of whom are not on the regular team. If the game was cancelled and not played it would mean the dismissal of the local High school team from the leagues, thus it follows that the game must be played at any cost in order to stay in the leagues. The team and rooters will leave on the 2:15 car.

Harry Lawson will act as captain this afternoon, George Weafer being in the 4th of July series and playing at Woburn.

BOLD FACTS

The question has been asked—How is it your Ice Cream is better than all the others?

THE FACTS ARE THAT WE USE

heavy, sweet cream guaranteed 40 per cent butter fats. We make our vanilla extract and crush fresh strawberries, while they are in season, and Bendorp cocoa is what we use in our Chocolate Cream

The freezing of the Ice Cream is a very simple matter after the proper percent Sweet cream has been used.

As we use the heaviest sweet cream obtainable, there is no question about the quality of our Ice Cream.

SATURDAY, JUNE 21, 1913

Upwards of \$300,000,000 will be expended this year in road and paving operations in this country is the estimate of a leading engineering authority. There is no doubt the road building experts of this community could get away with a similar amount right here if it was available. "Spending" experts they ought to be called.

Yesterday was a Red Letter day and no mistake. The Crimson won at New London and the Red Sox were victorious at Philadelphia.

It is said that out of the 700 members of the Dishwasher's union of San Francisco, 100 are college graduates. Well, dishwashing is a clean business, isn't it?

Those who have seen Dr. W. H. Wiley, the pure food champion, are not likely to credit that story about the baby's pulling his hair out.

FINE GRADUATION AT WINCHESTER

Wadleigh Grammar School
Graduates 104 Pupils

The graduation exercises of the Wadleigh grammar school Winchester were held in the town hall last evening and the interesting program attracted a large audience.

The program:—
Entering march, "The Jubilee" John Wissman; Prayer, Rev. Joel H. Metcalf; address of welcome, Henry A. Jones; chorus, "The March of the Spheres"; "Kneedeep in June," Robert K. Metcalf; "The Ruggles Family," Mary A. Dahany, Phyllis Fitch, Constance F. McIntosh, Florence M. McCarthy, Edna E. Raymond; chorus, "When the Roses Bloom Again;" "Aunt Melissy on Boys," Edna B. Ralph; chorus, "The Song of the Armorer;" "The Limitations of Youth," Roger C. Wilde; "Tom Sawyer's Fence," Joseph R. Barbaro, Remington A. Clark, Rufus C. Clark, Alice M. Hamilton, Alden H. Symmes; songs "The Four-leaved Clover" and "The Shallows" Leonard M. Passano, Jr.; "A Night of Troubles" Mary E. Kyle; chorus and dance "Estudiantina" Margaret M. Erskine, Mildred K. Harrold; presentations of diplomas, Mr. Marcus B. May.

WORSE AND MORE OF IT

(By United Press)

St. Andrews, Scot., June 21.—The suffragettes committed their costliest act of destruction when they burned today, the Lovell laboratory at the university, together with many valuable instruments and documents highly valued in medical science. The destruction was complete.

LOOKING FOR FURTHER WAR

(By United Press)

Vienna, June 21—Political and diplomatic circles see further war movements on the part of the Bulgarians in spite of Russia's intervention.

WILL GRANT R. R. HEARING
(By United Press)
Washington, June 21—Yielding to the request of 52 Eastern railroads the Interstate Commission will grant a hearing to ascertain if the railroads are making a reasonable profit on the capital invested.

BRILLIANT GARDEN PARTY AT WINDSOR

(By United Press)

Windsor, Eng., June 21—Under the watchful scrutiny of several hundred Scotland Yarders, 6,000 persons today attended the brilliant garden party at Windsor arranged by King George and Queen Mary as a climax to the festivities of Ascot Week. Reports for several days past that the suffragettes would attempt a demonstration were the occasions of extraordinary precautions to prevent the admission of any unauthorized persons. All were required to present their invitation cards at the big gate but in fear that some tickets might be transferred or even forged, detectives shadowed every one whose identity was not known to the gate officials and concerning whom there was the very slightest reason for suspicion. In addition their majesties and members of the cabinet were at all times practically surrounded by small squads of Scotland Yard officers in the guise of guests, while an unusually large force of uniformed police were on hand about the grounds. The guests, who included almost the entire membership of Parliament, the diplomatic corps and the leaders of European society, were brought from London by special train. The new Democratic American Ambassador, Walter H. Page, in orthodox silk hat and "Prince Albert" with most of the embassy staff, enjoyed his first taste of royal hospitality. Queen Mary presided over the tea-urn in the royal tent and Dr. Page was one of the few who took their tea from her hands. The Prince of Wales and a few of his Oxford friends were present, the prince having come home for his 19th birthday celebration on the 23rd.

AMERICAN ZIONISTS ANNUAL SESSION

(By United Press)

Cincinnati, Ohio, June 21—The need of a Jewish university in Palestine was the most important question which came up today before the opening session of the sixteenth annual convention of the Federation of American Zionists which opened this morning. This year's convention is considered the most important ever held by the Zionists because of the number of vital topics to be considered. Among these is the matter of demanding that the United States compel a more lenient attitude by Russian government officials toward the persecuted Jews of that country. It was argued today that the establishment of a Jewish University at Palestine will give to the young Jews of Russia, who are barred from universities there because of their religion and nationality, a place to educate themselves. The recent visit of Nahum Sockalan in this country was declared to have greatly strengthened the Zionist movement in America.

GYMNAStic UNION PREPARING FOR OLYMPIAD

(By United Press)

Denver, Colo., June 21—The first preliminary ceremonies of the great quadrennial turnfest, the thirty-first olympiad of the North American Gymnastic Union, as it is called officially, set for Wednesday, June 25, were held here today, when the new stadium and festival grounds at Lakeside Park were dedicated. Gymnastic exhibitions by all classes of Denver's turnvereins preceded the official ceremonies which concluded with the singing of the Star Spangled Banner by all Denver singing societies and several thousand who attended. The local committee announced today that every city which has German turnvereins will be represented here at the olympiad.

FARMERS TO FORM CORPORATION

Details Being Marked Out at
Convention Being Held at
Johnstown Pa.

(By United Press)

Johnstown, Pa., June 21—Satisfied that by the use of co-operative methods the profits of their farms could be greatly increased, farmers of Adams township, one of the most picturesque agricultural sections in the Allegheny mountains, today are working out the details pursuant to forming a corporation which will control practically every acre of land in that section.

It was while a number of the husky mountaineers were discussing current topics in the village grocery store at Salix, one evening not long ago that the proposition was first suggested. That the co-operative system had been a money maker in other states was pointed out. Fruit growers of the Pacific States have a "trust," cotton growers have an organization in the South and in the New England and Middle Atlantic states the powerful organizations of the poultry dealers and truck gardeners have flourished for many years. These facts were the principal topics of discussion in the village store for weeks. Other farmers were approached and the plan explained to them. It was an immediate "hit," and now it is learned that within a short time steps will be taken to effect permanent organization.

The plan of the Salix farmers is to form a corporation in which all the farms in this section will be worked on the co-operative plan. Every farmer will be a stockholder in the company. He will oversee the work on his own farm, care for his own crops, and when the harvest season has arrived his farm will be visited by directors or agents of the association, who later will take charge of the produce and its sale. The farmer will get his share of the profits when the dividend is declared.

The association will elect a board of directors. It is said that practically every prominent farmer in that section will become stockholder in the new association. Higher prices for butter, eggs and other farm produce are paid in this part of Pennsylvania than are paid in New York City. The land is fairly fertile in the valleys, but there is always a shortage of produce, and the best of prices are received for garden truck, butter and eggs. Owing to the limited acreage of tillable soil, and the rapidly increasing population, prices are expected to go even higher.

This year, due in a great measure to the frosts, there promises to be an even more serious shortage, and it is expected that prices will again soar before the summer is many weeks older.

The farmers of Adams township are agreed that the sooner the association is formed and put into operation, the better it will be for them. They hope to be able to set their own prices for green goods and dairy products this year.

The association will have charge of all the farm and dairy produce, as well as of chicken and other poultry. This section produces a large amount of the food consumed by Cambria County's many large and growing coal, steel and railroad towns. Much of the produce also is sent into Somerset County, where large coal companies are operating.

The State Grange and its branches have long been advocating the co-operative plan. In a number of sections in this part of the State, co-operative stores are being planned. It is said that Salix also will have a co-operative store, which will place practically the entire business of the little town in the hands of a corporation. It is said that the grange idea of a co-operative system, which has been discussed here by local farmers for more than a year, is responsible in a large measure for the inception of the co-operative forming scheme.

HARD TOIL IN MILL

Life of Women Employed in Harvester's Twine Factory.

New York Investigation Committee
Report Says Night Workers Earn
Little Amidst Discouraging,
Unsanitary Environments.

New York.—The Wagner factory investigation committee's report on conditions in the International Harvester twine mill at Auburn, N. Y., a document which is now in the hands of the printer, is expected to furnish valuable leads for the state in the investigation that Governor Sulzer declared he would order into the circumstances surrounding the strike at the Auburn plant.

"These women," reads the Wagner report, "were employed for ten hours on five nights of each week, from 7 p. m. to 5:30 p. m., with a break of half an hour at midnight. The output of this factory is twine made from hemp and the work involves exposure to much dust, great noise and some rooms, heat.

"The married woman who worked at night had on an average about four and a half hours of sleep in the daytime; they prepared three meals each day, including breakfast, which had to be made ready immediately after the night's work. They also did all the washing for their families.

"Many of them returned to their homes after hours of work at night in the dust and roar of the twine factory to nurse their babies in the morning and during the daytime.

"The appearance of the women workers is very disheartening," is the Wagner committee's comment. "They are stolid, worn-looking and pale. Their clothes, faces and hands are covered with oil and hemp dust. The women as a whole are a disheartening group, in their oily, dust-laden clothes, with drawn, white faces and stooping gait."

The special investigators report that of the 100 women whose personal histories were secured, 95 were Polish. There were 80 women between twenty and thirty years of age. Of these 100 women 62 were anaemic, 57 complained of backache and 53 of headache. All operatives worked standing.

"Dust is the predominating evil," continues the report; "the clatter of machinery is so frightful that a voice can hardly be heard below a shriek.

"One-third of the women," finds the committee, "earned from \$7 to \$7.99 a week, another third earned from \$8 to \$10, 25 earned from \$8 to \$8.99 and 6 from \$9 to \$10. Only one woman made \$12 a week; 11 women made as little as from \$6 to \$7. The remaining 23 received varying wages, so that an average could not be accurately taken."

Reasons for employing women in the night shifts as tabulated by a special investigator for the committee are:

1. Only women are able to properly do the work of spinning and balling.
2. There is no possibility of getting men to work during the night, there being a lack of men workers even during the daytime.
3. It would be impossible to engage men at the same rates that are paid women and get the same efficiency.

The histories and living conditions of the 140 odd women among the 200 night workers at the twine mills were compiled by Miss Grace Potter and Miss Gertrude E. Smith. They found that only two of the women workers were born in the United States. There were ninety-seven babies whose mothers were doing night work. Of eighty-two women 75 had babies. One woman had 11 children, 22 had only one child; 10 were nursing babies. The average weight was 90 per cent. of those questioned was between 125 and 135 pounds.

"Questioned about their reasons for working," read Miss Smith's report, in part, "the usual reply was: 'To help take care of my family,' 'to save money to buy a home,' and 'to dress my children right.'"

SHOW LEADS TO REVELATION

Boy Who Had Kept Playmate's Death a Secret Suddenly Makes Declaration Which Clears Mystery.

Harrison, N. J.—A moving picture show indirectly revealed to Mrs. Harry Siegel recently the death by drowning of her six-year-old son, Harry. The boy had been playing during the afternoon with William Rossel, a seven-year-old schoolmate. William was afraid to say anything about the drowning. While he was with his mother at a moving picture show a film showing boys trying to rescue a drowning mate was thrown on the screen. William suddenly exclaimed:

"That's just the way Harry Siegel died this afternoon."

Mrs. Rossel grasped William by the arm, bolted out of the theater and hurried to Mrs. Siegel's home, where William tearfully recited the story of how Harry had fallen into the Passaic river while playing with him on a sand pile, and how he had failed to come up. Mrs. Siegel became hysterical.

Join 11 Couples in a Day.
Cleveland, O.—Justice William Brown has proved his right to the title of the "marrying justice." Eleven marriages were performed by the squire, the average time for each ceremony being ten minutes.

ASYLUM INMATE A MYSTERY

Patient's Mind a Blank Except That He Served in Navy and U. S. Is Asked to Investigate.

Rochester, Minn.—Officials of the state hospital for the insane here have interested the navy department at Washington in an endeavor to ascertain the identity of an unknown man who has been a patient in the institution for five years. The man, unconscious and nearly dead, was picked up in June, 1907, on the railroad tracks near Waseca, and in the following April was committed to the asylum. He has never been able to talk, and cannot remember any of his family history, but can recall his life in the United States navy.

From gestures and signs that he makes with his left hand, his right side being paralyzed, he has indicated that he was an officer in the navy. By laboriously writing the initials "J. C. R." it is believed that those are the initials of his name, but he is unable to give any idea of what the letters stand for. He has also made it plain to the asylum officials that he entered the United States Naval Academy at Annapolis when a boy and served in the navy for many years.

Also that he had been commissioned to carry certain documents from Washington to San Francisco, and that it was while on his return trip, and after leaving Minneapolis, that he was either thrown or fell from the train near Waseca. His continued declaration that he has been in the navy has led Dr. A. F. Killbourn of the state hospital to take up the matter with the navy department at Washington in the hope of establishing his identity. Every description possible, Dr. Killbourn says, including finger prints, has been sent to the department.

FLEES IN BIG BOX OF SHIRTS

Convict Opens Trick Lid of Packing Case After It Is Placed in Freight Car at Wethersfield, Conn.

Hartford, Conn.—The Connecticut state prison at Wethersfield all but bought a railroad ticket for the escape of Charles Dewey, who had served two years of a five to nine year sentence for highway robbery. He concealed himself in a packing box, supposed to contain shirts, and was carried to the freight yard by the prison van. The escape was not discovered until the return to the prison, and an investigation disclosed the empty box in the freight car.

The cover of the packing box gave every indication of being nailed down tight, when in reality only one side was fastened. The nails on the other three sides were driven so they came just inside the box instead of catching the wood. A handle was fastened to the underside of the cover and to this was attached a heavy piece of wire so that the prisoner might keep the lid from shifting.

Dewey was engaged in packing the shirts for shipment, and his opportunity to get in the box came when trusties were carrying out those already closed up. He pulled a lot of shirts in over himself, and the trusties carried him out to the wagon and he was carted off to the freight car. The door of the freight car was left open, and it is supposed that he escaped to the woods.

FRENCH SAILORS USE "DOPE"

163 Dives in Toulon Alone—New Law Proposed to Check a National Peril.

Paris.—The sailors in the French navy are become "dope fiends" to such an extent that the national efficiency of that branch of the service is threatened, it is asserted by Admiral Belleu in a statement in support of the Paris Martin's crusade against opium smoking. The peril, according to the admiral is grave and menacing, affecting in a widespread manner the health of the sailors.

The Matin has turned up 163 opium smoking dives at Toulon alone, not to speak of the great number in Brest, Cherbourg, Lorient, Rochefort and other great French naval ports. The opium comes from France's Indochina colony.

The law in its present state, it is said by the commandant at Toulon, cannot be used to stop the opium evil. This being the case, Deputy Lebœuf has given notice that at the reopening of the legislative session he will introduce an amendment to the law providing for heavy penalties for opium selling. The minister of marine will be questioned for his views on the subject.

WOMAN ARRESTS A FISHER

Feminine Game Warden in Kansas Exercises Her Authority to Annoyance of a Male Angler.

Topeka, Kan.—When Miss C. E. Fisher, state deputy game warden, found H. B. Stone, fishing with more than one trotline she arrested him on a charge of violating the fish and game laws. This was the first arrest ever made by a woman deputy game warden in Kansas. Miss Fisher took Stone before a justice, who fined the prisoner 1 cent and costs. Stone appealed the case.

School Board Men Fined.

St. Louis.—Eleven members of the board of education were fined \$300 each for failure to equip three school buildings with fire escapes. It was testified during the trial that the board of education had appropriated \$230,000 to make every school building in the city fireproof.

SEEK UNKNOWN LAND

V. Stefanssen Expedition Is Now Under the British Flag.

Discoverer of Blonde Eskimos Had Intended Making Trip for the American Museum of Natural History.

New York—Vilhjalmur Stefanssen, the discoverer of the blonde Eskimos, returned here from Europe, where he had been to make final arrangements for his expedition in search of the "un-discovered continent" in the arctic regions near the north pole.

The expedition, which was first planned under the auspices of the American Museum of Natural History, is now conducted under the British flag for the Canadian government. The party includes 12 scientists. They will leave the navy yard at Esquimalt, B. C., on board the steam whaler Karlik, a boat of 247 tons.

"The first I managed to do successfully," he said, "was sent to King Edward VII. It was, I believe, the first one of its kind in existence.

"When I have selected an egg I hold it up to a very strong light to make sure it is free from straw, and then I draw the intended design on paper.

"This I repeat until I have committed it to memory, because it is not practicable to sketch the whole design on the shell, as it is necessary to wash it a good many times during the progress of the work.

"If it were held in the hand in the ordinary way the heat of the blood would have a detrimental effect on the shell.

"The only tool I use is an engraver's square, specially tempered and sharpened, with a long V shaped end. This I have to sharpen after every few strokes, because the edge is quickly dulled by the brittle surface of the shell."

A beautiful example of his art, to which he was giving the final touches, contained the monogram and cypher of King George V, surmounted by the Royal crown, and bore the words "Long Live the King, Crowned June, 1911," in a scroll.

The jewels cut in the crown required very great care. They were so close to each other that a breath of wind through a tube would have shattered the whole shell into a thousand fragments.

It was a remarkable piece of work, similar to this, and bearing the Prince of Wales' feathers and the motto "Ich Dien" that Mr. Mahoney sent to King George V, before he succeeded to the throne. There was an interesting sequel:

Mr. Mahoney was surprised one day by a visit from an emissary, who had obviously called with the purpose of testing the genuineness of the carving on the eggshell that had reached Marlborough House.

He inspected everything in the workshop, especially the chisel used in the delicate work. The carver was apparently more than satisfied, and the end of it was that the Prince of Wales purchased the carved shell.

RATIONS FOR 7 \$1.01 A DAY

Chicago Charities Start a Campaign to Show Wives How to Buy.

Chicago.—Menus have been prepared by the visiting housekeepers of the United Charities showing how families of seven can obtain a day's rations for \$1.01.

Commenting on the situation, the finance committee of the organization has issued the following statement:

"Here is a situation of which every man and woman in Chicago should take cognizance. One in every seven of the population has come in some way to the attention of social service agencies in one year. Only one in every 300 give support to the United Charities, yet that organization befriends one in every seven persons in the city in 1912."

The United Charities can continue work on its present basis only two weeks longer, unless funds are forthcoming immediately. Contributions of any size are welcome. If one in every seven persons of the entire population is in need, then no organization needs adequate support in order to reach them more than the United Charities.

Its facilities in the way of trained visitors to serve the distressed need to be augmented at this acute time, not reduced."

The visiting housekeepers of the society have been initiating housewives in straitened circumstances into the science of judicious buying. Accounts kept by tenement housewives—often show bad buying. Three mistakes common to the injudicious housewife have been found to be: First, the loss through buying in small quantities; second, the extravagant price paid for package goods, and third, the loss through buying from custom rather than for food values.

HERE'S NEW GOLF HIGHBALL

Caddie at Country Club Drinks Contents of Sphere—Stomach Pump Saves Him.

Wilmington, Del.—Rodney Warren, a caddie, who heard players at the Wilmington Country club discussing "highballs," gained the idea that the drink was connected in some way with the golf ball. He cut open one of the balls and found it filled with a liquid, which he drank. A stomach pump saved his life. The physician found the liquid in the ball was highly impregnated with arsenic.

MARGARET FOLEY HEARD ON COMMON

Delivered Eloquent Address in Favor of Equal Suffrage Before Large Audience

Miss Margaret Foley, one of the leading exponents of woman suffrage in Massachusetts spoke for an hour and thirty minutes on the Common last evening, and an audience of more than 500 listened attentively until she finished. Miss Foley pictured the lives of wives and mothers in the mills and factories, in the large industrial centers, where the women are forced to work shoulder to shoulder with their husbands and brothers amid unhealthy surroundings, and for the lowest possible wage.

She argued that in states where equal suffrage is now in vogue that conditions are steadily improving, and she eloquently urged that Massachusetts be not the last state in the union to give women the privilege of the ballot.

The audience was mostly men and frequently during the address when the speaker made a telling point in favor of equal suffrage for her sex there was considerable applause.

Give women a show, she urged. You good men who want good government, good officials and better conditions, give good women a chance to help you. We do not want any of your rights, we simply want justice, and the right to vote.

Miss Foley severely arraigned Governor Foss for his attitude when the 54 hour bill to cover a week's labor for women and children came before him. The governor she declared, said that 56 hours was short enough and approved the bill very reluctantly, and only upon receiving assurance that it would be several years before any other effort would be made to reduce the hours of labor to less than 54. She contrasted his indifference to the welfare of women and children, to his promptness in signing the 48 hour a week bill for men, a bill which in reality meant but 44 hours she said because city and government employees about all get a half holiday. Miss Foley intimated that the peculiar stand taken by the governor on these two bills was not one of fair play but it was politics and nothing else. Women without votes were entitled to no consideration, but the men of course could not be trifled with.

The speaker concluded with a stirring appeal in favor of votes for women, after which two lady assistants and Miss Foley herself passed through the crowd getting cards advocating woman suffrage, signed by the men. Literature was distributed and little "votes for women" buttons were sold for a penny apiece, although many paid a nickel and a dime.

SPECIAL MEETING
MONDAY NIGHT

The board of public works will hold a special session on Monday night to complete plans for the proposed state road construction in North Woburn. The proposition from the city council that the board advertise for bids for laying a water main in Lexington street may also come before the meeting.

TWO DEATHS AT STONEHAM

(By United Press) Philadelphia, June 21—One hundred or more high school girls—members of the Sigma Lambda Fraternity—gathered here today from Washington, D. C., California and Pennsylvania for the opening sessions of the biennial convention. The convention will last four days. There will be a second session tonight at the Walton hotel.

Sunday will be spent in sightseeing. A tea and dance is scheduled for Monday and the meeting will close Tuesday evening with the annual banquet at the Walton. The officers are Miss Helen Durnin, Washington, P.M.E.E.; Miss Ruby Forde, Alameda, Cal., D. K.; Miss Mary Minnick, Washington P.S.G.; Miss Isabelle Calbraith, Philadelphia, P.E.T.D.; Miss Marian Lewis, Philadelphia, L.M.; Miss Agnes Cochran, Philadelphia, B.M.; Philadelphia and West Chester, Pa., and Washington are attending.

CHANGES IN BASEBALL TEAMS

William Scalley to Play with Innitou A. C. and William Doherty with Marathons

Secretary Wall of the July 4th base ball committee has been notified that William Scalley who was claimed by the Innitou A. C. and the Marathons will play with the Innitou A. C. The Marathons did not file a substitute. William Doherty who was claimed by the Pirates and Marathons will play with the Marathons and Moreland has been substituted on the Pirates.

The Innitou A. C. withdrew the names of Walsh, C. O'Doherty and Place, substituting Donahue, Philip Scalley and Farrell. This change must be approved by the committee and Secretary Wall will report at a meeting which will be held before next Wednesday the date on which the Innitou A. C. and the All Woburns are scheduled to play.

A VACANCY IN HIGH SCHOOL STAFF

John F. Martin Leaves at End Of School Year

Mr. John E. Martin, teacher in the commercial department of the local High school severs his connections at the end of this year with the Woburn schools. While engaged this past year at the school he has revolutionized the commercial department, having developed the touch system in the beginners typewriting classes, his painstaking care and his methods of instruction being amply recommended by the showing of the pupils at the end of this year. He has also placed Commercial Law in the present curriculum, this new study and Mr. Martin's method of instruction being enthusiastically taken up by the Seniors who elected it as a part of their course. Mr. Martin has made many friends among the scholars, the school authorities and the teachers during his stay in this city who appreciate his careful and painstaking work and efforts as a member of the school faculty. These friends are sorry to know of his decision to leave Woburn and express their best wishes to him wherever located.

To All Citizens
FOURTH OF JULY
CELEBRATION
1913

Meeting To-night
In Concert Hall

The time is short and we will have to hustle to make our Fourth of July Celebration a grand success.

Come to the meeting to-night, MONDAY, JUNE 23, in Concert Hall, Savings Bank Building, Pleasant St., at 8 o'clock.

Talk the celebration up. Bring a friend with you.

Contribute to the Celebration Fund. Send checks or money to

CHARLES C. CLARKE, Chairman, 46 Mishawum Road;
LEON L. DORR, Secretary, (Copeland & Bowser's store);
GEORGE W. LOW, Treasurer, 65 High street;
JAMES D. HAGGERTY, Daily Times Office.

Committee Reports Wanted

THE CHAIRMEN OF COMMITTEES ARE REQUESTED
TO MAKE A REPORT ON PROGRESS, COVERING NECESS-
ARY EXPENSES, THIS EVENING, AT THE FINANCE COM-

BROWN-SWEENEY

Reception Following the Ceremony was Largely Attended

At the St. Joseph's parish house yesterday at 5 p. m. by Rev. P. T. Higgins pastor of St. Joseph's church, Montvale, Miss Helen Marie Sweeney daughter of Mr. and Mrs. Daniel J. Sweeney of 340 Washington street was united in marriage with Everett Wilson Brown, son of Mr. and Mrs. George Brown of North Reading.

The bride was attended by a cousin Miss Margaret Meagher of Worcester. William Henry Sweeney, a brother of the bride, was best man. The bride was gowned in white chiffon over white silk, trimmed with lace, and carried a shower bouquet of white sweet peas. The bridesmaid's dress was of blue charmeuse. She wore a picture hat, and carried pink sweet peas.

From 6 to 9 a reception was held at the bride's home, nearly 100 guests attending. The party included friends and relatives from Dedham, Winchester, Brookline, Woburn, Reading, North Reading, Peabody, and Lynn. Ushers were Daniel J. Sweeney Jr., Charles Sweeney, Luther Brown and Herman Brown. The house was decorated with cut flowers.

After a trip to The Weirs, N. H., the young couple will live at 46 Green street, Reading. The bride is a member of the Criterion club, and for a long time has served as bookkeeper at the factory of Arthur H. Linscott, North Woburn. She has a wide circle of friends. The groom is one of the most popular conductors in the service of the Bay State Street railway company.

It is safe to say that never in the church's history has such a day been seen before. As the congregation withdrew, expressions of congratulation and amazement were heard on all sides.

The committee, consisting of George F. Bean, chairman; Herbert C. Huntress, Edward H. Cummings, constituting the parish committee, and Messrs William Beggs, James Skinner, Everett P. Fox and the Pastor have already got

plans well underway and operations

will begin early in July which will

require nearly three months for

completion.

EPWORTH LEAGUE MEETING TONIGHT

The East Middlesex Circuit of the Epworth league will meet at the Methodist church, this evening. Following the supper, served at 6:30, there will be a social hour including a short entertainment by local talent. About eight o'clock there will be a short business session with reports by the president of each chapter. This will be followed by an address by the Rev. Mr. Wright of Melrose, who is a very inspiring speaker. All are urged to come and hear him.

—o—o—

ENGAGEMENT ANNOUNCED

The engagement has been announced in Providence of Miss Gwendolen Blodgett, daughter of the late Judge John Taggard Blodgett of that city, and Mr. F. Donald Carpenter of Middletown, Conn.

Miss Blodgett is the niece of ex-Mayor William E. Blodgett and Mrs. George F. Bean, and is well known in this city.

—o—o—

CLASS INITIATION THIS EVENING

Perseverance Lodge, New England Order of Protection will initiate a large number of candidates this evening in Post 161 G.A.R. hall. The degree work will be exemplified by Grand Guide Edwards, assisted by Past Wardens Irene V. Wilkins, Mary Gordon, Agnes M. Allyn, W. E. Hannon and Frank H. White.

—o—o—

FOURTH OF JULY COMMITTEE TO MEET

There is to be an important meeting of the several committees on Fourth of July celebration in the Savings Bank building, this evening and all chairmen of committees, both from the Board of Trade and the City council are requested to be present and report.

—o—o—

A special meeting of the Ward Four committee of the St. Charles Field Day will be held this evening.

FUNDS RAISED FOR CHURCH REPAIRS

Over \$10,000 Already Subscribed
by Members of the First
Church

At the First church yesterday, the morning service was devoted to the matter of the proposed renovation of the auditorium. Dr. Norton preached a short sermon leading up to the subject and then called to the front, members of the Parish committee and others who distributed pledge cards while the speaker uncovered a black board on which in chalk appeared 100 squares each representing \$100. When he had outlined the purpose and plans of the committee and explained that the parish had unanimously voted to have the work prosecuted he began to cross off the squares which represented contributions already received and kept this up till much more than half the desired \$10,000 was shown to have been raised.

Then judges from the congregation were called for and quickly began to rain in, first in hundreds, then fifties, and gradually down to dollars and fractions; the widow's mite of 25 cents was not missing. To the astonishment of the people present the \$10,000 figure was in less than half an hour reached and passed, and at the close of the service it was announced that over \$10,400 had been pledged.

It is safe to say that never in the church's history has such a day been seen before. As the congregation withdrew, expressions of congratulation and amazement were heard on all sides.

The committee, consisting of George F. Bean, chairman; Herbert C. Huntress, Edward H. Cummings, constituting the parish committee, and Messrs William Beggs, James Skinner, Everett P. Fox and the Pastor have already got

plans well underway and operations

will begin early in July which will

require nearly three months for

completion.

C. E. UNION PICNIC AT CARLISLE

The fourth annual picnic of the Middlesex Central Christian Endeavor Union at Carlisle Saturday was a grand success. Endeavorers were present from Medford, Arlington, Bedford, Carlisle, and Woburn, fourteen going from this city. There were sports of all kinds for both boys and girls. Miss Mabel P. Williams of this city won the girls' fifty-yard dash, and Arthur A. Carter of this city won the hundred yard dash for boys. One of the most interesting and exciting features of the afternoon was a six-inning ball game between the Never Sweats and the C. E. Invincibles, the former team winning, 18 to 15. Harry Fellows of this city played short stop for the winning team, and Lester Hartshorn and Henry Preston played in the outfield. Arthur Carter of this city caught for the losing team and Samuel Woods also from this city played second base. At six o'clock a fine supper was served by the Carlisle society, about seventy-five being at the tables. After supper a few old games were played and at 8:30 o'clock the party left for Bedford, some walking and others riding in barges. The four-mile drive was most enjoyable. The Woburn people arrived in this city late and tired, but nevertheless happy and with a desire to go to Carlisle next year.

ST. CHARLES ALUMNAE HOLD BANQUET TONIGHT

The St. Charles Parochial school hall will be the scene of a pretty occasion this evening when the St. Charles Alumnae will hold its annual banquet. The affair signifies the closing of the school year and special exercises are planned to bring it to an auspicious and happy ending.

The 1913 class of the school will be admitted to the Alumnae association, and will be the guests of honor for the evening. The other guests will be the Rev. Fathers James J. Keegan, Walter A. Fegan and Francis G. Russell. The evening will be devoted wholly to pleasure, the program containing addresses by Father Keegan and Miss Alice O'Brien, the president of the society. Musical selections will also be rendered. The toastmistress at the banquet will be Mrs. Elizabeth McGinnis.

IN HYSLER'S CHAIR

Gotham's "Millionaire Barber" Shaved Many Notables.

Presidents Grant, Arthur, McKinley, Roosevelt, Taft and Wilson Were Patrons of Famed Tonsorial Artist to Many Rich Men.

New York.—To have shaved six presidents of the United States is no mean distinction. Such is the record of Joseph Hysler, who recently celebrated his fifty-ninth year as a tonsorial artist. Starting at Ninth street and Broadway he followed the course of business up to the Windsor hotel, where he stayed until its fatal fire there. For the last fifteen years he has been the proprietor of a large barber shop in one of the big uptown hotels.

Mr. Hysler is averse to discussing his patrons, but when I called on him writes Marie E. Clemens, he happened to be in a reminiscent mood. I asked him to tell me about the prominent persons he had met.

"Well," said Mr. Hysler, "I have shaved six presidents—Grant, Arthur, McKinley, Roosevelt, Taft and Wilson."

"Mr. McKinley came in often and was always most dignified and charming. One day while he was staying at the hotel after he had been elected he sent for me and told me he just wished to extend greetings and ask how I was. Then we had quite a chat. I saw him many times after that."

"Mr. Arthur and Gen. Grant were always pleasant and would chat with freedom about all topics. Gen. Grant, of course, came mostly for hair cuts rather than for shaves."

"Col. Roosevelt, when he called, came in briskly, wearing that broad, genial smile of his, and after a warm handshake he would settle in the chair and keep up a lively conversation."

"President Taft was a very frequent customer. His wholesome geniality was reflected in every action, and often he laughed heartily."

"Woodrow Wilson also always was very cordial. While reserved and quiet in manner, and not easily drawn into conversation, yet he expressed himself on the topics of the day."

Mr. Hysler's prominent patrons have been very numerous, including such notables as Chief Justice Edward White, Vice-Presidents Fairbanks and Sherman, Gov. Johnson, who was the vice-presidential candidate on the bull moose ticket; William Jennings Bryan, Alton B. Parker, Martin A. Knapp, formerly of the interstate commerce commission; William C. Whitney, Jay Gould and his sons, William H. Vanderbilt and sons, Cornelius Vanderbilt and sons, John D. and William Rockefeller, Percy Rockefeller, Andrew Carnegie, Judge Abram Lawrence, Mayor Gaynor, Rhinelander Waldo, District Attorney Whitman, John Archbold, Henry M. Hyde, H. H. Rogers, E. Berry Wall, Seth Low, William A. Clark, Frank Munsey, George W. Perkins, J. P. Morgan, George B. Cortelyou, Postmaster-General Hitchcock, Govs. Odell, Higgins, Flower, Hill, Dix and Sulzer, Mark Twain, John Kendrick Bangs, Charles M. Schwab, George Westinghouse, Charles A. Hilles, Manton Marble, Oscar Straus, Whitelaw Reid, Admirals Higginson, Osterhaus and Speyer, Bishops McFall of Trenton, Burgess of Long Island, Doane of Albany and Courtney, Greer and Burch of New York.

In a single day and often at the same time there are men in his chairs whose fortunes would aggregate considerably over billion. On one occasion John D. Rockefeller, John Jacob Astor, William A. Clark, H. H. Rogers, George Gould and Charles Schwab occupied chairs in his shop at the same time.

The day that I called there came into the shop Chief Justice Edward D. White, Martin A. Knapp, Joseph H. Choate, George W. Perkins, Abram Lawrence and H. J. Heinz.

Among others on his list of patrons are Judges Platzek, Davis, Swan, Rosalsky, Gildersleeve and Blanchard, Senator Beveridge, Gov. Foss of Massachusetts, Gov. Fletcher of Vermont, Ogden Reid, Stewart L. Woodford, Howard Burden, William R. Wilcox, Nicholas Murray Butler, Chancellor McCracken, Senator Gore, Paul Cravath, Oakleigh Thorne, Charles Armour, William H. Newman, A. S. Frissell and Porfirio Diaz, deposed president of Mexico.

HUSBAND SLAPS HER FATHER

Divorce Case in Which No Part is Taken by the Much Abused Mother-in-Law.

Marinette, Wis.—Mothers-in-law, not infrequently get entangled in domestic infelicities, but as a rule fathers-in-law are peaceful citizens and their names are not often found in court records of family wrecks. In a divorce granted here by Judge W. B. Quinlan, however, the father-in-law is one of the causes of trouble.

Mrs. Lucy T. Rudolph, now in Marinette, but formerly of Woodruff, Wis., was granted a decree from Carl Rudolph. She alleged, among other things, that her husband once slapped her father in her presence.

Rudolph, who contested the divorce action, admitted in his answer to the complaint that he took a slap at his father-in-law, but he did not think it jarred the elderly gentleman as much as his wife's divorce complaint made it appear.

PUBLIC MEN ARE HONEST

Speaker Clark Tells Women's Democratic League Everything in Politics Is Not Corrupt.

Washington.—"If you are going to have anything to do with politics don't let the pessimists lead you to believe that everybody and everything connected with American politics is corrupt. There is not a single particle of truth in it." This was the advice given by Speaker Champ Clark to the Woman's National Democratic League here at a meeting held to celebrate the league's first anniversary.

"I know the 434 other representatives in congress like a book," declared the speaker. "I don't believe that there is a single man in the house whose vote can be changed or influenced by the use of money—not one."

He added that American politics had improved very much in the last 20

years, and attributed it to the fact that the people are taking more interest than ever before. The speaker predicted that if the Democratic party carried out its promises made at the Baltimore convention it would have another lease of power.

Mrs. William Cullop, wife of the representative from Indiana, presided at the meeting. All of the speakers, who included Senator Vardaman of Mississippi, congratulated the league on the work it had accomplished. Many prominent figures in official circles were present.

FOXES VALUED AT \$15,000

Maine Hunters Capture Mother and Fine Young Ones With Rich Black Pelts.

Hancock, Me.—Six black foxes, worth \$15,000 or more, were captured by Calvin Graves of Hancock and his two sons, Thomas and Arthur, near McFarland's Hill.

The capture is one of the richest ever made in Maine and breaks the record for recent years. The foxes will probably be marketed in Prince Edward's Island, where the black fox industry is centered in this part of the world.

Calvin Graves and his sons ran into the nest near McFarland's Hill entirely by accident and surprised the mother and her five progeny, three of whom are females and two males, and were successful in bagging the whole of them. News of the discovery was soon flashed over all the small community and created a great sensation.

The fur of the mother fox was in fairly good condition and, of course, the others are in excellent shape. The young foxes are, it is estimated, about two months old and are the size of a half-grown cat.

They are now safely caged at the Graves home in Hancock, and they are jealously guarded, for it is not often that a Maine hunter bags several thousand dollars in one day.

GEM PACKAGE IS OVERLOOKED

Diamonds Valued at \$3,000 Lost from Express Wagon Finally Found by Driver.

Baker, Ore.—While \$3,000 worth of diamonds lay in the middle of Center Street Express Messenger Russell Browning passed the busiest half hour of his life. When he was not wiping the sweat from his brow he was searching the pavement.

The diamonds were in a package consigned to a local jeweler from a Chicago firm. Instead of placing them in his chest with the other sealed packages, Browning threw them carelessly in the bottom of the wagon.

When he stopped to deliver the package at its destination it was missing. Cold beads of sweat stood out upon his brow when he thought of the loss.

BABY BEGARS HER FATHER

Savings of Steel Worker Thrown from Train Window Leaving Family Stranded.

New Castle, Pa.—According to word received here from Fernando Russo, a steel worker now at Harrisburg, Pa., his savings were thrown from a train near Philadelphia by his baby, Jose Russo, and his family are stranded Russo, his wife, and children, were returning from New York, where they went to meet a relative, when the savings of several months were thrown away. The parent gave his baby his pocketbook to play with, and Jose tossed it out of a window. The family traveled from Philadelphia to Harrisburg on a freight train.

NOVEL LAW POINTS

TALENT DEMOCRATIC

Prosecutor's Contract Declared Against Public Policy.

Woman Was Enjoined—Verdict of Lone Star State Judge Who Travelled on a Railroad Pass Satisfied His Conscience.

Chicago.—In a case before the supreme court of Michigan involving the division of the profits of a law partnership, it appeared that the plaintiff was an attorney with an established practice while the defendant was a young lawyer with no experience. Under an agreement by the partners, when the plaintiff was prosecuting attorney he promised not to run for office again, but to assist the defendant to be elected. After defendant was elected it was agreed that the salary of the defendant as prosecuting attorney should be divided between the lawyers. The court holds that such a partnership contract is against public policy, because it is in effect an assignment of the earned emoluments of a public office, and is void and unenforceable.

In support of a recent application in the supreme court in Brooklyn by a wife for an injunction against another woman to restrain her from alienating the affections of the plaintiff's husband a decision of the Texas court of appeals was cited. This case arose out of a writ of habeas corpus sued out by a man sent to jail for contempt of court for violating an injunction prohibiting him from associating with the plaintiff's wife. The court upheld the injunction and said: "The suit was brought for damages on an alleged partial alienation of the affections of the plaintiff's wife, and it was averred that on account of the past conduct of the defendant in that suit plaintiff was apprehensive and had just grounds to fear that by the continuance thereof the wife's affections would be entirely alienated. There would consequently be a breach and destruction of the matrimonial contract existing between the parties by which plaintiff would entirely lose the affections and services of his said wife. These, it must be conceded, were of peculiar value to the plaintiff; and it would seem that he would have a right to invoke the restraining power of a court of equity to prevent the utter annihilation of his wife's affections and the utter destruction of the marital agreement." The court held that the injunction did not violate unlawfully the defendant's right as a citizen or unlawfully interfere with his freedom of speech.

A judgment rendered by a Texas justice of the peace, as reported by Law Notes, is in part as follows: "In the first place I am going to rule right as I see it regardless of the fact that the plaintiff Johnson is a friend of mine, and the railroad company has in the past issued me a pass and that I hope to again ride on their road free. There are two things evident from the evidence. There is a lie out somewhere, and a number of turkeys were killed on the G. H. & S. A. Railroad company's right of way. The truth seen by the witnesses Ayers and Scott must have been large ones, or the chicken hens seen by the witness Johnson must have been small ones. But, that is as it may, the number of turkeys killed were about 50, and they were not fully grown. Again, both parties were negligent—that is a fact. The company for allowing grass to grow on its right of way, and the plaintiff for allowing his turkeys to run upon the railway property, although there is no law against turkeys running loose. Now, if both the company and Mr. Johnson were at fault I do not see how either could object to paying for his mistake. Therefore, the railroad will pay Mr. Johnson for killing his turkeys the sum of \$15, and Mr. Johnson will pay the costs of the suit. In rendering this judgment I have no apologies to make and my conscience is clear, as I believe I have done right. If I have made a mistake I have done so unconsciously, but after weighing all the evidence I feel that I am for once right. Do you? J. Littleton Tally, J. P. Pre. No. 1, Goliad county, Texas."

DEAD COMRADES CALL HIM

Paterson Police Find Aged Veteran Asleep in Cemetery—Fought in Civil War.

Paterson, N. J.—After having tramped from Middletown, N. Y., a distance of 40 miles, Samuel Wilson, a Civil war veteran, visited the graves of his comrades in arms in the Cedar Lawn cemetery. Finally he became weary and lay down to sleep just at the entrance to the cemetery.

The officers found the veteran asleep. He was brought to headquarters, where, after relating his story, he received lodgings for the night. He said he was born in Jersey City 74 years ago, and had served throughout the Civil war with the First New Jersey cavalry, under the command of Capt. Charles Winton. He had fought in the battles of Fredericksburg, the Wilderness and Gettysburg.

PINEAPPLE WOUND IS FATAL

Woman's Thumb Scratched as She Cleans Fruit and Her Death Soon Follows.

Paterson, N. J.—After having tramped from Middletown, N. Y., a distance of 40 miles, Samuel Wilson, a Civil war veteran, visited the graves of his comrades in arms in the Cedar Lawn cemetery. Finally he became weary and lay down to sleep just at the entrance to the cemetery.

The officers found the veteran asleep. He was brought to headquarters, where, after relating his story, he received lodgings for the night. He said he was born in Jersey City 74 years ago, and had served throughout the Civil war with the First New Jersey cavalry, under the command of Capt. Charles Winton. He had fought in the battles of Fredericksburg, the Wilderness and Gettysburg.

Poor Town for Lawyer.

Penn Yan, N. Y.—This is no town for a lawyer. There is not a single civil or criminal case in Yates county undisputed, and there will be no cases to be tried before the county court this month. Yates county has a population of 108,700.

Baby Falls Three Stories; Unhurt.

Passaic, N. J.—A window screen served as a parachute when Harry Purges, aged two, fell against it and tumbled from the third story of his home. He was uninjured.

PIRATES WIN IN JULY FOURTH SERIES

The new and fast aggregation of local players called the "Pirates" have commanded a place of respect in the eyes of the baseball fans by the showing which they made last Saturday afternoon when they took the North Woburn team into camp by the Big league score of 2 to 1. The game was full of interest and proved a winning attraction for the crowd which attended.

Dave Wilcox contributed the Feature catch to the game with a difficult run and clever put out. The score:—

ST. JOHN'S DAY AT TRINITY

Mt. Horeb Lodge A. F. and A. M.
Attended Church Yesterday

Yesterday evening St. John's day was observed by Mt. Horeb Lodge A. F. and A. M. at Trinity church. Forty-five members of the lodge assembled at the lodge room and marched to the church. A special musical program was rendered under Byron W. Grimes, choir director and organist. The sermon was preached by the rector Rev. Roy Winchell Magoun.

At the close of the service the Masonic body marched back to the lodge room in Bank block where refreshments were served.

—O—O—

Last evening the members of Mount Horeb lodge were the guests at the special services held in the Trinity church in honor of St. John's Day.

The Golden Rule class of the Baptist Sunday school, will enjoy an auto trip to Revere beach this evening. Mr. M. A. Burnes taking the party down in his two auto trucks.

FACTS and FOLKS

Tomorrow evening Division 5, Ladies Auxiliary A.O.H. will hold a whist party in the association hall.

The annual picnic of the Baptist Sunday school is to be held at Millikan's grove, Wilmington, Wednesday afternoon.

The Loyal Order of Moose, Woburn Lodge 1214, will hold a whist party and dance this evening in Mechanics hall.

Les Douze, a club composed of local young ladies, will spend a fortnight in their cottage at Onset Bay, commencing July 14.

Representative Henry L. Andrews, has announced his candidacy for re-election to the legislature at the state election next fall.

The graduation exercises of the Class of 1913 will be held Wednesday evening with Professor Zueblin as the speaker. Miss Gladys E. Richardson will give the valedictory and Miss Jennie B. Buck will deliver the salutatory. Sixty-seven graduates will receive their diplomas.

**WOBURN HIGH TEAM
BEATEN TO A FRAZZLE**
Saturday's Game at Stoneham
With Woburn Wound up
Season

The efforts of the picked-up team representing the Woburn high school which journeyed to Stoneham Saturday afternoon to play baseball were bona fide and of its best capabilities but when the fiasco was ended a suitable title for the game would remind one of the great poem written by the immortal Shakespeare,—namely, A Comedy of Errors. The facility with which they crept into the box score was marvelous. In defence of the players, let it be known that the most of them had not played ball for many, many moons. It was school spirit which prompted the boys to take the inevitable beating which they knew awaited them at the hands of the veterans of the Shoe town high school team. The regulars of the local team were largely mixed up in the Fourth of July Series, being played here on Library park. They refused to play and so it was up to the other boys of the school to try and make good in face of certain defeat. If the Woburn High school had backed out at the last moment and cancelled the game, it would have been at the opening of the leagues next spring, on the grounds that it had not kept to the honor of its schedule.

So after a short practice, the game commenced. Perhaps it would be better to say as little as possible concerning that, but for the summary, here goes.

Woburn opened at the bat and quickly disappeared, via a double play and a fly. Thereupon, Stoneham in this session connected with 4 runs.

The second inning, they let Woburn off lightly, taking but 2 runs. Then up to the eighth inning, the game tightened and the only run made in that time was scored in the fourth.

In the ninth, Stoneham opened up with its heavy artillery and shot over 4 more runs before the agony was ended. It was with a heave of great relief that the fellows gathered themselves together and travelled home to connect with some beans and brown bread.

One good thing can be said about the game and that is, not a sign of hard feeling was expressed during the game and it was with the best of good nature that the session ended.

McKinnon pulled off a star play in the fifth inning nailing a hot grounder at his shoe tops after a hard run and as pretty a pickup as one could wish. The score:

	Stoneham H. S.	Woburn H. S.
Conway, lf	1 1 0 0	0

Attendance, 600.

NO U. S. TROOPS ON JULY FOURTH

The War Department Gives its
Soldiers a Holiday

The following letter, from Congressman John Jacob Rogers, addressed to Hon. Henry L. Andrews, referring to the request for U. S. troops for the Fourth of July parade and celebration in this city, is self-explanatory:

Dear Mr. Andrews:

I have taken up with the proper authorities the subject matter of your letter of the 14th inst. asking that troops be assigned the City of Woburn in connection with the Fourth of July parade.

In regard to the marines and sailors, to which your letter referred, we took up the matter first with Commander Blakeley of the Bureau of Navigation. He told us that the policy of the Taft Administration was that the Fourth of July was properly a day of recreation for the men when sports and games of all kinds were always organized; that therefore the men

are never disturbed with outside matters on that day. Desiring to get at the root of the matter, we then took the question up with Hon. Franklin D. Roosevelt, who was then Acting Secretary of the Navy, and who is a Harvard classmate and personal friend of my own. I have just received, via Washington, the following reply from Mr. Roosevelt:

Referring to your personal call of today, regarding the desired detail of a company of enlisted men

to take part in the Fourth of July exercises to be held at Woburn, Mass.

The Department has made it a

definite policy to disapprove similar requests in order, as you may

readily understand, that the men

may have the holiday to themselves

Participation in celebrations on

this day would deprive them of the

opportunity to have their own sport

to take extended shore leave, and

to receive their friends and relatives who take this occasion to pay them a visit. It is regretted, therefore, that the Department is compelled to disapprove this request,

but I am sure the committee in

charge of the celebration will appreciate that it is but fair to the

men to allow them to have their own holiday."

In regard to the Coast Artillery, to which your letter also referred

we took up the matter with the

Chief of the Coast Artillery corps.

He advises us that full authority

in this matter rests with Major-

General Thomas H. Barry, com-

manding the department of the

East, stationed at Governor's is-

land, New York City. The two

Winthrop companies have already

we understand, been ordered to

take part in the Fourth of July

parade at Winthrop. There are

other companies of the Coast ar-

tillery corps, however, located on

the various islands in Boston Har-

bor and it might be possible to

secure some of these troops, pro-

vided General Barry's consent

could be obtained. The depart-

ment, however, has no appropri-

ation available for travelling ex-

penses in connection with a case

of this kind and so any such detail

of troops would involve the pay-

ment by the Woburn committee

of all transportation expenses to

and from the particular station of

the marching troops.

I did not think it wise to take up

this matter with General Barry

until I receive some information

from you as to whether the com-

mittee in charge of the celebration

would conclude that it was wise

with these facts in mind. If you

care to have me proceed with

General Barry I shall be glad to do so.

Hoping that I have made the

situation clear, I remain,

Faithfully yours,

John Jacob Rogers.

ORDER OF MOOSE HOLD DANCING PARTY

The Woburn Loyal Order of Moose, Lodge No. 1214 held a very successful whist and dancing party last evening in Mechanics hall. A large number of tables in whist were in play and also a good number attended the dance. The committee in charge of the affair comprised Arthur Nichols, David Murphy, William Queenan and Everett Dobbins.

Local Methodist Church Host to Gathering

Entertained the East Middle-
sex District Convention of
Epworth Leagues Last
Evening

The Epworth League Chapter of the local Methodist church entertained the East District Middlesex league last evening and responded royally to the duties which it assumed. The session was held in the church vestry from 6:30 to 10 p.m. and a large number attended. The local league has been noted for years past for its excellent methods of entertaining, and last night was no exception to the rule. The committee in charge had worked hard and spared no pains to make the services a success in every respect.

The officers present were: S. W. John M. Wallace, J. W. W. Frederick Davis Jr., Chaplain James A. Brown, Marshal, Horace N. Conn, Treasurer, Edwin K. Porter, Secretary Charles H. Harrington, S. D. John H. Sweetser, J. D. George J. Whithed, S. S. William E. Fresh, J. S. Roger Eaton, I. S. William T. Carswell, Organist F. Pereval Lewis, Tyler Frank G. Richardson.

The presentation was made by S. W. John M. Wallace in which the recipient responded in his usual happy manner. Refreshments were served after which a pleasant social hour ensued.

DR. BUSS GIVEN PLEASANT SURPRISE

Last evening the officers of Mt. Horeb lodge called on Wor. Brother Dr. Charles H. Buss on Davis street, and presented him with an easy chair. It was a complete surprise and duly appreciated by the recipient.

The officers present were: S. W. John M. Wallace, J. W. W. Frederick Davis Jr., Chaplain James A. Brown, Marshal, Horace N. Conn, Treasurer, Edwin K. Porter, Secretary Charles H. Harrington, S. D. John H. Sweetser, J. D. George J. Whithed, S. S. William E. Fresh, J. S. Roger Eaton, I. S. William T. Carswell, Organist F. Pereval Lewis, Tyler Frank G. Richardson.

The presentation was made by S. W. John M. Wallace in which the recipient responded in his usual happy manner. Refreshments were served after which a pleasant social hour ensued.

W. H. S. CLASS OF '13 GRADUATION EXERCISES

The graduation exercises of the Class of 1913, Woburn High school will be held tomorrow evening in Lyceum hall at 8 p.m. Sixty-seven graduates will receive their diplomas for completing the various courses. Professor Charles Zeublin will give the address of the evening, Miss Jennie B. Buck will deliver the salutatory and Miss Gladys E. Richardson will give the valedictory. Special music will be provided by the school chorus under the direction of Miss Ellen H. Bartlett. The diplomas will be given the pupils by Mayor William H. Henchey. If the weather which has been so favorable for the past few days attends the exercises tomorrow night, the affair should be one of the most successful in the history of the school.

League chapter was the general directress of the occasion.

The Melrose league extended a cordial invitation to all present to attend the October convention to be held in their church.

The convention closed shortly after 10 o'clock and the Epworth league of the Woburn Methodist Episcopal church had fully sustained its former reputation of its social prestige. The society is to be congratulated on its excellent showing.

WANTED

A young man from sixteen to twenty years old to learn the business. Must have a grammar school education at least. Apply to McLAUGHLIN & DENNISON, 417 Main street, Woburn.

VICTIM OF HIGH TENSION VOLTAGE

Ira J. Ross Thrown From Pole on
Which He Was Working Last
Evening

SUSTAINS 4,600 VOLTS

In an accident which might have had fatal results, and which occurred in the yard of the Bailey and Blendinger Belt Knife factory on High street last evening at about 5 o'clock, Ira J. Ross, aged 40 and married, a lineman in the employ of the Edison Electric Illuminating Co. was severely shocked, burned, and injured by the subsequent fall from the pole on which he was working.

A large transformer, which has a capacity of 4600 volts, was being placed in position on a framework in the yard. The transformer was taking the place of an old one, injured by the recent heavy lightning storm. It required a number of men to do the work and Ross was looking after the feed wires at the top of the frame work as directed. It was necessary to cut one of the feed wires. While his clippers were shearing the heavy copper wire, he uttered an agonized cry, preceded by a blinding flash, and the tremendous unseen power threw the unfortunate man a distance of about 25 feet from the pole, over high picket fence and on the concrete sidewalk. His fellow workmen rushed to his aid and found him unconscious. He was thought at first to be dead, for heart action was undistinguishable and the wind had been knocked out of him by the impact with the walk.

Today the work of placing the transformer in position is being carried on under the direction of two experts from the Westinghouse office in Boston.

"SWAT THE FLY"

The fly used to be so commonplace and intimate that his very familiarity bred contempt.

No one ever thought that the ordinary house fly could be dangerous.

Now, doctors and health officers are keenly awake on the fly subject. They have put the fly under suspicion.

"Swat the fly" is the slogan of the Health Department of every city.

As vehicle, the fly's carrying capacity is six million passengers—deadly passengers—germs of diphtheria, germs of typhoid, germs of dysentery—injurious germs of every description.

Think of a single fly being able to carry six million enemies of health.

Wherever a fly walks it leaves a trail of these germs and wherever it flies it leaves a trail through the air.

The tracks of a fly across a fresh cut piece of meat show many putrefactive germs left behind to thrive and multiply.

Flies were once considered scavengers. School boys were told not to kill them. Yet it is because they are scavengers that they are dangerous.

The innocent fly that walks across your plate comes from heaven knows where. But you can depend upon it that its birth place was unspeakably dirty, for baby flies are maggots and they are born only in putrescent matter.

Clean your home—clean every window and door and if you have a stable, screen the manure pile because it is here that most flies are born.

Then kill the other flies now existing. Remember it takes eggs eight days to hatch.

GOLDEN RULE CLASS BEACH PARTY

The Golden Rule class of the First Baptist church formed a very jolly party last evening and made the trip to Revere beach in several autos and in M. A. Burnes large auto truck. The affair was under the direction of Mrs. Frank B. Gray, the president of the class. About thirty-five enjoyed the evening's pleasure. After a shore dinner at Sleeper's restaurant, the party broke up into its composite parts and enjoyed the various amusements offered by the attractions of the beach. The auto truck was under the charge of Charles Neville and William Hammond took several along in his auto. Among those present were: Mr. and Mrs. Frank B. Gray, Mr. and Mrs. M. A. Burnes, Mr. and Mrs. William H. Lewis, Mr. and Mrs. William Allen, Mr. and Mrs. James White, Mr. and Mrs. George Gordon, Mr. and Mrs. Holmes, Mr. and Mrs. Davis, Mr. and Mrs. Walter Hamilton, Mr. and Mrs. Perley McKeon, Mr. and Mrs. Brown, Misses Mary Dorr, Bessie Barrett, Marion Lord, Eva Ward, Mabel Smith, Mary Phillips, Emma MacLean, Alice Lynne, Messrs Francis Partridge and Charles Neville, Mr. and Mrs. William H. Hammond.

A special meeting of the board of public works will be held this evening to discuss the construction of a road in North Woburn. The meeting was to be held last evening, but was postponed because of the inability of Commissioner Wallace to attend.

A RECORD OF TRANSPORTATION

In Ten Years has Carried 755,678,338 Passengers and Had 29 Killed

The New York, New Haven and Hartford railroad has made a careful compilation of the number of trains it has operated in the last ten years, the number of miles these trains have covered, the total number of passengers carried by these trains and the number of train accidents in which passengers were killed. The period taken for purposes of this compilation was from June 30th, 1903, to June 15th, 1913. This is three months longer than the period covered by the incumbency of President Charles S. Mellen, who assumed his duties in October, 1903.

This compilation shows that between June 30th, 1903, and June 15th, 1913, the New Haven road has operated 5,078,750 trains over a distance aggregating 158,531,541 miles and has carried a total of 755,678,338 passengers paying fare. Of the 5,078,750 trains operated in this period just 6 suffered accidents in which persons travelling on them were killed. The number of passengers who lost their lives as a result of these accidents amounts to just 29. This is one passenger killed for every 26,057,873 carried.

The record of accidents here given includes those accidents only in which passengers were killed on board of trains. Reports of "accidents to passengers," such, for example, as those filed with the Interstate commerce commission, are usually not confined to this class, but include those persons killed by being struck by trains or killed while boarding or alighting from trains. The figures given here show that in actual train wrecks caused by collisions or derailments there were killed on the company's lines in those ten years total of 29 passengers.

In the six of the ten years, 1904, 1905, 1906, 1907, 1909, and 1910, not a single passenger lost his life by reason of accident to a train notwithstanding the fact that in those six years a total of 441,426,000 passengers were carried over a total distance of 110,777,639 miles in approximately 3,520,000 trains.

The 755,678,338 passengers carried from June 30th, 1903, to June 15th, 1913, is practically eight and one quarter times the population of the United States. These figures show, in other words, that eight and a quarter times the population of this country have in these years been carried a distance equivalent to 6,341 times around the globe with a loss of life through accidents to the trains they were on but 29. The territory covered by the New Haven is such that its passenger traffic is the densest of any railroad in the country with the exception of a few minor lines, thus greatly increasing of course the problem of operation.

Of the 29 passengers killed in accidents to trains in the ten years covered by this compilation all but one have been killed in the last three years. This is the period in which the New Haven road has suffered most severely from the attacks of Louis D. Brandeis and his coterie in an effort to get control of the road. The effort of these attacks, according to the sworn testimony of General Manager Clinton L. Bardo before the Interstate commerce commission, has been to impair the morale of the road's operating force.

In a determined effort to emphasize the necessity for improving this morale and for observing and improving the smaller details as well as the larger essentials of safety and efficiency Vice-President Adelbert R. Whaley and General Manager Clinton L. Bardo of the New York, New Haven & Hartford Railroad company are addressing meetings of engineers, conductors and trainmen at which they state that while they appre-

ciate that ninety per cent of the men are careful and dependable the management must insist that the other ten per cent be equally dependable.

The following table shows the number of passengers carried each year, the number of train accidents in which passengers lost their lives and the number of passengers killed:

years	pas car	pas all trac
1903 (Last six months)	34,090,448	0 0
1904	63,234,687	0 0
1905	66,507,138	0 0
1906	72,521,069	0 0
1907	75,453,778	0 0
1908	74,382,023	1 1
1909	79,849,297	0 0
1910	83,860,031	0 0
1911	83,768,348	2 12
1912	85,350,409	2 10
(to June 15)	36,661,110	1 6
Total	775,678,338	6 29

These figures indicate the highest order of operating efficiency.

VIRGINIA HAS GOOD COAL YEAR

Produces Nearly 8,000,000 Tons,
According to Figures of Fed-
eral and State Geologi-
cal Surveys

The State of Virginia mined 7,846,638 short tons of coal in 1912 valued at \$7,518,576, an increase of nearly 1,000,000 tons over the production for 1911, according to figures compiled by E. W. Parker of the United States Geological Survey, in cooperation with the Virginia Geological Survey.

The coal areas of Virginia which have produced or are producing coal belong to the Atlantic coast region, which includes the Richmond Basin and the Appalachian region, which includes a number of separate areas extending across the western part of the State. The Richmond Basin is the only area of free-burning coal located immediately adjacent to the Atlantic seaboard. The first coal mined in the United States was from this area, mines having been opened and worked as early as 1750.

Virginia recorded a notable increase in coal production in 1912, with a total output of 7,846,638 short tons for the year, valued at \$7,518,578, gain over 1911 of 981,971 tons in quantity and \$1,263,772 in value. Over 75 per cent of the total increase was made in Wise County, in the Appalachian field, whose production in 1912 amounted to 4,500,174, short tons, against 3,754,360 tons in 1911, a gain of 745,814 tons, or nearly 20 per cent.

In the Geological Survey's coal report for 1911 mention was made of the unfavorable comparison Virginia makes with the other States of the Appalachian province in the quantity and percentage of coal shot off the solid, and this was accentuated by the record made in 1912, when out of a total of 7,846,638 short tons, 3,741,533 tons, or 47.7 per cent, was "mined" by the powder. In 1911 the proportion so mined was 35.6 per cent. There was, however, an increase in 1912 in the quantity and percentage of coal mined by machines. The number of machines reported in the use increased from 156 in 1911 to 185 in 1912, and the machine-mined coal increased from 2,551,627 tons, or 27.2 per cent of the total, to 3,205,504 tons, or 40.85 per cent.

As the percentage of coal shot off the solid in Virginia is high so is the death rate. In 1912 there were 75 fatal accidents, of which 67 were underground and 8 on the surface. Half of the deaths, or 33, inside the mines were due to falls of roof, 10 to explosions or burns of gas, 10 to premature blasts or similar accidents, and 9 to mine cars and locomotives.

VETERANS WELCOME AT GETTYSBURG

What the Nation is to Do For the Blue and the Gray

(By United Press)

Gettysburg, Pa., June 24—With the opening here Thursday of the annual encampment of the Pennsylvania G.A.R. will begin the influx of veterans of the civil war for the grand reunion celebrating the 50th anniversary of one of the greatest conflicts of modern times, the decisive battle of Gettysburg. The Pennsylvania veterans will find all arrangements for the gathering complete and every detail perfected both as to the care of the union and confederate veterans and the general public. The celebration of the anniversary of the battle of Gettysburg will begin on July first and end on Independence Day with the address of President Wilson.

For the comfort and entertainment of the 40,000 veterans of both the blue and the gray uniform who are expected to be here, the federal government, individual states, the commonwealth of Pennsylvania in particular; the G.A.R. and the United Confederate Veterans have worked unceasingly for nearly a year and the presence of the old soldiers themselves only remains to make the celebration one of the most unique events in history.

Many of the veterans will use the tents thrown up by the government for the use of the reunion participants. For some distance around the border of the town the fields are covered with numberless large brown canvas tents. Each is provided with cots for five men, ample bed furnishings and contain eating utensils which, after being used at the camp, become the property of the man who uses them. The camps are laid out in regulation army fashion with avenues of large electric lights indicating the streets and state sections. Water mains, sewerage pipes and electric lighting systems today are in operation throughout the tented villages and transportation facilities from the nearby towns thoroughly mapped out and ready. A great tent, seating between 10,000 and 15,000 persons has been erected adjoining the main camp in which all exercises and reunions of the veterans will be held. The Pennsylvania Gettysburg Commission, in charge of the arrangements for the reunion has urged that all veterans, North and South, wear army corps or division badges as a means of identification. The commission has made no recommendation in the matter of wearing of uniforms, but each old soldier, whether "rebel" or "yank" will be welcomed heartily in their old wartime costumes.

In order to avoid as far as possible congestion of the railroads at the stations here in bringing and taking away crowds, the camp will be opened, in complete readiness, on Sunday, the 29th and will continue open until the following Sunday, July 6th. This applies to the veterans only.

The entire state constabulary today is establishing headquarters here to police the crowds, which are expected to run up into the hundreds of thousands. The encampment grounds, inside and out, will be guarded constantly by regular army troops. The camp is located near the famous battleground at the south west edge of the town and adjoining historic Seminary Ridge and the scene of Pickett's charge.

According to the latest plans of the reunion commission, the first day, July 1, will be "Veterans Day," with exercises under the direction of the Pennsylvania commission, the G.A.R. and the United Confederate Veterans. July 2 will be "Military Day," when there will be exercises conducted by the United States Army. On July 3 "Civic Day."

Governor Tener will be in charge and the governors of other states

will participate. On July 4, "National Day" there will be an oration by President Wilson and ceremonies attending the laying of the Peace Memorial cornerstone. The celebration will be terminated with a gorgeous display of fireworks in the evening.

President Endorses Clean Athletics

His Message will be Handled by
775 Boy Scouts

(By United Press)

Washington, June 24—Promptly at noon today, President Wilson handed to a boy clad in the uniform of a Boy Scout a message of encouragement for clean athletics. The boy darted out of the White house and broke into a trot, and the 775 mile relay to Chicago was on.

Exactly 775 boys will handle the President's message. At noon on June 28, unless plans miscarry, the 775th boy will carry the Presidential message into Chicago, deliver it to officials of the great pre-Olympic athletic festival and the games of the International athletic Championships association will start.

Boy messengers will be carrying the missive continuously from today on. They will run by daylight and starlight, the night runs to be made by the older members of the courier band. Parents of some of the boys at first objected to the night relays but officers of the athletic associations along the route volunteered to pace the lads in automobiles and all objections were removed. The route leads from Washington to Frederick, Md.; thence to Pittsburgh, Cleveland, Toledo, South Bend and Chicago. Each boy will run a mile, but care will be exercised to see that no boy overtakes himself. The majority of the runners are Boy Scouts. Others are school boys picked by athletic associations along the route. Each runner will receive an emblem as a souvenir of the run.

—o—o—

FIRST SUNDAY SCHOOL PICNIC NOTICE

The Sunday School picnic of the First Congregational church will be held next Thursday at Milliken's Grove Wilmington. The cars will leave the church at 9:30. The bell will ring at 8:30 o'clock if the day is fair and the weather favorable. There will be two baseball games during the day, one in the morning and one in the afternoon. There will also be hourly events during the day and every one attending is assured a fine day's entertainment and pleasure by the committee who are making the arrangements.

—o—o—

GYMNASTS WELCOMED AT DENVER

(By United Press)

Denver, Colo., June 24—A salute of twelve guns fired from in front of the state house today marked the official welcome of President Theodore Stempel and the other national officers of the North American Gymnastic union. They came to attend the thirty-first Olympiad of the organization which opens tomorrow with turnfests in which thousands of visiting turners from all over America will participate. The preliminary program this morning consisted of calisthenics and flag drills by 8,000 Denver school children at the Lakeside stadium.

—o—o—

Vienna, June 24—The Archduchess Isabella, recently divorced from Prince George of Bavaria, today is a Red Cross sister. She announced today when she entered the order that she has renounced the world of society and gaiety she has known for all time. Disappointment in love and weariness at what she termed "the inordinate and boresome inanity of society" caused her to devote her life to the sick. The Archduchess is very wealthy.

STANDING IN THE PONY CONTEST

Anna Hicks in the Lead with
558 Votes

The boys' and girls' Pony contest arranged for by the four merchants, Gavin & Lydon, W. S. Lindsay, the Central Hardware Company and the Brockton Shoe Store, has started a hustle among the boys and girls, and already the nominations and coupons have begun coming in in a way to indicate that there is to be a spirited certainly worth working for. Hardly had the first papers, containing the nomination blanks come off the press, than one enterprising young hustler, clipped out a nomination blank, brought it in to the manager of the contest, and "got busy" asking every one he knew to save votes for him. Others followed in quick succession and the contest was on in earnest.

Every day brings bundles of votes, and each candidate is anxious to know his own standing as well as that of "the other fellow."

Following is a list of the candidates and their standing up to last Saturday night. The list will be printed every Monday hereafter, and oftener as the contest progresses.

Special prizes and double votes will be offered during the contest and will be duly announced, giving all the candidates an opportunity to win one of these special prizes.

The nomination blank is printed again in today's JOURNAL. Cut it out and get your name entered as a candidate. Remember that nominations close July 31, after which no more can be made. Get busy.

The standing June 23 was as follows:

Anna Hicks, 16 High street, 558; Robert Leslie, No. Warren street 350; Ralph E. Knowlton, 5 Kimball road, 348; Angus Muse, 80 Salem street 315; George Hermanson, 489 Main street, 217; Albert E. Grimes, 580 Main street, 102; Thomas Callahan, 26 Ash street, 100; Albert J. Paine, 10 Salem street, 100; Frances Nolan, 52 Prospect street 100; John Connolly 68 Main street, 100.

—o—o—

WEST VIRGINIA BIG PRODUCER OF POTTERY

West Virginia is rapidly increasing in importance as a pottery-producing State according to the United States Geological Survey, its products of this class being valued at \$3,365,166 in 1912, nearly 10 per cent of the total for the United States. This was an increase of \$484,964 over the figures for 1911. The state now ranks third in the value of pottery produced, being exceeded by Ohio and New Jersey. West Virginia's product of chief value was white ware of which it is the second largest producer in the country. The value of the white ware made in 1912 was \$2,051,987, an increase of \$131,693 over the figures for 1911. This product is made principally in Hancock County, opposite East Liverpool. The contemplated erection of two new plants in this county in the near future will add largely to its productive capacity and increase its importance as a pottery-producing center. Sanitary ware was second in value in West Virginia in 1912, being valued at \$1,156,487, an increase of \$341,879 compared with 1911.

UNDERWOOD SICK

UNITED STATES SECOND LARGEST CONTRIBUTOR

(By United Press)

Washington, June 24—Rep. Oscar Underwood, author of the tariff bill, is sickened of tariff talk. He is side-stepping all persons who wish to "talk shop." He is trying to ease his tariff brain-fag. So anxious is Underwood to avoid thinking or talking about the tariff, that he was literally driven from the White house by a tariff discussion. He told the story today. Underwood had called to discuss an important matter with the President, who had not arrived at the executive offices. While waiting in the office of Secretary Tumulty, Underwood was cornered by another visitor to whom he was introduced. For fifteen minutes Underwood, with his usual bland and patient smile, listened to his new acquaintance's tariff views. Then he fled. He left the White house without seeing the president, putting off his business until a time when he shall escape without being buttonholed by persons desiring to talk tariff.

—o—o—

AMERICANS GRADUATED
AT ROME

(By United Press)

Rome, June 24—The society for the Propagation of the Faith of the Catholic church today issued its official statement of the contributions received during the past year. For the second time in two years, the United States was the second largest contributor, France for the second time holding first place in the amount of contributions. The diocese of New York made the largest contributions of any other diocese in the world, its offering being over \$150,000. The total contributions from the entire world for the year was \$1,600,000.

Among those who received a diploma from Phillips Exeter Academy yesterday was William H. Clewley of this city.

SPECIAL FEATURES IN PARADE

July 4th Celebration

We intend to make this parade the "best ever" in Special Features, Antiques and Horribles. Join the line of march. Get your Club or Society interested. Start to plan early. Win a prize. Come and see us.

CHARLES T. MAHONEY, Chairman,
158 Montvale Avenue.
EDWARD E. FOSS, 141 Montvale Avenue.

Board of Trade Committee on Fourth of July Celebration

The Girls' Aid of the North Congregational church is to have a picnic today. They will have a special car and it is understood they are going to Middlesex Falls.

Mr. Earle True has accepted a position as clerk in the J. M. Joy ice cream parlors.

The young son of Mr. Joseph Brogna who was hurt in the accident at the North Woburn depot is improving as fast as can be expected.

Quite a few of the C. E. members of the North Congregational church went to the C. E. picnic at Carlisle Saturday.

There are several cases of pneumonia in North Woburn. Miss Catherine Croft and Master Warren Allan are two of the sufferers.

The midweek service at the North Congregational church has been postponed until Thursday night this week on account of the High school graduation.

Mr. and Mrs. Samuel Thompson of Elm street have been visiting their daughter, Mrs. Stevens at Sea View. They went last Thursday returning Sunday evening.

It is reported that Samuel W. Mendum will be a candidate for the legislature this fall.

ST. CHARLES ALUMNAE BANQUET

Joyous Reunion of Graduates
in St. Charles Hall Last
Evening

The St. Charles Alumnae association held its annual banquet in St. Charles hall last evening and passed the hours from 8 to 12 in social converse, entertainment feasting and dancing. The president Miss Alice T. O'Brien was in charge of details. The association entertained as guests of honor the graduating class of 1913 together with the resident pastors.

Following a bountiful spread served by Hardy of Arlington, Miss O'Brien the president extended a welcome and introduced as toastmistress, Mrs. Elizabeth McGinnis. Responses were made by Rev. Fr. Keegan, Rev. Fr. Fegan, Rev. Fr. Russell and by Miss Ora Margaret Foley the first honor scholar of the class of '13.

A striking and novel feature of this happy gathering was the presentation of a bright musical playlet entitled "A Japanese Idyl" written for the occasion by a member of the association Miss Agnes T. Carr. The characters were cleverly assumed by Misses Veronica M. Bonin, Sarah A. Quinn, Marion L. Roulo, Mary J. Lynch, Anna I. Flaherty, Anna L. Callahan, Pauline E. Bonin, Mary C. Walsh, Margaret A. McKittrick, Agnes G. Callahan, Agnes C. Doherty, Elizabeth M. Doherty, Agnes M. Murray and Agnes T. Carr. Miss Gertrude A. Lynch was the pianist.

Following the entertainment, the following officers were installed: Miss Anna Parker president, Miss Anna Gorman vice president, Mrs. Elizabeth McGinnis recording secretary, Miss Josephine Walsh, treasurer.

General dancing rounded out the evening, the Knights of the Sacred Heart orchestra furnishing the inspiring strains.

CLASS INITIATION LAST EVENING

Perseverence Lodge, New England order of Protection initiated a large class of candidates last evening in Post 161 A.A.R. hall. The degree work was exemplified by Grand Guide Edwards assisted by Past Warden Irene V. Wilkins, Mary Gordon, Agnes M. Allyn, W. E. Hannon and Frank H. White.

WHIST PARTY THIS EVENING

This evening Division 5, Ladies Auxiliary, A.O.H. will hold a whist party and dance in A.O.H. hall. The committee in charge is headed by Miss Nellie L. Sheehan and the party will be of the same excellent character which distinguishes all of the affairs of the society. The whist party will precede the dance. A number of fine prizes have been secured for the winners at whist.

NOVELTY PARTY MONDAY EVENING

The Ward three committee of the St. Charles Field Day is planning to hold a novelty party in the Parochial School hall on the evening of June 30. Whist will be played and fancy articles will be on sale. Refreshments will also be served free. The proceeds are to go towards the fund of the annual Field day of the St. Charles parish.

The young people of North Woburn will run an auto trip this evening starting at 6:30 from the North Congregational church. They are to have Mr. Hugh Erskine's automobile of Winchester. Miss Margaret Cail, Miss Nellie Foster and Arthur Moore are the Committee in charge.

It is reported that Samuel W. Mendum will be a candidate for the legislature this fall.

MARATHONS TO PLAY PIRATES

Will Meet in Semi Final Fourth
of July Game at Library
Park next Saturday
Afternoon

Arrangements are practically completed for all the games in the July fourth base ball series. The sub committee who have been voted full power by the general committee met last evening in the board of public works rooms, Edward J. Wall, Michael H. Feeney, James H. Kelley and Alderman Benjamin C. Rix being present. The managers of the competing teams were also in the room.

Alderman Rix and Michael H. Feeney were appointed a committee of two to wait on the chief of police and learn if the police department would furnish officers for the remaining games without any charge to the base ball teams.

Chief McDermott assured the committee that he would attend to that feature of the contests. Manager Peterson of the Marathons filed the names of Thomas (Tucker) Doherty, Edward Kennedy and James Long as substitutes for William Doherty, William Scalley and Driscoll. The substitutions were allowed without protest. The Ininitou A. A. filed a revised list of players and the list was accepted without objection. Frank Conlin who a few years ago was putting up a great game at third for Woburn high, will play an infield position with the Ininitou and Joyce and Philip Scalley are other new players whose names appear on the revised list. The Ininitou team now comprises: —William Scalley, Corbett, Toland, Conlin, Doucette, G. Doherty, F. Meagher, John Doherty, Philip Scalley, Joyce, Murphy and Flaherty.

Manager Foster of the Pirates suggested that the drawing for the semi final game be held, as his team if fortunate enough to draw the bye has an opportunity to play out of town. The question then arose on the fairness of allowing the Marathons to draw another bye and get into the final game without playing at least one preliminary game. Managers and members of the committee disagreed and a lengthy discussion ensued. The committee finally decided by a three to one vote that the Marathon team must play in the semi final game, Feeney, Kelley and Wall voting in favor and Alderman Rix against. The committee then drew between the winners of the game tomorrow and the Pirates, to select the team to oppose the Marathons on next Saturday afternoon. The Pirates were drawn and the winner of tomorrow afternoon's game between the All Woburns and the Ininitou A. A. will play in the final game on the morning of July 4th against the winner of the Pirate—Marathon game next Saturday afternoon. The managers discussed the division of the surplus money after the expenses of the series are paid out but apparently unable to come to any agreement. The base ball committee do not care to pass upon this question if they can avoid doing so, and are willing to leave the division of the receipts to the managers of the two teams who will meet in the final contest. If the managers of the committee cannot agree however, it will then be up to the committee to settle the dispute.

SUNDAY SCHOOL PICNIC

The Sunday school of the North Congregational church is planning to hold a picnic and field day within a few weeks. The date has not been set yet but it is expected that it will be the second Saturday in July. Those in charge are general committee, A. J. Moore, chairman, Carroll Yarrigle, Ernest Milner, A. T. Sawyer. Carroll Yarrigle is chairman of the committee on sports.

H. J. PAINE

Headquarters for Ladies' and Gentlemen's Clothes Cleaning, Dyeing, Repairing, Altering and Pressing at lowest possible prices. Telephone 297-M and messenger will call. Clothes delivered promptly when work is done.

Caps made to order and Dress Suits to let.

Woburn's Leading and Busiest
Tailor, 484 Main Street, opp.
Salem street.

DIV. 18 ANNUAL LAWN PARTY

Montvale Hibernians Mak-
ing Preparations for big
Crowd on Fourth of
July Eve

Extensive preparations are being made for the annual lawn party to be held by Division 18, A. O. H. of Montvale at Pavilion park on the evening of July third. Music will be by McCall's orchestra and a big time is assured. The following committees are in charge: General manager Samuel T. Hooper; Floor Marshal, William McDonough; Floor Director, Fred Carpenter; Assistant floor Director, Thomas McGarry; Chief of Aids John Lynch; Aids, Edward Byron, Lawrence P. Byron, Lawrence L. Byron, John Byron, Patrick Casey, Thomas Cogan, James Cogan, William Cogan, Samuel Cullen, Michael Doherty, Patrick Fallon, Peter Foley, Michael Golden, B. J. Golden, Peter Griffin, Thomas Hart, William Kerrigan, Andrew Lux, F. McGarry, Peter McKenna, Dennis McDonald, Patrick Mulrenan, Bernard Quigley, Frank Quenin, Peter Rogers, Martin Hooper, Thomas Sheerin Jr., Joseph Tansey, Thomas O'Donnell.

Gate committee: Patrick Mulrenan, William Cairns, Hugh Savage, Thomas Haley.

Refreshment committee: Bernard Hanley, Lawrence Byron, John Byron, John Mulrenan.

Ground committee: Thomas Sheerin Sr., Patrick Fallon, Bernard Quigley, Peter Rogers, and Patrick Mulrenan.

W. H. S. '13 RECEPTION

The tickets for the W.H.S. Class '13 reception to be held on this Friday evening in Lyceum hall were given out by the printing committee yesterday morning at the class meeting at the high school at 10 o'clock. The committee is as follows: Harry E. Lawson, chairman, Gertrude Doherty, Elwyn Cotton and George Weaver. The reception committee consists of Mary Walsh, Wilford Walker and Lawrence O'Connor.

CO-OPERATIVE BANK PAYING 30TH SERIES

The Woburn co-operative bank is today paying off its 30th series of shares, maturing at \$200.67 each for 141 months, or 3 months less than 12 years. The number of shares maturing are 93 and they are owned by 21 persons. The bank will pay all told \$18,662.31.

Time works quick changes in the growing girl. Pig-tails and short skirts are soon forgotten in the maturer charms of the debutante.

Sometimes though you will ache for a picture of her just as she romped in from school or play.

Think how she would like one too, in the after years—to show her friends and possibly her children. Make the appointment while the thought is fresh in your mind.

Entertained Church Attendance Guild

Rev. and Mrs. Fred M. Estes
the Hosts Yesterday After-
noon

The Church Attendance Guild, a society instituted by Rev. Fred M. Estes of the Methodist Episcopal church of this city met yesterday afternoon for its first outing and garden party on the estate of the pastor on Plympton street. The aim of this social club is to increase the attendance at the morning services of the church by the presence of the children and the younger members of the parish.

Each member is given a card which he or she brings when they attend. This card is punched by a monitor who is in charge of the club. Very satisfactory results have been obtained in this way in increasing the attendance of the children.

Yesterday at the garden party at Mr. Estes' home, quite a number of the children were present and thoroughly enjoyed themselves.

Outdoor games suitable to the occasion were played, after which a dainty collation was served on the lawn in a most attractive manner.

Among those present were Mabel Girard, Lalia Keizer, Ruth Farrell, Lydia Roessler, Frances McMahon, Ruth Dorr, Blanche Fountain, Doris Fountain, Alice Ball, Pearl Sudsbury, Phyllis Smith, Warren Buckler, Ralph Whitney, Allen Smith, Mr. and Mrs. Fred M. Estes and Miss Lillian C. Estes.

AT FOUR SCORE AND SIX YEARS

Mrs. Abby W. Dimock is Sur-
rounded by Children on
Anniversary

Mrs. Abby W. Dimock, who has been a resident of Woburn for upwards of half a century attained the 86th anniversary of her birthday yesterday. The interesting event was informally observed at the home of her daughter Mrs. Fred J. Brown, 37 Arlington road.

A pleasant feature of the day was the presence of Mrs. Dimock's three daughters, Mrs. Brown, Mrs. F. F. Putney of Putney, Ga., and Mrs. H. E. Strout of Brockton. Mrs. Dimock received many loving messages from friends and relatives.

AGED STONEHAM WOMAN DEAD

Miss Philomena Reed Who Died
Yesterday will be Buried
at Taunton

Miss Philomena Reed, sister of the late Mrs. Sarah A. Dean, died last night at the home of Miss Ellen Dean her niece, on Pine street aged 89. She was born at Taunton, daughter of Marshall and Clarissa (Willis) Reed. There will be a prayer service at the Dean home tomorrow at 10 a. m. and funeral services at Oakland cemetery at Taunton at 2.30 p. m.

STATE HIGHWAY WORK DISCUSSED

Former City Engineer F. B. French
Vigorously Opposes cutting
Shade Trees

B. P. W. SPECIAL MEETING

Former General superintendent of the Board of Public Works Frank B. French of North Woburn attended the special public works meeting last night, and vigorously protested against the proposed plan to cut down about a dozen beautiful shade trees between the old car barns and East Nichols street, in order to widen the highway along the route of the extension of the state road in that locality.

Mr. French said that if a new road was to be constructed he would not object to the trees coming down but he contended that for the most of the distance the street was plenty wide enough.

He explained that at the narrowest point if the railway track which is not now in the middle of the highway was moved easterly to the side of the road a distance of 4 1-2 feet from any tree or pole that might be standing on the edge of the sidewalk, a nineteen foot roadway at least could be built to the westerly side which perhaps might not prove satisfactory for a new street but in consideration of the row of handsome trees that must be sacrificed if the widening project was carried out, he thought his plan the better one.

Mr. French also suggested that the tracks are not now in the middle of the street, and from observations he had made, he is convinced that if the rails are put in the centre there would be about 12 feet of roadway on either side at the narrowest point, ample enough room for traffic in his judgment, until double tracks are laid, and that time he believed to be many years away. In response to the years away. In response to the argument of those who favored widening and cutting down the trees because most of the property is now unoccupied, Mr. French said that he would advise taking the land and holding it until the time arrived for double tracking the street.

Before leaving the meeting Mr. French thanked the commissioners for giving him an opportunity to be heard, and he urged that the new road be constructed according to one of the two plans he suggested, in order that the handsome row of trees not one of which he declared was unhealthy, be spared.

Mr. French was given the closest attention by the members of the board, but no action was taken. Mayor Henchey will call another special meeting within a few days when he will make some positive recommendation on the question of land damages if the commissioners decide to widen the street, and take down the trees.

F. J. Bartlett, president and treasurer of the Boston Ice company sent a notification that the city is indebted to the company for \$39 for use of the Horn Pond branch of the railroad, and that unless the account is paid before June 15 he will instruct the Boston and Maine railroad to discontinue the use of the tracks by the city of Woburn.

The members of the board thought the action of representative

NOVELTY SHOWER FOR MISS EMMA McLEAN

Was Hostess for Golden Rule
Class Last Evening

The Golden Rule Class of the Baptist Sunday school, held its last meeting of the season at the home of Mr. and Mrs. Guy Reed in Burlington last evening, with Miss Emma McLean as hostess. Following the business session, a social hour was enjoyed during which Miss McLean was tendered a novelty shower by the members of the class. It was a very enjoyable occasion, Miss McLean being given a complete surprise.

A DISTINCT LOSS

In the retirement of Miss Beatrice A. Grant from the High school staff, and Miss Mary D. Caulfield from the Plympton school staff, the educational interests of the city suffer a distinct loss.

Miss Grant has been a teacher 12 years, and Miss Caulfield has been in continuous service since 1897. Both have won wide-honored respect by conscientious discharge of duty, and both will carry with them into their new condition of life the best wishes of the community.

The characteristics that make a successful teacher are not found in every applicant for pedagogic positions. The possession of learning does not necessarily include the ability to impart it, and more than all few possess the teaching power and the executive ability that secures results and enforces discipline.

There is as much humanity in teaching as in any chosen line of public service, and the teacher who "gets there" educationally, must, to a large degree travel by the heart route. Sympathy with the scholar, to whom daily tasks are mountain ranges to be crossed, and the ability to get at the student's view point are essentials.

All reports in relation to the two retiring teachers are to the effect that they succeeded where so many fail, and so we say that in their departure from the teaching force Woburn schools sustain a distinct loss.

BY ALL MEANS THE SUMMER SCHOOL

School committeeman Charles C. Clarke struck the keynote when he proposed the establishment of summer school for the benefit of those pupils who are for one or another reason deficient in their grasp of the subjects of their grade.

And it is gratifying to note that the school committee stamped the proposition with its unanimous approval. The establishment of this recess school is conditional of course upon the number of pupils desirous of the opportunity to freshen up on this or that branch of study, and parents wishing to take advantage of the offer should register at once with the superintendent.

The details are left to the chairman of the board and the superintendent of schools, who have been clothed with full power. If the plan materializes it is proposed to open the school July 7. It will consist of daily morning sessions for six weeks at the Hanson school building.

This is a splendid chance for those who are deficient to catch up with the grades they are to enter in September, and it is a beneficent and helpful thing for the city to do. It should appeal eloquently to every scholar who is in earnest.

Mr. and Mrs. W. E. Blodgett, Miss Rachel Blodgett, Mr. and Mrs. Arthur E. Gage, Miss Annie E. Gage, Mrs. Henry B. Williams, Mrs. George W. West, Mrs. Frank A. Partridge, Miss Mary J. Wakeford and Mrs. George H. Newcomb attended the reception given by the Baptist social union to the outgoing missionaries in Ford hall yesterday afternoon. Mr. W. E. Blodgett, president of the Baptist social union, was master

H. S. GRADUATION EXERCISES TONIGHT

Professor Charles Zeublin to Deliver Address and Mayor Henchey to Present Diplomas

The graduation exercises of the Class of 1913, Woburn High school will be held this evening in Lyceum hall. The program as arranged by those in charge of the affair promises an evening fully as interesting, if not more so, than previous years. If the weather conditions which attended the early part of the day continue, the graduates, parents, friends and teachers may be sure of a pleasant occasion, much depending upon the weather.

The address will be delivered by Professor Charles Zeublin of Winchester. The class parts will be taken by Miss Jennie Barnard Buck who will give the salutatory and Miss Gladys Estelle Richardson the valedictory. Mayor William H. Henchey will present the diplomas to the sixty-seven graduates. The Tidd scholarship prizes of \$40 will also be awarded in accordance with the provisions of the bequest. The program of the evening is as follows:

MOTHER OF MRS.
OWEN PASSED AWAY

Martha A. Folger died June 21, at Seattle, aged 80 years.

Mrs. Folger is the mother of Mrs. L. Herbert Owen, widow of the late principal of the Woburn high school. Mrs. Owen who with her son, Philip H. are now living in Seattle, was at the bedside of her mother when she died.

WINTERGREEN IS
FATAL BEVERAGE

Lexington Man Dies and Two
Others are Made Ill by
Concoction

One man died in Lexington early yesterday morning, and two others were taken violently ill from the effects of artificial wintergreen served as liquor. The dead man is Michael McDonald, 44, of 9 Grant place, Lexington. He was working on an estate in that farm with James Keefe, 1st, of 81 Woburn street, and Rodney McDonald of Vine street. Michael McDonald produced a bottle and invited his companions to drink. All were taken ill, and the owner of the bottle could not be saved by physicians. An autopsy was performed today, and an investigation started by the Lexington board of health.

FRANK B. FISKE
PASSED AWAY

Miss Annie E. Gage arrived home yesterday afternoon from Chicago where she has been spending the past year as a student in the Baptist Missionary training school. Miss Gage will spend the summer with her parents Mr. and Mrs. Arthur E. Gage of Sherman Place.

Miss Mary J. Wakeford, accompanied by her Sunday school class, is spending today at Revere beach.

The Baptist S. S. picnicked at Milliken's grove today.

METAL OUTPUT EXCEEDS MILLION

More than \$8,000,000 in Gold, Silver, and Lead Produced in 1912

The total value of the production of gold, silver, and lead in South Dakota for 1912, as reported from 40 productive mines, 19 of which were placers, amounted to \$8,019,370, according to Charles W. Henderson, of the United States Geological Survey. This production is the largest ever produced in any one year, the output being \$229,182 above the previous maximum mine yield of \$7,790,188, in 1908, and \$468,612 larger than that of 1911. The gold output was 381,745 fine ounces, valued at \$7,891,370, over 98 per cent of the total value. The increase in gold for the year was 21,841 fine ounces in quantity and \$451,490 in value. The yield of silver also increased, from 203,755 to 206,459 fine ounces. Smelting ore from South Dakota in 1912 carried 22,845 pounds of lead, against 64,311 pounds in 1911. The output of placer gold increased from 584 fine ounces in 1911 to 664 ounces in 1912.

A total of 1,901,726 short tons of ore was mined and treated in 1912, compared with 1,946,127 tons in 1911. Of this total, 1,893,836 tons were treated in the mills of the state, yielding as bullion \$7,734,806 in gold and 179,334 fine ounces of silver, valued at \$110,290, with an average recovery per ton of \$4.08 in gold and \$0.658 in silver. Smelting ore, 7,890 tons, averages 0.8758 ounce of gold and 3.43 ounces of silver to the ton.

The Homestake mine, which annually yields the bulk of the gold bullion from this state, was operated continuously throughout the year, with a small increase in tonnage but an appreciable increase in average value per ton. The published report of this company shows a production of 1,528,923 tons, with an average value of \$4.31 plus per ton and a total value of \$6,600,953. The company's hydroelectric plant, on Spearfish Creek, which has been under construction for several years, was completed early in the year and supplied power to the works.

The tonnage of milling ore from the Golden Reward group, in Bald mountain, was equal to the 1911 yield, but an increased tonnage of crude ore was shipped to smelters. A 75-ton roaster is to be installed for the preliminary treatment of the sulphide ore before cyanidation. The Trojan mill was operated continuously in 1912, against five months in 1911, with a resultant increase in tonnage treated. The tonnage from the Wasp No. 2 mine, where steam shovels are used for extracting the ore, showed a small increase. Because of the burning of the Mogul mill in March the output of the property decreased. After the fire the Mogul ore was treated at the Lundberg, Dorr & Wilson custom plant, which was also operated on ore from the Buxton & Bonanza, Midget, and Dakota mines. The New Reliance, Victoria, and Black Hills-Stansard mills were operated during a part of the year.

During the business meeting of the club plans were perfected for the first annual outing which is to be held at Nagog Inn, North Acton, on July 10. President Fred L. Coburn was the presiding officer.

CONCERT AT THE
LUTHERAN CHURCH

Tomorrow night, Thursday, June 26, at 8 o'clock there will be a concert at the Swedish Lutheran church, near Woburn Armory. A good program is promised and a large attendance is expected. Everybody is welcome.

FRANK B. FISKE
PASSED AWAY

Frank B. Fiske passed away at the home of T. I. Reed in Burlington yesterday afternoon, aged 54 years. He was born at Wades, Mass., in 1859, the son of Eli and Martha Fiske and is survived by his mother, wife and one brother, Charles S. Fiske of Boston. Mr. Fiske had been ill with a complication of diseases for a long time.

DEATH

FISKE—At Burlington, June 24, Frank B. Fiske, aged 54 years. A prayer service will be held at the home of T. I. Reed, Thursday, at 2:30 p.m. funeral services and burial at West Boylston, Mass. Friday at 2:30 p.m. Relatives and friends invited without further notice.

The Greater Problem

The Western railroad unit is distance.

The New England unit is service.

Not miles moved but movement per mile is the greater problem.

Nowhere on the continent is the railroad problem so great, nor so well worked out.

BRIGGS SCORES

LABOR UNIONS

Organized labor was characterized as the most dangerous trust in the country and the most powerful lobby in our legislative halls by Alton E. Briggs, executive secretary of the Boston Fruit and Produce Exchange, in an address before the members of the Reciprocity club at their last monthly dinner of the year at the City club last night.

Mr. Briggs said that New England today is facing a crisis in the question of how to provide food for the millions of inhabitants within its borders.

"Within a comparatively few years New England must produce its own foods, as the great sources of supply from which she has drawn are each year forced to pay more and more attention to the wants of those nearer home." He said, "strange as it may seem to you, New England today, much though it is regarded as a dairy center, does not produce one-tenth the butter or the eggs that it consumes."

People condemned cold storage, he declared, failing to realize that but for cold storage some of the foodstuffs which are now considered necessities would be luxuries.

During the business meeting of the club plans were perfected for the first annual outing which is to be held at Nagog Inn, North Acton, on July 10. President Fred L. Coburn was the presiding officer.

CONCERT AT THE
LUTHERAN CHURCH

Roy A. Howatt has succeeded to the painting business formerly conducted by his father, A. A. Howatt, and will continue to do painting, paper hanging, glazing, kalsomining, etc. A sample of the workmanship of Mr. Howatt is the Baptist church, recently painted and which has since attracted a great deal of attention and much praise.

FRANK B. FISKE
PASSED AWAY

Any boy or girl in Woburn under 16 years of age who wishes to secure the pony and cart offered as a prize by Gavin & Lydon grocers, W. S. Lindsay candy, and ice cream, the Central Hardware Co. and the Brockton Shoe Market, should urge their parents to patronize this quartet of live merchants.

DEATH

The Russell class of the Baptist Sunday school will hold a picnic at Canobie lake, July 8, going thence by special car.

STATE HIGHWAY WORK DISCUSSED

Continued from page 1

aldermanic claims are justified. It was further voted to invite the members of the committee on finance and any other alderman in a position to enlighten the board to attend the next meeting and name a single contractor who will do the work complete according to specifications for \$5,000 the sentiment being that such a man, if produced can have the contract. No extra allowance is to be made for blasting if ledge is encountered.

An order from the city council signed by Alderman Hogan that the minimum wage for city laborers at \$2 per day was received and placed on file. Another order signed by the same alderman requesting the board of public works to have the street lights burn until 1:30 a. m. instead of 12:30 the present hour, was referred to Commissioner Kelley for investigation and report.

The following appropriations from the city council were received and placed on file, the work to be done under the supervision of the commissioner in charge of the department where the improvements are to be made. \$200 for the completion of the sewer in Mishawum road; \$900 for resurfacing Waltham street.

A list of streets to be watered, or covered with material suitable for laying dust this season, was sent down from the council and referred to the street commissioner. Commissioner Kennedy will also investigate the advisability of repairing a fence on Montvale avenue running past the Aberjona river.

The aldermanic committee on claims and bonds sent a communication that the following claims have been allowed, the money to be taken from the highway and water department appropriations; \$10 to Mrs. John I. Munroe for damages done to ceiling and plumbing caused by relaying a water main to be charged to the water department; \$44.55 for damages done to property of L. W. Thompson by a broken water main, to be charged to water department; \$50 to be paid Mrs. Doris T. Hyde for injuries sustained on the highway, to be charged to the street department; \$75 to be paid Annie M. Murray for injuries sustained on the highway, to be charged to the street department.

Both Commissioners Kennedy and Jones while not disputing the validity of any of the claims strongly objected to the money being paid from their department appropriations under present conditions. Settlements of this kind are usually paid from other sources and the department heads saw no reason why, with scarcely any money for general work in either department this year, claims for damages should be so charged. It was finally decided to refer the matter to both commissioners, a recommendation to be made at the next meeting.

The aldermen returned two loan applications, one of \$500 to lower and make larger the culvert running under North Warren street, with a suggestion that perhaps the stoppage of water would be eliminated if the culvert was cleaned out. The other petition was for \$100 to defray the cost of placing automobile warning signs at the approaches to various schools and at the South End playground, with a request that the number of signs required and the cost of each be furnished the aldermen.

The Crank.
"Is Jinks a confirmed pessimist?" "Yes; he will never try to talk over a telephone because he says that the one of the 9,000,000 in the United States which would be of service to him is sure to be in use."

LIBRARY CORNER

HENRY WARD BEECHER

June 24, 1913 marked the centennial of the birth of Henry Ward Beecher, American clergyman and reformer, and brother of Harriet Beecher Stowe. The genial orator possessing marvellous power over hostile mobs was a shy and sensitive boy; the editor and author disliked study and wanted to go to sea as a youth. But the religious atmosphere surrounding Beecher's home finally prevailed and resulted in his study for the ministry.

After graduating from Amherst college and completing a theological course, Mr. Beecher held pastorates in Lawrenceburg, Ind. and Indianapolis. In 1847 he was called to Brooklyn to take charge of the Plymouth church. He held this pastorate for nearly forty years and for most of this time the church was the center of an influence acting powerfully on the moral, social, and political tendencies of the age. His unconventional preaching on whatever subject related to the public welfare shocked the more staid members of the flock, but filled the church, with a capacity of 3,000 to overflowing with people unaccustomed to church going. Mr. Beecher studied men rather than books, and this, combined with his eloquence and character, caused his pulpit to become a national platform and his utterances the basis of action for many. He inspired church activities which grew to large proportions, but trusted their organization to laymen; for acquaintance with his people he depended on the social hour at the close of each service. Mastery of the English language, dramatic power and art of impersonation which were second nature to him, vivid imagination, intense enthusiasm, which for the moment made his theme seem of all importance, appreciation and happy use of both humor and pathos, and above all his unaffected devotional nature, combined to make him a preacher without a peer in his own time and country.

Mr. Beecher was also for many years one of the most popular lecturers and after-dinner speakers in America.

On the question of slavery Beecher took middle ground between the peace party and abolitionists like Garrison and Wendell Phillips, believing with Seward and Lincoln that slavery was to be overthrown under the constitution and in the Union. By his speeches in England in 1863 he did what probably no other American could have done to turn the tide of hostile English opinion in favor of the N.

Mr. Beecher's first literary work was done in Indianapolis and he edited an agricultural paper and wrote for it articles afterwards published as "Fruits, Flowers, and Farming."

For twenty years after coming to Brooklyn he contributed to the Independent, signing with a (*), whence the collection of 1855 and 1858 were termed "Star Papers."

TEN STATES PRODUCE BULK OF PORTLANDCEMENT

The production of Portland cement in 1912 in the United States was 82,438,096 barrels. This production was reported from 24 States, the first ten States, namely, Pennsylvania, Indiana, California, New York, Missouri, Illinois, New Jersey, Michigan, Iowa, and Kansas given in the order of their importance reported 69,682,321 barrels, or about 85 per cent of the total. These States ranged in production from 26,441,338 barrels in Kansas, or about 4 per cent of the total. Indiana, the second largest producing State reported 9,924,124 barrels, or 12 per cent, and California, the third State reported 5,974,299 barrels or over 7 per cent of the total. These first three States reported over one-half of the total production.

Board of Trade Committee on Fourth of July Celebration

The Girls' Aid society of the North Congregational church had an outing yesterday to Middlesex Fells where they ate their lunch and spent a very pleasant afternoon. Mrs. Robert Creed was matron of the party.

TO EXEMPLIFY RITUALISTIC WORK

The Ladies' Auxiliary of C. B. Winn Camp, 66, S. of V. will exemplify the ritualistic work of the auxiliary at a meeting to be held in S. of V. hall, Thursday evening, and all members having a part in the work are requested to be present. The meeting is called for 7.15 p. m.

IMPORTANT MEETING OF THE L. T. L.

There is to be a meeting of the Local Temperance Legion in the

The Parish Aid Garden Party which was held June 19th was certainly a grand success financially, as the executive committee has announced that the total receipts clear of all expences is over \$145.

A very enjoyable time was spent by about thirty of the North Woburn young people last evening, when in Erskine's big auto truck, they made the trip to Revere beach. The party which was composed of the evening choir of the North Congregational church and a few of their friends left North Woburn at 7 o'clock going by way of Sullivan square arrived there at 8.40 where for an hour and a half they made a tour of the beach en-

SCHOOL COMMITTEE HOLD SESSION

Many Vacancies in the School Teaching Staff

At the regular meeting of the School committee held last evening in the committee room, there were seven members present. After the reading of the records, the business of the day was taken up.

Mr. Linscott for the text book committee recommended several changes in the High school text books. This was laid on the table under rules to be acted upon at the next meeting of the school board. Judge Maguire for the finance committee reported that the committee had been in session yesterday afternoon and had considered the question referred to it concerning the raising of salaries of the teachers. He reported that the committee recommended no increase in any salaries in view of the prospective deficit in the school accounts. He stated that the committee recognized the need of physical culture and as the course had been so successfully started, that the committee recommended securing the services of a physical culture specialist who could work two or three days of the week in the local schools, at a salary not to exceed \$400 a year. The report was accepted and adopted on the motion of Mr. Clarke.

Mr. Fox for the special committee on agriculture reported that the committee had interviewed State Agent Rufus W. Stimpson at his office in Boston, but could make no definite and final report until a later meeting.

Superintendent George I. Clapp made the report of the committee who had charge of the selling of watch fobs for the Hospital Field Day among the school children. He reported that 785 fobs had been sold and \$196.25 had been turned over to treasurer F. W. Shattuck of the Field Day Association. Miss Susan Frye's leave of absence which she had had during the month of June was ratified by the board. Dr. C. T. O'Brien filed his report for the month of June as the school physician.

The resignation of Miss Beatrice A. Grant of the High school staff and of Miss Mary D. Caulfield of the Plympton school, were received and accepted with regret. The application of Miss Annie Caulfield requesting to be transferred to her sister's vacancy was referred to the Plympton school committee and granted.

This puts her in charge of the 5th grade room in that school, leaving the vacancy in the room formerly occupied by her in which the 5th and 6th grades were combined.

Misses Anna Maguire and Ellen L. Watts made applications for appointments in the Plympton school and were referred to the Plympton school committee. The request of Miss Sarah S. Waterman of the High school staff for a leave of absence for the period of one year was granted.

The request of George W. Low, principal of the High school for an increase in salary was not granted owing to the previous reason that the board expected a deficiency in the amount provided for its use.

Mr. T. G. Black of Montvale presented a request for payment of damages which his son incurred while working for the principal of the Goodyear school. It seems from his testimony that the boy had his thumb sprained by moving settees and the injury has incapacitated him for work since that time. The matter was referred to the school committee.

This license is necessary. The hall was to be used for meeting purposes of the Village Improvement association of Montvale. The cause is a worthy one but owing to the time needed to get the permission of the state police, the matter has been dropped for the present. The communication from Mrs. Stewart asking that an appointment be made of a delegate to the Hygiene Congress was filed and no action taken upon it. Several applications for positions in the High school teaching staff were referred to the High school committee.

The date of opening the schools this next fall was set for September 4, the date being somewhat earlier than usual. The committee on Buildings and Hygiene was given full power concerning the summer repairs. The matter of holding meetings in the summer was referred to the chairman of the school board and the superintendent of the schools.

On motion of Charles C. Clarke the same two men were given full power to open a summer school for the benefit of pupils who needed coaching. The idea is to help backward pupils and will be a great help when it is inaugurated. It is necessary for those who intend enrolling, to leave their names at the office of the superintendent of schools, George I. Clapp, Room 10, in the Savings Bank Block. It is planned that the first session of the school will be held on the morning of July 7th. All parents of scholars who were backward and need the extra help should realize the worth of this summer course and cooperate with the authorities in making it a successful venture.

ARRESTED IN ITALY ON CHARGE OF MURDER

Luigi Vincenzo is Charged with Killing Greek at Woburn in July, 1912

In July 1912, there was a shooting affair at the Marshall farm on the West side in which Evangelos Kagiavas was killed, and his two brothers, Charles and John, were wounded. Luigi Vincenzo, an Italian who it is alleged did the shooting, escaped.

Chief of Police McDermott, after becoming convinced that the man was not in hiding in the neighborhood, communicated with the authorities of Vincenzo's native place in Italy and furnished them full particulars of the tragedy as related by several eye-witnesses.

About a month ago the Italian officers found Vincenzo, who was spending a furlough from the Army in his native village. They arrested him and wrote for legal proofs of the crime.

Yesterday Chief McDermott went to Cambridge accompanied by Charles Kagiavas one of the men who was shot. Artanis Kamanis and Arthur Leronis, two other Greeks who were working on the farm at the time, and two Italian women and three Italian men, including Pasquale Passamini and his wife, Anna and their depositions were taken at the district attorney's office, and will be forwarded to Italy to be used in the trial of Vincenzo. John Kagiavas, brother of the murdered man, has returned to Greece.

**FIRST CHURCH S. S.
PICNIC TODAY**

The annual picnic of the Congregational Sunday school was held today, several special cars leaving the center of town at 9:30. The picnic was held at Milliken's grove, Wilmington. A program of sports had been arranged and a fine day was expected by all attending, the weather conditions being somewhat threatening but not unpleasant in the early morning.

—o—o—

**BAPTIST S. S.
PICNIC YESTERDAY**

The Baptist church Sunday school held its annual picnic at Milliken's grove, Wilmington yesterday and a large number enjoyed the day of rest among the pine groves watching the sports participated by the younger folks. There was a ball game besides races of various kinds which were enthusiastically entered into. Three special cars were chartered by the school which left the center of town at 9 o'clock and returned about 6:30 last evening. On the whole the picnic was one of the most successful affairs that the school has held.

have shown that signs made of sil-
vered glass balls, set in a black back-
ground, can be seen the greatest dis-
tances.

SIXTY-SEVEN H. S. GRADUATES

**Class of 1913 Held Commencement
Exercises in Lyceum Hall Last
Evening Before Large Audience**

DR. ZUEBLIN, THE ORATOR

Sixty-seven young misses and masters, forming the Woburn high school class of 1913 were graduated with interesting exercises at Lyceum hall last evening before an appreciative audience of parents and friends that filled every seat.

The two essays, the salutatory and valedictory, were spoken by Miss Jennie B. Buck and Miss Gladys E. Richardson respectively in a clear tone and with intelligent emphasis. In each the theme was well thought out and cleverly presented. The music, both instrumental and vocal was given under the direction of Miss Ellen H. Bartlett the supervisor of music. The address by Dr. Charles Zueblin was a masterpiece of pungent criticism of present educational methods, and a forceful presentation of what the situation demands. The program follows:

School Comrades H. Engelmann

Presentation of Diplomas

Honorable William H. Henchey

Presentation of the Tidd Prizes

Class Song

Battleship Oregon J. M. Fulton

Orchestra

Prior to awarding the diplomas

Mayor Henchey spoke at some

length, congratulating the gradu-

ates upon their successful comple-

tion of the prescribed course of

study, and counselling them to

remember that education was merely

an equipment for the battle of

life. He urged them, so long as

they lived, to remember that it

was at the High school in Woburn

that their educational opportuni-

ties had been furnished. As each

student came forward to receive

his or her diploma, the class burst

into a hearty applause, and later

when the mayor announced as

the Tidd award winners, Miss

Elizabeth P. Hill and Major Wil-

ford A. Walker, the class burst

forth in long continued approval.

The function was eminently suc-

cessful in every respect, and the

dignified bearing of the class, evi-

dence of the discipline under which

it had been governed. It was es-

sentially the graduates' day, one

never to be forgotten by those who

took part.

SALUTATORY

Jennie Barnard Buck

We come here tonight with a
feeling of joy, regret, and gratitude.
We feel very joyful to think that
we have at last completed our
course, and have conquered at
least a little knowledge. Yet, we
have a deep feeling of regret to
think that all the happy days we
have spent together have come to
an end,—that this is perhaps the
last time we shall meet as a class.
But gratitude surpasses all other
feelings. Our hearts are overflow-
ing with gratitude toward our

have made marked improvement
in our speech and writing.

We realize our conquering has
only begun. The difficulties which
have seemed huge to us in the past
will dwindle into insignificance
when compared with future ones.
But with our motto "To conquer
or to die" ever before us, let us
press onward, always conquering
and never allowing defeat.

"The portals are open, the white
road leads

Through thicket and garden, o're
stone and sod;
On, up! Boot and saddle! Give
spurs to your steeds;
There's a city beleaguered that
cries for men's deeds;
For the faith that is strength and
the love that is God.
On through the dawning! Hu-
manity calls!
Life's not a dream in the clover;
On to the walls! On to the walls!
On to the walls, and over!"

DR. ZUEBLIN'S ADDRESS

Industrial education is needed
by the employer, by the employee,
and by the public, and these three
groups of people cannot be reached
wholly through the schools. What

are we going to do especially for
the working man? We appreciate
the fact that his education must
largely take place through his
work, and can only be begun by
the preliminary instruction of the
schools. But we ought to prepare
him for his work better than he is
prepared today. The system of
apprenticeship has fallen into de-
cay, technical education is still
embryonic, and the standards of
industry made by the demands of
the consumer are very low.

We must plan life so that ult-
imately all people can be develop-
ed. Therefore the thing to do is
to recognize that nearly every
man is going to be a working man,
and to glorify his occupation; to
make it well rewarded and worthy
of social ambition for any man,
so that it will not be necessary to
cultivate shrewdness and taking
advantage of other people's weak-
nesses in order to get on in the
world. The task of society is to
give to the average man appro-
priate training. The most impor-
tant thing is to give to the workman
adaptability. Industrial processes
change rapidly, we are constantly
throwing the machine upon one
scrap heap, and too often the man
upon another. We can make over
the machine, as raw iron, into
other machines, but we cannot
make over the man. Therefore,
just as we find the gifted man of
vision today able to fill a large
place in the world because he
adapts himself quickly to the new
situation, so we must provide
every working man and woman
with something besides knowledge
of this or that given trade or pro-
cess; we must provide him with
the skill of eye or finger which

Surprised

Ourselves

When we first started making Ice Cream at our store we
immediately saw there was going to be a big increase in our busi-
ness so we added one more to our working staff. Well we have
certainly been surprised ourselves at the tremendous increase
in our sale of ice cream, for while we have been making our
cream only four weeks, we have been compelled to add two more
to our original staff to take care of this increase in business.
In fact, on Saturday and Sunday we employ a third extra man,
this making eight people in our store on these days.

There is plenty good reason for this increase in the ice cream
business and if you have not tried our cream then you are miss-
ing a treat.

Other attractions at our fountain are: Fruitade, a long cool
drink with cracked ice 5c. Cheer All 5c. Grape Fruit Phos-
phate 5c.

THE EDUCATIONAL TRINITY

Dr. Zueblin, in his bright and forceful address at the high school graduation exercises last evening, announced as the three all-important aims in the education of youth to be adaptability, efficiency and interest. The issue has never been stated more clearly.

The schools of the not distant future must be vocational, in which specialized work adapted to individual needs will supplant the "all-of-a-pattern" methods of the present and past.

No less an authority than the secretary of the state board of education admitted in a recent public address that under the system in vogue for hundreds of years "the schools have been turning out misfits."

The world is demanding efficiency and is ready to make a place for the man who can do things. Scholars equipped only with the theories of the text books will not get a place in the race of life. Educators everywhere are facing this problem. Germany is grappling with it, and is leading the world in technical education. England is headed in the same direction, and America is studying the question in all seriousness.

Shakespere emphasizes the principle of awakening interest in one's work in the concrete sentence "Labor we delight in physics, pain." The Montessori system of a child's educational development is based on this principle, and under this wonderful method the child nature grows by leaps and bounds toward the desired end. Under it the child does the work it loves to do, and knowledge is the hand maiden of the child's play.

MAYORS DISCUSS SUFFRAGE LAW

(By United Press)

Springfield, Ill., June 26—The effect of the recent suffrage victory in the cities of Illinois was the important subject discussed today when the mayors of Illinois cities met in annual convention. The legislature gave the women the right to vote in municipal elections as well as for presidential electors, and the women have already started a campaign to "educate the new voters and bring out the vote." The convention closes tomorrow night.

THE INTERNATIONAL PHILATELIC EXPOSITION

(By United Press)

Paris, June 25—The International Philatelic Exposition is on here today. One interesting feature of the exhibit traces the history of the stamp from the time it was invented in 1840 by Rowland Hill, an Englishman up to the various uses of stamps today. Brazil, which was the next country to adopt the stamp and France which did not use it until 1849 in the most interesting exhibits. The exposition is held under the auspices of the French government and the ministers of posts and telegraphs and of the colonies are directly in charge of the affair. Stamp collections from scores of countries valued at many millions of dollars are on view.

Continued from page 1

will reach out to the coming process, so that when it does come he will be ready for it.

In the first place, we are going to give each American child an elementary education. Hence, no child may escape, we must have compulsory education, as well as compulsory factory laws, uniform throughout the country for every state, even if we have to appeal to the nation to get it. And we are going to be inexorable and brutal; we are going to take the child from the widow, her only hope and support, and put him in school, no matter what happens to her. Of course we shall not let anything happen to her. We shall take care of her; give her a pension perhaps, anything rather than that she shall take that member of society and, in immature years, stunt his whole future growth.

In our technical education, we must have a program like that over the doorway of Toynbee Hall—"Not for livelihood, but for live." We must give a knowledge of history, literature, art, and science. But, you say, where are we going to get the time and the money to do all this for the children? In the first place, we are going to get the money, because it will be much cheaper than to maintain the jails and penitentiaries, asylums and hospitals, that we now have to support, among the other conveniences and luxuries of living in a civilized society. Secondly, we are going to economize time, because we are going to accommodate the general to special education. It is but a small part of the whole realm of literature and the range of science and art that we can give to each child, but why give to every child the same kind of instruction? Here is a boy showing some talent in woodwork. Why shall we not lead him to literature and art and science through that thing?

After the school has done all that it can do, when we keep all the children at school until they are eighteen instead of letting them out at twelve or fourteen or sixteen years of age; after we have evolved the school in accordance with our modern ideals, we shall still get most of our industrial training in the shop, in actual work, in the various crafts under the pressure of economic competition.

All working men, even the poorest, and everybody in any class of society, of any degree of intelligence, of any amount of taste, who becomes educated to his responsibility as a member of society for its larger industrial efficiency, may immediately co-operate against inefficiency by taking part in the movements most precious to him and so aid in the process of industrial evolution towards some kind of democratic, efficient, moral obligation.

The fundamental problem of education and industry is the education of the consumer and producer, in intelligent cooperation.

VALEDICTORY

Gladys E. Richardson

Here in New England we are all familiar with the woman of the past century who, with a self-centered but noble purpose, devoted herself entirely to keeping her house in a state of perfect order. Mrs. Wilkins has given us the story of such a woman in "The New England Nun." To save her time during the day Louis put on three aprons the first thing in the morning, a very small one with a white edging—her company apron; a pink and white calico for the sitting room; and over this, a green gingham apron for the kitchen. When she heard Joe Daggett's step, off came the green apron. The pink and white calico was folded, and placed carefully in a table drawer. The white linen with the cambric edging re-

mained. During the call, Daggett sat bolt upright, toeing out his heavy feet squarely, glancing with good humored uneasiness around the room. She sat gently erect, folding her slender hands in her white linen lap. On the table between them lay two books, a gift-book and an album. Daggett fingered them and then laid them down, the album on the gift-book. Louisa kept eyeing them with a mild uneasiness. Finally she rose and changed the position of the books, putting the album underneath. That was the way they had been arranged in the first place. When Daggett was outside, he breathed in the fresh evening air with a sigh, feeling much as an innocent and perfectly well-intended bear might after his exit from a china shop. Louisa tattered on the pink and white apron and then the green one. She placed a lamp on the floor and began to examine the carpet. She rubbed her fingers over it, and looked at them. "He's tracked in a good deal of dust," she murmured. "I thought he must have." Louisa exists to keep her house in order. The tragedy in her life is that her sole ambition is "to keep house." It must be orderly and free from dust if she has to sacrifice the comfort of others and narrow her own life. That story reveals the tragedy of many a woman's life in New England.

In Shakespere's tragedies the end of every tragic life is death preceded by long suffering and calamity. The hero is necessarily a conspicuous person whose sorrow is a striking and unexpected contrast to his former glorious happiness. He is always an important man, a prince, triumvir, or general, whose welfare affects that of the state, and whose misfortune extends beyond him, producing woe. Calamity alone cannot make a life tragic. The misfortune of the hero must be the result of action or deeds issuing from his character. Often this action is a conflict between two groups of people or between two characters. At other times it is an inward conflict within the hero's soul as in Macbeth's case. His treacherous ambition conflicts with his loyalty and patriotism.

Exultant with victory Macbeth returns from battle. He and Banquo, another general in King Duncan's army, meet three weird sisters on the heath who salute Macbeth as Thane of Glamis, Thane of Cawdor, and finally as king. For the first time, what Macbeth has long inwardly meditated is presented to him as an external temptation, yet he shudders at the words of the weird sisters. He is already Thane of Glamis and the king's messengers soon proclaim him Thane of Cawdor. The king is about to pay him a greater honor by visiting him at his castle. King Duncan arrives, and is murdered; Macbeth is made king. Banquo and his son are attacked by murderers employed by Macbeth. The report that Macduff has escaped to England to join his forces with Malcolm's, reaches Macbeth. In his rage he storms Macduff's castle, and puts to death his wife and children. Dissatisfaction arises among his nobles. Malcolm and Macduff with the aid of the English king invade his realm, and Duncan is avenged. Macbeth is killed. From the time that Macbeth first plots the murder of the king, he has been uneasy in his mind.

"If th' assassination
Could trammel up the consequence,
and catch

With his surcease, success," he thinks. His uneasiness soon changes to remorse. He has "put rancorous in the vessel of his peace." At times he is overpowered with the agony of remorse, but he can not escape the consequences of his guilt. He loses his life in the civil war which he himself brought upon his country. His feelings become so hardened that he can not grieve at the death of his wife. The realization of one day following the other, all full of anguish comes flooding upon him. He suffers mentally for years, and

death is a welcome relief. There is no satisfaction in life.

"Tomorrow and tomorrow and tomorrow,

Creeps in this petty pace from day to day,

To the last syllable of recorded time;

And all our yesterdays have lighted

fools

The way to dusty death! Out,

out brief candle!

Life's but a walking shadow; a poor player

That struts and frets his hour upon

the stage

And then is heard no more. It

is a tale

Told by an idiot, full of sound and

fury

Signifying nothing.

* * * * *

I have lived long enough, my way of life

Is fall'n into the sear, the yellow leaf;

And that which should accompany old age,

As honor, love, obedience, troops of friends,

I must not look to have."

Another of Shakespere's great tragedies is "Julius Caesar." Caesar returns from foreign wars victorious, and is escorted in triumph to the capitol. The people are so overjoyed that Antony deems the day propitious to offer Caesar the crown he so much desires. Three times it is offered and three times it is refused. Even in the hour of Caesar's greatest triumph, envious and jealous men are plotting against him. Cassius has collected a band of conspirators, and urges Brutus, a nobleminded friend of Caesar's, to join them under the belief that the death of Caesar will be for the good of the Romans. On the Ides of March, Caesar goes to the senate house despite his fears and the ominous dreams of his wife. The conspirators crowd about him to present a petition. Presently each one stabs him, even Brutus. Caesar falls. In behalf of the conspirators, Brutus addresses the people, giving them the reasons for the murder of Caesar. But after Antony's clever speech, the mob that was applauding Brutus a moment before, is ready to burn the home and sacrifice the life of every conspirator. The conspirators are forced to flee. At the death of Caesar, two factions arise and take the field against each other: the army of Brutus and the army of Antony and Octavius. From the first, the conspirators have little hope, and Cassius soon takes his life with the same sword that had killed Caesar. Shortly after, Brutus, to prevent his being captured, runs on his sword and dies. In this play there are two tragic characters, Caesar and Brutus. As with Macbeth, the cause of Caesar's downfall was his ambition, his desire to be king. The tragedy of Brutus's life was different. He acted according to his ideals, and failed because his ideal conceptions did not fit the practical demands of life. Unconsciously he gave his life to a cause that was wholly wrong, believing it to be his duty.

Brutus's life was not a failure. He had done what he thought was right. As a leader of the conspirators, he was overcome and ruined; yet he never lost his virtue, his manliness. He never yielded to despair, and could truly say, "My heart doth joy that yet in all my life

I found no man but he was true to me."

His life is elevating and inspiring.

After his death, his foe said of him,

"This was the noblest Roman of them all:

His life was gentle, and the ele-

ments

So mixed in him that Nature might

stand up

And say to all the world, "This was a man!"

Brutus had been true to his ideals, and for the good of his countrymen had been willing to sacrifice the life of his dearest friend. His life was to be used not for himself but for the good of the state.

The suffering of such a hero

arouses our pity and sympathy, and often our feelings deepen into admiration for the noble way in which he suffers. When the ruin of a hero is brought about by his guilt, our pity is mixed with horror and repugnance. As Macbeth plunges farther and farther into guilt, we pity him less and less.

Yet the contrast between his apparent claim to happiness and his actual suffering arouse our deepest pity. Such an emotion always has an elevating effect. It is good then, to read tragedies, for we sympathize with the man who is the victim of his own mistakes and thus strengthen and purify our own emotions.

As a class we, too, have had our tragedies and our sufferings to a limited extent, and we regret our mistakes. There is a tragedy even in this happy hour of our lives. We graduates are overwhelmed with advice from those who have really known the world. They are anxious to point out the pitfalls and to show us where they have made their mistakes that we may not meet with misfortune. The tragedy of life exists in the mistakes made in spite of every warning. We admit the advice to be good, yet when the time for a decision comes, we are guided by inclination rather than by our conscience. Portia understood this phase of human life when she said, "I can easier teach twenty what were good to be done than one of the twenty to follow mine own teaching." But there is hope that we shall be the stronger because of our attempts although we fail through out mistakes. Our poet Browning held "we fall, to rise, are baffled, to fight better."

Citizens: We are greatly pleased at the interest shown in us this evening by this large audience. By your generosity you have made possible the many advantages of our school life. You have given us a beautiful building with all the necessary books and appliances. We have enjoyed the privileges of a lecture room with its reflectroscope, and through the kind thoughtfulness of one citizen a useful library has been placed at our disposal. In behalf of the Class of 1913, I wish to thank you.

Superintendent and members of the School Board: You have been thanked by class after class for the interest that you have taken in them. Our gratitude is no less sincere and appreciative. No one could have shown more thoughtfulness or more attention to our needs than you, and we are proud of your genuine interest in our work. You have not only given all that was necessary for our mental training, but you have considered our physical comfort as well. Military drill and physical culture have been both helpful and enjoyable.

Principal and Teachers: It is with regret that we address you for the last time as our instructors. We are sorry to sever the intimate association of four consecutive years for you have been our friends as well as our teachers. You have always been ready to help us with a kind and friendly word in our difficulties. The Class of 1913 does not come to the end of its intimate association with you without feeling that you have worked conscientiously to prepare us for our part in the world.

Undergraduates: We leave to you our place and interest in the school and teachers. We envy you—especially those of you who will be seniors next year, and who will enjoy the life and work we have so much enjoyed. You will occupy the pleasant classrooms that have become so familiar to us. You will study from the very books that we have used. There is much that we did not get from them that we hope you will obtain by a more skilful economy of your time. Keep up your interest in the battalions, and show as much enthusiasm for physical culture, drawing, and for your whole course of study in order to get the best out of it. The most satisfying gratification of a class is to

know that it has done its work conscientiously. After all perhaps you will find the greatest pleasure and satisfaction in the careful preparation of your daily lessons.

Glassmates: This is the last time we shall meet as a class of the Woburn High school. For four long and happy years we have toiled together over the same path, and to-night we reach the goal for which we started. We realize that during these years we have made many mistakes. As we separate and go out into the world, each one of us will find a particular work that no one else can do. We can not all be great, but we can do what it is our duty to do to the best of our ability.

"This life's a game of crack the whip

And every man must play it. Some strange force keeps us on the skip;

There is no way to stay it.

Go in and do the best you can, Nor waste your time in sighing; The mind's the measure of the man, And strength is born of trying.

* * * * *

And though you meet a sad reverse, The world is still your debtor; 'Tis only that some do things worse That some can do them better.

There's a place for one and all, Each has his given powers.

Think what a sorry hush would fall

Upon this world of ours If all the birds in all the vales That now with songs are ringing, Because they are not nightingales Should cease their joyous singing?"

The exercises closed with the singing of the class song written by Miss Mabel R. Hamilton. It was sung to the air "Believe me, with all those enduring young charms," and the words were:

Classmates, now the hour that we've dreamed of is here, And it brings our school life to an end;

Let us each face the future with never a fear,

Though we know not what problems 'twill send.

When first on this journey we lightly did start,

Little thought we how much we'd regret

To break every dear and strong tie and to part

From friends whom we'll never forget.

Many memories hover around us tonight

Of those days that we'd gladly live o'er,

May each step in our pathway of life be as bright

As the one that has just gone before

Our motto is true, 'tis "to conquer or die."

Let us never neglect its command.

For if ever deep placed in our hearts it doth lie,

We may firmly and fearlessly stand.

Farewell! let us not say it sadly tonight

But with courage and hope of success,

And if ever we honor and stand for the Right,

Real achievement our efforts will bless.

So now as we meet for the last time as one,

Let us deep in our hearts make this vow,

That our love for "Thirteen," when our life's work is done,

Will unite us as closely as now.

AT YOUR DOOR EVERY DAY

**THE FRENCH JINGOES
 AND THE WAR LORD**

By Karl H. Von Wiegand
 (Berlin correspondent of the
 United Press)

Berlin, June 23—The young subalterns, who hope for war because it means chances for promotion; the gunmakers, who hope for war because it means business, and the jingoes, who hope for war because they are built that way and can't help it, sit in their respective circles and speak bitterly of the man who bears the title of War Lord and refuses to go to war if he can avoid it. They point to pretext after pretext which might have justified an appeal to arms, and glorify the young Crown Prince, who sits in the imperial gallery of the Reichstag and applauds warlike sentiments, and who writes books picturing the splendors of the battlefield.

Through it all the object of their wrath goes his way unmoved, and the whole world had occasion recently to send its congratulations and good wishes to a War Lord who has done more than any other sovereign to preserve the peace of Europe for a quarter of a century. For twenty-five years Kaiser Wilhelm II has been the rock against which every jingoistic movement of his subjects has been wrecked. An advocate of a formidable army, a believer in war as a school for all manly virtues, an emperor who rarely lets himself be seen except in military uniform, the Kaiser has nevertheless repeatedly made it clear that he will not enter a war until all other courses are closed. But if he must, then and then only, will he be the real War Lord. MacDermott's famous song of 1878 fits the case exactly:

"We don't want to fight, but, by Jingo! if we do,
 "We've got the ships, we've got the men, we've got the money too."

There may be other men in Germany who see as clearly as William II what a calamity a European war would be, but these others are not men who feel themselves divinely called to rule over the destinies of a people and answerable before the judgment seat for their conduct. William does feel himself thus called. Not much has been heard of the divine right of kings since the famous Konigsberg speech of three or four years ago, but there is no reason to believe that the Kaiser has changed his attitude, or that he considers himself in any light than as a ruler divinely set to guide his people and bound to render an account of his stewardship at the last great day.

There is need in Germany today of clear-headed statesmanship tempered with a feeling of responsibility. The empire is not well off in the matter of statesmen. In fact the Kaiser is Germany's only real statesman today. The truth might as well be admitted, for nobody who has followed recent events is ignorant of the situation. It is not so long since the chancellor stood up in the Reichstag and told the members that the peril of Slav domination menaced the nation. It was not so long before that that there was a regudescence of anglophobia in the land. Russia and Great Britain, these were the two enemies of the future, the implacable opponents and evil wishers of the empire. The Czar of Russia and the King of Great Britain have just returned home after a visit in Berlin which, so far as one outside the charmed circle of royalty could judge, was one of unusual cordiality and was marked by an apparently genuine and amiable exchange of courtesies between the Kaiser and his two reputed enemies.

That is of significance, but there is more yet. For the rulers of Russia and Great Britain were here as guests at the marriage of the Kaiser's only daughter to the son of his bitterest German enemy. The bitterest enemy himself came to the wedding, entering Berlin for the first time since his father's

All Woburns Toy with Innitou in the July 4th Series

The biggest farce of the year was presented yesterday afternoon on Library park in the scheduled game in the Fourth of July series between the All Woburn team and the aggregation of amateur ball tossers known as the Innitou A.A. The game from start to finish was a case of a cat teasing a mouse, at no time did "Doc" McMahon even show the least evidence of letting out his arm. His good natured smile was quite in evidence, though, as he tossed the spheroid across the platter and let the children hit it. The game certainly featured the most fly put-outs of any game seen on the local diamond in a long time. No less than 21 flies arched from the willows of the batsmen, to find a safe resting place in the mitt of an opposing fielder.

At times, the brave Indians, for such their name implied, seemed as if they might lift a scalp, but the nearest they came to that was when in the ninth inning, after allowing the travesty to proceed to a point where it no longer could be called a ball game, the various members of the All Woburns thought they would "try themselves out" in any position they wished. Then, when Kenney who was catching, narrowly missed slaying Ernie McDonald as he attempted to throw to second base, the ball ricocheted by that sack and continued on its unmolested path through center field. This one error allowed the lone tally of the "warriors who had no comeback." Otherwise the Indian sign would have been applied in a most proper manner.

When the Innitou came to, perhaps the Kilby Tigers or the Chestnut A. C. might get them to sign up a game with them. Right here let it be said that the "Star Fish Giants" would find it easy picking to run up against the Innitou. At any rate the game yesterday, helped out the batting averages of the All Woburns, Jones being the only man who didn't connect with a hit. The rest got 2 or 3 apiece.

A fine play was contributed in the sixth inning when Harold McDonald nailed Corbett's hot grounder in deep short, and with a throw a trifle wide nearly drew Johnny Finn away from his sack. "Jack" was there, however, and leaning almost flat on the ground, stretched out his left mitt and stabbed the throw safely in regular big league style. It was taking an awful chance and getting away with it.

Steve Toland was the only man to get an extra base on a hit from McMahon and he made that in the first inning. After that the Doctor held the Innitou to 5 scattered hits in total, while Corbett, the twirler for the Innitou was belted for 16 wallop. In every sense of the word, the game was like taking candy away from infants as far as the All Woburns were concerned.

McMahon struck out 5 men and got three hits, and individually played a good all round game. The summary of the game:

There will be a bungalow trolley party this evening at Pinehurst Park, Billerica in the new bungalow. The social is under the direction of Healey's Harmony Orchestra of Lowell. Cars will run from Woburn and also from Lowell every half hour. A good time is assured everyone attending, especially as the floor of the bungalow is one of the very best in New England. The admission is nominal and a good attendance is expected.

The regular Friday evening assembly with McCall's orchestra furnishing the music and cars to Stoneham and Woburn after the dancing, will be held at the Pavilion, Montvale, tomorrow evening. A good time is assured all who attend.

FACTS and FOLKS

Last evening the 5th annual trolley party of the A. C. club was held at Revere beach.

Court Isabella 156 of Woburn Daughters of Isabella will hold its regular meeting this evening at 7:30 p.m. A lecture will be a feature of the evening, following the business session.

Librarian George H. Evans is attending the American Librarian's Association Conference at Hotel Kaaterskill, Catskill, N.Y. He will be gone for the balance of the week.

The Russell class of the Baptist Sunday school will hold a picnic at Canobie Lake, N.H. on July 8, having chartered a special car.

The Ladies' Aid Society of the Methodist church will give a salad and strawberry shortcake supper in the vestry of the church Thursday evening at 6:30 o'clock.

The Philathea class of the Methodist church will hold a children's costume social at the home of Miss Louise Turner on Hillside avenue, Friday evening of this week.

This evening there will be a concert in the Swedish Lutheran church which is situated near the Armory. A good program is prepared and a large attendance is expected. All wishing to go are welcome.

This evening the Ladies' Auxiliary of Charles Bowers Winn Camp, 66, S. of V. will exemplify the ritualistic work of the auxiliary at a meeting to be held in the S. of V. hall. All members having a part in the work are requested to be present. The meeting will be called at 7:15 p.m.

The Loyal Temperance Legion, Daniel March Chapter, of this city will meet this afternoon in the Baptist church vestry for its regular meeting, at 4 o'clock. At this meeting there will be arrangements made for holding an outing some day next week and it is desired to have as large an attendance as possible.

This evening at the salad supper of the Ladies' Aid Society to be held at the M. E. church there will be a demonstrator from the S. S. Pierce Company of Boston who will give an attractive demonstration of "Mount Vernon" coffee.

The Ward Seven committee of the St. Charles Field Day association held a very successful whist and dancing party last evening in the St. Charles Parochial school hall. The affair was in charge of Mrs. Michael Collins and Mrs. P. H. Doherty.

Miss Charlotte Lowell of the High school teaching staff leaves this morning from New York for a trip to Porto Rico. She and her sister from Somerville will spend the whole summer at the home of her brother who is situated near San Juan, and she will return the first of September.

The Ward three committee of the St. Charles Field Day will hold a novelty party in the Parochial school hall on the evening of June 30. On the following evening the Ward four committee will hold a whist party and dance in the same hall.

"WHEN THE SHAMROCK WON"

Knights of the Sacred Heart will Present Irish Play Tonight

The Knights of the Sacred Heart will present another of their favorable dramatizations to the Woburn public this evening when they will stage in the St. Charles Parochial school hall the Irish drama, "When the Shamrock Won". These amateur Thespians have already made an enviable reputation for themselves in the eyes of the local people and their work is sure of recognition.

The play tonight is one of more than usual interest and provides much merriment and also several situations where the dramatic abilities of the actors are called upon for strong support to the lines. The cast is as follows:

Richard Warren, an English Squire, John P. Doherty His Son, Albert, a bank clerk, and Ruth Green's fiance,

Edward Begley James Carton, a penniless adventurer, Leon Fay

Charles Greene, Albert's friend in love with Martha Warren, Harold Tracey

Dinny Malone, the Warren coachman and Molly's fiance, Martin Kelley

Robert Griffin, the bank resident, Joseph Schiavino

Larry, the under coachman, George Finn

Mrs. Sarah Warren, Richard's wife, Agnes Manning Their daughter, Martha, Agnes Callahan

Ruth Greene, a neighbor, Agnes Doherty

Ethel, her sister, Pauline Bonin

Charity Cheever, who just loves to talk, Elizabeth Doherty

Molly, the Warren maid who adjusts all difficulties, Margaret McKittrick

Farmhands at Green's

Leo McDermott Albert Ring

Thomas Carney, Hugh O'Rourke

NEW THOUGHT PROGRESSIVE LEAGUE MEETING

Mrs. Mary E. Bedford, secretary of the New Thought Progressive League will speak at the home of Mrs. C. Walter Gilbert, 120 Montvale avenue, Woburn, Wednesday July 2. The meeting will be held promptly at three o'clock. The subject of the speaker will be "Aspiration and the Way of Attainment." The league extends a cordial invitation to all those who are interested, and its friends.

Time works quick changes in the growing girl. Pig-tails and short skirts are soon forgotten in the maturer charms of the debutante.

Sometimes though you will ache for a picture of her just as she romped in from school or play.

Think how she would like one too, in the after years—to show her friends and possibly her children. Make the appointment while the thought is fresh in your mind.

The Annual meeting of the Corporation of the Woburn Five Cents Savings Bank in the City of Woburn, Mass., will be held in the Banking rooms on Friday, July 4, 1913, at 7:30 o'clock p. m., for the election of officers and the transaction of such business as may legally come before the meeting.

Carl W. Jaquith,
Clerk.

CIERRI-BALESTRANE

John Cierrri of 13 Washington avenue, and Ethel Balestrane of 11 North Maple street were married last evening at the St. Charles parochial house by Rev. Walter A. Feegan. Elizabeth D'Orsay was bridesmaid and John Assaro was best man. A reception followed at the Paladino villa on Main street, North Woburn.

With the present weather conditions favorable, the Friday evening assembly in the Pavilion at Montvale this evening will probably draw a large crowd.

The Pirates and the Marathons will meet tomorrow afternoon on Library park in the semi-finals of the July 4th baseball series. Which team will produce the goods?

At quarter before eight o'clock this evening at the First church the Preparatory service will be held. All members are requested to be present. The service was postponed from Wednesday evening because of interest in the High school commencement.

BURGLARS BREAK OPEN HOUSE IN WINCHESTER

Everett Avenue Home Entered
and Rooms Ransacked

Burglars have been busy again in Winchester. A house on Everett avenue owned by Mr. Gilson was broken into some time Monday or Tuesday night the break having been discovered Wednesday evening by carpenters in the employ of George H. Hamilton. They were working on the piazza of the house and noticed a pane of glass broken and notified the police. Officer McCauley was sent to investigate and found that the thieves who had entered by a concealed window underneath the piazza and had secured an axe from the cellar, smashed the door at the head of the stairs and had turned everything upside down in the house.

The Gilson family are in New Hampshire so that it is impossible to tell how much was taken until their return. Chief of Police McIntosh who with Officer McCauley looked the place over yesterday morning think the burglars are from this locality as a house on La Grange street was broken into about the same time, the people also being away which causes him to think that it was some one well acquainted with the neighborhood. Up to this morning the Police have no clue as to who the thieves were in either of the breaks.

WOBURN GIRL WINS GOLDEN AWARD

Miss Alice Lux of Lynn street, a graduate of the Woburn high school, class of 1912, was awarded the gold medal for superior penmanship in Burdett's college, Boston yesterday. This is only another case of where the Woburn high school young ladies and men forge to the front in school and business life.

Miss Lux was a very apt pupil in school and is a very popular girl, in school and social life, being soprano soloist of excellent ability. The JOURNAL offers its congratulations to Miss Lux for bringing this honor both to herself and to the city.

MEETING OF JULY 4TH COMMITTEE

I. C. C. TO HOLD ANNUAL
SMOKER AND SOCIAL

John Finn, the local theatrical manager will furnish talent from the Orpheum circuit for the Innitou Canoe club when it holds its annual club smoker and social in the club house on the evening of July 3.

The talent will consist of four big acts of the best vaudeville to be obtained, headliners from the circuit of which he is a member. The occasion is the annual "Night before" entertainment for which the Innitou Canoe Club is famous.

The committee in charge: Frank Sawyer chairman, has arranged an excellent and varied program which will be sure to please the members of the club and their friends who attend.

W. C. T. U. MEETING

The W. C. T. U. will hold an open air meeting at the home of Mrs. Annabelle M. Brown, 154 Salem street, Monday afternoon, June 30, at 3 p. m. After the regular business session an address by Mrs. Ella Gleason, president of Suffolk County W. C. T. U. will be given. Each member of the union is expected to come and bring a guest and a large attendance is expected. From 4 to 5 p. m. the union will entertain the children of the Daniel March Chapter of the Loyal Temperance Legion. There will be refreshments served and games and sports

played.

SENDS HIS REGRETS

Congressman Murray Unable to
Attend Woburn's July Fourth
Exercises

Albert B. Penney, commander of the local Spanish War veterans received a telegram yesterday from Congressman William F. Murray who had been invited to attend and participate in the exercises to be held here on the afternoon of July 4th, in connection with the setting of the cowl of the unfortunate battleship "Maine" in place on the Common. Congressman Murray states that he will be unable to attend. His message reads as follows:

Washington, D. C. June 26, '13
Albert B. Penney,
Woburn Mass.

Cannot be in Woburn July 4.
Letter follows.

(signed) Wm. F. Murray.

With the receipt of the message from Mr. Murray, Commander Penney immediately "got busy" and communicated with William F. Dusseault of Lynn, who is the National Chaplain of the Spanish War Veterans. Mr. Penney is endeavoring to have Mr. Dusseault come to the exercises as the latter is an excellent speaker with a reputation of some note. He has received no definite answer from him yet.

As chairman of the committee in charge of the affair, Mr. Penney reports that the plans of the day are progressing rapidly.

Some very talented speakers have been secured for the day and the program will excell any other ever produced in this city for any public occasion. Invitations have been extended to various military organizations throughout the state and most of them have been accepted. There will be delegations of Spanish war veterans from Haverhill, Lowell, Boston and other cities besides the representations from the different companies of the Massachusetts Volunteer militia.

WALTER M. FRENCH SIGNALLY HONORED

Reception and Gift Tendered
Him Last Evening as Token
of Esteem

Walter M. French, son of retired officer and Mrs. Austin G. French of this city, and who resides in Roxbury was the recipient of an unusual expression of the regard and esteem in which he is held by his friends last evening at his home when he was tendered a reception given by his lodgemates.

Mr. French recently was elected Associate Grand Patron of Massachusetts Order of the Eastern Star. He is a member of the Boston Chapter and in recognition of the honor which he had been given, the lodge to which he belonged planned the banquet and reception.

The social function was very important in Masonic circles and was held at his home 15 Maywood street, Roxbury. Over 300 friends and fellow members of the lodge gathered to partake of the banquet which was served at 7 o'clock. The reception followed at 8 o'clock, speeches being made by the various grand officers of the lodges who were present. As the evening progressed, Mr. French was drawn aside and in a few words was presented with a large and valuable ruby ring by the officers of the Boston lodge as a token of the love, regard and esteem in which they held him.

Mr. French was more than surprised, and when able, expressed his gratitude and thanks. Among those present were Mrs. Hartley J. Tarr, Miss Ida Graham and Mr. and Mrs. A. G. French of Woburn.

Surprised Ourselves

When we first started making Ice Cream at our store we immediately saw there was going to be a big increase in our business so we added one more to our working staff. Well we have certainly been surprised ourselves at the tremendous increase in our sale of ice cream, for while we have been making our cream only four weeks, we have been compelled to add two more to our original staff to take care of this increase in business. In fact, on Saturday and Sunday we employ a third extra man, this making eight people in our store on these days.

There is plenty good reason for this increase in the ice cream business and if you have not tried our cream then you are missing a treat.

Other attractions at our fountain are: Fruitade, a long cool drink with cracked ice 5c. Cheer All 5c. Grape Fruit Phosphate 5c.

If you are not one of our soda fountain customers then you don't know why this remarkable increase in our business. But it is plain there must be a good reason. Investigate yourself.

SITTING ON DYNAMITE

The McNab explosion in California illustrates anew on what uncertain ground a national administration stands at all times. A week ago President Wilson knew nothing of the Caminetto-Diggs white slave indictment. The postponement of the trial of the defendants may have been the most innocent and well meant act on the part of Secretary McReynolds. But behold, in a minute the papers of the country filled with caustic communications between officials and direct and veiled charges of far reaching public scandal. The chances are that Dist. Atty. McNab is scoring for political position, that Secretaries Reynolds and Wilson considered that they were disposing of only a routine item of their daily business, but sensational journals are ever ready to appreciate and seize upon a situation which offers material for attracting nation wide attention. Their readers are sensitive and not given to much thought or investigation. They accept headlines for facts and stop there. On its face, as the papers present the case, the situation presents an ugly appearance but it is too soon to pass judgment. There is a striking resemblance between this case and the Ballinger affair which wrecked the Taft administration. The president stood by his cabinet officer as President Taft stood by Ballinger. In the end Ballinger had to go, though it is undoubtedly true that he had done nothing at all to his discredit. Public officials big or little have to handle packages which on the surface appear harmless but which explode when opened and disfigure the innocent.

THE PUBLIC SERVICE COMMISSION

Governor Foss has scored in his selection of the members of the Public Service commission provided for by the Washburn Bill passed by the last legislature. Nobody can justly criticize his appointments. By the terms of the bill the three members of the railroad board are continued. The new members are George W. Anderson and George P. Lawrence. The former is a very able, rather radical, but entirely honest Boston lawyer, a democrat. The latter has been in Congress for many years from the Berkshire district and is one of the best men Massachusetts has sent to Washington. His retirement last year was on all sides regretted. He has been urged as Republican candidate for Governor but would not listen to the suggestion.

The only criticism of the Governor in this action comes from Mayor Fitzgerald who says the four republicans would have been appointed if the law had permitted. The fact that the board as constituted does not please "Fitz" counts much in its favor.

The Governor has all parties guessing as to his plans about seeking a "fourth piece of pie." Probably he is in doubt himself. His vetoes of important measures which the legislature overrode have all helped him with the people and he knows it. His appointments are almost wholly creditable. He is now seeking ex-Governor Crane for the State house commission. His taste for "pie" has been gratified every time, he has reached for a piece with a democratic fork. His political digestion is good. If he is refused the use of this fork again he may use one of his own making, get the pie, swallow it and find it agrees with him.

OH! FOR THE GOOD OLD WAY

It may be heresy to say it, but there is a considerable number of people, who are not, to employ the vehicle of slang, "stuck on" the plan of many modern graduation exercises. They sigh for the good old way, when they were proud members of a graduating class, or later were the prouder parents of a graduating girl or boy.

Nowadays one hears a group of musical selections, a couple of essays—the salutatory and valedictory—and an address by some savant more or less distinguished. Then follows the distribution of diplomas, the stereotyped handshaking, and then everybody goes home. All well enough so far as it goes, but it does not satisfy the contingent that is wedded to the good old way.

They recall when Susie and Maud and Imogene, and Amos and Obadiah and Algernon stood forth bravely and told the auditors how to run the world. They recall when graduation day meant the presentation of the salutatory, the history diarizing the four years of class life, the prophecy with its oft-times ridiculous and therefore funny prognostications, half a dozen essays upon as many different themes, capped by the words of farewell uttered by the valedictorian. There was no oration by outside talent, nothing but the home product. Crude possibly, lacking in oratorical finish probably, but it was nevertheless the work of "our boy" or "our girl." There was an element of homely sentiment in it, a touch of humanity, a bit of personal equation that gave it a flavor like the pies that mother used to make.

When these things were done in the good old way, every man and woman in the audience whether parent or simply a friend of the school wended their way homeward feeling that they had had a sample of what the scholars were able to do in the way of English composition, and declamation, and the scholars who had thus taken part thrilled with the pride of the participation.

All of which contains a large amount of horse sense. It is a question open to argument, whether the modern method of "letting George do it" is any improvement over the good old way.

PLANNING BOARDS FOR CITY DEVELOPMENT

Several cities and large towns have taken steps to create a planning board under the provisions of the statute made and provided for the purpose. The important sections of the law are:

Section 1. Every city of the commonwealth and every town having a population of more than ten thousand at the last preceding national or state census, is hereby authorized and directed to create a board to be known as the planning board, whose duty it shall be to make careful study of the city or town, particularly with respect to conditions which may be injurious to the public health or otherwise injurious in and about rented dwellings, and to make plans for the development of the municipality with special reference to the proper housing of its people. In cities, the said board shall be appointed by the mayor subject to confirmation by the council, and in cities under the commission form of government, so called, the members of the board shall be appointed by the governing board of the city. In towns the members of the board shall be elected by the voters, at the annual town meeting.

Section 2. Every planning board established hereunder shall make a report annually to the city council or governing bodies in cities and to the annual town meeting in towns, giving information regarding the condition of the city or town and any plans or proposals for the development of the city or town and estimates of the cost thereof; and it shall be the duty of

every such local planning board to file a copy of all reports made by it with the Homestead commission.

Section 3. The Homestead commission, created by Chapter 607 of the Acts of the year 1911, is hereby directed to call the attention of the mayor and the city government in cities and the selectmen in each town having a population of more than 10,000 at the last preceding national or state census to the provisions of this act in such forms as may seem proper; and said commission is furthermore authorized and directed to furnish information and suggestions from time to time to city governments and to the selectmen of towns and to local planning boards, when the same shall have been created, such as may, in its judgment, tend to promote the purposes of this act and of those for which the said commission was established.

Section 4. The city council or other governing body in cities is authorized to make suitable ordinances and towns are authorized to make suitable by-laws for carrying out the purpose of this act and they may appropriate money therefor.

The Cosmopolitan Conference at Northfield

Twenty-five Nations Represented and Great Interest Manifest

Never in the history of student conferences at Northfield has there been a more cosmopolitan gathering than this year. 85 nations are represented and at one service alone 13 delegates spoke from as many countries. The American and Canadian delegates from 100 schools and colleges have been deeply impressed. Baron Nicolay of Russia gave high praise to John R. Mott, the chairman of the conference, to whom he attributed the student movement in Russia and claimed that it was the only means of regenerating the nation. Secretary Waller of the Irish movement said their great increase was due to the American advance which is led by Mr. Mott. The enthusiasm all along the line is high and everything points to a rapid advance of the student movement among all nations.

The delegates are having over twenty meetings daily, including mission and Bible study with two platform addresses. All the afternoons are given up to athletics and everyone of the 600 delegates is supposed to be in something. The baseball series takes up all the delegates from some delegations, 150 are in the tennis tournaments, and entries have been opened for the track meet. The conference closes Sunday.

NAME OF TENNIS CONTESTANTS ANNOUNCED

(By United Press)

New York, June 25—Officials in charge of naming the team which is to meet the winner of the Franco-German contests for the Davis Tennis Cup, today announced that the same men who recently defeated the Australians on the West Side Tennis Club courts would comprise the American team. They will be Maurice E. McLoughlin and Harold Hackett in the doubles and McLoughlin and R. Norris Williams in the singles. By the rules of the competitions the names of the American team had to be formally announced today.

Section 2. Every planning board established hereunder shall make a report annually to the city council or governing bodies in cities and to the annual town meeting in towns, giving information regarding the condition of the city or town and any plans or proposals for the development of the city or town and estimates of the cost thereof; and it shall be the duty of

COMMUNICATION

To the Editor of the Woburn JOURNAL:

Under the Direct Nomination law of 1911, the field of opportunity has been so broadened that before the voters begin to think of the fall State elections, candidates for nomination announce themselves. Whether or not there is anything left of the old theory or practice that the office should seek the man, it is very certain that in a given district there is no lack of volunteer candidates of that party which customarily carries a majority. There is now no convention system. There is no choosing of delegates to a convention theoretically to consult together and search for a candidate. And therefore we see aspirants making voluntary entries as in athletic contests. This may be well. It gives the voters a chance to see who come forward and if the voluntary entries do not suit, the voters themselves can get together and seek out a man of their preference.

I now make announcement through your columns of my candidacy for Republican nomination for Representative in the General Court for the Twentieth Middlesex Representative District at the primaries to be held September 23, 1913.

I hope I am right in assuming that the people of Woburn know my record and can as well judge now as to whether I am of sufficient calibre to justify an ambition to be a representative in the general court as they could after a setting out in more or less detail of such qualifications, as from the very fact of this announcement I am bound to think I possess. At all events my friends know me; they will know whether or not they desire to push along my candidacy and upon their judgment, better than my own, I rest.

Very respectfully,
Samuel W. Mendum
16 Arlington road

SUMMER SCHOOL FOR POLITICIANS

(By United Press)

Columbus, Ohio, June 27—Secretary of State Charles H. Graves this month will open and take personal charge of the largest summer school in politics in America. He will have on his list of enrolled students the 1,200,000 voters of the state of Ohio. His task will be that of conducting a course by mail on how to vote on the initiated and referred measures that come before the voters of Ohio next fall. To do this effectively he has been given an appropriation of \$50,000 by the people of the state.

Not only will Secretary Graves instruct the people on their rights and privileges in the fall election, but he must also, with rigid fairness and impartiality, see that each voter is given every opportunity to study fully both sides of every measure that is to be submitted to the people for approval or rejection. He must mail to every voter pamphlets containing the arguments advanced in favor of each submitted measure and at the same time mail a pamphlet containing the arguments against the measure as drawn up by the foes of the bill.

Already Secretary Graves' preliminary duties in this course of political study are far from light, and the period of the submission of referred measures has not yet arrived. As it stands he must see that the Ohio voters are properly instructed on the merits of four constitutional amendments, providing for different forms of the "short" ballot, one for the exemption of public bonds and another making women eligible for certain state positions. Besides these two other amendments, one calling for a classification of the general property tax and another for a smaller general assembly are now being initiated and will be submitted within a few weeks.

SHERIFF'S SALE

Middlesex Co., Woburn, May 5, 1913.

Taken on execution, and will be sold by public auction on Saturday, the twenty-eighth day of June, at the ninth o'clock a. m. at my office in my dwelling house, No. 105 Main Street, in Woburn, in said County of Middlesex, all the right, title and interest of Charles Woodman and Mary Weston, both of whom were held not exempt by law from attachment or levy on account of the ninth day of January, A. D. 1913, at \$1000, and thirty minutes 1/2 M., the time the same was attached on my property, and the following described real estate, to wit:

A certain parcel of land with a dwelling house thereon, situated in the town of Middlesex, in Woburn, in the County of Middlesex and Commonwealth of Massachusetts, bounded and described as follows: Beginning at the Southwest corner of the greater part of the line running North, on a line running North and South, one hundred and fifty (150) feet to a line parallel to said Main street; thence turning and running North, on a line parallel to the line first named (150) feet to said Main street; thence turning and running South, on said Main street one hundred and fifty (150) feet to the point of beginning. Containing two acres more or less.

JOSEPH H. BUCK, Deputy Sheriff.

NOTICE

We have about 10,000 Potted Bedding Plants, including Geraniums, Salvias, Ageratum, Coleus, Heliotropes, Petunias, Verbenas, Admerianthus, Asters, Sweet Geraniums, Ivy Geraniums, Periwinkles. Also in baskets, English Daisies, Forget-me-nots, Pansies, Tomato Plants, etc.

People with these names would make a large exchange if grouped by themselves. It would be pretty nearly as large as the Waltham exchange, twice as large as Wakefield and nearly four times as large as Needham.

This indicates that the Smiths, Browns and Jones are really a prosperous lot and recognize the value of telephone service. But as there are over 3000 Smiths in the Boston city directory the field for development in this one family alone is large.

About 212,000 copies of the

summer edition have been printed, each containing 424 pages, a total of

nearly 100,000,000 pages for this one issue. The book contains 35,000 changes, including removals, additions and corrections, and has about 13,000 names of subscribers, about 9000 more copies than the winter issue.

It will take six days to deliver these books, according to the following schedule:

June 25, 1913—Central District Exchanges, Hull and Boston hotels.

June 26, 1913—Revere, Winthrop, Weymouth, Quincy, South Boston and Arlington.

June 27, 1913—Everett, Newton North, Brighton, Woburn and Norwood.

June 28, 1913—Dorchester, Chelsea, Hyde Park, Malden, Melrose, Newton West Somerville, Waltham, Charlestown, East Boston, Cottenham, Lexington and Needham.

June 30, 1913—Everett, Newton North, Brighton, Woburn and Norwood.

REHEARSE WRECK

ENGINE 1338, DUPLICATING STAMFORD COLLISION, PASSES SAFETY MARK, THEN COLLAPSES

SENT BACK TO ROUNDHOUSE

Worked Well on Early Test in Hands of Veteran Engineer, But Not at End—Doherty Too Young to Drive Passenger Engine, Says Expert.

Stamford, Conn., June 18.—The New Haven railroad's extraordinary test of its brakes by repeating again and again the run of the Boston Express which crushed the last car of its sister train and killed six persons near the Stamford station last Thursday, came to an astonishing climax.

Guided and braked by a strong and time-tried engineer as the road thinks young Charles Doherty should have guided and braked it on that disastrous day, this phantom train was so responsive that it stopped hundreds of feet from the place of the wreck. But when the brakes were applied exactly as Doherty swears he applied them the train not only dashed to the spot where the parlor car Skylark was mashed on Thursday but went 225 feet beyond it. Had a train been standing there then five cars instead of one would have been wrecked.

Moreover, in the last run, the air-braking system of No. 1338, the battered locomotive which rammed the "Skylark" and which was wheeled out of the repair shops to pull the same cars that were behind it on Thursday, broke its air brake machinery in the last test and hobbled off to the roundhouse for sharp examination. It was of these brakes that Doherty wrote "No good," in the roundhouse book several days before the collision.

In advance of the reports of the coroner the airbrake experts from other railroads and the inspectors and engineers of the Interstate Commerce Commission and the Public Utilities Commission of Connecticut who rode the train and watched every symptom, there can be no conclusive official comment on the tests. But it can be said that the New Haven Railroad believes it has proved two things: First, that the brakes worked properly when properly handled; second, that Doherty did not use them in the manner that he should have done.

An airbrake expert from another road who sat beside the engineer on every trip says this:

"No engineer who used his brakes as Doherty did; who failed to apply them until he had reached the distance signal and then exhausted his air supply a little at a time until he had none left for 'emergency' could have averted the wreck. Any engineer who handled himself as McConville did would have got through safely. That was proved today, in my opinion. It was also proved that the air brakes worked stiffly, and on the last run something went wrong with them. But it seems to me that the most important point is this: No man should be permitted to run a passenger engine without, from three to five years' service as a freight engineer. Doherty ran freight trains one year and three months."

AUTO CRASH KILLS BANKER

His Wife, Mrs. Junius S. Norton, Fatally Injured Dying on Way to Hospital.

Meriden, Conn., June 18.—Junius P. Norton, president of the Home National Bank, and his wife were killed when a runaway brewery truck, zig-zagging down a hill, crashed into their motor car in Southington road, Hubbard Park.

The banker's head was crushed. Death was instantaneous. His wife suffered a fractured skull and died while being taken to the Meriden Hospital.

W. S. Dudley, a friend of the Norton family was driving the car at the time of the accident, and his wife was with him. They were not badly injured.

MEAT ON PURE FOOD LIST

Exemption Clause Revoked by Wilson Cabinet Order and Department of Agriculture Can Prosecute.

Washington, June 18.—A long step was taken toward insuring to American consumers pure and wholesome meat and meat food products in the extension, by executive order, of the pure food and drug act so as to include meat and its products.

Hereafter the Department of Agriculture will have full jurisdiction over meat and meat products, with the right to seize and destroy.

Heretofore, after meat has passed out of the packing house, the government has lost all jurisdiction over it.

FARMERS' LOANS CLOSE BANK

Illinois Cashier Says He Can't Get Interest in Many Cases Because of Agricultural Depression.

Bunker Hill, Ill., June 17.—Depositors of Bect Brothers' and Company's bank, which closed, held a meeting. J. H. Bect, cashier of the bank, which was established in 1884 said:

"The condition of the farmers in this community is such that I cannot realize on loans, and in many cases cannot get the interest that is due."

R.R. RATES UPHELD

SUPREME COURT DISPOSES OF "MISSOURI CASES" IN ACCORD WITH MINNESOTA FINDING.

"JIM CROW" LAW IS VALID

Low Rates Confiscatory as to Some at Present—Light Shed on Physical Valuation of Railroad Property—Supreme Tribunal Adjourns.

Washington, June 17.—Following the principle laid down by Justice Hughes in the Minnesota rate cases, the Supreme Court disposed of 14 others separate rate cases nearly all of them in favor of the states.

The cases decided involved the actions of the state authorities in Missouri, Arkansas, Oregon and West Virginia in fixing 2-cent passenger or other rates. In only three of the 14 separate cases disposed of were the state made rates condemned as confiscatory. Counting the Minnesota cases decided last Monday, the rates fixed by the state commissioners or State Legislatures in only four cases out of 17 have been overruled on the ground of being confiscatory.

The decisions laid down no new principles except in the additional light thrown on what the Supreme Court regards as the proper way of making physical valuations of railroad properties.

The court held that it was perfectly legitimate and proper for a State Legislature to classify any or all railroads for the purpose of valuation and assessment. There was no limitation to a State's right in that respect. The only handicap imposed was that the rates fixed must not be confiscatory.

Extends "Jim Crow" Rule.

Washington, June 17.—The civil rights law which was passed by Congress in 1875 and which provides penalties for discriminating against persons of color was held to be unconstitutional by the Supreme Court. This means that street railway lines in the District of Columbia, steamship companies and other corporations operating exclusively in Federal territory or in states where there are no laws to the contrary will be able to adopt Jim Crow regulations.

Mary F. Butts, colored, purchased a round trip ticket which entitled her to a first class passage over the Merchants' & Miners' Transportation Line between Boston and Norfolk. After the trip she sued for damages under the Federal civil rights law alleging a dozen specific acts of discrimination.

The Supreme Court decided that the Federal Government was not financially responsible for the flooding of plantations on the Mississippi as the result of levee construction. Efforts were made to hold the Government responsible for the value of the lands flooded, in all about \$7,000,000, involving more than 100 plantations.

In an opinion by Justice Van Devanter the court held that a statute passed by the State of Kansas fixing a maximum freight rate for the transportation of crude petroleum and oil products was unconstitutional on the ground that it is oppressive and arbitrary.

The Court adjourned until October without announcing a decision in the intermountain case or passing on application for the review of the Gompers-Morrison-Mitchell contempt of court case.

THE NEW CURRENCY BILL

The Main Features of the Administration Currency Bill Are as Follows:

1. Twelve regional Federal Reserve Banks.

2. Central control through a Federal Board of seven members, including the Secretary of the Treasury, the Secretary of Agriculture and the Comptroller of the Currency, who shall be members ex-officio, and four members chosen by the President and confirmed by the Senate.

3. Proposed new Federal Reserve notes limited to \$500,000,000.

4. Security for these notes may be government or State bonds, or approved commercial paper.

5. National bank depositories to be suspended by the Federal Reserve Banks.

6. Board of Control given authority to fix rates of interest.

7. Headquarters of the Federal Reserve Board to be situated in Washington.

8. Authority given to country banks to lend money on farming lands.

9. Provision for banks of \$1,000,000 or more of capital to establish branch banks in foreign countries.

CURES STOMACH CANCER

Dr. Mayo Says Disease Yields to the Knife—Favorable Diagnosis Can Be Established by Simple Methods.

Minneapolis, June 19.—"Cancer of the stomach is a curable disease," said Dr. William J. Mayo, of Rochester, Minn., speaking before the American Medical Association at the University of Minnesota.

"A favorable diagnosis can be established by simple methods," he asserted. "A history of gastric disturbance precedes cancer in a large number, if not the majority of cases. Operations for cancer of the stomach should begin as an exploration."

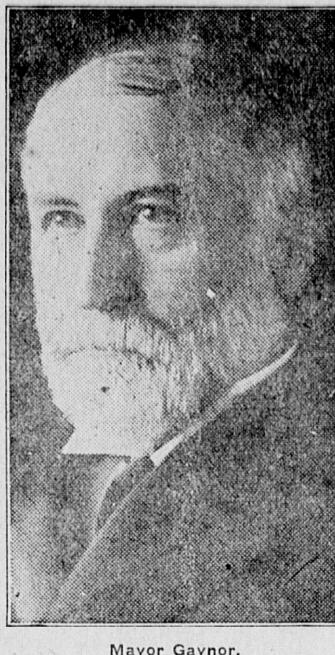

WANT HUSBANDS, NOT VOTES

Mayor Gaynor Explains Militancy—Not Enough Men for All, Fair Sex Desperate.

New York.—Women become militant suffragists because they have no husbands, and for that very reason there is no need of apprehension in this country of the bomb-burhing and window-smashing type of vote seeker, according to Mayor Gaynor. These and other sentiments on the subject of votes for women were expressed by the mayor in an interview he gave at city hall.

The mayor believes that if all the women make up their minds they want to vote they will vote, and the men may as well understand it first as last. But the great weakness of the women's cause is that they do not all stand together. Some of the mayor's trenchant remarks on the question are:

"There are lots of men who should not have the vote. I know a distin-

Mayor Gaynor.

guished man who said only damned fools vote, and he is a high state offi-

cial.

"I am willing to let all the women do all the voting and let the men tell them how to do it. Is there any suffragette in the world who would not give up her principles for a nice man?

"In Great Britain there are about 1,500,000 women who have no men and they are rather desperate." As soon as every woman has a man, the women go to be very peaceful. I do not blame the women for getting mad. They ought to tear down all England. But voting will not get them husbands and they will be as bad off as ever.

"I feel both jolly and bulky about the subject of equal suffrage. But we certainly do not want to bring any new source of discord into the household.

"The political result would be the same (with all women voting) in this country. The women would say 'Let father attend to this matter; it bothers our little heads too much.'

"The English suffragettes who are committing crimes would be locked up here. The men, whether policemen, judges or jurymen, do not like to hurt the women, and that is the weak point in the case."

The mayor said that he was quite willing to classify himself as a suffragist.

KALI A FAMOUS GOD OF WAR

People of India Worship Idol Shown at the World in Chicago at the Coliseum.

Chicago.—Kali, the original god of war, of whom there is a likeness at the World in Chicago at the Coliseum, is one of the most famous of the 300,000,000 and more gods that India possesses.

Kali is famous, and justly so, accord-

ing to Rev. H. A. Musser, a missionary of India. Around his neck and hanging to his knees in front is his necklace of human skulls. In an uplifted hand he holds a dagger.

"This is just an illustration of the idol worship of the orient," said Rev. Mr. Musser, "and while it seems strange that people will turn their worship to such hideous, inanimate objects, yet right in that act centers the greatest difficulty that Christian missionaries have to face in making their world-wide religion."

The World in Chicago, which has been occupying the Coliseum and the Auditorium for the last four weeks, is now in its last week, it being officially announced that both the Pageant of Darkness and Light at the Auditorium and the exposition at the Coliseum will be open for the last time Saturday night.

She's 100; Never Wore Hat.

Somerset, Pa.—Mrs. Mattie Crise, who is one hundred years old, received the well wishes of more than 1,500 residents of this county in her home, ten miles from here. For one hundred years Mrs. Crise lived in the same place and in that time never saw a railroad train, street car or a telephone. She never wore a hat, a knitted hood taking its place.

Declare Hell a Myth.

Hot Springs, Ark.—Hell and Hell fire are myths in the opinion of members of the International Bible Students' association who are holding a convention here. They ask ministers to discard the "offending words."

GOLD, SILVER AND LEAD IN WASHINGTON

Production of Gold, Silver, Copper, and Lead in Washington in 1912 Passes Output for 1911

The value of the mine production in gold, silver, copper, and lead of Washington in 1912, according to C. N. Gerry, of the United States Geological Survey, was \$1,120,214, compared with \$1,056,017 in 1911 and \$968,249 in 1910. The increase was due principally to the marketing of copper ore from Stevens County.

The gold production was valued at \$680,964, nearly the same as was given in the preliminary press bulletin in January, or \$166,713 less than the output of 1911. The decrease was due to the fact that less ore was shipped from Republic, where material was stored awaiting the completion of two new cyanide mills.

The silver output increased from 243,781 fine ounces in 1911 to 413,538 fine ounces in 1912, an increase of over 69 per cent, largely from the Chewelah district, in Stevens county. Ore from this district also increased the copper output from 318,207 pounds in 1911 to 1,086,010 pounds in 1912. Better prices were received for both copper and silver.

There was a decrease of 721,197 pounds in lead output, making the total 127,387 pounds in 1912, and no zinc ore was marketed.

The total ore sold or treated

aggregated 94,981 tons in 1912, an increase of 12,676 tons. In 1911 most of the ore was shipped directly to smelters, but in 1912 gold and silver mills treated 21,312 tons, concentration mills 7,680 tons, and the remainder, or 65,989 tons, was shipped to various smelters.

Of the productive mines, 34 were deep and 12 were placers. The Republic district, in Ferry County, had an output of gold and silver valued at \$868,971, and from the Chewelah district, in Stevens County, ore was shipped valued at \$300,474.

4TH OF JULY SPORTS

Two Mile Run (Boys)
Sidney Buckman, George Sargent, George Dulong, John Sheridan, Clifford Blaisdell, J. Ferrullo, Coleman Kennedy, William Brennan, Gerald Moreland, William Gaffney, Joseph Bonin, Arthur Mohan, Joseph Snider, Anthony Colucci, James Ross, L. McManus

ALPHA-OMEGA

Alpha Omega, the high school publication, issued by the graduating class, has made its appearance and is a splendid number, with well written editorials, stories, sketches, humorous paragraphs, and with full page half tone cuts of the editorial and managerial staff, the Battalion officers, and the baseball team; also photos of the class officers, editor and business manager, and pen and ink sketches by members of the class.

The cover is embellished in gilt, the class colors being blue and gold, and the book being printed on a high grade enameled paper. Altogether it is one fine issue, and a credit to the class and the staff of editors and business managers.

The books can be had at the JOURNAL office or at Moore & Parker's.

Signs Can Be Seen From Afar.

Experiments in France with huge signs to be displayed on the roofs of buildings for the guidance of aviators have shown that signs made of silvered glass balls, set in a black background, can be seen the greatest distances.

TALKED ON PANAMA TRIP

Rev. Fr. Keegan Entertained
Isabella Court D. of I. Last
Evening

Isabella court 156 Daughters of Isabella met last evening in St. Charles school hall. Rev. James J. Keegan pastor of St. Charles church addressed the members of the order upon his recent trip to Panama. By a clever device he illustrated the working of the stupendous lock gates on the canal. He gave a graphic word picture of the Canal zone and of the adjacent country, and was warmly congratulated by his delighted auditors.

STORY OF A HERO

The medals and rewards of the Mass Humane society and the Carnegie society have been bestowed for acts no more heroic than that in which Willie Flaherty the 14 year old son of Patrick Flaherty of the H. and L. truck saved the life of Walter Ryder aged 12 at the risk of his own, a day or two since. The story gained currency yesterday through the medium of eyewitnesses, the modesty of the young hero keeping him from telling it.

The action of the rescuer was as prompt and intelligent as it was unconscious of self safety. The crisis precipitated itself. The exigency was there, the demand for help immediate. Young Flaherty saw his playmate sinking beneath the waters of the old canal a spot frequented by boys who love to swim. The Ryder boy was evidently a victim of cramps. He had sank for the second time, when Flaherty who was resting on the bank plunged to his rescue without removing a single article of clothing.

He reached the spot where Ryder had sunk from view, and diving caught him, and rose to the surface. Flaherty with a deathlike grip, threatening the loss of two lives rather than one.

Young Flaherty possessed not only courage, but presence of mind, and exerting all his strength struck the drowning boy with force enough to cause him to loosen his hold, and then he started shorewards with him. By that time the other boys took a hand and assisted the two ashore, where Ryder was restored to consciousness, but Flaherty, very quietly slipped away home for a change of clothing without a word of what he had done.

Of such stuff are heroes made. Simply, he saw his duty and did it, not looking for praise, not seeking any credit, a plain manly boy, All hats off to 14 year old Willie Flaherty.

—O—O—

IT WAS TOUGH.
"Will you give me a pie, madam?" asked the tramp, "If I saw ye some wood?" The woman agreed to the bargain, gave the man a pie and started him in the direction of the woodpile. In three minutes he was back at the door saying, "Madam, if it's all one to you, I'll eat the wood an' saw the pie."

—————
NORTH WOBURN
—————

Miss Florence Foster of Cambridge who has been visiting her sister Miss Nellie Foster of East Nichols street for the past few days returned home yesterday.

The American Roof Coating company has given the roof of the Catholic church in North Woburn a coat of asphalt. The company which is represented by Mr. Henry App Jr., is doing quite a business in North Woburn, a number of houses being finished in this way.

The old bakery which has been moved from its former foundations has been set up on its new site and will soon be converted into a house. The old site is being used for a garden.

Mr. John Hoag and family will leave for their summer home in Sandwich Centre, N. H. next Monday. They will make the trip in their automobile.

Mr. W. W. Hill and family will start tomorrow for their summer home in Bay View, Maine.

—————

HOLIDAY SCHEDULE

FOR JULY 4

Following the usual custom the Boston and Maine railroad has posted notices discontinuing on July 4, 1913, number of local trains into Boston in the morning and return trains in the afternoon.

In order to provide sufficient service some of the express trains will make local stops and those contemplating a rail trip should consult notices or make inquiries of ticket agents.

—————

TRINITY SUNDAY SCHOOL

PICNIC TOMORROW

The Trinity Episcopal Sunday school will hold its annual outing and picnic tomorrow at Lynn beach. The special cars leave Salem street at 9 a. m. and will be joined at Stoneham by the Stoneham Episcopal Sunday school. Mr. George W. Low, superintendent of the local Sunday school is in charge of the outing. A basket lunch will be taken, and a program of games and sports will be provided.

—————

UNWELCOME PRESCRIPTION.
An English doctor, recommending exercise to prevent nervous breakdowns, says: "If you are feeling stale and unprofitable and longing for some active exercise, you may obtain it by walking briskly up and down the stairs." Most of us, however, will continue to prefer to press the elevator button.

Time works quick changes in the growing girl. Pig-tails and short skirts are soon forgotten in the maturer charms of the debutante.

Sometimes though you will ache for a picture of her just as she romped in from school or play.

Think how she would like one too, in the after years—to show her friends and possibly her children. Make the appointment while the thought is fresh in your mind.

CLASS HISTORY AND PROPHECY

The final leaf in the history of the W.H.S. class of '13 was turned last evening when it entertained in Lyceum hall five hundred friends and well wishers. It was one of the prettiest class receptions ever held here. The hall looked very attractive. The proscenium arch was spanned by the Class Motto "To Conquer or to Die" in blue and gold. The orchestra was screened behind a hedge of towering ferns and palms. With this pretty background there was the tableau vivant of youth and beauty every eye alight with happy expectation, and the joy of youth. The young masters in seasonable flannels, and the young misses in dainty toilets made a picture of care-free existence, in which the excessive heat was for the nonce forgotten.

The JOURNAL prints below the full text of the class history and the class prophecy. In each the authors won signal honor by their treatment, and as the incidents of four years were reviewed, and as the eye of the seer pierced the future and what was to fall to each and every one was rehearsed, the class members caught the fun and voiced their appreciation heartily. In the case of the history, the historian, Miss Olive S. Barnum being the victim of a throat trouble and unable to speak aloud, Miss Elizabeth P. Hill volunteered to read the paper.

A reception followed, the receiving line comprising the four matrons Mrs. George W. Low, Mrs. Sarah S. Waterman, Miss Katherine D. Barker, Miss Virginia A. Conant. The class officers and aides acted as ushers. Refreshments were served. General dancing until 1 a. m. followed under the direction of President Harry E. Lawson, assisted by Mary G. Walsh, Florence Hopkinson, Mary Dunnigan, Frances Parker, Bertha Emery, Annie Doherty, Florence Elson, Hugh O'Rourke, Lawrence O'Connor, Joseph Schiavino, Martin Foley, Wilford A. Walker, Haven Sherburne, Elmer E. Silver Jr., Harold Tracy.

THE HISTORY OF THE CLASS
OF 1913

Olive Sabina Barnum

The mere mention of the date, September 9, 1909, probably does not seem suggestive of anything in particular to our many friends and relatives assembled with us tonight, but to the class of 1913 it signifies an important event. For was not that the date of our first appearance as a class in our Woburn High school? We were greater in numbers then, but four long years have wonnowed our ranks until today, there are but sixty-seven survivors. That day as our classmates timidly approached the halls of learning we could not have impressed any one with our unlimited mental capacity. Nevertheless we trust future achievements will justify our high opinion of our mental calibre.

Our friends and neighbors

anner be equal to

FACTS
and FOLKS

Miss Isabelle Best of Dorchester attended the W.H.S. '13 reception last night.

Mrs. David Ronco and daughter Dora are visiting with friends at Revere Beach for a few weeks.

Roland D. Marshall one of the graduates in this year's class from the business course at the high school, has a position with the H. W. Clark Leather company at North Woburn.

Representative Henry L. Andrews left today for Gettysburg, Pa., with the delegation from the Massachusetts State Military committee to be present at the National encampment of the veterans of the battle of Gettysburg. The exercises in connection with the event will take place all of next week.

Miss Doris L. Carswell, one of the graduates of the class of '13 W.H.S. taking the business course, has a position in the office of W. S. Hutchinson, Tremont Building, Boston.

Div. 18, A.O.H. of Montvale will hold its annual lawn party next Thursday evening at Pavilion park. McCall's orchestra will be in attendance. An excellent evening's entertainment is provided for the persons in charge of the affair.

Qualey Court, M.C.O.F. will receive Holy communion in the St. Charles church tomorrow morning.

Miss Agnes Proudfoot, W.H.S. '11 and a student in Simmons college, was a guest at the Senior class reception last evening.

Miss Edna Butman of Malden is the guest of Miss Maude MacNeill of Green street for the week end.

Frank Murphy, W.H.S. '11 and of M.L.T. '15 was a guest at the Senior class reception last evening.

Surprised
Ourselves

When we first started making Ice Cream at our store we immediately saw there was going to be a big increase in our business so we added one more to our working staff. Well we have certainly been surprised ourselves at the tremendous increase in our sale of ice cream, for while we have been making our cream only four weeks, we have been compelled to add two more to our original staff to take care of this increase in business. In fact, on Saturday and Sunday we employ a third extra man, this making eight people in our store on these days.

There is plenty good reason for this increase in the ice cream business and if you have not tried our cream then you are missing a treat.

Other attractions at our fountain are: Fruitade, a long cool drink with cracked ice 5c. Cheer All 5c. Grape Fruit Phosphate 5c.

If you are not one of our soda fountain customers then you don't know why this remarkable increase in our business. But it is plain there must be a good reason. Investigate yourself.

A HIGH SCHOOL PRODUCT

The public schools, and public school methods, are often the target for caustic criticism. Complaints are frequently heard that the results do not bear their proper proportion to the expense attending school maintenance, and the critics frequently go so far as to charge that graduates of our high schools are not fitted to face the obstacles and conflict of life. There is some ground for this species of fault finding, but the danger is that in his over-zeal the critic overlooks much that is commendable and worth while.

High school pupils, at least in Woburn, go to college without conditions, are graduated and succeed in their respective callings. Others enter business and win advancement, and many make a success in pedagogic work here and elsewhere. Many such examples may be found, each one of which is a refutation of the criticism that the school has not contributed to the pupils' mental and educational equipment.

One example may be quoted that is of especial interest to every boy in Woburn. At the recent graduation of sixty-seven young misses and masters, the diplomas were bestowed by His Honor Mayor William H. Henchey. The mayor prefaced the official act by addressing the class. It was not the stereotyped story of congratulation perfunctorily uttered. It was a battle cry sounding the charge. It was an appeal to individual loyalty to Alma Mater. His Honor spoke eloquently and earnestly, counselling industry and fidelity to duty as maxims of life.

The lesson is this. Mayor Henchey is a graduate, a product of the school, a class of which he was addressing. In his person was exemplified what the school may do for any boy, and possibly for any girl when the suffragettes come into their own. His earnest words took on added interest because of the fact that he was of the school. And so, when they tell you the high school does not count, and its course is a loss of time, think of these things, and think well.

BOY SCOUT NEWS

Troop 1 has completed all arrangements for a one-week camp at Lake Walden, Concord, Mass. About ten scouts expect to attend. Camp duties such as cooking, bringing fire wood and water, cleaning up around camp, and guarding the camp fire at night, will be divided up so that each scout gets his share. The boys will take a dip every morning and every afternoon. As much time as possible will be devoted to the requirements for second class scouts.

Saturday is field day for all the scouts in Woburn. It is expected that each of the four troops will be represented.

0-0-0

In the pony and cart gift contest backed by W. S. Lindsay candy and ice cream, the Central Hardware Co., Gavin & Lydon grocers, and the Brockton Shoe Market, any boy or girl in Woburn under 16 years of age may enter. For every purchase coupons will be given. Read the conditions.

Mrs. William H. Keleher, who is at the Choate hospital where she has undergone a serious surgical operation, is much improved, and is believed to be well on the road to recovery. This will be glad news for her many friends.

HAPPY GRADUATES GENEROUS HOSTS

Continued from page 1

glimpse of Mr. Bean, who had succeeded Mr. Brock. The school board that year thought it necessary to enlarge the teaching force and chose for the position, Miss Bean, a Wellesley graduate and one of our Alumnae. The fall of 1910 also marked the entrance of several invaluable class mates, our poet, one of our honor pupils, and our Major of the Battalion, and how we did without them the first year is a conundrum.

Many were the pleasant hours spent in the hall the spring of 1911. On Lincoln Day we were very enthusiastic over hearing Mr. Morgan, a real live author of a book. He spoke on the life of our martyred President Lincoln and when we consider the difficulties we have encountered in writing a three-page theme, we think his accomplishments astonishing. On Memorial Day, the members of the Grand Army of the Republic gave us, as they always do each year, a clear and interesting idea of the hardships of life on the battlefield, and that same spring we were given an opportunity to hear Marshall Darrach recite three Shakespearian plays: "Julius Caesar," "The Merchant of Venice," and "Macbeth."

That spring the baseball team under coach Gillow won the Mystic Valley League Cup.

September, 1911, we assembled as jolly Juniors, all glad to be able to begin our third year of study. New courses of study were introduced, and we felt the importance of the education which Woburn tries to give us all.

When Military Drill was added to the list of studies, the girls were indignant to think that they could not have some study to break the monotony of the sixth period Wednesday. Physical Culture has now established its place in the regular program. In order to show the public the value of military training, a prize drill was held in the Armory. Our four companies competed for a number of medals and cups: the Skinner Cup, the Moore Cup, the Blodgett Shield, the Hammond Medal, the Parker Medal, and the Kean medal, trophies presented by some of our public-spirited citizens.

Much to our regret, our President had resigned, and as several of our officers had left school, we elected our present officers. During the three years we had grown better acquainted with our classmates, and that is why we chose such a competent board.

At last came the fall of 1912, and we were Seniors in the full meaning of the word and more too. Four years ago it seemed to us an age before we should attain this dazzling eminence. We began our work as we always had done, not with too much application to studies, to be sure, but with the old saying always in mind, "Slow and easy goes far in the day."

Early in the fall we had a class meeting to elect a committee to have charge of the class dance. Our first social event was deemed very successful in spite of the wind and rain. November 21, 1912 we elected a committee of five to have charge of the class play, "Our Mutual Friend," by Dickens. A full account of the production given April 2, 1913 before an appreciative audience in Lyceum hall, may be found in the "AlphaOmega."

I may say though, that some of our amateur actors were such stars that they were asked to help the Athletic association by taking part in the Irish play, "Spreading the News," given May 23, 1913, in the High school hall.

Many of the boys of our class enjoyed the trip to President Wilson's inaugural. They brought back many interesting anecdotes concerning our National Capital. We were all enthusiastic over their stories, especially the girls, who were anxious to know what they heard or saw of the Suffrage Parade.

Tuesday, May 27, 1913, our class

under the kind guidance of Miss Hammond, visited the State House as guests of Representative Parker. Mr. Weston, our Veteran guide piloted us through the many halls and chambers, giving us many interesting facts concerning the flags, paintings and statuary.

June 4, 1913 was Field Day for our High school battalion. Before a large company of spectators, the boys put forth their best efforts to win the cups and medals contributed by some of our generous citizens.

Our four years of study in the Woburn high school ended on the evening of June 25, 1913. Tonight is probably the last night we shall meet together as a class, although I hope otherwise. Let us think over some of the changes and improvements since our entrance into the Woburn High school. The Harlow Library has grown amazingly. The shelves are garnished with the cups and trophies our schoolmates have worked to win. Pictures and statuary have been added. We have maintained the idea of having a class paper, so successfully tried by the class of 1912. This year our Alpha Omega is larger and we hope the quality of work is equal if not superior to that of last year's.

Tonight we are leaving High school to enter into that greater and more difficult school, the School of Life, and as we look back over our life in the Woburn High school, we may all say in the words of that famous toast:

"Happy are we met,
Happy have we been
Happy may we part,
And happy meet again."

THE CLASS PROPHECY

Agnes Gertrude Connolly

The days of myths are past, but wonders will never cease, and I cannot help thinking that the year 1913 has been a year of mystery to me. Although it brought me no ill luck, I have been subjected to a strange but pleasant transformation. It all happened one cold, damp night this spring. I had been reading a fairy story to my little sister, and must have dwelt too seriously on the events that occurred in the story.

At midnight I awoke and found myself in a strange and lonesome land, suffering from terrible thirst. I did not know what to do or which way to turn, and was about to sit down upon the grass and rest when a young woman robed in white spoke to me. I asked her where I was and if I could procure water anywhere. She told me that I was near a magic fountain in Egypt, and that I could obtain anything I wished by drinking its waters. Before drinking, I expressed a desire to see again my class mates from whom I had so mysteriously departed. My wish was gratified, and after drinking I returned to the scenes of my childhood.

Woburn had changed considerably, and I at once began to scrutinize my surroundings, hardly knowing where I was. Finally, my eyes rested on a large sign which read, "Hair Dressing Parlors, Mary Walsh and Ruth Froberg." I remembered Mary in school, and knew that she possessed a mode of hair dressing peculiar to herself; so I intended to see if time had changed her any. On the second story of the building at the corner of Montvale avenue, I found Mary dressed in white, arranging her beautiful dark brown tresses. Ruth was giving an excellent service to one of her customers. Ruth informed me that there were several changes at the high school. I visited the dear old school where we had experienced so many pleasures and troubles. Mr. Martin had resigned and Doris Carswell was conducting a class in Commercial Law. I noticed that her pupils constantly referred to their books, and I asked Miss Carswell if this wasn't against the rules of the school, but she told me that she always allowed them to do so

if they chose. Well, I was surprised at this, but you can imagine my astonishment when I saw Walter Dorrington substituting for Miss Barker. His pupils were studying Professor Palmer's essay on "Self Cultivation in English," and Mr. Dorrington was putting considerable emphasis on their reading understandingly. Since he had become a professor, he had allowed his thick hair to grow longer, and now he had more need than ever for Miss Doherty's sidecombs. Walter informed me that Miss Sellar's courses had become so popular that it was necessary for her to have an assistant, and Clifton Shinnquin had been engaged as a teacher of mathematics. Clifton was simplifying the rules as much as possible and was doing everything in his power to help stragglers out of their difficulties.

On leaving the school I turned down Broad street which I found to be at last worthy of its name. Wide-spreading maples shaded a macadamized road and broad sidewalks. On either side were picturesque houses with high terraced frontage, and extensive lawns with beautiful flower beds. While I was admiring the improvements, I nearly ran into Elwyn Cotton who was canvassing a flesh producer for McLaughlin & Dennis. Elwyn was certainly a good illustration of the effects this medicine had upon those who used it. He asked if I had heard about the exciting School committee meetings that were being held in Woburn. He seemed quite surprised when he found I did not know and told me about the meeting that had been held the previous evening. Annie Doherty, George Foster and William Looney were members of this committee. The chief object of the meeting was to choose a teacher for one of the Burlington schools, and our class historian, Olive Barnum, had applied and had been unanimously elected. Other subjects were then brought up for discussion, and Miss Doherty made a motion to adopt Gertrude Cotton's Rhetoric for study in the fourth class in the high school. Mr. Foster, ever ready with his questions, discussed this motion for about two hours, when a faint voice made a motion to adjourn. Mr. Foster cried out, "Oh, he's Looney. Doesn't he understand Parliamentary law yet?" "This" added Elwyn, "is only an example of the sort of meetings that are being held." Opposite the telephone exchange I met Nathan Gorin, who was now the medical inspector of the schools. Nathan was on his way to the high school and looked just as natty as ever.

At the corner of Union street, I noticed that a fifty cent store had been built on the site of McGrath's old store, the proprietor of which was John McDonough. I was inquisitive and entered the store. A beautiful glass counter immediately attracted my attention. Lily Dunnigan was decorating this counter. I remembered that she had had experience in decorating. She told me that besides working in the store, she gave lectures evenings, and that that year she had given in the Burbee course her lecture on "How Brooms are Made." Lily informed me that Katherine Grant had been removed to the Choate memorial hospital, because she thought there must be something wrong with her heart. She asked me if I knew that Marjorie Heath and Mabel Hamilton had finished their course at the Massachusetts General and were now regular nurses at the Choate hospital. Lily also told me about the pleasant afternoons she spent with Lillian Brauer, who lived near her. She said only the other afternoon she ran in to see her, and found Lillian in her immaculate Dutch kitchen rolling out ginger cookies for the little children playing about the room. Lily asked me to stay that evening and hear the band concert, as James Connolly was leader of the Woburn National

HAPPY GRADUATES GENEROUS HOSTS

Continued from page 2

band, which had become one of the most popular bands in the country. I was unable to accept Lily's kind invitation, as I had made other plans for the evening. Our chat was interrupted by the excitement outside.

It was a Woman Suffrage parade passing, the leader of which was Clara Sellers, who had just been released from prison because she refused to eat. She was mounted on a big black charger and was giving orders to the various marshals of divisions. A jeering crowd followed the parade, and she appealed to the chief of police, Frank Preston, to secure order. There was a rumor around that Mr. Preston's charitable feeling for others made him reluctant to report unruly conduct; therefore for the interests of the city it was deemed necessary to ask him to resign. Mr. Preston was perfectly contented, because he wanted to give his undivided attention to inventing.

We followed the parade as far as the co-operative bank building when Lily said she must go back to the store, and suggested that I call on Amelia Goold, the new superintendent of Woburn schools. Amelia was busy making out an examination in history for the senior class in the high school, because she thought the examinations Miss Hammond gave were too easy. I asked Amelia about our valedictorian, Gladys Richardson. She informed me that Gladys was acting as private secretary for President Henchey, and that she had received a letter from her that morning saying that the President had just appointed Carl Everburg ambassador to Norway and Sweden.

After leaving Amelia, I went up to the hospital to inquire for Katherine. The nurse who conducted me to her ward told me that Miss Grant was going home that day. I found Katherine propped up in bed in a pretty Japanese kimono, and with her were Marjorie Heath and the head physician, Elizabeth Hill. Marjorie was busy trying to find a vase deep enough to hold a bunch of magnificent American beauties. Katherine seemed a bit flushed and excited, but her face was bright and happy, and she was apparently in perfect health. In answer to my inquiries, Dr. Hill laughingly said, "More needs she the divine than the physician." On the way out Marjorie explained the kimono and roses were from a young missionary who had the day before returned from Japan. When I asked for Mabel Hamilton, Marjorie said that she was in Quebec on her vacation.

I then visited the Convent to see one of the sisters with whom I was acquainted. On my way I met Joseph Schiaffino delivering his milk to the citizens of Woburn living in the district of Hammondville. Joseph told me that our honorable milk inspector, Mr. Foster, in order to protect Woburn against watered milk, had requested that he should deliver milk to all the citizens living therein. When I reached the Convent the sister took me to the chapel where I saw several sisters absorbed in prayer, and among them were two of my classmates, Alice Fountain and Katherine Dolan. Imagine my surprise at seeing Kathryn here, but then I remembered to have heard her say that she realized how short this life is and how happy those must be whose vocation called them to the convent. Kathryn informed me that Martin Foley left the world the same time she left, to become a monk, and that his three essential vows were those of poverty, chastity, and obedience. She said she heard that he had learned to read the service in a peculiarly well modulated and musical voice. She also told me that Walter Hooper had become a penmanship teacher in the Woburn schools, and that on that day I should find him at

the Cummings school.

I was desirous to see Walter and visited the Cummings school where I found him lecturing the pupils. He was just telling them that he wanted them to do the work that merited an "A" and not expect to receive it on "C" work. As a result of constant practice, Walter had certainly become an excellent penman himself. Andersen's Fairy tales are indeed pleasing to the youngsters, and here in the school yard "The Old Bachelor's Nightcap" was being told by a very slight woman to a group of little children. After a careful study of her features, I recognized our Gladys Andersen.

As I was walking up from the school, I met Hugh O'Rourke who was now an insurance agent for the John Hancock company. In talking with Hugh it was evident that he thought this work worse than school, even including the extra sessions, because there was so much writing to be done, and on account of his inability to write an effective letter demanding payment, he had dreadful times trying to collect his money. I asked him if his sister couldn't help him, and he said, "No, not since her marriage.

As I continued my walk, I noticed a sign on a door which read, "Dressmaking, Mary Noonan," and went in. Mary informed me that Helen Corry and Gertrude Doherty were both judges of the Supreme court in California. I supposed Helen and Gertrude were as much interested in Woman Suffrage as in school days when they fought so hard in a debate in favor of it. Wilford Walker, she said, was a major in the United States army. This did not surprise me much, as Wilford always seemed inclined to cultivate a taste for military maneuvering.

I had not gone far from Mary's house, when I saw Valborg Anderson gazing from the window of her home and she beckoned me to come in. It was just about dinner time, and she was surrounded with eight children all waiting for their father to come home. These children were affectionate, and the three oldest were rather talkative. They told me how they liked to weave mats at school and were very fond of their teacher, Miss Alice Peterson. I was not surprised that they should like their teacher, because Alice was always gentle and kind. Valborg told me a good deal of news about the class and was just saying that two of the members conducted a dancing class in Music hall, when a man came in the gate with a hayfork over his shoulders, and the children scampered out to meet him. As he stooped to kiss them, I thought I recognized him. He greeted Valborg as "Old Lady."

To satisfy my curiosity, I went up to Music hall to see who was conducting the dancing class. I found Florence Elson and Florence Hopkinson teaching their pupils to do the Tango, Gabyglide, Tom-Tom Texas, and Kitchen Sink.

After leaving the hall, I had to hurry for my train. I purchased the daily paper to read on the way in. Gate tending in Woburn had evidently become an exalted position, for standing at the gate shanty at Abbott street stood a very conspicuous figure, that of Harold Tracy. Harold was clad in a well pressed suit, spotless linen, tan shoes, and tan gloves.

The paper I purchased was full of news, as you may imagine, with Bertine Winchester as editor. A portion of the paper was devoted to a question box, and any question asked would be conscientiously answered by Hulda Thenberg.

Three or four items in the paper especially interested me. I learned that Deborah Curtis, after studying in Germany, was to make her first appearance in America as Elizabeth in Tannhauser. I also learned that Alice Wood, who had first won distinction in the Woburn 17th of June celebration, had become the manager of a girl's baseball team. I wondered if this was as near a diamond as Miss Wood ever expected to get. Edward Wall, the proprietor of a huge book store, had a big advertise-

ment in this paper. Two of the books entitled "Don't Trouble Trouble" and "Eat Drink and be Merry" especially interested me, because they were written by one of my classmates, George Weaver.

Arriving at the North station, I took a taxicab for Warren Chambers to keep my appointment with the dentist, whom I found to be William Sherburne. While I was waiting, I noticed that the cup that William had won occupied a conspicuous place on his mantlepiece.

After leaving the dentist, I went to a play given in Lexington hall for the benefit of the Boys' club. It was a one act comedy, entitled "Spreading the News," Lena LaCasse, as the irate wife of Bartley Fallon, brought down the house. I talked with Lena after the play and she told me this was the last time she was to appear in theatricals, as she was engaged to be married. She informed me that Henry McGowan had become a professional comedian and that she was going to try and see him the following week, as he was advertised to be at Keith's.

The strange effect Egypt's magic fountain had upon me had lost its powers by this time, and I awoke to find myself uncomfortably wedged between the bed and the wall.

—o—o—

on the edge of his large farm, near the roadside. He recognized me and stepped up and spoke to me. He said his cabbages were known the world over and that he made a fortune on peppers. Roland informed me about the Shaker establishment at Glen ridge, the manager of which was Helen Menchin. I spoke of seeing men making hay in a large meadow that I passed on the way over, and Roland told me that Clifford Ryan, now one of the city magnates, was the owner of this meadow.

That evening my friend and I went to a play given in Lexington hall for the benefit of the Boys' club. It was a one act comedy, entitled "Spreading the News,"

Lena LaCasse, as the irate wife of Bartley Fallon, brought down the house. I talked with Lena after the play and she told me this was the last time she was to appear in theatricals, as she was engaged to be married. She informed me that Henry McGowan had become a professional comedian and that she was going to try and see him the following week, as he was advertised to be at Keith's.

The strange effect Egypt's magic fountain had upon me had lost its powers by this time, and I awoke to find myself uncomfortably wedged between the bed and the wall.

SECTION OF GEOLOGIC

MAP OF THE

UNITED STATES

Murphysboro and Herrin Folio, Covering Part of Coal Field of Illinois, Issued by United States Geological Survey.

The results of a detailed investigation and geologic survey of a district in Illinois of great mineral importance have just been issued by the United States Geological Survey in the form of a folio of the Geologic Atlas of the United States, which the Survey is gradually issuing in parts.

The district, comprising the areas known as the Murphysboro and Herrin quadrangles, lies in Johnson, Perry, Franklin, and Williams counties, at the south end of the great coal producing area of Illinois. The folio includes topographic maps on a scale of about an inch to a mile, showing the surface features and the altitude of all points in the area, and geologic maps, showing the character of the rocks which underlie the surface, together with a descriptive text. The area lies in the basin of Muddy river and is in part low, flat, and swampy and in part rough and rocky. The altitude ranges from 350 to 800 feet above sea level. The rocks are Carboniferous in age, which means that they are many millions of years old—about half as old as the oldest rocks known. The term Carboniferous is very appropriate, for rocks of this age in all parts of the world contain much carbon, partly in the form of coal. The layers of rock are nearly flat but slope gently to the north and east.

The chapter on geologic history states that ages ago southern Illinois was a part of the ocean and that the sediment in the water slowly settled to the bottom and later hardened into rock. Now and then the area rose above sea level for a few centuries or thousands of years. At times the region was a great swamp with luxuriant vegetation, and just as in such places today the vegetable material does not decay completely but accumulates year after year, so in Carboniferous time the plant material accumulated and this material became buried under deposits of sand and mud and was finally compressed into coal. Since Carboniferous time the region has been above sea level and has been profoundly corroded by streams, which are continually carrying sediment away. Less than a million years ago, at a time geologically very late in the earth's history, a great glacier crept down

from the north, bringing with it vast quantities of stones and dirt that are now found deposited over a large area in northern United States and Canada. This glacier reached its farthest south in southern Illinois, where it covered over a thousand square miles south of the thirty eighth parallel. As it retreated on the advent of a warmer climate it left its load of earth, gravel, and boulders—called the drift—over most of the State. The boulders are strikingly different from any rock to be found in place in the state and may be traced directly back to their parent ledges in Canada.

Bed of an Ancient Lake

One of the most interesting events which has been deciphered in the survey of this area is that in geologically recent time a large part of it was the bed of a lake, which is now extinct. The discovery of this fact led to the search for evidences of other similar lakes and many were found in southern Illinois and western Kentucky. The lake beds are very flat except where they have been washed by streams, and the sediment deposited in the lakes is over a hundred feet thick. In some places lake beaches are as well preserved as if the water had only yesterday been lapping over them. Commonly these beaches are used for highways.

The most important mineral resource of the district is coal, that mined at Murphysboro being of a very high quality. There are several beds of coal, especially in the northeastern part of the area. In the southwestern part there is only a little coal.

A copy of the Murphysboro-Herrin Folio may be obtained for 25 cents from the Director of the Geological Survey, Washington, D. C.

EXPLOSION OF
200 TONS OF OIL
Accident on Board Tank
Steamer in New York
Harbor

Two hundred tons of fuel oil, on board the steel tank steamer Mohawk, owned by the Standard Oil Company, exploded with a terrific roar and burst of flame, yesterday afternoon while the vessel was at anchor off Tompkinsville, Staten Island, in New York bay, killing five persons and injuring six others.

A dozen more are unaccounted for, but are believed to have escaped on craft that came to the Mohawk's aid or by swimming ashore.

Two bodies were seen floating in the hold while fireboats were still pouring streams of water into the wrecked after-end of the steamer late at night.

Carelessness of a machinist's helper was reported to have caused the explosion. Fifty men, including the crew, and 20 machinists, who were making repairs preparatory to the Mohawk's departure for Tuxpan, Mexico, tomorrow morning, were on board.

PRODUCTION OF NATURAL
CEMENT

Natural cement was produced in 1912 in 15 plants distributed in nine States, according to the United States Geological Survey, there being no change in the situation compared with 1911 except a decrease in production. The output during 1912 amounted to 821,231 barrels, valued at \$367,222, compared with 926,091 barrels, valued at \$378,533, in 1911, a decrease of 104,860 barrels, or 11.3 per cent, in quantity and of \$11,311, or 3 per cent in value. The average price of natural cement at the mills in 1912 was 44.7 cents a barrel, compared with 40.9 cents in 1911.

THE PURIFICATION
OF DRINKING WATER

United States Geological Survey Issues a Report Describing Practical Methods of Handling Public Water Supplies.

A simple, direct description of methods of purifying water for drinking is given in a report by George A. Johnson, just published by the United States Geological Survey. The report describes the various types of water supply systems used by cities in the United States, sets forth the principal advantages and disadvantages of each, and gives a brief history of the development of waterworks systems and the effect of their installation on the health of communities.

GOV. FOSS REFUSES
TO MEET EMPLOYEESMayor Fitzgerald Fails in At-
tempt to Bring About a
Conference

Governor Foss has taken a firm stand against meeting or treating with his striking employees.

This was the information given Mayor Fitzgerald yesterday when he sought to engage the attention of the Governor in an effort to bring together his Excellency and the representatives of the 1500 workmen on strike at the two big Foss shops.

In answer to a petition by the labor men the Mayor yesterday tried to get in communication with the Governor. He was told that the Governor would go no further in the matter of dealing with the labor situation that has thrown into idleness 1500 men and that threatens to effect a sympathetic strike of more than 100,000 metal tradesmen throughout the state.

John M. Tobin, national organizer of the blacksmiths; R. L. Hall, district organizer of the machinists; O. L. Prebel, national organizer of the pattern makers, and George Leary, general organizer of the metal polishers, buffers and platers, went to the office of the Mayor yesterday afternoon to receive an answer as to what success, if any, he had achieved.

W. C. T. U. OPEN AIR
MEETING MONDAY

The open air meeting of the W. C. T. U. will be held at the home of Mrs. Annabelle Brown, 154 Salem street, Monday afternoon, June 30 at 3 p. m. Mrs. Ella Gleason, president of the Suffolk county W. C. T. U. will deliver an address. Each member of the union is expected to come and bring a friend. The Daniel March L. T. L. will be the guests of the Union from 4 to 5 p. m.

—O—O—

Don't Dare to Go to Work.
"I say, Tom, lend me another ten, will you?" "Heavens! Why don't you go to work and earn money?" "Don't dare to, my boy. People would think the governor had disinherited me, and I'd be in the dock of course."

The softening of municipal water supplies in connection with their purification is discussed and the advantages and limitations as well as the details of this treatment are set forth in instructive detail. Hard waters produce scale in and shorten the life of boilers, causing waste of coal. They are

—O—O—

SHOWERED WITH
CARNATIONS

Mrs. Mary Foucar Remembered on Her 84th Birthday Anniversary

Mrs. Mary Foucar, whom all who know her delight to call "their grand old lady," was born in Germany 84 years ago today, and her friends whose name is legion have vied with each other in making the anniversary memorable by gifts of flowers and countless messages of love. One gift, contributed by friends in North Woburn, Somerville and Cambridge took the form of a monster group of 84 carnations of dainty coloring and exceptional size. The observance has been wholly informal, but nevertheless deeply appreciated by the worthy woman.

Mrs. Foucar at four score and four years is indeed a remarkable woman. Her physical condition is excellent. With faculties unimpaired, and remarkable energy she has conducted the business, established by her late husband Louis Foucar, ever since his death 13 years ago. Mrs. Foucar is a woman of optimistic nature, and sheds all about her the light of geniality and good cheer. Her deeds of charity are many but without display or publicity.

Mrs. Foucar has three children: Edward Foucar a resident of California who is at present traveling in Europe, Augustus Foucar of Newton Falls and Mrs. Louisa Marshall of Tucson, Arizona. These two were participants in the observance of the happy day, adding to their mother's joy by their presence.

WOBURN BOYS GO
TO BLOCK ISLAND

As in past years, a large number of local boys will spend the summer months at Block Island, R. I. in the employ of a summer hotel management.

Mr. Orel M. Bean of the High school teaching staff is the man who has charge of the boys and he makes it possible for many of them to enjoy a profitable summer vacation, financially and physically. This year he will have eight young men from this city with him. Some left today and others will leave in a few days. Leonard Marion and Elwyn Cotton left early this morning. Mr. Bean will leave next Tuesday and Walter Bailey, Stephen Bean, Wilford Walker, Dana Hubbard, Clifton Shinquin and William Matson are due at the island by the latter part of next week.

ATTEND ENCAMPMENT

Among the Civil war veterans who go from this city to attend the National Encampment of the survivors of the battle of Gettysburg to be held at that place this coming week are: Rufus F. Poole, William C. Colgate, George A. Locke, Nathan M. Melendy, Austin, Fish, Theodore M. Parker and Warren F. Taylor.

—O—O—

W. R. C. MEETING

W. R. C. 84 held its regular meeting yesterday afternoon. There was a large attendance, making preparations for the lawn party to be held on the afternoon of July 15th at the home of the president, Mrs. Annabelle M. Brown, 154 Salem street, Monday afternoon from 4 to 5 o'clock. All members past and present are invited to attend.

—O—O—

PAVILION ASSEMBLY

Last evening the regular Friday assembly was held in the Pavilion park, Montvale, a large number attending, notwithstanding the high school reception. McCall's orchestra played as usual in its satisfactory manner and the event

PIRATES VS MARATHONS
IN SEMI-FINALS

Good Game Expected at Library Park Today

The game which decides whether the Pirates or the Marathons will meet the All Woburn team on the morning of July 4th, will be played this afternoon on Library park. This will be the initial appearance of the Marathons this year on a local baseball diamond and the result today will tell if it is their only appearance or not. Circumstances seem to point to the "Cut Throat" crew as the victors in the match, for that team has been playing excellent ball this year. With "Kiko" Weaver in the box, and all of his curves working to perfection, it looks to us that the long distance team will have to travel some to get by with a hit of any description, provided of course, that his team gives him proper support. George Albert is a great little warm weather pitcher and his smile that never comes off usually beams with plenty of joy when his teasing curves get the opposing batsmen crazy with the heat.

Then some folks say that Peter son of the Marathons has something up his sleeve. Well, just a word of counsel to him. Start to play your trump cards in the first hand in this game or you'll not have the opportunity later on. It sure is dangerous to let those thieving marauders of "Pirates" get the first hold for when once they do, they generally keep it, and tighten their hold as the game progresses.

The game will be called at 3.30 by Umpire Taylor as usual. Let every one who goes patronize the grandstand and buy a ticket, for the effort of the teams is worth considerable, and if the fans don't support them, they can't expect to see many games at home. All up.

—O—O—

PORTLAND BEAT

LYNN 4 TO 3

"Chick" Meehan Features in
Game Yesterday

Frank Meehan, the local boy who is making a name for himself, playing on Hughey Duffy's Portland team in the New England League played in an especially star game yesterday afternoon at Lynn. Portland won the close game by the score of 4 to 3. Lynn played a loose game, making 6 errors, while Portland went through the game errors.

Frank played the full game, taking the place of Hayden, the regular catcher. His individual record for the game is as follows: at bat, 4 times; 2 base hits; 6 put-outs; 2 assists and no errors. He allowed 2 passed balls, although they did not amount to any great loss by his side. He also featured in a double play. Altogether, Hugh Duffy thinks Meehan a valuable find and if Meehan's record as a high school player is worth anything, it is more than a supposition that Frank will make some of the "Big Fellows" stand up and take notice.

—O—O—

L. T. L. MEETING

The Loyal Temperance Legion Daniel March chapter will be the guests of the local W. C. T. U. at the home of Mrs. Annabelle Brown on Salem street, Monday afternoon from 4 to 5 o'clock. All members past and present are invited to attend.

—O—O—

I. C. C. SOCIAL

The Innitou Canoe Club will hold its annual smoker and social on the evening of July 3rd at the club house on the shore of Horn pond. A varied program of excellent character is being prepared

H. J. PAINE

Headquarters for Ladies' and Gentlemen's Clothes Cleaning, Dyeing, Repairing, Altering and Pressing at lowest possible prices.

Telephone 297-M and messenger will call. Clothes delivered promptly when work is done.

Caps made to order and Dress Suits to let.

Woburn's Leading and Busiest
Tailor, 484 Main Street, opp.
Salem street.

HIGH SCHOOL TEACHERS'
VACATION PLANS

Of the high school teaching staff, Miss Margaret Burnap will spend the summer at Waterbury, Ct.; Miss Sarah S. Waterman, will go to Norwood, where she will spend the summer with her brother; Miss Mary D. Prior will enjoy a part of the vacation season at Castine, Me.; Miss Beatrice Grant goes to Fort Adams, Newport, R. I. for the month of July, where her brother, Captain Homer Grant, is stationed; Sub-Master Orel M. Bean, goes to the National Hotel at Block Island for the summer, where he has a position which he has filled for the past two or three seasons; Miss Bartlett, will spend the summer at Cataumet; and Miss Frances Walley has gone to Laconia, N. H. for the summer.

—O—O—

MISS CONANT TO
TEACH IN EVERETT

Miss Virginia A. Conant, who has been substituting at the high school for Miss Murdock during her year's leave of absence, has been elected a teacher of French in the Everett high school. Miss Conant has done splendid work in Woburn, making many friends who regret that she is not to remain here, but pleased that she has such a good position to go to in Everett.

—O—O—

HOLIDAY SCHEDULE
FOR JULY 4

Following the usual custom the Boston and Maine railroad has posted notices discontinuing on July 4, 1913, a number of local trains into Boston in the morning and return trains in the afternoon.

In order to provide sufficient service some of the express trains will make local stops and those contemplating a rail trip should consult notices or make inquiries of ticket agents.

—O—O—

WOMENS CLUB NOTES

There was held at the Art club Boston, June 20th at 6 o'clock, the initial meeting of the Women's City club of Boston, attended by three hundred representative women of Boston and suburbs, with Helen O. Storrow, chairman, J. O. Brortton, treasurer and C. E. Pratt secretary. The privileges will be the same as to the members of the Mens' city club. Any member of the Woman's club, desiring membership in the new club may send her name to Marion T. Hosmer, 62 Pleasant street, Woburn.

—O—O—

Time works quick changes in the growing girl. Pig-tails and short skirts are soon forgotten in the maturer charms of the debutante.

Sometimes though you will ache for a picture of her just as she romped in from school or play.

Think how she would like one too, in the after years—to show her friends and possibly her children. Make the appointment while the thought is fresh in your mind.

HIGH SCHOOL PROMOTIONS

Rank With Which High School Pupils Step into the New Year

A new system of promotion has been established at the high school by which scholars will be classified under the headings "Promoted with honor," "Promoted with credit" and simple "Promotion," these divisions being based on percentage attained during the elapsed year.

The first announcement, made today by Principal George W. Low, follows:

Promoted with Honor
General average above 90 per cent. Catharine A. Duran '14, Bertha L. Frizzell '16, Fred A. Gifford '16.

Promoted with Credit
General average 80-90 per cent. Malcolm Blodgett '14, Celia M. Whithed '14, Veronica L. Murray '15, Laura M. Columbus '14, Mary E. Doherty '14, Edith E. Olson '15, Ethelind Cutler '14, Jeanette C. Hamilton '14, Lillian T. Pike '15, Thomas J. Devine '14, Mildred J. Arnold '15, Robert Sherburne '15, Frank J. Farrey '14, Mildred Beohner '15, Thomas M. Sherry '15, John F. Fitzgerald '14, Ralph P. Bowers '15, Beatrice Spilsbury '15, Frederick J. W. Given '14, Gertrude Callahan '15, Louise W. Sweetser '15, Marion E. Kerrigan '14, John J. Callahan '15, Margery F. Eastman '15, Mary Lapuck '14, Ruth E. Davenport '15, Anna M. Hamilton '15, Hugh E. Marshall '14, Margaret G. Fitzgerald '15, Edith R. Lundgren '15, John J. Mead '14, Dorothy E. Foss '15, Lillian C. Anderson '16, W. Clark Mendum '14, Alice M. Hoskins '15, Florence M. App '16, Gertrude M. Murch '14, Annie Lapuck '15, Mary K. Reddy '14, Helen W. McIntire '15, Clifford C. Blaisdell '16, Helen F. Turner '14, James A. Mawn '15, J. Lloyd Boston '16, Christavenna Vido '14, Thomas J. Mohan '15, Florence E. Bowman '16, Marian N. Moore '15, Michael F. Boyle '16, Howard A. Wallace '16, Camilla Burdett '16, Idella A. Wallace '16, Lewis R. Burnes '16, Marion Wallace '16, Claire W. Caldwell '16, Alice B. Wyer '16, Alfred F. Connolly '16, Helen F. Corry '16, Mary G. Curran '16, Charles Loring '16, Margaret MacKenzie '16, Thomas L. McMahon '16, James McMorrow '16, George Madsen '16, Helen Murphy '16, George H. Peterson '16, '16, Edith Place '16, Alice L. McDONOUGH-POWERS

Ex-Alderman of Woburn Weds Well Known Winchester Girl

Miss Abbie Powers of Winchester and ex-Alderman James McDonough of Woburn were married last evening at 7 at the St. Mary's parish house Winchester by Rev. Fr. Corbett. The bride was attended by Miss Kathryn McDonough a sister of the groom, Martin Powers brother of the bride was best man.

The bride wore white messaline and carried brides roses. The bridesmaid wore a white embroidered dress with yellow trimmings. Her bouquet was of marguerites. A reception followed at the home of the bride 11 Glenwood avenue. It was attended by the two families and close personal friends. Mr. and Mrs. McDonough were

BON VOYAGE TO THEM

Everybody Prays for a Delightful Trip and a Safe Return

Rev. and Mrs. Henry C. Parker, the pastor of the Unitarian church and his wife left today for Montreal from which city they will sail tomorrow for Europe. Mrs. Nellie Shaw of this city is also of the party. They will be absent for three months. Rev. and Mrs. Parker will attend the conference of Liberal Religions to be held in Paris in August. They intend devoting a considerable portion of the trip to a tour of Switzerland. Dr. Robert Chalmers and Wilford D. Gray sailed today for the land of oatmeal porridge and bannocks, for the home of Bobbie Burns and Sir Walter Scott. While Scotland is their objective point, they will look over England and Ireland with a critic's eye.

CONNOLLY-LUX

Popular Young Couple Wedded Last Evening at Montvale

Miss Emma Lux daughter of Mr. and Mrs. Michael Lux of Lynn street, was married at 5:15 yesterday afternoon at the St. Joseph's parish house by Rev. Patrick T. Higgins pastor of St. Joseph's church, to Coleman Connolly Jr., a well known employee of the New England telephone and Telegraph company.

Miss May Connolly sister of the groom was bridesmaid, and Walter Lux, brother of the bride was best man. The bride wore a pretty gown of white china silk, with overdraping of lace and a decoration of pearls, she carried white roses. The bridesmaid dress was of lavender satin and white lace.

A reception, attended by the immediate families and a few intimate friends, was held at the home of the bride's parents. Mr. and Mrs. Connolly later left for Washington, D. C. Upon their return they will live on Sturgis street.

NEW LEGISLATION FOR LEATHER MEASURING

Mayor to Appoint After Sealer Certificates to Fitness

An act of this year's General Court which goes into effect tomorrow is particularly interesting to Woburn people, especially leather manufacturers. The act applies to the measuring of leather the act giving the mayor or selectmen appointing power after the sealer of weights and measures has certified to the fitness of the aspirants. Sections 1 and 2 of the new law read:

Section 1. The mayor of a city or the selectmen of a town, upon the request of two or more voters thereof, shall appoint one or more measurers of leather who have been certified by the commissioner of weights and measures as fit persons for such appointment, and who shall be sworn to the faithful performance of their duty. The commissioner of weights and measures may at anytime, for cause, revoke such certificate of fitness, and such revocation shall immediately render such appointment null and void.

Section 2. A measurer of leather for one city or town may measure leather in any other city or town in the commonwealth.

FACTS and FOLKS

Mr. and Mrs. John O. Ray are entertaining relatives from Brunswick, Me.

Eugene Trull of Mishawum road, is reported ill with tonsilitis.

Miss Isabel Ray is enjoying a two months' vacation at her home on Eaton avenue.

Pearl Bradlee returned this morning from a visit at Portland, Me.

Mrs. Charles Merritt and daughter of Williamsburg, spent Sunday with Mr. and Mrs. William Heath of Eaton avenue.

Guy E. Marion of this city, who with Librarian George H. Evans, has been attending the librarians' convention, has been re-elected national secretary of the Special Librarians' Association.

Rev. William F. Slade of Lewiston, Me., was the week-end guest of Miss Mabel P. Williams of Eastern avenue. Mr. Slade was the speaker at the patriotic service in the First church last evening.

The pupils of Miss Marion Althea Burt will give a recital in Christian Science hall, this evening at 8 o'clock. They will be assisted by Miss Helen Brooks, soprano soloist, and an interesting program has been arranged.

There were two services at the Old School Baptist church 452 Main street yesterday, at 10:45 a. m. and 2 p. m. The speakers were Elder H. C. Ker of Middletown N. Y., and William J. Fenton of Philadelphia.

Miss Lillian Stackpole is enjoying the vacation season as the guest of Mr. and Mrs. White of Boston at their camp at Whalen, Mass., on the banks of the Sudbury river. She will not return until the first of September.

The Misses Emeline and Lora Mendum of Roxbury, nieces of Samuel W. Mendum, leave today for Montreal, sailing tomorrow for Europe with the International Congress of Liberal Religions party. There will be a stop of seven hours at Quebec, giving the party an opportunity to see that famous old walled city.

—o—o—

BARACA CLASS BANQUET TONIGHT

The M. W. True Baraca class of the Methodist church, will close the season with a banquet and entertainment this evening at 8 o'clock. A good menu has been provided and a good entertainment program will follow. Leon L. Dorr is in charge of the class and will preside and speak.

At a meeting of the class yesterday the following officers were elected for the ensuing year: Elton Given, president; Wallace Turner, vice-president; Earl True, secretary; W. A. True, treasurer; Leon L. Dorr, teacher.

MISS GRACE B. HINCKLEY HOSPITAL SUPT. RETIRES

Executive Committee Voices Its Appreciation of Her Services

MRS. EDITH L. MORGAN SUCCEEDS

Miss Grace B. Hinckley, who has held the onerous and responsible position of superintendent of the Choate Memorial Hospital since its institution four years ago has resigned in order to accept the superintendency of the Methodist Episcopal hospital of Brooklyn, N. Y., where she will have under her immediate supervision not only the details of management, but the oversight and direction of a staff of 100 nurses.

Miss Hinckley left today for her new post of duty. She will take with her, not only the appreciation of the management of the local hospital as voiced below in the vote of the executive committee, but of all who have come in contact with her either officially or socially. That so important an institution as the great Brooklyn hospital should come to a comparatively small establishment of only four years growth, must be taken as a compliment to the local hospital, as well as a recognition of the quality of the staff employed here.

Miss Hinckley is succeeded by Mrs. Edith L. Morgan who has been head nurse since the death of Miss Cox. The executive committee's vote follows:

"The Executive Committee of Charles Choate Memorial Hospital accept with regret Miss Grace B. Hinckley's resignation as superintendent.

"By an unanimous vote we wish to express to Miss Hinckley our appreciation of her executive and administrative management while she has been in charge of the affairs of the hospital called for peculiar ability, and the success which has attended her efforts in the instruction of nurses and the care of those admitted to the hospital, has fully demonstrated her fitness for such work.

"In her new field of labor the committee wish her the most pronounced success, and cordially recommend her to those in charge of the work which she is about to assume."

The vote is signed by Elmer E. Silver, Edward F. Johnson, James Skinner, John G. Maguire, Fred J. Brown, Herbert B. Dow, Executive Committee.

THE REASON WHY

Dozens of people were disappointed Friday night and Saturday morning because we had sold out all our ice cream. Think what this means. We have been making ice cream only four weeks and we have completely outgrown our storage capacity already. Friday we were compelled to have the carpenters and plumbers here together to rip out a place large enough to take care of this remarkable growing ice cream business and unfortunately they could not finish their work that day so we could not make any more ice cream. We regret that we were short of ice cream on such a hot day but this business has grown by leaps and bounds until we could not take care of it without enlarging our equipment.

It is plain enough there must be something unusual about our ice cream to have its sale increase so rapidly. We can assure the public we appreciate their appreciation of our ice cream.

TALENT DEMOCRATIC

Find Tenors in Blacksmith's Shops—Sopranos in Street.

Half a Dozen British Guardians of the Peace the Producers of Meritorious Paintings—London Postman Becomes an Artist.

London—Genius is no respecter of persons. Indeed, it knocks more often at the door of the poor man's cottage than at the entrance of the rich man's mansion.

Our own generation is just as fruitful as that are gone in examples of genius in humble life. Of our greatest living poets, William Watson first saw the light in a Warfield farm house; and John Masefield, the latest star in the poetical firmament, found his first inspiration while working in the fields. J. M. Barrie was born in a Kirriemuir cottage, at least as humble as the roof under which Thomas Carlyle, stonemason's son, entered the world; and H. G. Wells, son of a professional cricketer, served behind a draper's counter before he discovered the gold in his pen.

It would be an easy matter to name at least a score of living authors of repute for whom life has opened at least a humble, without taking into account such poets of undoubtedly, if obscure, genius as A. O. Williams, hammerman; Joseph Skipsey, the "pitman-poet," and others, equally gifted, who have earned their daily bread by navy work and farm labor.

It is, however, among musicians that we find the most remarkable examples of talent in unexpected places. Alessandro Bonci, the world famous singer, was working as a bootmaker's apprentice less than thirty years ago, and when he abandoned the awl to seek a fortune in his glorious voice, he was supported by friends, poor like himself, who subscribed a few francs each month; and was so poor that he was compelled to tramp eighteen miles a day, to Pesaro, and back, for his lessons.

Caruso, at the same time, was wielding a blacksmith's hammer; and was serving as a private soldier when a passing officer discovered the wonder of his voice. Miss Stella Carol, when she was similarly discovered, was singing on a Hampstead pavement in the chilly dusk of a winter evening; M. Giorgini, the famous Malan singer, when he was hawking fish in the streets of Naples, and Herr Rontman when, as a huckster, he was taking around vegetables on a wheelbarrow.

M. Rousselliere, the king of French operatic singers, was, not so many years ago working as a blacksmith, "passing rich" on three francs a day; Mlle. Cavalieri was first known to local fame as the prettiest flower seller in Rome, and her wonderful voice was first heard in Paris cafes, where her reward was a few coppers a night—just as, long years earlier, the great Christine Nilsson, "Queen of Song," switched coppers from the frequenters of Swedish fairs by her nightingale notes; and Miss Evin Gwyn's voice was "discovered" when she was "pouring out her soul in blithesome song" in a baker's shop at Pwllheli.

And similar romantic stories are told of many a musician whose name today is famous—from Herr Fieldler, the Polish violinist, who was discovered by a wealthy Welsh lady in a Tyrolean cafe-chantant, to Miss Marie Hall, who but a few years ago, was reaping a scanty harvest of pence by playing in the streets.

Art, like music, calls her clever children from the most unlikely places. There are half a dozen living policemen who have proved that they can ply a skillful brush, from Mr. Jones of Leeds, whose work has been honored by the Royal academy, to P. C. Rushen of the city of London force, one of whose clever canvases may be seen in the museum of the Guildhall. Walter Marshall, whose normal work is the repairing of electric tramcars, has a picture accepted by the academy. Nor must we forget Samuel Hancoek, the London postman, who some time ago gave an exhibition of his pictures at the Dore gallery; or Mr. Bloxall, a Somerset house porter, whose clever painting has won much admiration.

PINEAPPLE WOUND IS FATAL

Woman's Thumb Scratched as She Cleans Fruit and Her Death Soon Follows.

Syracuse, N. Y.—Mrs. Catherine Tourtellot died from blood poisoning resulting from her thumb being scratched by a piece of pineapple while she was peeling.

Twelve hours after the incident the hand began to swell, and the swelling extended gradually through the arm.

Mrs. Tourtellot was taken to a hospital, but the poison had spread through her system and the physicians could not save her life.

Poor Town for Lawyer. Penn Yan, N. Y.—This is no town for a lawyer. There is not a single civil or criminal case in Yale county undisposed of, and there will be no cases to be tried before the semi-annual term of the county court this month. Yale county has a population of 108,700.

THE POWER
OF TRUTH

Full Text of Patriotic Sermon Preached Yesterday by Rev. F. M. Estes

TRUTH AN EMANCIPATOR

A patriotic service was held at the Methodist church yesterday morning. The sermon was preached by Rev. Fred M. Estes the pastor from the text John 8:32: "Ye shall know the truth, and the truth shall make you free."

All sincere souls are dominated by love of truth. The truth may seem to militate against our present interests, but in the end, if our cause be right, the truth will be found to favor it.

Half a century ago science and religion were regarded as mutually antagonistic, but today they are seen walking arm in arm as the handmaidens of truth. For as God is not divided, the God of science and the God of religion being one, so truth is not divided. As Whittier affirms in "Miriam":

"Truth is one;
And in all lands beneath the sun,
Whoso hath eyes to see may see
The tokens of its unity."

To illustrate, not long ago the temperance people of the land were greatly agitated because Prof. Atwater of Wesleyan university, while making certain chemical analyses for the government, discovered that alcohol contains food. (Its nutritive quality is extremely limited, yet we cannot deny that it is there). It ought, however, to be said in deference to the professor that he regrets that he did not exercise greater caution in stating the results of his investigation, and that in view of subsequent discoveries he would gladly recall a part of what he then stated. But this is impossible. The liquor people have published to the world in emblazoned letters the fact that alcohol contains food and are recommending their products on the strength of their nutritive qualities.

The vital question, however, is not one concerning the nutritive quality of alcohol, or any similar question; it is a question concerning the truth. What we want is the truth. We cannot muzzle the truth. We cannot legislate it out of existence. We want the truth. The truth will ultimately afford us absolute freedom. "Ye shall know the truth, and the truth shall make you free."

I have chosen this text that I might speak to you this morning preceding July 4th, upon:

"Freedom Through the Truth"

I wish you to observe the greatness of the aim and the peculiar wisdom of the means to this end as suggested by the text.

I. The Aim was to make all Men Free

When Jesus looked out upon the world he found servitude in every form—man in slavery to man, race to race, and nation to nation:

his own countrymen in bondage to the Romans—slaves both of Jewish and Roman masters frightfully oppressed. In Attica, as early as B. C. 309 there were 20 slaves to every free man. "Among the Romans slaves were not regarded as persons but as things" that might be bought or sold at will.

"The doors of wealthy Romans were guarded by slaves in chains, who lay like dogs before their kennels. When a gentleman was murdered, and his assassins could not be found, the crime was supposed to have been committed by a slave, and all his slaves, (together with their wives and children, were put

to death to make sure of the offender. On one occasion when a noted Roman was killed no less than 400 innocent slaves were executed."

That morning when Pilate turned with contempt from the chains of the despised Nazarine, there were probably not less than 60,000,000 slaves in his master's empire; that is, half his subjects were regarded not as men, but as chattels." And this was the slavery of whites,—of artisans, teachers and authors, as well as of peasants. Slavery was well nigh universal. It underlay the whole social and political structure.

But even this does not complete the picture. Jesus not only found men in political bondage, but he saw them trembling before priesthood, and enslaved through their own lusts and passions. Conscious of his divine origin and mission, and with a note of authority such as only the Son of man could command, he said to all such, "Ye shall be free."

Note also, at this point,

II. The Peculiar Wisdom of the Means

"The craving for liberty," as Dr. Robertson suggests, "was nothing new—it lies deep in human nature. Nor was the promise of satisfying it new." Charlatans, demagogues, and conniving rulers had promised it again and again, but the slaves were still in their bonds.

1. To Secure this Tardy Liberty Men had Used Force

Wherever this means has been employed for this worthy end, we honor it. The names that are imperishable in history are those of men like Wilberforce and Lincoln who have been the liberators of downtrodden peoples. Israel's history was resplendent with such names—Moses, Joshua, the Judges the Maccabees. There is no more thrilling chapter in history than that which records the struggle of the Jews for national and religious liberty during the period of the Syrian supremacy. Judas Macabaeus' bold stand against Antiochus Epiphanes, B. C. 166-161, in which he and his brave compatriots "resisted unto blood" places him in the front rank of the heroes and martyrs of patriotism and freedom, and makes this one of the brightest pages in the annals of Jewish or Christian martyrology.

God's chosen people had used force repeatedly to secure that liberty which was their inalienable right, and had succeeded, yet they were in bondage again—this time to the Romans—a most galling bondage.

2. Freedom has been Sought by Legislation

and that successfully, but the freedom thus secured has been only a partial freedom. A ruler by the stroke of his pen can set at liberty millions of serfs, but he cannot thus fit them for the enjoyment of freedom. The former is the act of a moment, the latter the work of ages. Liberate a race of savages and in ten years, by the law of reversion to type, they will be in bondage again.

3. Freedom has been sought through civilization.

and with good reason. "Civilization does free. Intellect equalizes."

2. The truth affords emancipation of the intellect.

"Slavery," says Frederick Roberson, "is that which cramps powers. The worst slavery is that which cramps the noblest powers. Worse therefore than he who manacles the hands and feet is he who puts fetters on the mind, and demands that men shall think, and believe, and feel, thus and thus, because others so thought, felt and believed."

Jesus found in Palestine minds that were thus fettered and there are such today—men who are bound by tradition, men who fear the revelations of science lest they should deny the words of inspiration—men who especially fear the scientific investigation of the scriptures lest it should make of no effect the traditions of our fathers.

Beloved, let us welcome the truth. Truth is a unit: it can never deny itself. A house divided against itself must fall; but truth is eternal. Therefore let us welcome it, and it will lead us ultimately to the greatest freedom.

3. The truth also affords spiritual liberty.

When Jesus uttered the words of our text his own people were in spiritual bondage. He saw men on every hand wearing the galling yoke of legal requirements and ceremonial observances—burdened with priest-made laws and scribal demands, and he said, "Come unto me, all ye that labor and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me; for I, meek and lowly in heart: and ye shall find rest unto your souls. For my yoke is easy, and my burden is light."

"Where the Spirit of the Lord is, there is liberty."

V. Conclusion.

1. We rejoice in the growing spirit of liberty among men but we should remember that human liberty did not have its rise with King John and the Magna Charta, nor with Nicholas II and the ukase of Russia, nor with Thomas Jefferson and The Declaration of Independence, nor yet with Abraham Lincoln and the Emancipation Proclamation, but with the Man of Galilee. Jesus Christ is the world's emancipator.

2. He is the author of perfect freedom.

It was he who struck the fetters from the bodies of men and gave them physical freedom; it is he who breaks the shackles that bind human intellects and bestows upon men mental independence; it is he who shatters the bonds of sin that hold men in degradation and sets them free spiritually. Jesus emancipates the entire man—body soul and spirit. He "whom the Son makes free is free indeed."

3. This matchless work he accomplished through the agency of the truth.

All human progress has been achieved through the regenerating and sanctifying influence of the truth. And this work will never cease until the distinctions which now exist between black and white, rich and poor, capital and labor, shall be done away and all men shall be brothers; yea, all men shall be free.

4. Beloved, let us cherish the truth.

It may sometimes seem to be antagonistic to our present interests but in the end it will afford us the largest liberty. "Ye shall know the truth, and the truth shall make you free." These words were inscribed in bold letters upon the entrance to one of the noble buildings at the World's Fair in Chicago. Let us write them upon the tablets of our minds, yea upon the portals of our hearts, and he who is the way, the truth and the life shall guide us into all truth, and through the truth he shall make us free.

Fourth of July Celebration

Facts of Morning Parade.

Starts at 8.30.

Directions to those wishing to take part.

Parade will consist of four divisions, namely;

First Division, Rough Riders

All ladies and gentlemen who ride horseback are urged to take part in this division, costume to be the same as worn in July Fourth parade in 1910. Report to James F. McGrath, Jr. (Horses can be obtained by consulting James F. McGrath, Jr. as several citizens have volunteered the use of their horses for the parade that day.)

Second Division, Trades, Display and Special Features

This will include all floats. Report to W. G. Stretton before Wednesday noon.

Third Division, Antiques and Horribles

Those desiring to participate in this division should report to C. T. Mahoney or Harry B. Blye, before Wednesday noon.

Fourth Division, Woburn Fire Department, in charge of Chief Engineer, Frank E. Tracy.

Afternoon Parade

Starts at 2 o'clock.

Will consist of two divisions, military and society, the details to be announced tomorrow.

By order of

LIEUT. D. J. CANTY, Chief Marshall
EDWARD E. FOSS, Chief of Staff.

RUGGLES ST. HOUSE IS CHAMPION

The Team of Which H. W. Beecher Powers is Director Wins Boston S. U. Cup

The championship baseball contest among teams of the Boston Social Union was decided Saturday when the Ruggles street Neighborhood House defeated the Roxbury Neighborhood House at Franklin Field 11 to 9.

H. W. Beecher Powers of 57 Warren avenue, Woburn, is physical director of the winning team.

MASONS OBSERVE ST. JOHN'S DAY

Stoneham Craftsmen Worship at Baptist Church in that Town

One hundred members of King Cyrus Lodge A.F. and A.M. of Stoneham attended a St. John's Day service at the Baptist church in that town yesterday afternoon at 4. The delegation was headed by Worshipful Master W. O. Richardson.

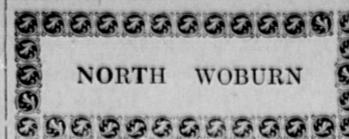

Rev. W. B. Whitney, the pastor, who is prelate of De Molay Commandery K. T. preached the sermon. He was assisted by Rev. A. S. Beale, pastor of the Congregational church and chaplain of the attending lodge, and Rev. E. S. Treworgy of the Unitarian church. The Lotus quartette and the church orchestra rendered musical selections.

JUNIOR ENDEAVORS MEET

There was a large number at the Junior Endeavor meeting yesterday afternoon. Miss Mildred Shannon was the leader of the meeting. There were about 15 new members proposed, which brings the number up to about 50 who will be charter members in the new society. Last Sunday the officers were elected and the committee chairmen appointed with the following result—President, Franklin Smith; vice president Roger Beattie; secretary, Lena Buck; treasurer, Irvin Eaton; assistant treasurer, Brainard Fowle; chairman lookout committee, Walter Buck; missionary committee Louis Grant; prayer meeting committee, William Duncan; flower committee Ruth Johnson; social committee, Eunice Wood; music committee, Mattie Creed. Although yesterday was only the third Sunday since the new Junior Endeavor society was organized the young people showed that they are in the society for business and that the business was to help and brighten some one else's life, when nearly every member of the society sent a flower accompanied with a verse of scripture to Mrs. Foucar who celebrated her eighty-sixth birthday Saturday.

BOY A PYROMANIA

What might have been a serious fire was narrowly averted yesterday, when a resident of Nichols street with a few pails of water put out a fire which a boy, Donald Mullen, had set in the grass in the rear of the Nichols street residence by the side of a hen-house owned by Mr. John Hooper of Main street. When the boy was caught the first time he scampered away but as soon as every one was out of sight he came back again and tried to light it over again. The boy seems to have a mania for setting fires and breaking glass and it will also be remembered that he was the one who rang in the false alarm a few weeks ago, which caused the fire department to run to North Woburn.

Time works quick changes in the growing girl.
Pigtails and short skirts are soon forgotten in the maturer charms of the debutante.

Sometimes though you will ache for a picture of her just as she romped in from school or play.

Think how she would like one too, in the after years—to show her friends and possibly her children. Make the appointment while the thought is fresh in your mind.

ALFRED ELSON,
The Photographer In Your Town
